EXPECTED TIMETABLE⁽¹⁾

Notes:

- (1) All times and dates refer to Hong Kong local times and dates.
- (2) You will not be permitted to submit your application under the **HK eIPO White Form** service through the **IPO App** or the designated website at www.hkeipo.hk after 11:30 a.m. on the last day for submitting applications. If you have already submitted your application and obtained an application reference number from the **IPO App** or the designated website prior to 11:30 a.m., you will be permitted to continue the application process (by completing payment of application monies) until 12:00 noon on the last day for submitting applications, when the application lists close.
- (3) If there is/are a “black” rainstorm warning signal or a tropical cyclone warning signal number 8 or above and/or Extreme Conditions at any time between 9:00 a.m. and 12:00 noon on Thursday, October 5, 2023, the application lists will not open on that day. For further details, please see “How to Apply for Hong Kong Offer Shares – 10. Effect of Bad Weather and/or Extreme Conditions on the Opening of the Application Lists”.
- (4) Applicants who apply for Kong Offer Shares by giving **electronic application instructions** to HKSCC via CCASS should refer to “How to Apply for Hong Kong Offer Shares – 6. Applying through the **CCASS EIPO Service**”.
- (5) The Price Determination Date is expected to be on or about Thursday, October 5, 2023 and in any event, not later than Friday, October 6, 2023. If, for any reason, the Offer Price is not agreed between the Overall Coordinators (on behalf of the Underwriter) and us on or before Friday, October 6, 2023, the Global offering will not proceed and will lapse.
- (6) None of the website or any of the information contained on the websites forms part of this prospectus.
- (7) The H Share certificates are expected to be issued on Wednesday, October 11, 2023 but will only become valid provided that the Global Offering has become unconditional in all respects and neither of the Underwriting Agreements has been terminated in accordance with its terms, which is scheduled to be at around 8:00 a.m. on Thursday, October 12, 2023. Investors who trade H Shares on the basis of publicly available allocation details before the receipt of the H Share certificates and before they become valid do so entirely of their own risk.
- (8) e-Auto Refund payment instructions/refund cheques will be issued in respect of wholly or partially unsuccessful applications pursuant to the Hong Kong Public Offering and in respect of wholly or partially successful applicants in the event that the final Offer Price is less than the price payable per Offer Share on application. Part of the applicant’s identification document number, or, if the application is made by joint applicants, part of the identification document number of the first-named applicant, provided by the applicant(s) may be printed on the refund check, if any. Such data would also be transferred to a third party for refund purposes. Banks may require verification of an applicant’s identification document number before encashment of the refund check. Inaccurate completion of an applicant’s identification document number may invalidate or delay encashment of the refund check.
- (9) Applicants who have applied through the **HK eIPO White Form** service for 1,000,000 or more Hong Kong Offer Shares may collect any refund checks (where applicable) and/or H Share certificates in person from our H Share Registrar, Tricor Investor Services Limited, at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong from 9:00 a.m. to 1:00 p.m. on Wednesday, October 11, 2023 or any other places or date as notified by us as the date of dispatch/collection of H Share certificates/e-Auto Refund payment instructions/refund checks. Applicants being individuals who are eligible for personal collection may not authorize any other person to collect on their behalf. If you are a corporate applicant which is eligible for personal collection, your authorised representative must bear a letter of authorization from your corporation stamped with your corporation’s chop. Both individuals and authorised representative must produce evidence of identity acceptable to our H Share Registrar at the time of collection.

Applicants who have applied for Hong Kong Offer Shares through the **CCASS EIPO** service should refer to “How to Apply for Hong Kong Offer Shares – 14. Dispatch/Collection of H Share Certificates and Refund Monies – Personal Collection – (ii) If you apply through the **CCASS EIPO** service” for details.

EXPECTED TIMETABLE⁽¹⁾

Applicants who have applied through the **HK eIPO White Form** service and paid their applications monies through single bank accounts may have refund monies (if any) dispatched to the bank account in the form of e-Auto Refund payment instructions. Applicants who have applied through the **HK eIPO White Form** service and paid their application monies through multiple bank accounts may have refund monies (if any) dispatched to the address as specified in their application instructions in the form of refund checks in favour of the applicant (or, in the case of joint applicants, the first-named applicant) by ordinary post at their own risk.

H Share certificates and/or refund cheques for applicants who have applied for less than 1,000,000 Hong Kong Offer Shares and any uncollected H Share certificates and/or refund cheques will be dispatched by ordinary post, at the applicants' risk, to the addresses specified in the relevant applications.

Further information is set out in “How to Apply for Hong Kong Offer Shares – 13. Refund of Application Monies” and “How to Apply for Hong Kong Offer Shares – 14. Dispatch/Collection of H Share Certificates and Refund Monies”.

The above expected timetable is a summary only. You should read carefully the sections headed “Underwriting”, “Structure of the Global Offering” and “How to Apply for Hong Kong Offer Shares” of this prospectus for details relating to the structure of the Global Offering, procedures on the applications for Hong Kong Offer Shares and the expected timetable, including conditions, effect of bad weather and the dispatch of refund cheques and H Share certificates.

OVERVIEW

We are one of the leading and rapidly growing pantry staple food companies in China. Since our inception, we have been dedicated to providing our consumers with pre-packaged premium rice, whole grain, bean, and dried food products. By maintaining wide sales coverage and addressing evolving consumer needs, we have achieved a strong sales growth during the Track Record Period and established a range of household brands for Chinese families. Among the top five players by revenue in China’s pantry staple food market, we were the fastest-growing company by revenue CAGR from 2020 to 2022, according to Frost & Sullivan.

Northeast China is reputable for its unique natural environment and geographic conditions, and generally regarded by consumers as a prominent grain production region in China. As such, we have established a comprehensive and efficient supply chain system in Northeast China, encompassing all critical stages along the value chain from procurement, storage, production, sales, and logistics.

We have successfully established our flagship brands, namely Shiyue Daotian (十月稻田) and Firewood Courtyard (柴火大院), and introduced a range of products with various specifications to address consumer needs. Our brand recognition and popularity have earned us numerous awards and honors, specifically:

- for each year from 2019 to 2022, we have been the largest company on comprehensive e-commerce platforms, such as JD.com and Tmall, in terms of the revenue generated from sales of rice, whole grain, bean and seed products, with a 14.2% market share in 2022, which is 2.7 times that of the second-largest company, according to Frost & Sullivan;
- for each year from 2019 to 2022, our flagship brands, Shiyue Daotian and Firewood Courtyard, have consistently ranked in the top two positions on comprehensive e-commerce platforms in terms of revenue generated from sales of rice, whole grain and bean and seed products, according to Frost & Sullivan; and
- Shiyue Daotian has been recognized as “Best Partner of 2022 (2022年度最佳合作夥伴)” by JD Supermarket and “A Hundred Million Club – Super Brand of 2022 (超棒品牌億元俱樂部)” by Tmall Supermarket.

SUMMARY

We took the initiative to enter comprehensive e-commerce platforms, social e-commerce platforms and community group buying platforms at their early development stages. This strategic initiative has facilitated our swift acquisition of invaluable sales network operating experiences. We retained the largest market share by revenue from China's rice, whole grain, bean and seed market in each of such channels in 2022. Our extensive range of premium products spanning diverse categories, coupled with our efficient supply chain management, positions us as a crucial business partner in grocery retail channels. We have expanded rapidly in recent years in grocery retail channels, achieving a 79.5% CAGR of revenue growth from 2020 to 2022. In 2022, we ranked fourth in the grocery retail channels for China's rice, whole grain, bean and seed industry in terms of revenue, according to Frost & Sullivan. Leveraging our nationwide sales network, we are able to integrate online and offline sales operations to gain insights into consumer needs from an extensive amount of consumer feedback. We believe this has distinguished us from our competitors, and will inform our product development and marketing efforts for the future.

According to Frost & Sullivan, the total market size of China's rice, whole grain, bean and seed market amounted to RMB1,073.7 billion in 2022, representing 57.7% of China's pantry staple food market, which had a market size of approximately RMB1.9 trillion, and is expected to reach RMB1,265.0 billion by 2027. According to the same source, with the continuously improving living standards of Chinese consumers, the premium subsegments are expected to grow at a faster rate than China's overall rice, whole grain, bean and seed market. Meanwhile, there is a growing trend towards favoring branded rice, whole grain, bean and dried food products and more convenient purchase methods, benefiting the development of companies with competitive brands and advanced operations across different sales channels. As a leading pantry staple food company in China, we are well positioned to seize such growth opportunities. We have maintained a strong growth momentum during the Track Record Period. Our revenue increased from RMB2,327.0 million in 2020 to RMB4,532.9 million in 2022, representing a CAGR of 39.6%, and increased from RMB910.2 million for the three months ended March 31, 2022 to RMB1,081.5 million for the three months ended March 31, 2023. We recorded an adjusted net profit (*non-IFRS measure*) of RMB364.0 million and RMB77.9 million in 2022 and the three months ended March 31, 2023, respectively. According to Frost & Sullivan, we have been the largest company by revenue in China's pre-packaged retail market for Northeast Rice products for four consecutive years from 2019 to 2022. According to the same source, we were the largest company by revenue in China's pre-packaged whole grain, bean and seed market in 2022.

OUR STRENGTHS

We believe that the following strengths contribute to our leading market position, ensuring our success and distinguishing us from our competitors:

- A leading pantry staple food company in China positioned for strong growth
- Multiple household brands with compelling product offerings

SUMMARY

- Multichannel sales network with a nationwide reach
- Industry-leading branding and marketing capabilities
- A strategic layout in five core grain production areas of China
- Outstanding supply chain management and quality control systems
- An experienced management team with excellent execution abilities

OUR STRATEGIES

In order to achieve our goals, we have formulated the following strategies:

- Enrich our multi-brand portfolio and enhance our brand awareness to solidify our leading position
- Broaden and deepen our multichannel network to enlarge our consumer base with high operational efficiency
- Expand multi-category product offerings to achieve sustainable growth
- Strengthen our “from farm to table” supply chain management capabilities to build integrated operation barriers
- Keep optimizing digitalized operation system, investing in talent pool and fostering cohesive corporate culture

OUR BRANDS AND PRODUCTS

Following our persistent efforts for more than a decade, we have successfully established and been operating three major brands, namely Shiyue Daotian, Firewood Courtyard and Sunshine Family (福享人家).

- **Shiyue Daotian**
(十月稻田) Launched in 2011, Shiyue Daotian is positioned as a multi-category pantry staple food brand with a focus on meeting needs of consumers in the mass market.
- **Firewood Courtyard**
(柴火大院) Launched in 2011, Firewood Courtyard is positioned to capture the mid-to-high-end market.
- **Sunshine Family**
(福享人家) Launched in 2018, Sunshine Family is dedicated to offering value-for-money rice products to Chinese families.

SUMMARY

Under our diverse brand portfolio, we also create comprehensive and complementary product offerings that strategically focus on different price ranges, sales channels, product categories and packaging styles. Thus, we are able to reach a broad consumer group and enhance consumers' needs for our products. In 2022, we had eight SKUs with an annual revenue of over RMB100 million, and two out of such eight SKUs were launched after 2021.

We primarily offer three categories of products:

- ***Rice products.*** Our rice products mainly include pre-packaged rice products of different varieties, such as Daoxiang rice (稻香米), long grain rice (長粒香大米) and Komachi rice (小町米).
- ***Whole grain, bean and other products.*** Our whole grain and bean products mainly include pre-packaged mixed brown rice, millet and red bean. Other products under this category primarily refer to seed and corn products.
- ***Dried food and other products.*** Our dried food products mainly include pre-packaged wood ear mushrooms, snow fungus mushroom and lotus seeds. Other products under this category mainly include by-products, such as bran, husk and fractioned rice.

The table below sets forth a breakdown of our revenue by product category for the periods indicated:

OUR SALES NETWORK

We have built an extensive and diverse sales network to reach a wide range of consumers, enhance our brand reputation and solidify our competitive advantages. We started building our network from cooperating with online channels. We were the largest company in China’s rice, whole grain, bean and seed market in terms of revenue generated from sales through online channels in 2022, representing a market share of 10.7%, according to Frost & Sullivan. Leveraging our competitive advantages on online channels, we have further deepened our sales channel penetration and established a diverse sales network. According to Frost & Sullivan, in terms of revenue in 2022, we ranked fourth in the grocery retail channels in China’s rice, whole grain, bean and seed market. We have successfully seized opportunities in emerging channels to further strengthen our competitive edge. In 2020, we began to cooperate with social e-commerce platforms. In the same year, we also started partnering with community group buying platforms.

Note:

- (1) Direct customers primarily consist of catering companies, agricultural products companies, and other corporate and individual customers.

Our sales prices are set with reference to various factors, including brand positioning, raw material cost, production cost and market competition. Our sales staff regularly monitor product prices on e-commerce platforms, grocery retail channel partners, and distributors, so as to review and evaluate our pricing.

For details of our sales network, see “Business – Our Sales Network.”

OUR PRODUCTION

In order to offer premium products to our consumers, we procure raw materials from renowned places of origin for grains. As of March 31, 2023, we had established five production bases in proximity to the five core grain production areas in China, namely Shenyang Xinmin production base, Wuchang production base, Songyuan production base, Tonghe production base and Aohan production base. See “Business – Production.”

SUMMARY

We constantly optimize our production process, and explore development of production techniques and techniques to maintain the good taste and preserve the nutritional value of our products, thus satisfying the preferences of our consumers. Our production process is highly standardized and automated. In addition, we have made substantial investment in purchasing advanced production machinery and equipment. Our production team members work closely to continuously maintain our production machinery and equipment to meet our high production standards and improve our production efficiency.

RAW MATERIALS, PACKAGING MATERIALS AND MAJOR SUPPLIERS

We aim to bring premium products to consumers by selecting quality raw materials and packaging materials. We plan and manage procurement at a group level, and make procurement decisions based on predicted consumer demands and historical sales performance. Meanwhile, our procurement teams at each production base purchase raw materials by leveraging their deep knowledge of local resources, the process of which is monitored by our Group.

Our procurement schedule is made in adaption to the seasonality of raw materials. For example, we primarily purchase fresh paddy from September to year end, which ensures the sufficient supply and the freshness of our raw materials. During the Track Record Period, we had not experienced any significant shortage of our raw materials. Purchases from our five largest suppliers in each year or period during the Track Record Period accounted for 22.1%, 18.8%, 13.4% and 23.2% of our total purchase amount for the respective year or period. Purchases from our largest suppliers in each year or period during the Track Record Period accounted for 8.4%, 8.2%, 4.8% and 6.1% of our total purchase amount for the respective year or period. For details of our raw materials, packaging materials and major suppliers, see “Business – Raw Materials, Packaging Materials and Major Suppliers.”

CUSTOMERS

During the Track Record Period, our customers consisted of corporate customers and individual customers. We usually grant a credit term to our corporate customers by assessing factors such as business relationship and credit background, except for our distributors that need to make full payment before collecting the goods. Revenue generated from our top five customers in each year or period during the Track Record Period accounted for 74.5%, 57.4%, 55.0% and 57.6% of our total revenue for the respective year or period. Revenue generated from our largest customer in each year or period during the Track Record Period accounted for 42.3%, 28.1%, 26.9% and 29.5% of our total revenue for the respective year or period. See “Business – Customers.”

SUMMARY

FOOD SAFETY AND QUALITY CONTROL

Food safety and product quality is our top priority. We have implemented stringent food safety and quality control standards and measures throughout our operations, covering steps from procurement, production and storage to sales. To achieve systematic quality management, our quality assurance team focuses on implementing a group-level quality control plan through the implementation and maintenance of our quality control system, and is responsible for quality inspection of raw materials, semi-finished products and finished products, as well as product shelf-life management.

For details of our food safety and quality control measures, see “Business – Food Safety and Quality Control.”

COMPETITIVE LANDSCAPE

According to Frost & Sullivan, China’s pre-packaged rice, whole grain, bean and seed market is highly fragmented. According to the Frost & Sullivan Report, in terms of revenue in 2022, we ranked fifth among China’s pantry staple food market. In particular, we were the largest company by revenue in each of China’s pre-packaged retail market for Northeast Rice products and China’s pre-packaged whole grain, bean and seed market in 2022, according to Frost & Sullivan.

As the leading players continue to increase their market shares, we are faced with increasingly intense competition with other leading players in various aspects of our business, including continuous upgrade of existing products and introduction of new products, channel coverage, product quality, consumer experience as well as customer acquisition and retention. New competitors may emerge from time to time, which may further intensify the competition in China’s pantry staple food industry. For additional information, see “Industry Overview” and “Risk Factors – Risks Relating to Our Business and Industry – We face fierce industry competition and low industry concentration. Failure to compete with other market players may adversely affect our market share and profitability.”

SUMMARY OF HISTORICAL FINANCIAL INFORMATION

Non-IFRS Measure

To supplement our consolidated financial statements, which are presented in accordance with IFRSs, we also use adjusted net profit (*non-IFRS measure*) as additional financial measures, which is not required by, or presented in accordance with IFRSs. We believe that the non-IFRS measure provides useful information to investors and others in understanding and evaluating our consolidated results of operations in the same manner as they help our management. However, our presentation of adjusted net profit (*non-IFRS measure*) may not be comparable to similarly titled measures presented by other companies. The use of such non-IFRS measures has limitations as an analytical tool, and you should not consider it in isolation from, or as a substitute for an analysis of, our results of operations or financial condition as reported under IFRSs.

SUMMARY

We define adjusted net profit (*non-IFRS measure*) as net profit for the periods adjusted by adding back share-based payments, changes in the carrying amount of financial instruments issued to investors and listing expenses. The following table reconciles our adjusted net profit (*non-IFRS measure*) for the periods presented to the most directly comparable financial measures calculated and presented in accordance with IFRSs, which is net profit or loss for the periods:

Notes:

- (1) Changes in the carrying amount of financial instruments issued to investors were primarily related to financial instruments granted to certain investors of our Series A, Series B and Series C financing. See “Financial Information – Indebtedness – Financial Instruments Issued to Investors.”
- (2) Share-based payments are non-cash in nature and are not expected to result in future cash payments made by us, representing (i) share-based payments in relation to share awards of RMB691.0 million in 2022, which represented the difference between the fair value and price of the paid-in capital of Shiyue Zhongxin granted to Mr. Wang and Ms. Zhao as a consideration for their services rendered, see Note 26(a) of Appendix I to this prospectus; and (ii) share-based payments of RMB187.3 million in 2021 and RMB48.6 million in 2022 in relation to transfers of paid-in capital from our certain senior management to new investors of Series B financing in 2021 and Series C financing in 2022, representing a consideration higher than the fair value of the transferred paid-in capital at the dates of share transfers, see Note 22(a) and Note 26(b) of Appendix I to this prospectus. See “Financial Information – Description of Major Components of Our Results of Operations – Administrative Expenses.”
- (3) Listing expenses are expenses related to the Global Offering.

SUMMARY

We had net loss of RMB172.9 million in 2021 compared to net profit of RMB14.0 million in 2020, primarily due to (i) the increase in cost of sales; (ii) the increase in administrative expenses, especially share-based payments; and (iii) the increase in changes in the carrying amount of financial instruments issued to investors, despite (iv) the increase in revenue. Our net loss increased significantly from RMB172.9 million in 2021 to RMB564.2 million in 2022, primarily due to (i) the increase in cost of sales; and (ii) the increase in administrative expenses, especially share-based payments, despite (iii) the increase in revenue; and (iv) the decrease in changes in the carrying amount of financial instruments issued to investors. Our net profit remained relatively stable at RMB19.8 million and RMB18.6 million in the three months ended March 31, 2022 and 2023, primarily due to (i) the increase in cost of sales; and (ii) the increase in changes in the carrying amount of financial instruments issued to investors, despite (iii) the increase in revenue.

See “Financial Information – Description of Major Components of Our Results of Operations.”

Selected Items from the Consolidated Statements of Financial Position

The following table sets out selected information from our consolidated statements of financial position as of the dates indicated:

	As of December 31,			As of
				March 31,
	2020	2021	2022	2023
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>

Net assets/(liabilities)	282,526	218,588	(106,372)	(91,483)

Our net current assets increased by 24.5% from RMB1,313.3 million as of December 31, 2022 to RMB1,635.0 million as of March 31, 2023, primarily due to (i) the increase in cash and cash equivalents; and (ii) the decrease in trade and other payables, partially offset by (iii) the decrease in trade and other receivables; and (iv) the decrease in inventories. Our net current assets decreased by 11.6% from RMB1,485.6 million as of December 31, 2021 to RMB1,313.3 million as of December 31, 2022, primarily due to (i) the increase in the bank and other loans; and (ii) the increase in trade and other payables, partially offset by (iii) the increase in our inventories. Our net current assets increased significantly from RMB358.3 million as of December 31, 2020 to RMB1,485.6 million as of December 31, 2021, primarily

SUMMARY

due to (i) the increase in our inventories; (ii) the increase in trade and other receivables; and (iii) the decrease in bank and other loans. See “Financial Information – Discussion of Selected Items from the Consolidated Statements of Financial Position” and “Financial Information – Indebtedness.”

Our net assets decreased by 22.6% from RMB282.5 million as of December 31, 2020 to RMB218.6 million as of December 31, 2021, primarily due to (i) the recognition of redemption liabilities for the preferential rights; (ii) our net loss in 2021; and (iii) the transfer of paid-in capital among the equity shareholders; partially offset by (iv) the capital contributions; and (v) the effect of the modification of redemption rights in 2021. We had net liabilities of RMB106.4 million as of December 31, 2022, compared to net assets of RMB218.6 million as of December 31, 2021, primarily due to (i) our net loss in 2022; (ii) the deemed distribution and (iii) the dividends to shareholders, partially offset by (iv) the recognition of capital reserve in relation to share-based payments. Our net liabilities decreased by 14.0% from RMB106.4 million as of December 31, 2022 to RMB91.5 million as of March 31, 2023, primarily due to (i) profit in the three months ended March 31, 2023; and (ii) the capital contribution, partially offset by (iii) the recognition of redemption liabilities for the preferential rights in the three months ended March 31, 2023.

Our financial instruments issued to investors will be re-designated from liabilities to equity as a result of the automatic conversion into ordinary shares and our position of net liabilities would turn into net assets upon Listing.

RISK FACTORS

Our business and the Global Offering involve certain risks as set out in “Risk Factors.” You should carefully read that section in its entirety before you decide to invest in our Offer Shares. Some of the major risks we face include: (i) our success depends on market recognition of our brands. Any damage to our brands or reputation may materially and adversely affect our business, financial condition and results of operations; (ii) our efforts in developing, launching and promoting new brands and products may not be successful, and our new products may not be fully recognized by the market; (iii) we mainly rely on e-commerce platforms to market and sell our products online. If the majority of e-commerce platforms we rely on to sell our products are interrupted or if our cooperation with such platforms terminates, deteriorates or becomes more costly, our business and results of operations may be materially and adversely affected; (iv) we may encounter difficulties in maintaining, expanding or optimizing our sales network; and (v) our marketing activities may not be effective in attracting consumers, or we may incur significant costs on a variety of sales and marketing efforts through multiple channels, which may materially and adversely affect our business, financial condition, and results of operations;

APPLICATION FOR LISTING ON THE STOCK EXCHANGE

We have applied to the Listing Committee of the Stock Exchange for the granting of the listing of, and permission to deal in (i) our H Shares to be issued pursuant to the Global Offering and (ii) the H Shares to be converted from our existing Domestic Unlisted Shares on the basis that, among other things, we satisfy the market capitalization/revenue test under Rule 8.05(3) of the Listing Rules with reference to: (i) our revenue of RMB4,532.9 million (equivalent to HK\$5,203.7 million) in the financial year ended December 31, 2022 exceeds HK\$500 million, and (ii) our expected market capitalization at the time of Listing, which, based on the low-end of the indicative Offer Price range, exceeds HK\$4 billion.

SUMMARY

OUR CONTROLLING SHAREHOLDERS GROUP

As of the Latest Practicable Date, Mr. Wang, Ms. Zhao, Shiyue Daotian Enterprise Management, Shiyue Jinfeng, Shiyue Zhongxin and Shenyang Hongsheng (the “**Controlling Shareholders Group**”) are together entitled to control the exercise of 70% of the voting rights of our Company. Immediately following the completion of the Global Offering, the Controlling Shareholders Group will be together entitled to control the exercise of approximately 66.50% of the voting rights and thus remain as a group of Controlling Shareholders of our Company. See “Relationship with our Controlling Shareholders Group” for further details.

PRE-IPO INVESTMENTS

Since our establishment, we have completed several rounds of equity financing in the past few years. See “History, Development and Corporate Structure – Pre-IPO Investments” for further details.

USE OF PROCEEDS

We estimate that we will receive net proceeds of approximately HK\$667.9 million from the Global Offering, after deducting the underwriting fees and commissions and estimated expenses payable by us in connection with the Global Offering, assuming the Offer Price of HK\$14.40 per Offer Share (being the mid-point of the Offer Price range stated in this prospectus). We intend to use the net proceeds from the Global Offering for the following purposes:

- Approximately 35.0%, or HK\$233.8 million, will be used to enhance our cooperation with suppliers and strengthen our procurement capability;
- Approximately 30.0%, or HK\$200.4 million, will be used for expanding our production capacity, upgrading existing production lines, broadening the geographic coverage of our warehousing and logistics, and providing funds for production activities related to our business expansion;
- Approximately 10.0%, or HK\$66.8 million, will be used to expand our channel coverage and establish our sales ecosystem;
- Approximately 10.0%, or HK\$66.8 million, will be used to enhance our brand equity;
- Approximately 5.0%, or HK\$33.4 million, will be used to construct our digital middle platform system, which integrates the full digital chain including IT infrastructure, backend, middleware, frontend and touchpoints, to optimize the support for our business management; and

SUMMARY

- Approximately 10.0%, or HK\$66.8 million, will be used for working capital and general corporate purposes.

RECENT DEVELOPMENT

Since August 2023, areas in Northeast China such as Wuchang City have been affected by flood as the result of a period of prolonged heavy rainfall caused by typhoon. As our production base in Wuchang locates outside of the impacted area, our production, employee attendance, equipment and inventory have remained normal. We have also established emergency response team to address potential impacts on our business operation. However, we cannot guarantee that we will be able to take adequate steps to mitigate the potential impact of such unforeseeable events, or to effectively respond to them. We have not received any official notification from suppliers that they had encountered difficulties in fulfilling their obligation to provide raw materials to us under existing contracts; however, we expect that some of our upstream suppliers in or around Wuchang City may be impacted, which could result in potential decrease in paddy supply and relatedly increase in paddy price in the harvest season in 2023 and thereby lead to negative impact on our cost of raw materials and financial performance. We had made procurement based on previous market demand prediction to secure adequate inventory of raw materials to support our production with temperature and humidity-controlled warehouses ensuring the quality of our raw material in storage. However, we cannot guarantee you that we would not face shortage in raw material supply, or that we will not be impacted by the potential increase in raw material price due to the influence of the flood on relevant areas in Northeast China. We may also consider increasing our product prices if needed considering the market trends. As our diverse product portfolio features wide range of suggested retail price, we do not believe such increase in price, if any, would materially diverge from our original pricing position or materially impact the market demands of our products. However, we cannot assure you that we will be able to successfully pass the relevant increase in our costs to consumers, which may materially and negatively affect our business operation, profitability and financial performance. See “Risk Factors – Our supply chain and business may be materially and adversely affected by contamination, natural disasters, extreme weather, health epidemics, pandemics and other catastrophic events that are beyond our control.” We are constantly monitoring the supply of raw materials, fluctuation in prices of our raw materials and will actively leverage other measures, including expanding our supplier network or engaging additional OEM suppliers, in response to potential shortage of supply and increase in raw material prices, if any.

Our Directors confirmed that, as of the date of this prospectus, there has been no material adverse change in our financial or trading position or prospects since March 31, 2023.

Subsequent to the Track Record Period and up to July 31, 2023, benefiting from the continuous implementation of our business development strategies, our business operations remained relatively stable. Based on our management accounts, our revenue achieved steady growth for the seven months ended July 31, 2023.

SUMMARY

IMPACT OF COVID-19

Since late December 2019, the outbreak of a novel strain of coronavirus named COVID-19 has materially and adversely affected the global economy. Since early 2020, China, where we operate, has been affected by the COVID-19 outbreak and, in response, restrictive measures have been implemented to contain the spread of the virus. Since the beginning of 2022, the Omicron variant of COVID-19 has resurged in various provinces and cities of China, and prevention measures were implemented to curb the momentum of the outbreak. In the fourth quarter of 2022, while our self-operated production were temporarily affected by reduced number of employees due to closed-loop management as a result of such prevention measures, resulting in lower utilization rate compared to that of 2021, our overall production activities had not been materially and adversely affected by the COVID-19 outbreak. In addition, as we store our products in third-party warehouses across the nation and we generated the majority of our revenue through online channels during the Track Record Period, neither our logistic services nor our sales activities had suffered from material disruptions. Although the implementation of prevention measures did lead to an increase in our transportation expenses, we did not experience significant cost increases and our financial performance had not been materially and adversely affected during the Track Record Period. As a result, the COVID-19 outbreak does not have material adverse impact on our operations and financial conditions during the Track Record Period. Most of the restrictive measures had been lifted since December 2022.

We had benefited from the PRC government's relief policies in response to the COVID-19 pandemic, primarily the reduction in the amount of social insurance contributions in 2020. To help fight the COVID-19 pandemic, we donated over 60 tons of rice products to Wuhan City in 2020.

Our operations and financial performance in the future may be affected by other variants of COVID-19 or other pandemics, which are highly uncertain and unpredictable. For more details, see "Risk Factors – Risks Relating to Our Business and Industry – Our supply chain and business may be materially and adversely affected by contamination, natural disasters, extreme weather, health epidemics, pandemics and other catastrophic events that are beyond our control."

SUMMARY

OFFERING STATISTICS

The statistics in the following table are based on the assumptions that the Global Offering has been completed and 53,407,500 H Shares are issued pursuant to the Global Offering.

	Based on an Offer Price of HK\$13.0 per H Share	Based on an Offer Price of HK\$15.8 per H Share
Market capitalization of our Shares ⁽¹⁾	HK\$13,886.0 million	HK\$16,876.8 million
Unaudited pro forma adjusted consolidated net tangible assets per Share ⁽²⁾	HK\$3.25	HK\$3.39

Notes:

- (1) The calculation of market capitalization is based on 1,068,153,150 issued Shares immediately upon Listing, being the total of the existing Shares and the 53,407,500 H Shares expected to be issued immediately upon completion of the Global Offering and the Share Split.
- (2) The unaudited pro forma adjusted net tangible assets per Share is arrived at after making the adjustments referred to in “Financial Information – Unaudited Pro Forma Statement of Adjusted Net Tangible Assets” and on the basis that 1,068,153,150 Shares were in issue immediately following the completion of the Global Offering and the Share Split.

DIVIDENDS

We declared and paid RMB50.0 million, nil, RMB200.0 million and nil dividends to the shareholders in 2020, 2021, 2022 and the three months ended March 31, 2023, respectively.

We currently intend to adopt, after our Listing, a general annual dividend policy of declaring and paying dividends on an annual basis of no less than 20% of our distributable net profit in the future. Any future declarations and payments of dividends will depend on our actual and expected results of operations, cash flow and financial position, general business conditions and business strategies, expected working capital requirements and future expansion plans, legal, regulatory and other contractual restrictions, and other factors which we consider relevant. A decision to declare and pay any dividends would required the approval of the Board and will be subject to Shareholder’s final approval. No dividend shall be declared or payable except out of our profits and reserves lawfully available for distribution. Any future net profit that we make will have to be first applied to make up for our historically accumulated losses, after which we will be obliged to allocate 10% of our net profit to our statutory common reserve fund until such fund has reached more than 50% of our registered capital.

During the Track Record Period, our Company generally made resolutions to distribute dividends based on the most recent audited annual or interim financial statements. According to our Company’s audited interim financial statements for the six months ended June 30, 2022,

SUMMARY

our Company had retained profits after drawing reserves and cash and cash equivalents to declare and pay dividends. The dividends were declared and paid by our Company pursuant to the board resolution and shareholders resolution made in September 2022. The PRC Legal Adviser is of the view that our Company could declare and pay dividends while it has retained profits after drawing reserves according to the PRC Company Law.

LISTING EXPENSES

Listing expenses consist of professional fees, underwriting commissions and other fees incurred in connection with the Global Offering. We expect to incur listing expenses of approximately HK\$101.2 million (based on the mid-point of the indicative Offer Price range), which accounts for approximately 13.2% of the gross proceeds from the Global Offering. We estimate the listing expenses to consist of approximately HK\$29.0 million in underwriting fees and HK\$72.1 million in non-underwriting fees. Among of the total listing expenses, approximately HK\$40.8 million will be directly attributable to the issue of our Shares, which will be deducted from equity upon the completion of the Global Offering, and the remaining HK\$60.3 million will be expensed in our consolidated statements of comprehensive income. Our Directors do not expect such expenses to materially impact our results of operations in 2023.

The following table sets forth the breakdown of listing expenses by nature:

Listing fee breakdown	Total Amount
	<i>(HKD in millions)</i>
Underwriting-related expenses	29.0
Non-underwriting-related expenses	72.1
Fees and expenses of legal advisors and the reporting accountants	35.8
Other fees and expenses	36.3

FORWARD-LOOKING STATEMENTS

This prospectus includes forward-looking statements. All statements other than statements of historical facts contained in this prospectus, including, without limitation, those regarding our future financial position, our strategy, plans, objectives, goals, targets and future developments in the markets where we participate or are seeking to participate, and any statements preceded by, followed by or that include the words “believe,” “expect,” “estimate,” “predict,” “aim,” “intend,” “will,” “may,” “plan,” “consider,” “anticipate,” “seek,” “should,” “could,” “would,” “continue,” or similar expressions or the negative thereof, are forward-looking statements. These forward-looking statements involve known and unknown risks, uncertainties and other factors, some of which are beyond our control, which may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. These forward-looking statements are based on numerous assumptions regarding our present and future business strategies and the environment in which we will operate in the future. Important factors that could cause our actual performance or achievements to differ materially from those in the forward-looking statements include, among others, the following:

- general political and economic conditions, including those related to the jurisdiction where we operate in;
- our business prospects and our ability to successfully implement our business plans and strategies;
- future developments, trends and conditions in the industries and markets in which we operate or into which we intend to expand;
- our capital expenditure plans;
- the actions and developments of our competitors;
- our financial condition and performance;
- our dividend policy;
- any changes in the laws, rules and regulations of the central and local governments in the jurisdiction where we operate in and other relevant jurisdictions and the rules, regulations and policies of the relevant governmental authorities relating to all aspects of our business and our business plans;
- changes or volatility in interest rates, foreign exchange rates, equity prices or other rates or prices, including those pertaining to the jurisdiction where we operate in and the industries and markets in which we operate;
- various business opportunities that we may pursue; and
- capital market developments, changes in the global economic conditions and material volatility in the global financial markets.

FORWARD-LOOKING STATEMENTS

Additional factors that could cause actual performance or achievements to differ materially include, but are not limited to, those discussed under “Risk Factors” and elsewhere in this prospectus. We caution you not to place undue reliance on these forward-looking statements, which reflect our management’s view only as of the date of this prospectus. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this prospectus might not occur. All forward-looking statements contained in this prospectus are qualified by reference to the cautionary statements set out in this section.

RISK FACTORS

You should carefully consider all of the information in this prospectus, including the risks and uncertainties described below, before making an investment in our H Shares. The following is a description of what we consider to be our material risks. Any of the following risks could have a material adverse effect on our business, financial condition and results of operations. In any such case, the market price of our H Shares could decline, and you may lose all or part of your investment. These factors are contingencies that may or may not occur, and we are not in a position to express a view on the likelihood of any such contingency occurring. The information given is as of the Latest Practicable Date unless otherwise stated, will not be updated after the date hereof, and is subject to the cautionary statements in the section headed “Forward-Looking Statements” in this prospectus.

RISKS RELATING TO OUR BUSINESS AND INDUSTRY

Our success depends on market recognition of our brands. Any damage to our brands or reputation may materially and adversely affect our business, financial condition and results of operations.

We gained our market-leading position and our broad consumer base through our brands across rice, whole grain, bean and dried food offerings, and our primary focus has been on continually enhancing our brand awareness among consumers. We have successfully built our two flagship brands, Shiyue Daotian and Firewood Courtyard, as well as other brands that cover various product categories over a decade. Maintaining and strengthening the reputation and market recognition of our brands are thus important to our business performance as they enable more consumers to trust our brands and select our products. Our brands and reputation may be affected by various factors, such as (i) consumer satisfaction with the safety, quality, taste and other perspective of our products, (ii) our promptness and effectiveness of communications with and response to consumers’ questions or complaints, (iii) our ability to protect our trademarks, (iv) our relationship with suppliers and customers, and (v) public and media news, whether substantiated or not, about us. Any complaint, claim or negative publicity about us or our products, even if meritless or immaterial to our operations, could damage our brand and reputation. If we fail to maintain and strengthen the reputation and market recognition of our brands or mitigate the risks associated with our brand image and reputation, the value of our brands may be undermined, which may materially and adversely affect our business, financial condition and results of operations.

Our efforts in developing, launching and promoting new brands and products may not be successful, and our new products may not be fully recognized by the market.

Our sustainable development depends on our ability to constantly upgrade our brands and launch new products. We develop our products and build our brands with a consumer-centric approach. For instance, we have launched products in small packs to meet the needs of smaller

RISK FACTORS

families and single people. In addition, we have launched series such as “Cold Dew Autumn Aroma (寒露秋香) Series,” “China Chic Series (國潮系列)” and “National Flower Series (國花系列),” to cater to the diverse preferences of consumers of different age groups and different consumption scenarios.

However, we cannot assure you that we will generate the expected outcomes through our endeavors. The development, launch and promotion of new brands and products are inherently uncertain as consumer preferences in eating habits and dietary structures are constantly changing. Even if we succeed in launching new products or brands, our new products may not be profitable, and our new brands may not be selected by consumers, within a short period of time or at all. If we cannot successfully develop or promote our new brands and products, our results of operations and business prospects may be materially and adversely affected.

We mainly rely on e-commerce platforms to market and sell our products online. If the e-commerce platforms we rely on to sell our products are interrupted or if our cooperation with such platforms terminates, deteriorates or becomes more costly, our business and results of operations may be materially and adversely affected.

We rely on online e-commerce platforms to increase our brand exposure and extend our reach to consumers. We sell products to online e-commerce platforms, including comprehensive e-commerce platforms, as well as community group buying platforms. We also sell products directly to end-consumers through our online self-operated stores on e-commerce platforms. During the Track Record Period, we generated the majority of our revenue from sales to comprehensive e-commerce platforms. In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, we generated revenue of RMB1,585.6 million, RMB2,190.6 million, RMB2,657.3 million, RMB617.0 million and RMB677.3 million from e-commerce platforms, respectively, representing 68.1%, 60.9%, 58.6%, 67.8% and 62.6% of our revenue during the same periods, respectively. See “Business – Customers.” At the same time, we are also exploring development opportunities on emerging e-commerce platforms. To better connect with consumers, we regularly conduct themed marketing activities on e-commerce platforms and in our online self-operated stores to attract consumers’ attention. Though we have achieved first-mover advantages in online channels by entering in early stages and establishing collaboration with leading platforms, we cannot assure you that we will be able to maintain leading position due to various factors beyond our control, such as increased competition, evolving sales channels and changing consumer behaviors, all of which may adversely affect our cooperation with the platforms. Changes in the platforms themselves or our cooperation with the platforms may materially and adversely affect our consumer base, and in turn affect our business and results of operations, including:

- the platforms are damaged or interrupted by power failure, computer viruses, acts of hacking and vandalism;
- the platforms are subject to negative publicity not attributable to us, such as their selling counterfeit or defective goods;

RISK FACTORS

- the platforms fail to generate consumer traffic;
- our cooperation with the platforms is interrupted, terminates, deteriorates or becomes more costly; and
- changes in the policies of the platforms, such as restricting some of our marketing initiatives or the performance of certain KOLs we partner with.

As such changes are beyond our control, we cannot assure you that our relationship with the e-commerce platforms will maintain stable or platforms will constantly attract consumers for us. We cannot assure you that the cost of cooperating with e-commerce platforms will not increase. We also cannot assure you that we will be able to find alternative channels with terms and conditions commercially favorable or acceptable to us, or at all, especially given the leading position of some of the e-commerce platforms we have collaborated with.

We may encounter difficulties in maintaining, expanding or optimizing our sales network.

We have established an multichannel sales network that penetrates the national market. In addition to online channels, our sales channels include grocery retail channels, distribution network and direct customers. We devote considerable efforts into managing and maintaining a good relationship with our business partners across different channels in our sales network. However, we cannot assure you that we shall be able to maintain long-term, in-depth cooperation with our existing sales channels. In particular, comprehensive e-commerce platforms and grocery retail channels generally have stronger bargaining power and higher requirements of the suppliers. If we are unable to meet their requirements, or are expected to incur commercially unreasonable performance costs, our cooperation may be terminated, which could have a material adverse impact on our reach to end-consumers, our business operation and financial performance. Also, while we require our distributors to comply with the distribution agreements, we cannot assure that they will act strictly in accordance with the agreements, or that we will always be prompt in detecting their noncompliance activities. Their failure to fulfill their obligations in accordance with the contracts could have a negative impact on our business, such as damaging our reputation, reducing our sales volumes, giving rise to costly and time-consuming litigation or causing us to incur additional contractual costs, including costs in finding new distributors as replacements due to early termination.

In addition, we continually expand into more sales channels. According to Frost & Sullivan, in recent years, the convenient shopping experience and the competitive promotion events offered by online shopping have driven the rapid shift of consumer behavior with increasing acceptance to online channels. Despite the fast development of e-commerce environment in recent years, we cannot ensure that the growth of the online market for rice, whole grain, beans and seeds products would maintain the same pace in the future. There is also no guarantee that we are able to respond effectively to changes of consumers' consumption behavior with the rise of new sales models. However, establishing relationships with new business partners can be time-consuming and may incur additional costs. If we fail to expand into new sales channels, we may lose our competitive advantages to competitors or experience

RISK FACTORS

consumer attrition, thereby limiting the scale of our development in the future. Our ability to successfully integrate the new channels into our existing multichannel sales network is subject to various factors such as (i) the availability of adequate management and financial resources; (ii) our ability to hire, train and retain skilled personnel; and (iii) our capabilities to adjust our supply chain and other operational and management systems in adapting to an expanded sales network. Failure to successfully expand our sales network could limit the scale of our future growth and, in turn, materially and adversely affect our business prospects.

Our marketing activities may not be effective in attracting consumers, or we may incur significant costs on a variety of sales and marketing efforts through multiple channels, which may materially and adversely affect our business, financial condition, and results of operations.

We conduct various marketing activities to promote our products, such as livestreaming events, online promotional campaigns and content marketing, and offline marketing events. Through these marketing activities, we intend to enhance our brand awareness in the market, expand our consumer base and promote sales of our products. We strive to gain insights of consumer preferences to maintain and enhance our brand awareness via various approaches. For example, we launched our online campaign event, “Shiyue Daotian brings you a spring (十月稻田帶你打包春天)” on Weibo and Xiaohongshu with a series of creative posters to present consumers with the spring scenery of Northeast China. See “Business – Branding and Marketing.” In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, our selling and distribution expenses were RMB126.1 million, RMB223.4 million, RMB314.8 million, RMB64.3 million and RMB72.2 million, respectively, accounting for 5.4%, 6.2%, 7.0%, 7.1% and 6.7% of our total revenue during the same periods, respectively.

Although we endeavor to plan our investment in sales and marketing efficiently while achieving expected marketing results, we cannot guarantee that the marketing strategies we apply will be cost-effective. If the sales and marketing activities to which we devote significant resources are ineffective, our business, financial condition and results of operations may be materially and adversely affected. In addition, as technologies improve rapidly and the way that people obtain and share information is continually shifting, we will have to refine our approach as to how and where we market and diversify our product offerings aimed at consumers with differing characteristics. We cannot assure you that our marketing activities will precisely capture the consumer behavioral pattern so that purchases of our products will increase, or that our sales and marketing strategies apply effectively to the new brands that we may launch, and the failure of any of these may materially and adversely affect our results of operations.

RISK FACTORS

Changes in supply, quality and costs of raw materials and other necessary supplies or services, or any failure by our suppliers to supply raw materials or provide services that are consistent with our standards or applicable regulatory requirements may materially and adversely affect our business, financial condition and results of operations.

We aim to bring premium products by ensuring the quality of supplies of raw materials and packaging materials, and services such as OEM, warehousing and logistics. We also intend to ensure the quality of our raw materials by implementing stringent quality control standards and supplier admission and management system. See “Business – Food Safety and Quality Control.” The raw materials we use include, by category, (i) paddy, (ii) whole grain and bean such as millet, red beans and mung beans, (iii) dried food, such as wood ear mushrooms, snow fungus mushroom and lotus seeds, and (iv) other raw materials such as corn. For key raw materials, we collaborate with multiple suppliers to reduce the risks of shortages. See “Business – Raw Materials, Packaging Materials and Major Suppliers.” For the years ended December 31, 2020, 2021 and 2022 and the three months ended March 31, 2022 and 2023, the total costs of our raw materials are amounted to RMB1,590.1 million, RMB2,453.0 million, RMB2,973.1 million, RMB589.3 million and RMB712.5 million, respectively, which accounted for 68.3%, 68.2%, 65.6%, 64.7% and 65.9% of our total revenue for the same periods, respectively.

However, we may be subject to the risks associated with the price fluctuations of, shortages of, and defects or deterioration of our raw materials and packaging materials. The prices of our raw materials and packaging fluctuate with market conditions and are subject to various factors beyond our control, such as supply and demand, inflation, and governmental regulations and policies. We do not engage in hedging activities related to the risk exposures in connection with the price of our raw materials and may face price fluctuations. See “Business – Raw Materials, Packaging Materials and Major Suppliers.” There is no assurance that our raw material costs will not increase significantly in the future. According to Frost & Sullivan, as is customary in our industry, we typically are not able to immediately and completely pass raw material price increases onto our customers. As a result, any significant price increase of our raw materials may have a material adverse effect on our profitability and results of operations. Also, such an increase in price may materially adversely affect the demands for our products.

We may also experience a shortage in supply as a result of suspension of transit. Although we have engaged and established good relationships with multiple suppliers to ensure our supplies, and have gained preferred bargaining positions, we cannot assure that we will be able to successfully retain and manage our suppliers to keep our procurement costs within a reasonable range, or maintain obtain sufficient supplies or find new suppliers on similar terms in a timely manner if our relationships with one or more suppliers terminate. In addition, we cannot assure that we will detect all risks through our quality assurance systems. Any incident associated with the supply of our raw materials or our relationships with suppliers may result in increased costs, disruption in the supply chain, and reputational damage, which could have a material adverse effect on our business, financial condition, and results of operations.

RISK FACTORS

Any failure to maintain our product quality or food safety could materially and adversely affect our results of operations.

The safety and quality of our products are essential to our success and reputation. Our products generally reach consumers after various phases, including transportation, warehousing and delivery. As such, our food safety and product quality are affected by various factors, including the quality of raw materials, hygiene of production bases, and the methods we use to store and transport our products. Although we have adopted stringent management measures throughout the entire production and operation process, including the procurement of raw materials, production and selling, we can not assure you that we will be able to effectively detect and avoid all food safety-related incidents, which may materially and adversely affect our brand image, business operation and financial performance.

We are also required to comply with the laws and regulations related to food safety and product quality in China, such as the Food Safety Law of the PRC (《中華人民共和國食品安全法》) and Administrative Measures of Food Production Licensing (《食品生產許可管理辦法》). Please refer to “Regulatory Overview – Laws and Regulations Relating to Producing and Selling our Products – Regulations on Food Safety” and “Regulatory Overview – Laws and Regulations Relating to Product Quality and Consumer Protection.” If we fail to detect safety or quality issues or if we are found in violation of the laws and regulations, we may be subject to liability claims, reduced consumer satisfaction and the imposition of penalties by relevant authorities, which could in turn affect our long-term success.

Our supply chain and business may be materially and adversely affected by contamination, natural disasters, extreme weather, health epidemics, pandemics and other catastrophic events that are beyond our control.

Our business is sensitive to natural disasters, extreme weather, other catastrophic events and epidemics, including pest infestation, floods, earthquakes, typhoons, fires, water shortages, power failures and shortages, equipment or IT system failures, strikes, acts of terrorism, and war. Any of these circumstances may adversely affect the adequacy of our supply. We have consistently focused on sourcing raw materials from renowned places of origin for grains in China, particularly the Northeast China Plain, located in the middle-high-latitude region and the eastern end of Eurasia, which is prone to climate change and relevant meteorological disasters such as heavy rains. We may face interruptions, delays or even shortage of the supply of raw materials in the case of such meteorological disasters. For example, since August 2023, areas in Northeast China such as Wuchang City have been affected as the result of a period of prolonged heavy rainfall caused by typhoon, in response to which we have established emergency response team to address potential impacts on our business operation. See “Summary – Recent Development.” However, we cannot assure you that we will be able to take adequate steps to mitigate the potential impact of such unforeseeable events, or to effectively respond to them, which may adversely affect our business, results of operations and financial condition. We cannot assure you that we would not face shortage in raw material supply given the flood’s adverse impact on the growth and maturity of paddy in affected areas in Northeast China or should the areas from which we procure raw materials are affected by prolonged flood

RISK FACTORS

or rainfall, or other kind of natural disasters, extreme weather, other catastrophic events and epidemics, which may impose additional challenges for our raw material procurement and production or materially and adversely affect business operation and financial performance. In addition, we cannot assure we will not face increase in raw material price due to the impact of the flood on relevant areas in Northeast China or that we will be able to successfully pass the relevant increase in our costs to consumers, which may materially and negatively affect our business operation, profitability and financial performance. See “Business – Environmental, Social and Governance Matters – Environmental Protection – Addressing Climate Change.” Although we have not experienced any land contamination or material deterioration of the natural environment that could materially and adversely affect our operation, we cannot assure you that the regions from which we purchase raw materials will not be affected by contamination or pollution in the future. We expect our suppliers to comply with their contracts, but there may be contingent failures or delays in their performance of contracts. Occurrences of incidents or events beyond their control may also be obstacles to them fulfilling their obligations. Although we source raw materials from multiple regions to reduce risks, our ability to respond to catastrophic events may be limited. As of the Latest Practicable Date, we operated four production bases in Shenyang Xinmin, Wuchang, Songyuan and Aohan, and were constructing one production base in Tonghe. Any of such events may seriously damage our production bases and incur additional costs, and we may not be able to find alternative production solutions in a timely fashion. The then-current inventories may also be affected and we may incur substantial losses. As a result, any of the foregoing could increase operating costs or cause damage and losses to us as a result of disruptions to our operations, which could adversely affect our results of operations.

In particular, we are also susceptible to health epidemics or other outbreaks. Past occurrences of epidemics or pandemics, depending on their scale of occurrence, have caused different degrees of damage to the national and local economies of China. For example, operation of our production bases was temporarily affected by occurrence of pandemics. If such incidents occur, our business, financial condition and results of operations may be materially and adversely affected.

We may be at risk of water scarcity. If we are unable to obtain an adequate supply of water resources, our business may face disruptions and affect results of operations.

We use fresh water as a wetting agent in the production process for grinding, polishing and other processes, as well as the domestic water of employees in the factory and administrative offices. Please refer to “Business – Environmental, Social and Governance Issues – Environmental Protection – Water Resources Management.” Water shortages, contaminated water sources, or overexploitation of groundwater in areas where our production bases are located may result in the inability to obtain the water needed for production or force us to incur additional costs to obtain water resources. The associated water scarcity may also have an impact on local agricultural production, further affecting the stability of our raw material supply. This could adversely affect our business, results of operations and financial condition.

RISK FACTORS

We may face inadequate production capacity issues, which could hinder our capabilities to satisfy consumers' needs and our growth prospects.

The demand and sales of our certain products may sharply increase during our marketing campaigns and peak production seasons, which in turn may cause production capacity to be unable to satisfy sales needs. We cannot guarantee that the existing capacity of our production will meet market demands in the future, and may at times face insufficiencies in our production capacity. Our production capability may be affected by any natural or man-made disasters, such as fires, floods, storms, earthquakes, explosions, extreme weather, breakdown of equipment or IT systems, strikes, acts of terrorism, wars and other interruptions such as power and water suspension, most of which are beyond our control. Although our production and operating activities or financial performance had not been affected by such incidents as of the Latest Practicable Date, they may cause interruption of our production, and may materially and adversely affect our business, financial condition and results of operations.

We face fierce industry competition and low industry concentration. Failure to compete with other market players may adversely affect our market share and profitability.

China's pre-packaged rice, whole grain, bean and seed industry is competitive and fragmented, with the top five companies accounting for a 8.9% market share in terms of revenue in 2022, according to Frost & Sullivan. We face strong competition from a large number of players in our industry, including large-scale groups, small-scale self-operated sellers, as well as new entrants. The large-scale groups or enterprises may have a long history, ample business resources and a proven track record in producing and selling, with well-established positions in several selling channels, such as traditional offline distribution, retail sales or direct sales. Therefore, we may need to make more efforts to compete with them in these channels, and may incur increasing advertising expenses and conduct further marketing activities.

Our product spectrum is similar to that of our competitors. We cannot assure you that imitation or counterfeiting of our products, logos or brands will not occur in the market. Failure to detect and mitigate such risks may affect our brand and reputation, which may in turn negatively affect our competitive position.

Warehousing and logistics capabilities are key to our operations. We are subject to risks relating to the warehousing of the products we sell. Any interruption or delay of delivery or improper handling of goods may affect our efficiency and consumer satisfaction, which may result in a negative effect on our business.

We store our products in our warehouses, built along with our production bases, before delivery. If accidents such as fires were to occur, our ability to perform the contracts with our customers could be adversely affected.

RISK FACTORS

During the Track Record Period, our logistics were primarily provided by third-party logistics service suppliers, while we also operate our own logistics team to support the supervision of the transportation of goods. Although we closely plan and monitor our whole logistics process through our TMS system and communicate actively with our logistics service providers, we cannot assure you that our products will always be delivered within the predetermined period. As we do not have direct control over our outsourced logistics service providers, we cannot guarantee the quality of delivery. There may be improper handling of products, which may adversely affect our consumer satisfaction, and our brand image may be tarnished. Any interruption or delay of delivery or improper handling of goods may materially and adversely affect our business, financial condition and results of operations.

Our business operations may be subject to seasonality, which may result in certain periods when our results of operations fall short of expectations.

Our results of operations are subject to seasonality, primarily due to the harvest season of our raw materials and sales peak resulted from holidays and shopping events. For example, the harvest season of raw grains that we generally procure, especially Northeast Rice, is from September to year end, and we generally purchase raw grains from September to year end. See “Business – Raw Materials, Packaging Materials and Major Suppliers.” Therefore, we generally have relatively high volumes of inventories, especially raw materials by the end of each year. In addition, we typically experience sales peak in holiday season such as Chinese New Year and sales events such as Double Eleven, which are generally by the year end or the beginning of a year. In preparation of such holiday season and shopping events, we generally have relatively high volume of inventories, especially finished products, by the end of each year. Accordingly, our results of operations fluctuate over the year, and interim results may not be indicative of annual results.

We may not be able to maintain our revenue growth and profitability or realize revenue increase and good profitability continuously, and our historical results of operations and financial performance may not be indicative of future performance.

We experienced significant growth during the Track Record Period. Our revenue increased by 54.6%, from RMB2,327.0 million in 2020, to RMB3,598.3 million in 2021, and further increased by 26.0% to RMB4,532.9 million in 2022, and increased by 18.8% from RMB910.2 million for the three months ended March 31, 2022 to RMB1,081.5 million for the three months ended March 31, 2023. Our gross profit increased by 32.8%, from RMB404.7 million in 2020 to RMB537.5 million in 2021, and further increased by 45.0% to RMB779.5 million in 2022, and increased by 13.7% from RMB154.5 million for the three months ended March 31, 2022 to RMB175.7 million for the three months ended March 31, 2023. Although our revenue experienced a significant increase during the Track Record Period, there is no assurance that we will be able to maintain our product sales and our historical growth rate, or achieve a higher growth rate in the future. We face a number of risks in terms of achieving our future plans, such as:

- integrating more channels into our sales network;

RISK FACTORS

- expanding our manufacturing and/or service facilities;
- controlling costs and operating expenses in anticipation of expanded operations;
- recruiting and retaining suitable and professional employees;
- implementing and enhancing our internal control systems and other systems or processes;
- addressing new market opportunities and foreseeing challenges as they arise.

Our growth may also slow due to factors beyond our control, including decreasing consumer spending, increasing competition, declining growth of China's rice, whole grain, bean and seed industry and changes in the regulatory environment or general economic conditions. Risks that may affect our future plans and factors beyond our control may hinder our future success, and our revenue and gross profit may be negatively affected.

We generate a large portion of our revenue from a small number of customers.

Revenue generated from our top five customers in each year or period during the Track Record Period accounted for 74.5%, 57.4%, 55.0% and 57.6% of our total revenue for the respective year or period. Revenue generated from our largest customer in each year or period during the Track Record Period accounted for 42.3%, 28.1%, 26.9% and 29.5% of our total revenue for the respective year or period. Any factors that could cause these customers to reduce their purchases from us, such as economic downturns, changes in industry dynamics, or customer-specific issues, could have a significant impact on our business.

We have been actively expanding our customer base, diversifying our product offerings and adapting to the evolving sales channels. However, there can be no assurance that these efforts will be successful, and if we are unable to maintain or increase our revenue from our existing customers or develop new customer relationships, our business, financial condition, and results of operations could be materially and adversely affected.

If we are unable to perform our contracts, our results of operations and financial condition may be adversely affected.

As of December 31, 2020, 2021 and 2022 and March 31, 2023, we had contract liabilities of RMB4.2 million, RMB18.6 million, RMB31.6 million and RMB10.3 million, respectively. Our contract liabilities were primarily short-term advance payments from customers. See "Financial Information – Discussion of Selected Items from the Consolidated Statements of Financial Position – Contract Liabilities." If we fail to fulfill our obligations under our contracts with customers, we may be unable to convert such contract liabilities into revenue, and our customers may require us to refund the prepayments they have made, which may in turn adversely affect our financial condition. Furthermore, our inability to perform our obligations under our contracts with customers may cause our relationship with our customers to deteriorate, which may in turn adversely affect our business and results of operations.

RISK FACTORS

If we fail to effectively implement our future production expansion plans, our business prospects may be materially and adversely affected.

We aim to expand our production capacity in line with the growth of our business to facilitate our long term business development to meet the growing market demand from China's pantry staple food market. See "Business – Our Production – Our Production Expansion Plan." The feasibility of our production expansion plan is limited to various factors, such as (i) the availability of suitable locations to establish our production premises, (ii) the location of convenient logistics for the new production bases, (iii) the availability of adequate management and financial resources, and (iv) our ability to hire, train and retain skilled personnel. We may have initially invested significant resources in planning, locating, negotiations, and construction, and failure to achieve our production expansion plan may cause us to be unable to satisfy consumers' demands and recoup the costs incurred, and may hinder our business prospects. The delay or cancellation of our expansion could also subject us to disputes with various counterparties, including but not limited to, general contractors and subcontractors, equipment suppliers, financiers and relevant governmental authorities. As a consequence, our business, financial condition and results of operations may be materially and adversely affected.

Our investment in, and maintenance or upgrades of our production equipment and facilities, technologies and other equipment related to operations may not be carried out successfully, which may in turn adversely affect our business growth.

To achieve our expansion plan and optimize our production efficiency, we continually maintain the existing production equipment and facilities, expand the production capacity through upgrading our existing equipment and establishing new production facilities, purchase new production equipment, improve production techniques and purchase logistics equipment. In addition, we allocate our human resources and other resources to managing these operational needs. We cannot assure you that such investments, maintenance and upgrades can be carried out successfully, or generate positive cash flows or profitable returns within a short period of time, or at all. Such investments, maintenance and upgrades may become ineffective or obsolete as a result of updates in technology or industry standards, which could result in a material adverse effect on our business and financial condition.

If we fail to effectively implement our future expansion, our business prospects may be materially and adversely affected.

We expect to expand the scale of our business in the future, and may achieve our goal by organic growth, and investments in and/or acquiring targets that meet our standards. However, we may be unable to effectively implement our future expansion. For example, we may encounter risks when we develop new sales channels and explore new markets due to different regulatory requirements, competitive landscape, consumer preferences, spending patterns and operational environment from our existing channels and markets. Our ability to grow through acquisition depends upon our ability to identify and negotiate with the target companies and obtain the necessary financing for our expansion plan. We may not find satisfying targets or be

RISK FACTORS

able to gain a preferred bargaining position when negotiating with our targets. Any failure to implement our future expansion may materially and adversely affect our business, financial condition and results of operations.

We may face the risk of inventory obsolescence. Our operating results could be materially harmed if we are unable to accurately forecast consumer demand for our products and efficiently manage our inventory.

Our inventories mainly include raw materials and finished products. As of December 31, 2020, 2021, 2022 and March 31, 2023, we had inventories of RMB647.2 million, RMB1,049.8 million, RMB1,372.7 million and RMB1,215.1 million, respectively. Our inventory turnover days for 2020, 2021, 2022 and the three months ended March 31, 2023 were 100 days, 100 days, 116 days and 129 days, respectively. See “Financial Information – Discussion of Selected Items from the Consolidated Statements of Financial Position – Inventories.” Our business requires us to manage a large volume of inventory effectively, especially raw materials. Although we have established and implemented a raw material inventory management system, we cannot assure you that we may effectively ensure our inventory quality and food safety. See “Business – Inventory Management.” If the prices of raw materials and finished products decrease drastically, or our finished products are unsalable, and we may not respond effectively or in a timely manner, we may face the risk of a decline in value of our inventories. See “– Our business operations may be subject to seasonality, which may result in certain periods when our results of operations fall short of expectations.” In addition, failure to forecast consumer demand or any unexpected event affecting the sales of our products could result in increased inventory obsolescence, a decline in inventory value or inventory write-downs.

Any changes in China’s pantry staple food industry may adversely affect our business, results of operations and financial condition.

We primarily derived our revenue from sales of our rice, whole grain, bean, and dried food products during the Track Record Period. Our business depends on the condition and growth of China’s pantry staple food industry, which could be affected by factors such as the general economic conditions, the shift in consumer dietary structure and eating habits, and consumers’ disposable income. Any future changes in China’s pantry staple food industry could adversely affect our business, operating results and financial condition.

Our business relies on consumer demand for our products. Any shift in consumer demands or any unexpected situation with a negative impact on consumer demand may materially and adversely affect our business and results of operations.

Our success relies largely on the demands of our consumers. Our consumers’ demands may fluctuate due to a series of factors, such as (i) changes in general economic conditions, (ii) changes in disposable income, and (iii) changes in consumer preferences. In particular, consumer preferences, as reflected in their eating habits and dietary structures, may shift as food choices continually broaden, which may result in reduced demand for our products.

RISK FACTORS

While we continue to upgrade our existing products and develop, design and launch new products, we cannot assure you that our product offerings will continue to cater to consumer preferences or meet growing consumer demands. Although we adjust our marketing strategies and introduce different brands and products to different groups according to consumer preferences, we may be unable to accurately capture changes in consumers' preferences and tastes. Any of these changes could negatively affect the price and sales volumes of our products and could have a material adverse impact on our business, financial condition and results of operations.

Our insurance coverage may be insufficient to cover all of our potential losses.

We maintain limited insurance policies covering risks with respect to our properties and inventories. As of the Latest Practicable Date, we had not maintained product liability insurance for all of our products, and do not carry any business interruption or litigation insurance. We believe such practice is in line with the customary practice of our industry. See "Business – Insurance." Any adverse occurrences to our properties and inventories, liability claims for damages relating to our products, interruption to our operations, and the resulting losses or damage, could materially and adversely affect our business, financial condition and results of operations.

Our business and prospects depend on our ability to build our brands and reputation, which could be harmed by negative publicity with respect to our Company, Directors, employees, branding or products, whether warranted or not, and could adversely affect our business.

Our success is built on our established brand image and reputation, which may be susceptible to the public's perception of us. To build an energetic and refreshing brand image in the minds of consumers, we have designed a series of captivating marketing content that highlights the distinctiveness of rice, whole grain, bean and seed industry, resonating with modern society's pursuit of a healthy lifestyle. We have successfully established and primarily offer products to our consumers under three brands, namely Shiyue Daotian, Firewood Courtyard and Sunshine Family. See "Business – Branding and Marketing." Due to our leading position in our industry, we may be subject to public scrutiny and thus incur significant costs to respond to such negative publicity. We cannot assure that no one will, intentionally or incidentally, distribute information about us, especially regarding the safety and quality of our products, our internal management matters, or our branding, marketing and promotional activities. Although we have established a public opinion response mechanism, we cannot assure you it may always be effective. Any unauthorized dissemination of inside information, whether positive or negative, could disrupt our normal production and operations. We may also face rumors, which could lead to negative public perceptions of us. If we take legal action against rumormongers, we may incur significant financial and time costs, and may also risk damage to our reputation before a trial is completed. Accordingly, any negative publicity regarding any aspects of our business may materially and adversely affect our business, financial condition and results of operation.

RISK FACTORS

Our brands and products may be subject to counterfeiting, imitation or infringement by third parties.

We rely on intellectual property laws in China to protect our brands and intellectual property rights. During the Track Record Period, we found that some external parties sold certain products under “copycat” brand names and trademarks that resembled ours. Although these circumstances occurred infrequently, with no material effect on our business, any litigation to prosecute infringements of our rights and products may be expensive and will divert management attention and other resources from our business. In addition, we cannot guarantee that counterfeit products will not lead to concerns such as food safety and product quality, or that our reputation will not be damaged due to the difficulties to distinguish such products from ours. If the above circumstances occur, our business, financial condition and results of operations could be materially and adversely affected.

Failure to comply with health safety, environment protection, fire control and labor-related laws and regulations may subject us to fines or penalties or incur costs that could materially and adversely affect the success of our business.

We are subject to extensive government laws and regulations regarding all aspects of production and operations, such as health safety, environment protection, fire control, drainage, water usage and employment. See “Regulatory Overview.” We are required to maintain various licenses and permits with respect to the public health safety in order to operate our business. For example, the Food Safety Law of the PRC (《中華人民共和國食品安全法》) requires all enterprises engaged in food production to obtain a food production license. It also sets out stringent safety standards with respect to food and food additives, packaging and information to be disclosed on packaging, as well as safety requirements for food production and sites, facilities and equipment used for the transportation and sale of food.

In addition, we are subject to a variety of laws and regulations imposed by the government relating to environmental protection, fire safety and other safety, such as obtaining environment protection acceptance for some of our sites and completing fire safety filing procedures. Compliance with existing and future environmental protection, public health safety, fire safety and other safety laws could subject us to costs or liabilities, including monetary damages and fines, affect our production capabilities, result in the suspension of our business operations and generally impact our financial performance. For example, during the Track Record Period, certain of our production facilities had not completed fire safety filing procedures after completion of construction.

Failure to comply with the abovementioned laws, regulations and requirements applicable to our business may result in fines, suspension of operations, loss of licenses, and, in more extreme cases, criminal proceedings against us and our management. Any of these events may have an adverse impact on our business, results of operations and financial condition.

RISK FACTORS

Laws and regulations related to e-commerce activities may impose additional requirements and obligations on our online operations.

The e-commerce activities we conduct on the e-commerce platforms with which we collaborate are critical to us. With the consistent development of the e-commerce industry, activities related to e-commerce are subject to stricter regulations in areas such as data privacy. For example, the E-Commerce Law of the PRC (《中華人民共和國電子商務法》), promulgated by the SCNPC on August 31, 2018 and implemented on January 1, 2019, requires all e-commerce operators, broadly defined to include natural persons, legal persons and unincorporated organizations that engage in business activities of selling commodities or offering services through the internet and other information networks, to abide by the principles of voluntariness, equality, equity and good faith, observe the law and business ethics, participate fairly in market competition, perform obligations in aspects including protection of consumer rights and interests, environment, intellectual property rights, cybersecurity and individual information, assume responsibility for the quality of products or services, and accept supervision by the government and the public. During the Track Record Period, our revenue generated from online channels was RMB1,849.5 million, RMB2,716.6 million, RMB3,144.2 million, RMB697.3 million and RMB777.5 million in 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, respectively, representing 79.4%, 75.5%, 69.3%, 76.6% and 71.9% of our total revenue in the respective periods. Although we are not operator of e-commerce platforms, we may still need to change our online sales models to comply with the evolving laws and regulations, which may subject us to high costs in our online channels. We cannot assure you that we will be able to meet all the regulatory requirements in a timely manner.

Any quality-related issues in rice, whole grain, bean and seed industry could have a material and adverse impact on our business and reputation.

China's rice, whole grain, bean and seed industry is highly fragmented with various sizes of market players, according to Frost & Sullivan. As an industry that involves food processing and selling activities, market players therein face strict supervision from the public, government authorities, the media and other competitors. Some market players may fail to implement strict quality control measures, provide products with quality defects to consumers or violate the laws and regulations associated with food safety and product quality. In such events, consumers may tend to be led by negative publicity, lose faith in our industry as a whole, and reduce their spending on our products. As a result, our business and reputation may be adversely and materially affected.

Any failure or perceived failure to comply with privacy, data protection and information security may materially and adversely affect our business and financial condition, and results of operations.

We collect certain information from our consumers for operation and transportation purposes. Our business is subject to various laws and regulations in China associated with data processing, such as the Personal Information Protection Law of the PRC (《中華人民共和國

RISK FACTORS

個人信息保護法》), the PRC Cyber Security Law (《中華人民共和國網絡安全法》) (the “Cyber Security Law”), the PRC Data Security Law (《中華人民共和國數據安全法》) and the Measures for Cybersecurity Review (《網絡安全審查辦法》). Although we have implemented stringent internal control policies, we cannot ensure that our data may not be abused by our employees or leaked by intention or negligence to third parties, which may cause damage to our consumers. Any failure or perceived failure to comply with data privacy, protection and information security laws with respect to the collection, use, storage, retention, transfer, disclose and other processing of data, may result in negative publicity, claims, litigation or investigations imposed by applicable authorities, and materially and adversely affect our business, financial condition and results of operations.

Our information technology and software systems may experience unexpected system failures, interruptions, inadequacies or security breaches.

Our competitiveness and efficiency are supported by our advanced information technology. The IT systems we utilize cover various aspects of our business, including raw materials supply, production, operation and logistics. See “Business – Information Technology.” Our information systems may be vulnerable to damage or interruption from circumstances beyond our control, including computer viruses, acts of hacking, vandalism, power outages, fire or other natural disasters. Any significant failure of our information technology systems, or loss or leakage of confidential information could result in transaction errors, process inefficiencies and loss of sales, which could further harm our reputation and materially and adversely affect our business, financial condition and results of operations.

We are required to obtain and maintain various licenses, approvals and permits, the failure to obtain or renew any of which may have a material adverse effect on us.

Our business requires us to obtain and renew, from time to time, certain approvals, licenses, registrations and permits. For example, in addition to business licenses, we are required to obtain food production permits and food trading permits (or record filings) for our food production and trading business. These approvals, licenses and permits are granted upon satisfactory compliance with, among others, the applicable laws and regulations including the Food Safety Law of the PRC (《中華人民共和國食品安全法》). These approvals, licenses and permits are subject to examination or verification by relevant authorities and are valid for a fixed period of time subject to renewal and accreditation. We cannot guarantee that we will be able to renew in a timely manner all of the licenses upon their expiration.

In addition, we may increase our business lines or make acquisitions in the future, which may expose us to the risk of being unable to obtain the required licenses, approvals or permits. Further, the approvals, licenses, registrations and permits issued to us may be suspended or revoked in the event of noncompliance or alleged noncompliance with any terms or conditions thereof, or pursuant to any regulatory action.

RISK FACTORS

Any failure to renew the approvals that have expired or apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, as well as any noncompliance incidents, may increase our operational costs and impede our operations.

We may be unable to adequately protect our intellectual property rights or may be subject to infringement claims of intellectual property rights or rights of third parties, which could harm the value of our brands and adversely affect our business.

Our intellectual property rights are key to our success and competitiveness, which primarily consist of trademarks, copyrights, patents and domain names. As of the Latest Practicable Date, we had 400 registered trademarks, 26 copyrights and 16 domain names in China. We have taken proactive approaches to protect our intellectual property portfolio. We designate dedicated personnel and engage external service agencies to monitor the application status of intellectual property rights and perform routine checks on the public trademark registration platform, to ensure our trademarks are not infringed by third parties. We have also engaged intellectual property experts and legal consultants to assist our IP rights protection. In addition, we also take measures to combat infringement of our intellectual properties. See “Business – Intellectual Property.” However, we cannot assure you that these proactive measures will effectively protect our intellectual property rights from any unauthorized use, misappropriation or disclosure. We cannot guarantee that we will successfully defend ourselves in any claims or legal proceedings in the event of inappropriate use of our intellectual property.

On the other hand, third parties may assert that our products or processes infringe on their intellectual property rights, such as trademarks, patents, copyrights, or trade secrets, some of which may be raised by other market players as a way of malicious competition. See “Business – Legal Proceedings and Compliance – Legal Proceedings.” The scope of certain trademarks, patents, copyrights, or trade secrets may be uncertain, and intellectual property litigation is often complex and unpredictable. As a result, intellectual property litigation could be expensive, lengthy, and may result in negative publicity, which could harm our reputation and the demand for our products and services. If we are unsuccessful in defending such claims, we may be prohibited from continuing to use such proprietary information for purposes including, in particular, our sales, marketing and promotion activities through any sales channel in the future, or may be compelled to pay damages, royalties or other expenses for the use of such proprietary information. Any of the above could negatively affect our business, financial condition, and results of operations.

Our success depends on the efforts of our management team. We may be unable to retain or promptly recruit management members or other key personnel required for our operations.

The composition and continued commitment of our management team have been key elements of our success and ability to operate effectively. Our key personnel’s expertise in business strategies, product development, business operations, production, warehousing, logistics management, sales and marketing, regulatory compliance and relationships with our

RISK FACTORS

customers and suppliers is crucial to us. Although we believe we offer our management team and employees competitive compensation packages and a collaborative working environment, we cannot guarantee that if we experience any significant, material changes to the composition of our management team and our key employees we would be able to recruit suitable or qualified replacements promptly or at all. We cannot assure that the new personnel may adapt to our business. Recruitment and training new personnel may also incur additional expenses, which could disrupt our business and limit our ability to grow. Further, if we lose our management or key personnel to competitors, our competitiveness, operations and ability to grow may be adversely affected.

We may experience deterioration in relationships with our employees, shortage of labor or increase in labor costs, which may have an adverse effect on our results of operations.

As the production and sale of our products are labor-intensive, attracting and retaining qualified employees has an important role in our success. We are committed to providing fair and equal opportunities to our employees in terms of evaluating their performance and intend to offer them competitive wages and incentives. However, we may be subject to claims, investigations and negative publicity in relation to safety of production, workplace environment or occupational hazards, especially when our employees, third-party service providers and the public suffer from injuries or casualties at our facilities or during the transportation of our products, which may cause a deterioration in labor relations with our employees.

We recruited employees primarily through on-campus recruitment, employment websites and referrals during the Track Record Period. Recruitment activities usually cause additional expenditure to us. With the continuing increase in the level of wages, we may also encounter difficulties offering wages satisfactory to our employees. Failure to offer satisfactory wages may lead to the resignation of our employees or a shortage of labor. The increase in labor costs and the shortage of labor may materially and adversely affect our business, financial condition and results of operations.

Failure to detect or prevent fraudulent or illegal activities or other misconduct by our employees, customers, suppliers or other third parties may have a material adverse effect on our business.

We may be subject to illegal activities conducted by our employees, customers, suppliers or other third parties, such as negligence, fraud, corruption and bribery. These activities may lead to liabilities, fines and other penalties imposed by applicable government authorities. Although we have adopted internal control policies with regard to the review and approval of merchant accounts, sales activities, interactions with business partners and government officials, provided anti-corruption and anti-bribery compliance training periodically to our management and employees, and distributed employee handbooks to enhance employees' awareness of complying with laws and regulations, we cannot guarantee that these measures will effectively prevent any occurrence of illegal activities. Failure to detect and prevent

RISK FACTORS

violations of laws and regulations by our employees or collaborators in terms of the abovementioned activities may damage our brand and reputation, and in turn materially and adversely affect our business, financial condition and results of operations.

We are subject to potential material and adverse effects in respect of defects in our existing properties owned and leased in China.

As of the Latest Practicable Date, we used 15 parcels of land with an aggregate site area of approximately 769,884 sq.m. and a total aggregate gross floor area of approximately 164,053 sq.m. of buildings in China. As at the Latest Practicable Date, we had not obtained land use right certificates and building ownership certificates for certain of our owned buildings. The relevant properties are mainly used for production, warehousing and offices. There is no assurance that we will not be subject to any administrative penalties for these defective titles in the future, and if this were to happen, our business, results of operation and financial position may be adversely affected. For details, please see “Business – Properties.” Further, as of the Latest Practicable Date, we leased 42 buildings with an aggregate gross floor area of approximately 87,175 sq.m., and besides, we leased lands in nine villages with an aggregate gross area of approximately 10,186,918 sq.m. In relation to certain of these leased properties, we have entered into lease agreements with parties who have not provided us with evidence of proper legal title to the leased lands or buildings. As advised by our PRC Legal Adviser, if the lessors do not have the requisite rights to lease these lands or buildings, we may be required to relocate or discontinue our use. In addition, as of the Latest Practicable Date, we had not registered the lease agreements for 37 of our leased buildings with the relevant competent authorities in accordance with applicable laws and regulations in China, which is mainly due to owners’ reluctance in registering relevant lease agreements despite our efforts in communicating such requests. As advised by our PRC Legal Adviser, if we or the landlords fail to register such lease agreements for our leased buildings as required by the relevant competent authorities, we may be subject to a fine of RMB1,000 to RMB10,000 for each of the unregistered lease agreement. There can be no assurance that the relevant government authorities would not impose administrative penalties on us as a result of the non-registration of these lease agreements.

Failure to maintain or renew our current land use rights and leases, or locate desirable alternatives for our facilities could materially and adversely affect our business.

We have entered into lease agreements with a fixed term. As of the Latest Practicable Date, we leased lands located in nine villages with an aggregate gross area of approximately 10,186,918 sq.m. and 42 buildings with an aggregate gross floor area of approximately 87,175 sq.m., respectively. See “Business – Properties – Leased Properties.” We need to maintain our current land use rights and renew the agreements accordingly when the agreements expire. If any of the agreements are altered, terminated, materially breached or alleged to be invalid, we may be forced to relocate to a new location. We cannot assure you that we will be able to find alternative properties in a timely manner. As a result, we may incur additional costs and our operations and business may be materially and adversely disrupted.

RISK FACTORS

If we fail to maintain adequate internal control measures, we may be unable to effectively manage our business and may experience errors or information lapses affecting our business.

Our success depends on our ability to effectively utilize our standardized management system, information systems, resources and internal controls. As we continue to expand, we will need to modify and improve our financial and managerial controls, reporting systems and procedures and other internal controls and compliance procedures to meet our evolving business needs. If we are unable to improve our internal controls, systems and procedures, they may become ineffective and adversely affect our ability to manage our business and cause errors or information lapses that affect our business. Our efforts in improving our internal control system may not eliminate all risks. If we are not successful in discovering and eliminating weaknesses in our internal controls, our ability to effectively manage our business may be affected.

We maintain collaboration with different business partners through operation. Any of their failure to meet our requirements or honor our contracts, or their inappropriate actions or non-compliance with relevant laws, regulations, rules and policies may materially and adversely affect our brand reputation and business operations.

We cooperate with different business partners throughout our operation. For instance, we cooperate with suppliers for procurement of raw materials and OEMs for production when demand surges. We ensure the quality of our products by implementing stringent quality control standards, supplier and OEM admission and management system. See “Business – Food Safety and Quality Control.” We still have limited control over the quality of the raw materials and production process provided by our suppliers and OEMs, as well as their ability to perform the contracts. Failure of our suppliers and OEMs to meet our requirements might subject us to production quality issue or production delays, which in turn may damage our brand reputation.

In addition, we collaborate with KOLs and KOCs for our branding and marketing. KOLs and KOCs reputation are important to our brand image as our consumers may associate the performance of KOLs and KOCs with our brands. Our reputation could therefore be potentially damaged from the inappropriate actions or online posts of KOLs or KOCs which are beyond our control. In addition, with the expansion of KOLs and KOCs in China, the government may issue stricter laws and regulations to encourage a healthy and orderly development of such market. If the KOLs or KOCs fail to comply with the relevant laws, regulations, rules and policies promulgated from time to time, they may negatively impact our and our customers’ reputations and may cause loss to us and our customers.

During the Track Record Period, we were not aware of any incidents caused by our business partners that may materially and adversely affect our reputation and brand image. However, we cannot assure you that there would not be any incident in the future, in which case, our reputation, business and prospects may be materially and adversely affected.

RISK FACTORS

We may be exposed to credit risks related to our trade receivables and other receivables.

We have entered into a wide variety of contractual arrangements with different counterparties in the ordinary course of our business. Our credit risks primarily arise from trade receivables. We usually grant a credit term to our corporate customers by assessing business relationship and credit background, except for our distributors that need to make full payment before picking up the goods. Our trade receivables as of December 31, 2020, 2021, 2022 and March 31, 2023 amounted to RMB90.0 million, RMB308.1 million, RMB399.1 million and RMB192.8 million, respectively. During the Track Record Period, the turnover days of our trade receivables were 13, 20, 28 and 25 days in 2020, 2021, 2022 and the three months ended March 31, 2023, respectively. We may also be exposed to credit risks related to other receivables. Our other receivables as of December 31, 2020, 2021, 2022 and March 31, 2023 amounted to RMB42.5 million, RMB225.5 million, RMB149.4 million and RMB153.4 million, respectively. Our management regularly reviews the recoverability of overdue balances for trade receivables and other receivables, and may provide for impairment when appropriate. As there is limited financial or public information on many of our counterparties, we cannot assure you that all of our counterparties are creditworthy and reputable and will not default on us in the future, despite our efforts to conduct credit assessments on them. As a result, we are exposed to risks that our counterparties may fail to fulfill their obligations to us under our contracts.

Any negative impact on our working capital, including failure to maintain optimal inventory levels and increase of trade receivables, may materially and adversely affect our operating cash flow.

Our business requires us to manage a large volume of inventory efficiently. As of December 31, 2020, 2021, 2022 and March 31, 2023, we had inventories of RMB647.2 million, RMB1,049.8 million, RMB1,372.7 million and RMB1,215.1 million, respectively. We also grant credit to our customers in line with industry practice. Our trade receivables as of December 31, 2020, 2021, 2022 and March 31, 2023 amounted to RMB90.0 million, RMB308.1 million, RMB399.1 million and RMB192.8 million, respectively. To manage our working capital, we review our liquidity position on an ongoing basis, including the review of expected cash inflows and outflows, results of performance, trade and other receivable balance and inventory level to monitor our liquidity requirements in the short and long term. We cannot assure you that we will not encounter inventory obsolescence or that our counterparties are all creditworthy and will duly perform the contracts between us. Any failure to manage our working capital may materially and adversely affect our financial condition.

We had recorded net loss, net liabilities and net cash used in operating activities during the Track Record Period.

Our net loss was RMB172.9 million and RMB564.2 million in 2021 and 2022, respectively. See “Financial Information – Description of Major Components of Our Results of Operations.” We had net liabilities of RMB106.4 million as of December 31, 2022, compared to net assets of RMB218.6 million as of December 31, 2021, primarily due to (i) our net loss

RISK FACTORS

in 2022; (ii) the deemed distribution and (iii) the dividends to shareholders, partially offset by (iv) the recognition of capital reserve in relation to share-based payments. Our net liabilities decreased by 14.0% from RMB106.4 million as of December 31, 2022 to RMB91.5 million as of March 31, 2023, primarily due to (i) profit in the three months ended March 31, 2023; and (ii) the capital contribution, partially offset by (iii) the recognition of redemption liabilities for the preferential rights in the three months ended March 31, 2023. See “Summary – Selected Items from the Consolidated Statement of Financial Position” and “Financial Information – Discussion of Selected Items from the Consolidated Statements of Financial Position.” Our net cash used in operating activities was RMB495.2 million in 2021. See “Financial Information – Liquidity and Capital Resources – Cash Flow.” There is no guarantee that we will not continue to record net loss, net liabilities and net cash used in operating activities in the future.

We may be exposed to risks arising from changes in the financial assets at fair value through profit or loss.

As of December 31, 2020, 2021, 2022 and March 31, 2023, our financial assets at fair value through profit or loss were RMB20.0 million, RMB30.0 million, nil and nil, respectively. Our financial assets at fair value through profit or loss represented our wealth management products with variable returns. Our financial assets are measured at fair value, determined with reference to the quotation published by the issuing bank as at the end of the year, which is subject to changes beyond our control. The investment income on financial assets at fair value through profit or loss is recorded under other net income in our profit or loss. In 2020, 2021, 2022 and the three months ended March 31, 2023, our investment income amounted to nil, RMB4.8 million, RMB8.0 million and nil, respectively. With the fluctuation of changes in the financial assets at fair value through profit or loss, we may not generate fair value gain in the future, which may materially affect our results of operations and financial condition.

Our share-based compensation expenses may cause shareholding dilution to our existing Shareholders and have a material and adverse effect on our financial performance.

We adopted share-based payment arrangements including share awards and transfers of paid-in capital among the equity shareholders for the benefit of our directors, officers and employees as remuneration for their services provided to us to incentivize and reward the eligible persons who have contributed to our success. In 2021 and 2022, we incurred share-based payments of RMB187.4 million and RMB739.6 million. To further incentivize our employees, we may grant additional incentive shares in the future. Issuance of Shares with respect to such share-based compensation may dilute the shareholding to our existing Shareholders. Expenses associated with share-based compensation may also increase substantially, which may have an adverse effect on our financial performance.

RISK FACTORS

The changes in the carrying amount of financial instruments issued to investors may adversely affect our financial condition and results of operations.

Our financial instruments issued to investors were primarily related to redemption rights granted to certain investors of our Series A, Series B and Series C financing. The redemption rights of the investors constitute our redemption liability to repurchase our own equity instruments. The redemption liability is initially measured at the present value of the redemption amount and subsequently measured at amortized cost with interest expense being included in change in the carrying amount of financial instruments issued to investors. We had changes in the carrying amount of financial instruments issued to investors of RMB207.3 million, RMB244.7 million, RMB178.6 million, RMB43.2 million and RMB55.1 million in 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, respectively. Any significant fluctuations in the changes in the carrying amount of financial instruments issued to investors due to changes in the amortized cost may materially affect our financial condition and results of operations.

We may require additional funding to finance our operations, which may not be available on favorable terms or at all.

We have historically funded our cash requirements principally from equity and debt financing and cash generated from operations. To finance our ongoing operations, existing and future capital expenditure requirements, investment plans and other funding requirements, we may need to obtain adequate financing from external sources to supplement our internal sources of liquidity in the future. Our ability to obtain external financing in the future is subject to a variety of uncertainties, including, among other things:

- regulatory approvals to obtain financing in the domestic or international markets;
- our financial condition, results of operations, cash flows and credit history;
- the condition of the global and domestic financial markets; and
- changes in the monetary policies with respect to bank interest rates and lending practices and conditions of the jurisdictions where we operate.

We cannot assure you that we will be able to obtain bank loans or renew existing credit facilities in the future on favorable terms, or at all, or that any fluctuation in interest rates will not affect our ability to fund our operations and planned developments. Our efforts to raise equity capital, if any, may result in the dilution of the shareholdings of our existing Shareholders. If adequate funding is not available to us on favorable terms, or at all, we may be unable to fund our existing operations and develop or expand our business, and therefore our business, financial condition, results of operations and prospects may be materially and adversely affected.

RISK FACTORS

Any reduction or discontinuation of the preferential tax treatment or government grants may significantly impact our financial condition and results of operations.

We benefited from preferential tax treatment and government grants during the Track Record Period. The PRC Enterprise Income Tax Law and its implementation rules have adopted a statutory enterprise income tax rate of 25%. During the Track Record Period, we paid enterprise income tax at the rate of 25%, except for certain subsidiaries which enjoyed preferential tax treatment. If we cease to be entitled to preferential tax treatment, our income tax expenses may increase, which would adversely affect our results of operations. We have also received government grants. Our government grants amounted to RMB7.2 million, RMB44.0 million, RMB16.0 million, RMB0.9 million and RMB2.8 million in 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, respectively. See “Financial Information – Description of Major Components of our Results of Operations – Other Net Income.” We cannot assure you that we will continue receiving or benefiting from such grants in the future.

We may be subject to additional contributions of social insurance premium and housing provident funds, and late payments and fines imposed by relevant governmental authorities.

According to the Social Insurance Law of the PRC (《中華人民共和國社會保險法》) and the Administrative Regulations on the Housing Provident Fund of the PRC (《住房公積金管理條例》), we are required to make social insurance premium payments and contributions to housing provident funds for our employees. During the Track Record Period, since some of our employees, for example, those who are responsible for offline sales channel expansion and logistics, prefer their social insurance and housing provident funds to be paid at their respective resident places for convenience of utilizing such benefits locally, we engaged third-party agencies to pay social insurance and housing provident funds for them. In addition, we did not pay social insurance and housing provident fund contributions in full amount for certain employees. See “Business – Employees” for further information. Pursuant to the PRC laws and regulations, we may be ordered to pay social insurance premium and housing provident funds for our employees under our own accounts instead of making payments under third-party accounts.

As advised by our PRC Legal Adviser, the relevant PRC authorities may demand us to pay the outstanding social insurance contributions within a stipulated deadline and we may be liable to a late payment fee equal to 0.05% of the outstanding amount for each day of delay. If we fail to make such payments, we may be liable to a fine of one to three times the amount of the outstanding contributions. With respect to a failure to pay the full amount of housing provident fund as required, the housing provident fund management center in China may require payment of the outstanding amount within a prescribed period. If the payment is not made within such time limit, an application may be made to the PRC courts for compulsory enforcement.

RISK FACTORS

As a result, we may be required by competent authorities to rectify, and pay the outstanding amount, and could be subject to late payment penalties or enforcement application made to the court or further subject to a fine or penalty. As of the Latest Practicable Date, no competent government authorities had imposed any administrative action, fine or penalty on us with respect to the incidents in relation to social insurance or housing provident funds. We cannot assure you that we will not be subject to any penalty, or order to rectify in the future. We may incur additional expenses to comply with such laws and regulations.

RISKS RELATING TO OUR BUSINESS AND INDUSTRY IN THE PRINCIPAL PLACE OF OUR BUSINESS

Changes in Chinese economic, political and social conditions, as well as government policies, laws and regulations, and industry practice guidelines could have a material and adverse effect on our business, financial condition, results of operations and prospects.

All of our business, assets and operations are located in China. Accordingly, our business, financial condition and results of operations are subject to the economic, political, social and regulatory environment in the PRC. The PRC government regulates the economy and industries by imposing industrial policies and regulating the PRC's macro economy through fiscal and monetary policies.

During the past decades, the PRC government has taken various actions to promote the market economy and the establishment of sound corporate governance in business entities. Through strategically allocating resources, controlling the payment of foreign currency denominated obligations, setting monetary policy and providing governmental policy support to particular industries or companies, it also exerts significant influence over China's economic growth.

Our performance has been and will continue to be affected by China's economy, which, in turn, is influenced by the global economy. The uncertainties relating to the global economy as well as the political environment in various regions of the world will continue to impact China's economic growth. China's economy has experienced significant growth in the past few decades. The growth of China's economy has been uneven across different regions and economic sectors. We are unable to predict all the risks and uncertainties that we face as a result of current economic, political, social and regulatory developments, and many of these risks are beyond our control. All such factors may materially and adversely affect our business and operations as well as our financial performance.

Any deficiencies in the internet infrastructure could impair our ability to sell products over our online sales network, which could cause us to lose consumers.

Our sales through online sale channels contribute a large proportion of our revenues. Our online sales primarily include sales through comprehensive e-commerce platforms, and online self-operated stores. See "Business – Our Multichannel Sales Network." These sales depend on the performance and reliability of the internet infrastructure. The availability of our own

RISK FACTORS

web-based sales platform and e-commerce platforms depends on telecommunications carriers and other third-party providers for communications and storage capacity, including bandwidth and server storage, among other things. If we or e-commerce platforms are unable to enter into and renew agreements with these providers on acceptable terms, or if any of our or their existing agreements with such providers are terminated as a result of our or their breach or otherwise, as applicable, our ability to sell products to our consumers through online channels could be adversely affected. Service interruptions prevent consumers from accessing our online sales channels and placing orders, and frequent interruptions could frustrate consumers and discourage them from attempting to place orders, which could cause us to lose end-consumers and harm our operating results.

We may be subject to complaints, disputes and lawsuits in the ordinary course of our business.

We may be subject to complaints, disputes and lawsuits in the ordinary course of our business, which may be associated with issues such as breach of contract, employment or labor disputes, intellectual property infringement and environmental matters. Specifically, the products we produce and sell may expose us to product liability claims if the products are proven to fail to comply with relevant laws and regulations, or if they cause or are alleged to cause illness or health problems. If any product liability complaint is dealt with improperly, we may be required to pay substantial damages. Any complaints, disputes and lawsuits filed by or against us, whether or not meritorious, could result in significant costs and diversion of resources, and could cause serious damage to our reputation.

In addition, complaints, disputes and lawsuits filed against us may result from improper supplies to us, while our suppliers may not compensate us for any costs incurred by us as a result of such complaints, disputes and lawsuits in a timely manner, or at all. In that case our business and financial condition may be negatively affected.

Fluctuations in exchange rates of Renminbi could result in foreign currency exchange losses.

The exchange rate of Renminbi against the U.S. dollar and other foreign currencies fluctuates and is affected by, among other things, the policies of the Chinese government and changes in China's and international political and economic conditions, as well as supply and demand in the local market. There is no assurance that, under a certain exchange rate, we will have sufficient foreign exchange to meet our foreign exchange requirements. It is difficult to predict how market forces or government policies may impact the exchange rate between Renminbi and the Hong Kong dollar, U.S. dollar or other currencies in the future.

The proceeds from the Global Offering will be received in Hong Kong dollars. As a result, any appreciation of Renminbi against the U.S. dollar, Hong Kong dollar or any other foreign currency may result in a decrease in the value of our proceeds from the Global Offering. Conversely, any depreciation of the Renminbi may adversely affect the value of, and any dividends payable on, our Shares in foreign currency. In addition, there are limited instruments

RISK FACTORS

available for us to reduce our foreign currency risk exposure at reasonable costs. Any of these factors could materially and adversely affect our business, financial condition, results of operations and prospects, and could reduce the value of, and dividends payable on, our Shares in foreign currency terms. Remittances of Renminbi into and out of China are subject to strict restrictions. You may experience difficulty in effecting service of legal process, enforcing foreign judgments or bringing original actions in China or Hong Kong based on foreign laws against us, our Directors and senior management.

Changes in currency conversion policies may adversely affect the value of your investment.

We may convert a portion of our revenue into other currencies to meet our foreign currency obligations, such as payments of operating costs and expenses and payments of dividends declared in respect of our H Shares, if any. Shortages in the availability of foreign currency may restrict our ability to remit sufficient foreign currency to pay dividends, or otherwise satisfy our foreign currency-denominated obligations.

Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and trade and service-related foreign exchange transactions, can be made in foreign currencies without prior SAFE approval by complying with certain procedural requirements. However, approval from or registration with competent government authorities is required where RMB is to be converted into foreign currency and remitted out of the PRC to pay capital expenses, such as the repayment of loans denominated in foreign currencies. According to relevant foreign exchange rules, where any material imbalance in international receipts and payments occurs or may occur, the PRC government may implement necessary safeguards, controls and other measures. We cannot assure you that regulations regarding the remittance of RMB into or out of the PRC will not change in the future.

You may experience difficulties in effecting service of legal process and enforcing judgments against us and our management.

We are a company incorporated under the laws of the PRC and all of our business, assets and operations are located in China. In addition, the majority of our Directors, Supervisors and executive officers reside in China, and substantially all of the assets of such Directors, Supervisors and executive officers are located in China. As a result, it may not be possible for you to directly effect service of process within the United States or elsewhere outside China upon us or such Directors, Supervisors or executive officers, including with respect to matters arising under U.S. federal securities laws or applicable state securities laws. China and Hong Kong entered into the Arrangement on Reciprocal Recognition and Enforcement of Judgments in Civil and Commercial Matters by the Courts of the Mainland and of the Hong Kong Special Administrative Region Pursuant to Choice of Court Agreements between Parties Concerned which came into effect on August 1, 2008, pursuant to which a party with an enforceable final court judgment rendered by any designated people's court of China or any designated Hong Kong court requiring payment of money in a civil and commercial case according to a written

RISK FACTORS

choice of court agreement, may apply for recognition and enforcement of the judgment in the relevant people's court of China or Hong Kong court. Moreover, China has not entered into a treaty for the reciprocal recognition and enforcement of court judgments with the United States, the United Kingdom, Japan and many other countries. In addition, Hong Kong has no arrangement with the United States for reciprocal enforcement of judgments. In accordance with the Civil Procedure Law of the PRC and other applicable laws, regulations, and interpretations, a court judgment obtained in the United States and any of the other jurisdictions mentioned above may be recognized and enforced in China or Hong Kong in consideration of the treaties providing for the reciprocal enforcement of judgments of courts between China and the country where the judgment was made.

Holders of our H Shares may be subject to income tax obligations in China.

Under the current tax laws and regulations in China, non-Chinese resident individuals and non-Chinese resident enterprises are subject to different tax obligations with respect to the dividends paid to them by us and the gains realized upon the sale or other disposition of our H Shares.

Non-Chinese resident individuals are required to pay individual income tax at a rate of 20% under the Individual Income Tax Law of the People's Republic of China (《中華人民共和國個人所得稅法》) for the interests, dividends and bonuses they obtain from China. Accordingly, we are required to withhold such tax from dividend payments, unless applicable tax treaties between China and the jurisdiction in which the foreign individual resides reduce or provide an exemption for the relevant tax obligations. Generally, in accordance with the Notice on Matters Concerning the Levy and Administration of Individual Income Tax After the Repeal of Guo Shui Fa [1993] No. 045 Issued by the SAT (《國家稅務總局關於國稅發[1993]045號文件廢止後有關個人所得稅徵管問題的通知》), domestic non foreign-invested enterprises issuing shares in Hong Kong may, when distributing dividends to overseas resident individuals in the jurisdiction of the tax treaty, withhold individual income tax at the rate of 10%. When a tax rate of 10% is not applicable, the withholding company shall: (a) return the excessive tax amount pursuant to due procedures if the applicable tax rate is lower than 10%; (b) withhold such foreign individual income tax at the effective tax rate agreed on if the applicable tax rate is between 10% and 20%; or (c) withhold such foreign individual income tax at a rate of 20% if no taxation treaty is applicable.

For non Chinese-resident enterprises that were established under foreign laws with no actual management body in China but have establishments or premises in China, or for those which have no establishments or premises in China but whose income is derived from China, under the Enterprise Income Tax Law of the People's Republic of China (《中華人民共和國企業所得稅法》), dividends paid by us and gains realized by such foreign enterprises upon the sale or other disposition of Shares are ordinarily subject to China enterprise income tax at a rate of 20%. In accordance with the Circular on Issues Relating to the Withholding of Enterprise Income Tax by Chinese Resident Enterprises on Dividends Paid to Overseas Non-Chinese Resident Enterprise Shareholders of H Shares (《關於中國居民企業向境外H股非居民企業股

RISK FACTORS

東派發股息代扣代繳企業所得稅有關問題的通知》) issued by the SAT, such tax rate has been reduced to 10%, subject to a further reduction under special arrangements or applicable treaties between China and the jurisdiction of the residence of the relevant non Chinese-resident enterprise.

If there is any change to applicable tax laws and regulations or in the interpretation or application of such laws and regulations, the value of your investment in our H Shares may be materially affected.

Any possible conversion of our Domestic Unlisted Shares into H Shares in the future could increase the number of our H Shares in the market and negatively impact the market price of our H Shares.

We have applied to the CSRC for the conversion of a portion of our Domestic Unlisted Shares into H Shares. If the conversion is approved by the CSRC, such a portion of the Domestic Unlisted Shares will be converted into H Shares upon the Listing, which will be listed and traded on the Stock Exchange. If our separate application is approved by the CSRC, our remaining Domestic Unlisted Shares may also be converted into H Shares in the future, and such converted shares may be listed or traded on an overseas stock exchange, provided that prior to the conversion and trading of such converted shares, any requisite internal approval by our Shareholders in a general meeting is duly obtained and the approvals from relevant PRC regulatory authorities shall be obtained. However, the PRC Company Law provides that in relation to the public offering of a company, the shares of that company which are issued prior to the public offering shall not be transferred within one year from the date of listing. Therefore, upon obtaining the requisite approval, our Domestic Unlisted Shares may be traded, after the conversion, in the form of H Shares on the Hong Kong Stock Exchange one year after the Global Offering, which at that time could further increase the number of our H Shares available in the market and may negatively impact the market price of our H Shares.

RISKS RELATING TO THE GLOBAL OFFERING

There has been no prior public market for our Shares, and their liquidity and market price may be volatile.

There was no public market for our H Shares prior to the Global Offering. There can be no guarantee that a public market for our H Shares with adequate liquidity and trading volume will develop and be sustained following the completion of the Global Offering. In addition, the Offer Price of our H Shares is expected to be fixed by agreement between the Overall Coordinators (for themselves and on behalf of the Underwriters) and us, which may not be indicative of the market price of our H Shares following the completion of the Global Offering. If an active public market for our H Shares does not develop following the completion of the Global Offering, the market price and liquidity of our H Shares may be materially and adversely affected.

RISK FACTORS

The liquidity, trading volume and market price of our H Shares following the Global Offering may be volatile, which could result in substantial losses to investors.

The price at which our H Shares will trade after the Global Offering will be determined by the marketplace, which may be affected by various factors beyond our control, including:

- our financial performance;
- changes in securities analysts' estimates, if any, of our financial performance;
- the history of, and the prospects for, ourselves and the industry in which we operate;
- an assessment on the prospects for, and timing of, our future revenue and cost structures that independent research analysts may publish, if any;
- the present state of our development;
- the valuation of publicly traded companies that are engaged in business activities similar to ours;
- general market sentiment regarding the rice, whole grain, bean and seed industry and the companies within the industry;
- changes in laws and regulations of China;
- our actual or perceived failure to compete effectively in the market; and
- political, economic, financial and social conditions.

In addition, the Hong Kong Stock Exchange has from time to time experienced significant volatility in trading prices and volumes that have affected the market prices of securities of companies quoted on the Hong Kong Stock Exchange. As a result, investors in our H Shares may experience volatility in the market price of their H Shares and a decrease in the value of their H Shares regardless of our operating performance or prospects.

RISK FACTORS

Since there will be a gap of several days between the pricing and trading of our H Shares, holders of our H Shares are subject to the risk that the price of our H Shares could fall during this period before the trading of our H Shares begins.

The initial price of our Shares sold to the public in the Global Offering is expected to be determined on the Price Determination Date. However, the Shares will not commence trading on the Stock Exchange until they are delivered, which is expected to be several Business Days after the Price Determination Date. As a result, investors may not be able to sell or otherwise deal in the Shares during that period. Accordingly, holders of our Shares are subject to the risk that the price of the Shares when trading begins could be lower than the Offer Price as a result of adverse market conditions or other adverse developments that may occur between the time of sale and the time trading begins.

Our Controlling Shareholders Group has substantial influence over our Group and its interests may not be aligned with the interests of our other Shareholders.

Our Controlling Shareholders have significant influence in determining the outcome of any corporate transaction or other matter submitted to the Shareholders for approval, including but not limited to mergers, privatizations, consolidations and the sale of all, or substantially all, of our assets, election of directors, and other significant corporate actions. Immediately following the completion of the Global Offering, the Controlling Shareholders Group will be together entitled to control the exercise of approximately 66.50% of the voting rights and thus remain as a group of Controlling Shareholders of our Company. The interests of our Controlling Shareholders Group might differ from the interests of our other Shareholders. In the event that our Controlling Shareholders Group cause us to pursue strategic objectives that conflict with the interests of our other Shareholders, our other Shareholders could be disadvantaged and their interests could be damaged. Any conflict of interest between our Controlling Shareholders Group and our other Shareholders may also materially and adversely affect the aspects such as the decision and implementation of our business plans, which may in turn affect our operations and prospects.

We cannot assure you when, whether and in what form or size we will pay dividends in the future.

Our ability to pay dividends will depend on whether we are able to generate sufficient earnings. Distributions of dividends shall be decided by our Board of Directors at their discretion and will be subject to the approval of the general meeting. A decision to declare or to pay dividends and the amount thereof depend on various factors, including but not limited to our results of operations, cash flows and financial position, operating and capital expenditure requirements, distributable profits as determined under PRC GAAP or IFRSs (whichever is lower), our Articles of Association and other constitutional documents, the PRC Company Law and any other applicable laws and regulations in China, market conditions, our strategy and projection for our business, contractual restrictions and obligations, taxation, regulatory restrictions and any other factors from time to time deemed by our Board of Directors as relevant to the declaration or suspension of dividends. As a result, there can be no assurance whether, when and in what form we will pay dividends in the future. Subject to any of the above constraints, we may not be able to pay dividends in accordance with our dividend policy.

RISK FACTORS

Should the Offer Price be higher than the net tangible book value per Share, subject to pricing, you may experience an immediate dilution in the book value of the Offer Shares you purchased in the Global Offering and may experience further dilution if we issue additional Shares in the future.

The Offer Price of the Offer Shares may be higher than the net tangible book value per Share immediately prior to the Global Offering. As a result, you and other purchasers of the Offer Shares in the Global Offering may experience an immediate dilution to a pro forma net tangible asset value of HK\$3.39 per Share, based on the Maximum Offer Price of HK\$15.8 per Share.

WAIVERS FROM STRICT COMPLIANCE WITH THE LISTING RULES

In preparation of the Global Offering, we have sought the following waivers from strict compliance with certain provisions of the Listing Rules.

WAIVER IN RELATION TO MANAGEMENT PRESENCE IN HONG KONG

Pursuant to Rule 8.12 of the Listing Rules, our Company must have sufficient management presence in Hong Kong, which normally means that at least two executive directors must be ordinarily resident in Hong Kong. Rule 19A.15 of the Listing Rules further provides that the requirement in Rule 8.12 may be waived by having regard to, among other considerations, the applicant's arrangements for maintaining regular communication with the Hong Kong Stock Exchange.

Given that (i) our core business operations are principally located, managed and conducted in the PRC under the supervision of executive Directors and senior management; and (ii) our executive Directors and senior management principally reside in the PRC, our Company considers that it would be more practical for the executive Directors and senior management of our Company to remain ordinarily resident in the PRC where our Group has substantial operations. For the above reasons, we do not have, and do not contemplate in the foreseeable future that we will have sufficient management presence in Hong Kong for the purpose of satisfying the requirement under Rule 8.12 of the Listing Rules.

Accordingly, we have applied to the Stock Exchange for, and the Stock Exchange has granted us, a waiver from strict compliance with Rule 8.12 of the Listing Rules. We will ensure that there are adequate and efficient arrangements to achieve regular and effective communication between us and the Stock Exchange as well as compliance with the Listing Rules by way of the following arrangements:

- (a) we have appointed Mr. Zou Hao and Ms. Chen Hua as the authorized representatives (the “**Authorized Representatives**”) for the purpose of Rule 3.05 of the Listing Rules, who will act as our principal channel of communication with the Hong Kong Stock Exchange and would be readily contactable by phone, facsimile and email to deal promptly with enquiries from the Hong Kong Stock Exchange. The Authorized Representatives possess valid travel documents and are able to renew such travel documents when they expire in order to visit Hong Kong, and accordingly, they will be available to meet with the Hong Kong Stock Exchange to discuss any matters on short notice;
- (b) To facilitate communication with the Stock Exchange, we have provided the Authorized Representatives and the Stock Exchange with the contact details of our Directors (i.e. mobile phone number, office phone number, email address and fax number (as applicable)). In the event that any of our Director expects to travel or otherwise be out of office, he or she will provide the phone number of the place of his/her accommodation to the Authorized Representatives, so that the Authorized Representatives would be able to contact all our Directors (including the proposed independent non-executive Directors) promptly at all times if and when the Hong

WAIVERS FROM STRICT COMPLIANCE WITH THE LISTING RULES

Kong Stock Exchange wishes to contact our Directors. To the best of our knowledge and information, each Director who is not ordinarily resident in Hong Kong possesses or can apply for valid travel documents to visit Hong Kong and can meet with the Stock Exchange within a reasonable period after requested by the Stock Exchange; and

- (c) we have appointed Gram Capital Limited as our compliance adviser (the “**Compliance Adviser**”) in compliance with Rules 3A.19 and 19A.05 of the Listing Rules. The Compliance Adviser will, among other things and in addition to the Authorized Representatives, provide us with professional advice on continuing obligations under the Listing Rules and act as additional channel of communication of our Company with the Stock Exchange during the period from the Listing Date to the date on which our Company complies with Rule 13.46 of the Listing Rules in respect of its financial results for the first full financial year immediately after the Listing. The Compliance Adviser will be available to answer enquiries from the Stock Exchange and will act as an additional channel of communication with the Stock Exchange when the Authorized Representatives are not available.

WAIVER IN RELATION TO JOINT COMPANY SECRETARIES

Rule 8.17 of the Listing Rules provides that our Company must appoint a company secretary who satisfies the requirements under Rule 3.28 of the Listing Rules. According to Rule 3.28 of the Listing Rules, our Company must appoint an individual, who, by virtue of her academic or professional qualifications or relevant experience, is, in the opinion of the Stock Exchange, capable of discharging the functions of company secretary. Pursuant to Note 1 to Rule 3.28 of the Listing Rules, the Stock Exchange considers the following academic or professional qualifications to be acceptable:

- (a) a member of The Hong Kong Chartered Governance Institute;
- (b) a solicitor or barrister (as defined in the Legal Practitioners Ordinance (Chapter 159 of the Laws of Hong Kong)); and
- (c) a certified public accountant (as defined in the Professional Accountants Ordinance (Chapter 50 of the Laws of Hong Kong)).

In addition, pursuant to Note 2 to Rule 3.28 of the Listing Rules, in assessing “relevant experience”, the Stock Exchange will consider the individual’s:

- (a) length of employment with the issuer and other issuers and the roles they played;
- (b) familiarity with the Listing Rules and other relevant laws and regulations including the Securities and Futures Ordinance, Companies Ordinance, Companies (Winding Up and Miscellaneous Provisions) Ordinance and the Takeovers Code;

WAIVERS FROM STRICT COMPLIANCE WITH THE LISTING RULES

- (c) relevant training taken and/or to be taken in addition to the minimum requirement under Rule 3.29 of the Listing Rules; and
- (d) professional qualifications in other jurisdictions.

We have appointed Ms. Chen Hua (“**Ms. Chen**”) as one of the joint company secretaries of our Company. Ms. Chen currently serves as the Board Secretary of the Company and has substantial experience in handling corporate, legal and regulatory compliance and administrative matters but personally does not possess any of the qualifications under Rules 3.28 and 8.17 of the Listing Rules and may not be able to solely fulfill the requirements of the Listing Rules. Therefore, our Company has appointed Ms. Oh Sim Yee (“**Ms. Oh**”), an associate member of The Hong Kong Chartered Governance Institute and The Chartered Governance Institute in the United Kingdom, who fully meets the requirements stipulated under Rules 3.28 and 8.17 of the Listing Rules to act as one of our joint company secretaries and to provide assistance to Ms. Chen for an initial period of three years from the Listing Date to enable Ms. Chen to acquire the “relevant experience” under Note 2 to Rule 3.28 of the Listing Rules so as to fully comply with the requirements set forth under Rules 3.28 and 8.17 of the Listing Rules. See “Directors, Supervisors and Senior Management” in this prospectus for further biographical details of Ms. Chen and Ms. Oh. The following arrangements have been, or will be, put in place to assist Ms. Chen in acquiring the qualifications and experience as the company secretary of our Company required under Rule 3.28 of the Listing Rules:

- (a) Ms. Chen will endeavor to attend relevant training courses, including briefings on the latest changes to the relevant applicable Hong Kong laws and regulations and the Listing Rules which will be organized by our Company’s Hong Kong legal advisers on an invitation basis and seminars organized by the Stock Exchange for listed issuers from time to time;
- (b) Both Ms. Chen and Ms. Oh have confirmed that each of them will be attending a total of no less than 15 hours of training courses on the Listing Rules, corporate governance, information disclosure, investors relation as well as the functions and duties of the company secretary of a Hong Kong listed issuer during each financial year as required under Rule 3.29 of the Listing Rules;
- (c) Ms. Oh will assist Ms. Chen to enable her to acquire the relevant experience (as required under Rule 3.28 of the Listing Rules) to discharge the duties and responsibilities as the company secretary of our Company;
- (d) Ms. Oh will communicate regularly with Ms. Chen on matters relating to corporate governance, the Listing Rules and any other laws and regulations which are relevant to our Company and its affairs. Ms. Oh will work closely with, and provide assistance to, Ms. Chen in the discharge of her duties as a company secretary, including organizing our Company’s Board meetings and Shareholders’ general meetings;

WAIVERS FROM STRICT COMPLIANCE WITH THE LISTING RULES

- (e) Prior to the expiry of Ms. Chen's initial term of appointment as the company secretary of our Company, we will evaluate her experience in order to determine if she has acquired the qualifications required under Rules 3.28 of the Listing Rules, and whether on-going assistance should be arranged so that Ms. Chen's appointment as the company secretary of our Company continues to satisfy the requirements under Rules 3.28 and 8.17 of the Listing Rules; and
- (f) The Company has appointed Gram Capital Limited as its Compliance Adviser pursuant to Rules 3A.19 of and 19A.05 the Listing Rules which will act as the additional communication channel with the Stock Exchange (for a period commencing on the Listing Date and ending on the date on which the Company complies with Rule 13.46 of the Listing Rules in respect of its financial results for the first full financial year after the Listing Date, or until the engagement is terminated, whichever is earlier) and provide professional guidance and advice to the Company (including Ms. Chen) as to the compliance with the Listing Rules and all other applicable laws and regulations.

Accordingly, we have applied to the Stock Exchange for, and the Stock Exchange has granted us, a waiver from strict compliance with Rules 3.28 and 8.17 of the Listing Rules. Such waiver will be revoked immediately if and when (i) Ms. Chen ceases to be assisted by a person with qualifications under Rules 3.28 and 8.17 of the Listing Rules, or (ii) if there are material breaches of the Listing Rules by us. We will liaise with the Stock Exchange before the end of the three-year period to enable it to assess whether Ms. Chen, having had the benefit of Ms. Oh's assistance for three years, will have acquired relevant experience within the meaning of Rule 3.28 of the Listing Rules so that a further waiver will not be necessary.

WAIVER IN RELATION TO PUBLIC FLOAT

Rule 8.08(1)(a) of the Listing Rules requires that there must be an open market for the securities for which listing is sought, and that a sufficient public float of an issuer's listed securities shall be maintained. Generally, at least 25% of an issuer's total issued share capital must at all times be held by the public. Pursuant to Rule 8.08(1)(d) of the Listing Rules, the Stock Exchange may, subject to certain conditions and at its discretion, accept a lower percentage of between 15% and 25% in the case of issuers with an expected market capitalization at the time of listing of over HK\$10 billion.

Based on the minimum Offer Price of HK\$13.0 per H Share and assuming that the Conversion of Domestic Unlisted Shares into H Shares is completed, the Company expects that its market capitalization at the time of the Listing will be higher than HK\$10 billion.

WAIVERS FROM STRICT COMPLIANCE WITH THE LISTING RULES

Accordingly, we have applied to the Stock Exchange to exercise its discretion under Rule 8.08(1)(d) of the Listing Rules to grant, and the Stock Exchange has granted, a waiver from strict compliance with the minimum public float requirement under Rule 8.08(1)(a) of the Listing Rules so that the minimum percentage of the Shares from time to time to be held by the public will be 15.7% of the total issued share capital of our Company (including the H Shares to be converted from Domestic Unlisted Shares and held by the Pre-IPO Investors, and assuming the Conversion of Domestic Unlisted Shares into H Shares is completed).

In support for the application of the waiver, we have confirmed to the Stock Exchange that:

- (a) we have an expected market capitalization at the time of Listing of over HK\$10 billion;
- (b) there will be an open market in the H Shares offered, and the quantity and scale of the H Shares would enable the market to operate properly with a lower percentage of public float;
- (c) we will make appropriate disclosure of the lower prescribed percentage of public float as approved by the Stock Exchange in this prospectus;
- (d) we will implement appropriate measures and mechanisms to ensure continuous maintenance of the minimum public float prescribed by the Stock Exchange; and
- (e) we will confirm sufficiency of public float in our successive annual reports after the Listing.

INFORMATION ABOUT THIS PROSPECTUS AND THE GLOBAL OFFERING

DIRECTORS' RESPONSIBILITY FOR THE CONTENTS OF THIS PROSPECTUS

This prospectus, for which our Directors (including any proposed director who is named as such in this prospectus) collectively and individually accept full responsibility, includes particulars given in compliance with the Companies (Winding up and Miscellaneous Provisions) Ordinance, the Securities and Futures (Stock Market Listing) Rules (Chapter 571V of the Laws of Hong Kong) and the Listing Rules for the purpose of giving information to the public with regard to us. Our Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in this prospectus is accurate and complete in all material respects and not misleading or deceptive, and there are no other facts the omission of which would make this prospectus or any statement in this prospectus misleading.

CSRC FILING REQUIREMENT

The CSRC issued notice of filing on May 30, 2023 for the Global Offering and for the submission of the application to list our H Shares on the Hong Kong Stock Exchange. In granting its notice of filing, the CSRC accepts no responsibility for our financial soundness, nor for the accuracy of any of the statements made or opinions expressed in this prospectus or in the **GREEN** Application Forms.

UNDERWRITING

This prospectus is published solely in connection with the Hong Kong Public Offering which forms part of the Global Offering. For applicants under the Hong Kong Public Offering, this prospectus and the related **GREEN** Application Form contain the terms and conditions of the Hong Kong Public Offering. The Global Offering comprises the Hong Kong Public Offering of initially 5,341,200 H Shares and the International Offering of initially 48,066,300 H Shares (subject, in each case, to reallocation on the basis described in the section headed "Structure of the Global Offering" in this prospectus).

The listing of the Offer Shares on the Hong Kong Stock Exchange is sponsored by the Joint Sponsors. Pursuant to the Hong Kong Underwriting Agreement, the Hong Kong Public Offering is underwritten by the Hong Kong Underwriters on a conditional basis, with one of the conditions that the Offer Price is agreed between the Overall Coordinators (on behalf of the Hong Kong Underwriters) and us. The International Offering is managed by the Overall Coordinators and is underwritten by the International Underwriters. The International Underwriting Agreement is expected to be entered into on or about the Price Determination Date, subject to agreement on the Offer Price between the Company and the Overall Coordinators (on behalf of the Hong Kong Underwriters). If, for any reason, the Offer Price is not agreed between the Company and the Overall Coordinators (on behalf of the Hong Kong Underwriters) on or before the Price Determination Date, or such later date or time as may be agreed between the Overall Coordinators (on behalf of the Hong Kong Underwriters) and the Company, the Global Offering will not proceed. Further details about the Underwriters and the underwriting arrangements are contained in the section headed "Underwriting" in this prospectus.

INFORMATION ABOUT THIS PROSPECTUS AND THE GLOBAL OFFERING

DETERMINATION OF THE OFFER PRICE

The Offer Shares are being offered at the Offer Price which the Overall Coordinators (on behalf of the Hong Kong Underwriters) and the Company will determine on or around Thursday, October 5, 2023, and in any event no later than on or before Friday, October 6, 2023.

If the Overall Coordinators (on behalf of the Hong Kong Underwriters) and the Company are unable to reach an agreement on the Offer Price on or before the Price Determination Date, or such later date or time as may be agreed between the Overall Coordinators (on behalf of the Hong Kong Underwriters) and the Company, the Global Offering will not become unconditional and will lapse.

RESTRICTIONS ON OFFER AND SALE OF SHARES

No action has been taken to permit a Hong Kong Public Offering of the Offer Shares or the general distribution of this prospectus and/or the **GREEN** Application Form in any jurisdiction other than Hong Kong. Accordingly, this prospectus may not be used for the purposes of, and does not constitute, an offer or invitation in any jurisdiction or in any circumstances in which such an offer or invitation is not authorized or to any person to whom it is unlawful to make such an offer or invitation. The distribution of this prospectus and the offering and sales of the Offer Shares in other jurisdictions are subject to restrictions and may not be made except as permitted under the applicable securities laws of such jurisdictions pursuant to registration with or authorization by the relevant securities regulatory authorities or an exemption therefrom. Each person acquiring the Hong Kong Offer Shares under the Hong Kong Public Offering will be required to confirm, or be deemed by his acquisition of Hong Kong Offer Shares to confirm, that he is aware of the restrictions on offers and sales of the Offer Shares described in this prospectus. In particular, the Offer Shares have not been offered or sold, and will not be offered or sold, directly or indirectly, in the PRC.

The Offer Shares are offered for subscription solely on the basis of the information contained and representations made in this prospectus and **GREEN** Application Form, and on the terms and subject to the conditions set out herein and therein. No person is authorized in connection with the Global Offering to give any information, or to make any representation not contained in this prospectus, and any information or representation not contained in this prospectus must not be relied upon as having been authorized by the Company, the Joint Sponsors, the Overall Coordinators, the Joint Global Coordinators, the Joint Bookrunners, the Joint Lead Managers, the Underwriters, the Capital Market Intermediaries, any of their respective directors, officers, employees, agents, affiliates or advisers or any other persons or parties involved in the Global Offering. For further details of the structure of the Global Offering, including its conditions, and the procedures for applying for Hong Kong Offer Shares, see the sections headed “Structure of the Global Offering”, “How to Apply for Hong Kong Offer Shares” in this prospectus and the **GREEN** Application Form.

INFORMATION ABOUT THIS PROSPECTUS AND THE GLOBAL OFFERING

APPLICATION FOR LISTING ON THE HONG KONG STOCK EXCHANGE

We have applied to the Listing Committee for the granting of listing of, and permission to deal in, (i) our H Shares to be issued pursuant to the Global Offering, and (ii) the H Shares to be converted from our existing Domestic Unlisted Shares. Dealings in the H Shares on the Hong Kong Stock Exchange are expected to commence on Thursday, October 12, 2023. No part of our H Shares is listed on or dealt in on any other stock exchange, and no such listing or permission to list is being or proposed to be sought in the near future.

The H Shares will be traded in board lot of 300 H Shares. The stock code of the H Shares is 9676.

Under section 44B(1) of the Companies (Winding Up and Miscellaneous Provisions) Ordinance, any allotments made in respect of any applications will be invalid if the listing of, and permission to deal in, the Offer Shares on the Hong Kong Stock Exchange is refused before the expiration of three weeks from the date of the closing of the application lists, or such longer period (not exceeding six weeks) as may, within the said three weeks, be notified to the Company by the Hong Kong Stock Exchange.

COMPLIANCE WITH LISTING RULES

We will comply with applicable laws and regulations in Hong Kong (including the Listing Rules) and any other undertakings which have been given in favor of the Hong Kong Stock Exchange from time to time. If the Listing Committee finds that there has been a breach by us of the Listing Rules or such other undertakings which may have been given by us in favor of the Hong Kong Stock Exchange from time to time, the Listing Committee may instigate cancellation or disciplinary proceedings in accordance with the Listing Rules.

REGISTRATION OF SUBSCRIPTION, PURCHASE AND TRANSFER OF H SHARES

We have instructed the H Share Registrar, and the H Share Registrar has agreed, not to register the subscription, purchase or transfer of any H Shares in the name of any particular holders unless the holder delivers a signed form to the H Share Registrar in respect of those H Shares bearing statements to the effect that the holder:

- (i) agrees with us and each of our Shareholders, and we agree with each Shareholder, to observe and comply with the PRC Company Law, and our Articles of Association;
- (ii) agrees with us, each of our Shareholders, Directors, Supervisors, managers and officers, and we, acting for ourselves and for each of our Directors, Supervisors, managers and officers agree with each Shareholder, to refer all differences and claims arising from our Articles of Association or any rights or obligations conferred or imposed by the Company Law or other relevant laws and administrative regulations concerning our affairs to arbitration, and any reference to arbitration shall be deemed to authorize the arbitration tribunal to conduct hearings in open session and to publish its award, which shall be final and conclusive;

INFORMATION ABOUT THIS PROSPECTUS AND THE GLOBAL OFFERING

- (iii) agrees with us and each of our Shareholders that our H Shares are freely transferable by the holders of our H Shares; and
- (iv) authorizes us to enter into a contract on his or her behalf with each of our Directors, Supervisors, managers and officers whereby such Directors, Supervisors, managers and officers undertake to observe and comply with their obligations to our Shareholders as stipulated in our Articles of Association. Persons applying for or purchasing H Shares under the Global Offering are deemed, by their making of an application or purchase, to have represented that they are not Associates of any of our Directors or existing Shareholder or a nominee of any of the foregoing.

H SHARE REGISTER AND STAMP DUTY

All H Shares issued pursuant to applications made in the Hong Kong Public Offering and the International Offering will be registered on the Company's H Share register of members to be maintained by our H Share Registrar, Tricor Investor Services Limited, in Hong Kong. We will maintain the Company's principal register of members at our current registered office in the PRC.

Dealings in our H Shares registered in the H Share register of members of the Company in Hong Kong will be subject to Hong Kong stamp duty. See "Appendix III – Taxation and Foreign Exchange" for further details.

H SHARES WILL BE ELIGIBLE FOR ADMISSION INTO CCASS

Subject to the granting of listing of, and permission to deal in, our H Shares on the Hong Kong Stock Exchange and our compliance with the stock admission requirements of HKSCC, our H Shares will be accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the date of commencement of dealings in our H Shares on the Hong Kong Stock Exchange or any other date as HKSCC chooses. Settlement of any transactions between participants of the Hong Kong Stock Exchange is required to take place in CCASS on the second settlement day after any trading day. All activities under CCASS are subject to the General Rules of CCASS and CCASS Operational Procedures in effect from time to time. Investors should seek the advice of their stockbroker or other professional advisers for details of the settlement arrangements as such arrangements may affect their rights and interests. All necessary arrangements have been made for our H Shares to be admitted into CCASS.

PROFESSIONAL TAX ADVICE RECOMMENDED

Applicants for the Offer Shares are recommended to consult their professional advisers if they are in any doubt as to the taxation implications of subscribing for, purchasing, holding, disposing of and dealing in our H Shares or exercising rights attached to them. None of the Company, the Underwriters, the Joint Sponsors, the Overall Coordinators, the Joint Global Coordinators, the Joint Bookrunners, the Joint Lead Managers, the Capital Market

INFORMATION ABOUT THIS PROSPECTUS AND THE GLOBAL OFFERING

Intermediaries, any of their respective directors, supervisors, officers, employees, agents or advisers or any other persons involved in the Global Offering accepts responsibility for any tax effects or liabilities of holders of Shares resulting from the subscription, purchase, holding or disposal of, or dealing in, our H Shares.

PROCEDURES FOR APPLICATION FOR HONG KONG OFFER SHARES

INDUSTRY OVERVIEW

*The information and statistics set out in this section and other sections of this prospectus were extracted from the report prepared by Frost & Sullivan (the “**Frost & Sullivan Report**”), which was commissioned by us, and from various official government publications and other publicly available publications. We engaged Frost & Sullivan to prepare the Frost & Sullivan Report, an independent industry report, in connection with the Global Offering. The information from official government sources has not been independently verified by us, the Joint Sponsors, the Overall Coordinators, the Capital Market Intermediaries, the Joint Global Coordinators, the Joint Bookrunners, the Joint Lead Managers, the Underwriters or any of their respective directors and advisers, or any other persons or parties involved in the Global Offering, and no representation is given as to its accuracy.*

I. OVERVIEW OF CHINA’S PANTRY STAPLE FOOD INDUSTRY

Pantry staple food refers to raw food materials, such as rice, whole grain, bean and seed, flour, dried food and corn, that are used for cooking. The demand for pantry staple food is relatively stable and therefore has no clear cyclical fluctuations.

According to the Frost & Sullivan Report, pantry staple food can be divided into several different categories in China, in particular:

- The rice product segment is the largest of the pantry staple food market with a market size of RMB723.4 billion, accounting for 38.8% of the overall market size in 2022, and is expected to further reach RMB791.8 billion in 2027, representing a CAGR of 1.8% from 2022 to 2027;
- The flour product segment and corn product segment are the second and fourth largest segments of the pantry staple food market with market sizes of RMB426.8 billion and RMB191.5 billion, respectively, accounting for 22.9% and 10.3% of the total pantry staple food market size in 2022, respectively, and are expected to further reach RMB481.4 billion and RMB258.9 billion, respectively, in 2027, representing a CAGR of 2.4% and 6.2% from 2022 to 2027, respectively;
- The whole grain product segment and the bean and seed product segment are the third and sixth largest of the pantry staple food market with a collective market size of RMB350.4 billion, accounting for 18.8% of the total pantry staple food market size in 2022, and is expected to further reach RMB473.2 billion in 2027, representing a CAGR of 6.2% from 2022 to 2027; and
- The dried food product segment is the fifth largest segment of the pantry staple food market with a market size of RMB170.3 billion, accounting for 9.1% of the total pantry staple food market size in 2022, and is expected to further reach RMB190.4 billion in 2027, representing a CAGR of 2.3% from 2022 to 2027.

INDUSTRY OVERVIEW

Driven by increasing disposable income per capita and consumption upgrade, China's pantry staple food industry has grown steadily. According to Frost & Sullivan, in terms of revenue, the market size of the pantry staple food industry increased from RMB1,651.0 billion in 2018 to RMB1,862.3 billion in 2022, representing a CAGR of 3.1% from 2018 to 2022, and is expected to reach RMB2,195.7 billion by 2027, with a CAGR of 3.3% from 2022 to 2027. The increasing demand in the market has encouraged the growth of a larger variety of brands and products. In addition, the rapid growth of online channels, the emergence of grocery retail channels, and the digital transformation of traditional channels, have significantly improved consumers' purchasing experiences and further diversified consumption scenarios, thereby promoting the continuous growth of China's pantry staple food industry.

Based on package specification, rice, whole grain, and bean and seed products can be further divided into pre-packaged products and bulk products. Pre-packaged products have become more popular among consumers, mainly due to their portability and better preservation of quality, freshness and taste. With the rising disposable income per capita, Chinese consumers have become more conscious of food quality. Therefore, more consumers tend to purchase pre-packaged rice, whole grain, and bean and seed products, boosting a much higher growth rate in the pre-packaged market. According to the Frost & Sullivan Report, in terms of revenue, the market size of the pre-packaged rice, whole grain, and bean and seed industry increased from RMB150.5 billion in 2018 to RMB208.6 billion in 2022, representing a CAGR of 8.5% from 2018 to 2022, and is expected to further reach RMB324.9 billion by 2027, with a CAGR of 9.3% from 2022 to 2027.

Sales channels of China's rice, whole grain, and bean and seed industry can be divided into four major channels: online channels, grocery retail channels, traditional channels and other channels.

- Online channels mainly include comprehensive e-commerce platforms, social e-commerce platforms, community group buying platforms and B2B e-commerce channels.
- Grocery retail channels mainly include modern supermarkets, hypermarkets and chain convenience stores.
- Traditional channels include grain and oil wholesale shops and traditional farmers' markets.
- Other channels mainly refer to channels through which products are sold to direct customers such as catering companies.

Online channels and grocery retail channels are more popular among consumers due to a more convenient purchasing experience and diversified products portfolio, and therefore have a higher growth rate compared to traditional channels.

II. OVERVIEW OF CHINA'S PRE-PACKAGED RICE INDUSTRY

In China, rice refers to the edible commercial rice made from paddy, husked rice or semi-finished rice which has been processed to remove some or all of its skin layers. Along the value chain of the rice industry, the upstream mainly refers to the cultivation of paddy with major participants including paddy farmers or enterprises, the midstream mainly refers to rice production, transportation and storage; and the downstream mainly refers to the distribution and sale of rice.

Based on package specification, rice products can be divided into pre-packaged products and bulk products. In particular, pre-packaged rice refers to products that have been packaged before being sold, which are suitable for direct sale, instead of being split for sale. The product weight of pre-packaged rice generally does not exceed 25kg. Pre-packaged rice products have become popular among consumers due to its portability and better preservation of quality, freshness and taste. According to the Frost & Sullivan Report, China's pre-packaged rice market is growing rapidly, with its market size increasing from RMB107.4 billion in 2018 to RMB129.2 billion in 2022, representing a CAGR of 4.7%, and is expected to reach RMB164.1 billion in 2027, representing a CAGR of 4.9% from 2022 to 2027.

Based on product positioning, the pre-packaged rice market can be further divided into pre-packaged premium rice and pre-packaged regular rice. Pre-packaged premium rice refers to pre-packaged rice with a broken kernel rate of no more than 15% and with a retail price that is at least 10% higher than the industry average. Compared to pre-packaged regular rice, pre-packaged premium rice usually has a more delicate taste and higher nutritional value attributable to its favorable growing environment, refined cultivation management and standardized manufacturing process. In 2022, the average retail price of pre-packaged premium rice was more than RMB7.4 per kg, while the average retail price of pre-packaged regular rice was approximately RMB6.6 per kg.

Benefiting from the increase in disposable income per capita, consumption upgrade and the inclination towards branded products, the demand for pre-packaged premium rice has been strong in recent years. As a result, the growth rate of pre-packaged premium rice market is significantly higher than China's overall pre-packaged rice market. In terms of revenue, the market size of China's pre-packaged premium rice market grew from RMB46.4 billion in 2018 to RMB65.0 billion in 2022, representing a CAGR of 8.8%, and is expected to reach RMB91.4 billion in 2027, representing a CAGR of 7.1% from 2022 to 2027. Such rapid growth trend of pre-packaged premium rice market has demonstrated that the premiumization trend in the rice industry is becoming increasingly prominent.

According to the Frost & Sullivan Report, the cultivation area of rice in China can be divided into five major regions: Northeast China, East China, Central China, Southwest China and others, which include South China, Northwest China and North China. Benefiting from the unique growing environment such as black soil and long cultivation period, the Northeast Rice products, which refer to rice originating from Northeast China, are generally perceived to have a superior taste, fresh rice fragrance, fuller grain, and a chewy and slightly sticky, soft and sweet texture. Thus, pre-packaged Northeast Rice has been enjoying a leading market position with strong growth momentum and premium price. In 2022, pre-packaged Northeast Rice ranked first in terms of revenue with a market share of 43.6%, and have maintained the highest revenue CAGR among all production regions during 2018 to 2022 according to Frost & Sullivan. The industry average selling price of pre-packaged premium rice products produced from paddy grown in Northeast China was approximately RMB6.0/kg, RMB6.1/kg and RMB6.1/kg in 2020, 2021 and 2022 respectively, higher than the average selling price of the overall rice products in China, which was around RMB4.9/kg, RMB5.0/kg and RMB5.0/kg in 2020, 2021 and 2022, respectively. In terms of revenue, the market size of the pre-packaged Northeast Rice market increased from RMB41.8 billion in 2018 to RMB56.3 billion in 2022, representing a CAGR of 7.7%, and is expected to reach RMB77.6 billion in 2027, representing a CAGR of 6.6% from 2022 to 2027. The market size of China's pre-packaged retail market for Northeast Rice products has grown significantly from RMB22.6 billion in 2018 to RMB36.2 billion in 2022 in terms of revenue at a CAGR of 12.5%, and is expected to grow at a 9.9% CAGR to reach RMB58.0 billion in 2027, demonstrating strong growth momentum within the retail market, which in term is attributable to its capability to meet consumers' upgrading demands and providing more convenient purchasing experiences.

III. OVERVIEW OF CHINA'S PRE-PACKAGED WHOLE GRAIN, AND BEAN AND SEED INDUSTRY

Whole grain products refer to processed products of other food grains, which usually refer to raw grains other than the paddy, wheat, corn and soybean. Other food grains can be categorized into two major categories, namely cereal (such as millet, sorghum, barley and buckwheat) and potato. Bean and seed products refer to seeds of leguminous herbs and edible oilseeds, including black beans, red beans, sesame and peanuts. Benefiting from increasingly advanced processing technologies that lead to lower loss rates and higher yield rates, the production output of whole grain, and bean and seed products has continued to grow in the last three years. Meanwhile, consumers' increasing health awareness and growing attention to a more balanced diet structure have further fueled the growth of the whole grain, and bean and seed industry.

Based on package specification, whole grain, bean and seed products can be divided into pre-packaged products and bulk products. Pre-packaged products refers to products that have been packaged before being sold, which are suitable for direct sale to end-consumers, and not suitable to be split for sale. Generally, the weight of pre-packaged whole grain, and bean and seed products does not exceed 25kg. The increasingly standardized production processes of pre-packaged whole grain, bean and seed products can better fulfill consumers' demands for

IV. GROWTH DRIVERS AND TRENDS IN THE PRE-PACKAGED RICE, WHOLE GRAIN, AND BEAN AND SEED INDUSTRY

Increased popularity of pre-packaged products. Consumers' consumption habits have gradually changed from purchasing bulk products to pre-packaged products, due to their portability and better preservation of quality, freshness and taste. Therefore, pre-packaged rice, whole grain, bean and seed products have become more popular among consumers with diversified consumption scenarios. In terms of revenue, the market size of pre-packaged rice, whole grain, and bean and seed products compared to the market size of China's overall rice, whole grain, and bean and seed products increased from 14.9% in 2018 to 19.4% in 2022 and is expected to increase to 25.7% in 2027. In comparison to the corresponding 52.9% and 41.8% market share in Japan and South Korea in 2022, respectively, China's pre-packaged rice, whole grain, and bean and seed market entails large potentials and promises sustainable development.

According to the Frost & Sullivan Report, China's per capita disposable income is expected to increase from RMB36,883 in 2022 to RMB52,849 in 2027, with a CAGR of 7.5% from 2022 to 2027. Driven by the growing per capita disposable income and consumption upgrade, Chinese consumers are increasingly valuing nutrition, quality, freshness and taste when making purchasing decisions, and are willing to pay a higher price for quality products.

INDUSTRY OVERVIEW

The market size of pre-packaged premium rice market compared to the overall market size of pre-packaged rice market in term of revenue increased from 43.2% in 2018 to 50.4% in 2022 and is expected to reach 55.7% in 2027.

Inclination toward branded products. Brand loyalty and consumer stickiness are vital as the rice, whole grain, and bean and seed industry has undergone and is expected to continuously experience upgrades and developments including higher consumer needs for premium, healthy and fresh products, inclination towards branded products, and the evolving retail landscape. Enterprises with continuously updated and diversified product offerings are expected to excel, thus further driving the growth of brands and the completion of a virtuous cycle. China's pre-packaged rice, whole grain, and bean and seed market is highly fragmented, with the top five companies accounting for an 8.9% market share in terms of revenue in 2022; in comparison, the top five companies in the edible oil, flour and condiment markets accounted for approximately 60%, 21% and 15% market share, respectively.

Evolving sales channel landscape. Online and offline sales channels of the rice, whole grain, and bean and seed industry are expected to integrate, enabling enterprises with multichannel sales network operation capabilities to achieve an economic moat. Compared to traditional channels, online channels and grocery retail channels can provide more convenient purchasing experiences with more diversified products. Thus, such channels have become more popular among consumers, especially among the younger generation. In terms of revenue, the CAGRs from 2022 to 2027 of online channels and grocery retail channels in the rice, whole grain, and bean and seed market are 15.3% and 13.1%, respectively, which far exceed the CAGR of 0.7% for traditional channels during the same period. In addition, along with the changes in consumers' consumption habits and the continuous emergence of new sales channels, various retailers are accelerating their digital transformation, continuously integrating their online and offline channels' operation to expand their consumer base.

Favorable regulatory policy. As agricultural industrialization continues to advance, the Chinese government has intensified its support for leading enterprises in the "agriculture, rural areas, and farmers" field. This support aims to enhance the competitiveness, influence, and driving force of agricultural brands, thereby accelerating rural revitalization and upgrading the comprehensive rural industrial chain. To further this goal, the Office of the Ministry of Agriculture and Rural Development has issued the "Agricultural Brand Boutique Cultivation Plan" for 2022-2025. The plan includes an investment of over RMB13 billion to support the National Modern Agricultural Industrial Park through Central Financial Awards, as well as more than RMB9 billion to support township-dominated industries. Leading enterprises are encouraged to collaborate with farmers cooperatives, family farms, and individual farmers. Through the cultivation of agricultural brands, rural rejuvenation is promoted and the modernization of agricultural rural areas is accelerated. This helps to unleash the potentials of agricultural brands.

INDUSTRY OVERVIEW

V. ENTRY BARRIERS FOR THE PRE-PACKAGED RICE, WHOLE GRAIN, AND BEAN AND SEED INDUSTRY

Brand awareness and product reputation. Brand awareness and product reputation have been among the decisive factors that affect consumers' choices. Consumers tend to trust and select rice, whole grain, and bean and seed products with high brand awareness due to their consumption needs for food safety and stable product qualities. This allows companies with high brand awareness to retain and expand their consumer base in the highly fragmented rice, whole grain, and bean and seed industry.

Sales network deployment and channel operation capabilities. Leading players who have entered sales network channels at opportune moment amid sales channel evolution have been able to establish first-mover advantage, accumulate industry insights, and achieve remarkable market penetration with high brand awareness. Leveraging these competitive edges, leading players are able to maintain good relationships with channel partners such as comprehensive e-commerce platforms, NKAs and LKAs, and obtain favorable cooperation terms. In comparison, new entrants to the industry will need to commit more time and resources in building sales networks.

Procurement capabilities in the renowned places of origin for grains. New entrants to the rice, whole grain, and bean and seed industry need to spend a large amount of time and effort to develop procurement capabilities, while leading companies in the industry have achieved first-mover advantages in establishing favorable collaboration with reputable suppliers with stable demand, superior credibility and favorable reputation. In addition, procurement teams with proficient expertise and local knowledge are better able to select and source raw materials to ensure a stable supply of premium rice, whole grain, and bean and seed products.

Supply chain management and control. Even with adequate capital resources, new entrants usually don't have adequate experience in supply chain management. For example, leading market participants are better positioned to achieve high operational efficiency and provide consumers with fresh and premium products via market-driven production planning, flexible supply chain management and effective warehousing and logistics systems. Such capabilities require deep market and consumer insights, robust relationships with suppliers and channel partners, and a wide talent pool with practical experience.

Talent pool. The development of the rice, whole grain, and bean and seed industry relies on a multi-dimensional integration of product development, sales, marketing, supply chain management, and customer service. Such professionalism and industry know-how require long-term commitment, talent pool cultivation, and time-tested expertise and insights accumulated over the years.

INDUSTRY OVERVIEW

Requirement of capital investment. The sourcing of raw ingredients of premium rice, whole grain, and bean and seed products, processing technology and equipment, efficient transportation, and effective marketing all require a large amount of capital investment. Constructing advanced production bases, investing in advanced production equipment and establishing a complete logistics supply system involve a large amount of capital investments, and bolster a competitive strength for market players with capital advantages.

VI. COMPETITIVE LANDSCAPE

VII. RAW MATERIALS AND PRODUCTS

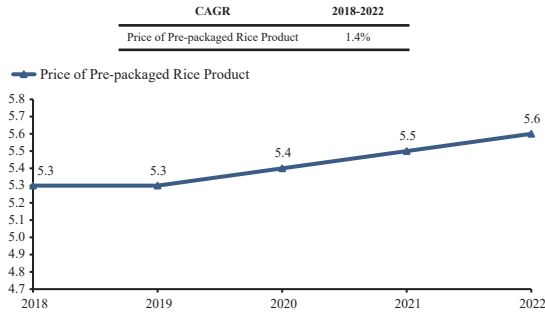

Paddy serves as raw material for pre-packaged rice products. The following charts set forth the average prices of paddy by quarter in China from 2018 to 2022 and the average annual selling prices of pre-packaged rice products in China from 2018 to 2022:

Price Trend of Paddy in China, by Quarter
RMB/kg, 2018-2022

Source: Frost & Sullivan, National Food and Strategic Reserves Administration

Price Trend of Pre-packaged Rice Products in China
RMB/kg, 2018-2022

Source: Frost & Sullivan

INDUSTRY OVERVIEW

According to Frost & Sullivan, the paddy price showed a decreasing trend from 2018 to the end of 2019 mainly attributed to factors such as supply-side reform, adjustment in planting structure, continuous reduction of minimum purchase price, and oversupply in the domestic japonica rice market, and showed an increasing trend in 2020 and the first quarter of 2021 mainly attributed to the outbreak of COVID-19 and heightened feed demand in early 2020, which resulted in rising prices of corn, soybean, and soybean meal in China and in turn led to an increased market demand for paddy as a substitute. After March 2021, the price of paddy showed a decreasing trend mainly due to excess market stock and weakened market demand, and bounced back after March 2022 mainly due to the substantial increase in the market prices for rice, wheat, and corn. According to Frost & Sullivan, the average selling prices of pre-packaged rice products remained relatively stable from 2018 to 2022.

VIII. CONSUMER SURVEY

In October 2022, we commissioned Frost & Sullivan to conduct online questionnaire surveys with 1,500 participants randomly selected across different cities in China to better understand product preferences and the market from a consumer's perspective (the "**Frost & Sullivan 2022 Survey**"). In the Frost & Sullivan 2022 Survey, questions were designed to first effectively filter in participants who have bought or plan to buy rice or whole grain, bean and seed products in the near future, then further narrowed down to consumers who have bought rice or whole grain, bean and seed products from targeted brands, which are believed to be representative consumers of rice, whole grain, bean and seed products. During the process of the consumer survey, Frost & Sullivan was responsible for designing questionnaires, processing data extracted from the interviewee responses and preparing the survey report. The online questionnaires designed by Frost & Sullivan were distributed and collected via open platforms in October 2022 with randomly selected participants to ensure a fair and wide coverage. Such progress was closely monitored to ensure the collection of sufficient effective samples.

Two types of interviewees were included in the Frost & Sullivan 2022 Survey, namely rice products consumers and whole grain, bean and seed products consumers. The actual sample size refers to consumers who have successfully completed all questions of the survey. The numbers of valid samples collected from the survey are set forth below:

- Rice products consumers: 1,500
- Whole grain, bean and seed products consumers: 793 (approximately 53% of consumers participated in two surveys)

There were a total of 1,500 participants, among whom 1,500 consumers participated in the rice product survey and 793 consumers participated in the whole grain, bean and seed product survey. All of the 1,500 participants are effective samples, which are sufficient for the purpose of better understanding the product preferences in the rice, whole grain, bean and seed market from a consumer's perspective and are comparable with similar surveys in other retail industries. Details of the Frost & Sullivan 2022 Survey are set forth below.

INDUSTRY OVERVIEW

Consumer Preferences

- 89.3% and 74.9% of the respondents said they prefer to buy pre-packaged rice products and whole grain, bean and seed products, respectively.
- 62.6% of the respondents said they prefer to buy Northeast Rice because they prefer the texture and taste of rice originating from Northeast China.

Consumer Base

- 81.6% of our consumers were at or under the age of 40.
- 58.7% of our consumers were at or under the age of 35, making up the majority of Shiyue Daotian's consumer base.

Consumer Satisfaction

- Shiyue Daotian is a satisfying and popular brand in China's rice, whole grain, bean and seed market.
- Compared to other rice, whole grain, bean and seed brands, Shiyue Daotian received the highest proportion of consumers, approximately 59%, willing to recommend its products to their relatives and friends, and the highest proportion of consumers, over 60%, intending to repurchase. Its high brand popularity, good taste, and good product quality are the major factors considered by the respondents in choosing Shiyue Daotian.
- Shiyue Daotian's net promoter score for rice, whole grain, bean and seed products achieved 50.7, which is the highest among all rice, whole grain, bean and seed brands surveyed. Firewood Courtyard's net promoter score for rice, whole grain, bean and seed products is 47.5, which is the fifth highest among all rice, whole grain, bean and seed brands.

IX. SOURCES OF INDUSTRY INFORMATION

We commissioned Frost & Sullivan to conduct a detailed analysis on China's rice, whole grain, and bean and seed industry and compile the Frost & Sullivan Report. During the preparation of the report, Frost & Sullivan conducted primary and secondary research and obtained knowledge, statistics, information and industry insights about the industry trends in China's rice, whole grain, and bean and seed market. Primary research involves discussing the status of the industry with leading industry participants and industry experts. Secondary research involves reviewing company reports, independent research reports and Frost & Sullivan's own research database. We have contracted to pay Frost & Sullivan fees and expenses of RMB870,000 in connection with the preparation of the Frost & Sullivan Report.

INDUSTRY OVERVIEW

As part of the compilation of the Frost & Sullivan Report, we also commissioned Frost & Sullivan to conduct online questionnaire surveys with 1,500 consumers randomly selected in China to better understand the product preferences and market from a consumer's perspective.

Forecasts and assumptions included in the Frost & Sullivan Report are inherently uncertain because events or combinations of events cannot be foreseen, including, but not limited to, the actions of government, individuals, third parties and competitors. Thus, material discrepancies may be found between actual outcomes and what are forecasted in the report. Specific factors that might contribute to these discrepancies include, but are not limited to, the inherent risks, financial risks, labor risks, supply risks, regulatory risks and environmental issues in the China's rice, whole grain, and bean and seed industry and rice, whole grain, and bean and seed products retail market.

Unless otherwise indicated, all data and forecasts within this section are derived from the Frost & Sullivan Report. Our Directors confirm with prudence that there has been no adverse change in the overall market information that would subject the data to significant restriction, contradiction or negative effects since the date of the Frost & Sullivan Report.

HISTORY, DEVELOPMENT AND CORPORATE STRUCTURE

OVERVIEW

We are one of the leading and rapidly growing pantry staple food companies in China, dedicated to providing our consumers with pre-packaged premium rice, whole grain, bean, and dried food products.

Mr. Wang and Ms. Zhao, our Co-founders, entered into the pantry staple food industry in 2005 to engage in grain trading business. Over the years, we have, through our major subsidiaries Shenyang Xinchang and Wuchang Caiqiao, successfully developed a variety of brands, such as “Shiyue Daotian” and “Firewood Courtyard”. Our robust supply chain management capabilities facilitate consistent and reliable delivery of premium products to meet the evolving dietary preferences of Chinese consumers seeking healthier and more nutritious options.

In May 2018, our Company was established as a limited liability company under the PRC laws with a registered capital of RMB50,000,000. Notes:

- (1) Calculated based on the consideration paid and the number of Shares subscribed after the Share Split. On March 30, 2023, our Shareholder's general meeting approved to split the Shares in the ratio of 1:10 and the nominal value of the Shares is split from RMB1.00 per share to RMB0.10 per share with effect on Listing Date. After the Share Split, the total share capital of the Company will become 1,014,745,650 shares.
- (2) Calculated based on the assumption that the Offer Price is HK\$14.40 per H Share (being the mid-point of the indicative Offer Price range of HK\$13.00 to HK\$15.80).
- (3) Pursuant to the Series A-1 shareholders' agreement dated September 8, 2020, Generation Sigma HK is entitled to subscribe for the registered capital of the Company in not more than RMB150 million or equivalent U.S. dollars within 12 months from the closing date of the Series A-1 Financing. Accordingly, Generation Sigma HK subscribed for an increased registered capital of RMB4,618,295 in the Company under the Series A-2 Financing.
- (4) The valuation of the Company for Series B Financing in 2021 increased significantly compared to the Company's valuation for the Series A Financing in 2020 mainly due to: (i) the Group's revenue for the first quarter of 2021 increased as compared to the previous year thus it is expected to record a higher revenue growth in the year ended December 31, 2021 compared to the year ended December 31, 2020; (ii) the Group strengthened its multichannel operation capabilities through successful enhancing social e-commerce platforms and community group buying platforms, and enhanced cooperation with grocery retail channels partners in 2021; (iii) the Group's modernized production base in Shenyang Xinmin was expected to put into production in 2021, which was expected to improve the supply chain capability and enlarge the production volume of the Group; and (iv) the Group established Shiyue Daotian Enterprise Management which streamlined the shareholding of the Company and further enhanced its corporate governance, and the overall management of the Company has since been led by Mr. Wang and Ms. Zhao. The consideration for Series B Financing was determined after arm's length negotiations between our Group and the relevant Pre-IPO Investors based on the Group's business prospects, then market value with reference to the PE ratios of comparable companies and the capital market conditions in the PRC in the first quarter of 2021.
- (5) The premium to the Offer Price (where applicable) was due to different valuations of the Group based on mutual agreement between the Group and the relevant Pre-IPO Investors at the relevant times. In general, the valuation of the Group increased from Series B Financing in 2021 to Series C Financing in 2022, which was in line with the then business growth of the Group. Specifically, the consideration for Series C Financing was determined after arm's length negotiations between our Group and the relevant Pre-IPO Investors based on the Group's business prospects, then market value with reference to the PE ratios of comparable companies and the capital market conditions in the PRC in 2022.

REGULATORY OVERVIEW

LAWS AND REGULATIONS RELATING TO PRODUCING AND SELLING OUR PRODUCTS

Regulations on Food Safety

According to the Food Safety Law of the PRC (《中華人民共和國食品安全法》), the “**Food Safety Law**”), as promulgated by the Standing Committee of the National People’s Congress (the “**SCNPC**”) on February 28, 2009 and latest amended on April 29, 2021, and the Implementing Regulations of the Food Safety Law of the PRC (《中華人民共和國食品安全法實施條例》), the “**Implementing Regulations of the Food Safety Law**”), as promulgated by the State Council on July 20, 2009 and latest amended on October 11, 2019, food producers and business operators shall, in accordance with laws, regulations and food safety standards, engage in production and business operation activities, establish a sound food safety management system, and take effective measures to prevent and control food safety risks, thus ensuring food safety.

According to the Food Safety Law and the Implementing Regulations of the Food Safety Law, food safety standards are mandatory standards, and other than food safety standards, no food mandatory standard shall be formulated. The health administrative department under the State Council shall, in concert with the food safety administration under the State Council, be responsible for the formulation and release of national food safety standards. For local special foods without national food safety standards, the health administrative departments of the people’s governments of provinces, autonomous regions and municipalities directly under the Central Government may formulate and publish local food safety standards and submit the same to the health administrative department under the State Council for filing.

The State encourages food producers to formulate corporate standards that are stricter than the national or local food safety standards. Such corporate standards apply to such producers and shall be reported to the health administrative department of the people’s governments of provinces, autonomous regions and municipalities directly under the Central Government for filing. The health administrative departments of the people’s governments at the provincial level or above shall promulgate on their respective websites the national and local food safety standards and corporate standards formulated and filed for inquiry and downloading by the public free of charge.

Regulations on Food Production and Sale

According to the Food Safety Law and the Implementing Regulations of the Food Safety Law, the State implements a licensing system for food production and sales. However, no license is required for the sale of edible agricultural product and pre-packaged food. Food operators that only sell pre-packaged food are not required to obtain the food operation license, and it shall report to the food safety regulatory department of the local people’s government at or above the county level for the record.

REGULATORY OVERVIEW

According to the Administrative Measures of Food Production Licensing (《食品生產許可管理辦法》) promulgated by the State Administration for Market Regulation (the “SAMR”) on January 2, 2020 and took effect on March 1, 2020, entities involved in food production in China shall obtain the food production license. The food production license is valid for five years and is subject to the “one entity, one license” principle. According to the Administrative Measures for Food Operation License (《食品經營許可管理辦法》) promulgated by the State Food and Drug Administration on August 31, 2015, and latest amended on November 17, 2017 and became effective from the same day, entities involved in food operation and catering service in China shall obtain the food operation license which is valid for 5 years. Applications of food operation license shall be filed according to food operators’ types of operation and classification of operation projects.

Regulations on Grain Operation

The Administrative Regulation of Grain Circulation (《糧食流通管理條例》) which was issued by the State Council on May 26, 2004 and latest amended on February 15, 2021 and came into effect on April 15, 2021, sets the requirements of purchasing, sales, storage, transportation, processing activities of grain, including wheat, paddy, corn, miscellaneous cereals and their finished grains products.

According to the Administrative Regulation of Grain Circulation, enterprises engaged in grain procurement shall file its name, address, responsible person, storage facilities and other information with the grain and reserve administrative department of the people’s government at the county level in the place of purchase for record, and shall promptly update the filing if the filing information changes. Grain purchasers purchasing grain shall implement the national grain quality standards, judge the price according to quality, and must not harm the interests of farmers and other grain producers. In addition, the storage facilities used by grain purchasers and enterprises engaged in grain storage shall meet the requirements of the relevant standards and technical specifications for grain storage and shall have the storage conditions appropriate to the variety, quantity and period of storage. The enterprises engaged in grain production shall meet the conditions and requirements set out in food safety laws, regulations and standards and shall be responsible for the safety of the food it produces. The enterprises engaged in the sales of grain shall strictly comply with national standards and other relevant standards of grain quality.

Regulations on Food Labeling Management

According to the Food Safety Law, pre-packaged food shall be labeled. The labels shall include the following items: (1) name, specification, net weight, and production date; (2) content or ingredient table; (3) name, address, and contact information of the producer; (4) best before date; (5) the standards code of the product; (6) storage conditions; (7) generic names of food additives used under the national standards; (8) the number of food production license; and (9) other items that are required by laws, regulations and food safety standards. Food operators shall sell food in accordance with the warning marks, warning specifications or cautions stated on the labels thereof. Accordingly, the health administrative department under the State Council issued on April 20, 2011, and implemented on April 20, 2012, the General Principles of Pre-packaged Food Labeling of National Food Safety Standard (GB 7718-2011) (《食品安全國家標準預包裝食品標籤通則》(GB 7718-2011)).

REGULATORY OVERVIEW

E-commerce operators shall complete the market entity registration (unless no such registration is required by laws and administrative regulations) and obtain the relevant administrative licenses for conducting those operational activities which are required by law to obtain administrative licenses. Commodities sold or services offered by e-commerce operators shall meet the requirements to protect personal and property safety and the environmental protection requirements, and e-commerce operators shall not sell or provide any commodity or service prohibited by laws and administrative regulations. E-commerce operators shall (including without limitation): (i) continuously display its business license information and administrative license, or relevant information which indicates that it does not need to complete the market entity registration in a prominent position on its homepage; (ii) disclose information about commodities or services in a comprehensive, truthful, accurate and timely manner so as to safeguard the consumers' right to know and right of choice; (iii) deliver commodities or services according to its commitment or the ways and time limits as agreed upon with consumers, and bear the risks and responsibilities when commodities are in transit; and (iv) bring the tie-in sales of commodities or services to consumers' attention in significant manner and shall not set tie-in commodities or services as default options. Where an e-commerce operator ceases to engage in e-commerce business, it shall continuously announce relevant information in a prominent position on its homepage 30 days in advance.

According to the Administrative Measures for the Supervision on Online Trading (《網絡交易監督管理辦法》) which was promulgated by the SAMR on March 15, 2021 and became effective on May 1, 2021, e-commerce operators shall obtain relevant administrative licenses required by law.

REGULATORY OVERVIEW

LAWS AND REGULATIONS RELATING TO PRODUCT QUALITY AND CONSUMER PROTECTION

Regulations on Product Quality

The Product Quality Law of the PRC (《中華人民共和國產品質量法》), which was promulgated by the SCNPC on February 22, 1993 and latest amended on December 29, 2018 is the principal governing law relating to the supervision and administration of product quality. It clarified liabilities of the manufactures and sellers. Manufacturers shall be responsible for the quality of their products. If a defect in a product causes physical injury or damage to property other than the defective product, the manufacturers shall bear liability for compensation, unless they are able to prove that: (1) the product has not been put into circulation; (2) the defects causing injuries or damage did not exist at the time when the product was circulated; or (3) the science and technology at the time when the product was circulated were at a level incapable of detecting the defects. A seller shall pay compensation if it fails to indicate neither the manufacturer nor the supplier of the defective product. A person who is injured or whose property is damaged by the defects in the product may claim for compensation from the manufacturer or the seller.

Regulations on Consumer Protection

According to the Consumer Protection Law of the PRC (《中華人民共和國消費者權益保護法》) (the “**Consumer Protection Law**”) which was promulgated by the SCNPC on October 31, 1993 and latest amended on October 25, 2013, where business operators sell commodities on the internet, on television, over telephone, or by mail order, consumers shall have the right to return the commodities within seven days of receipt of them without cause, subject to certain exceptions. Moreover, consumers are entitled to the protection of their personal safety and property security at the time of purchase and use of goods and receipt of services. Violations of the Consumer Protection Law may result in the imposition of fines, the suspension of operation, the revocation of business license or even criminal liability of the business operators.

Competition Law

In accordance with the PRC Anti-Unfair Competition Law (《中華人民共和國反不正當競爭法》) (the “**Anti-Unfair Competition Law**”) which was promulgated by the SCNPC on September 2, 1993 and amended on November 4, 2017 and April 23, 2019, when trading in the market, business operators should abide by the principles of voluntariness, equality, fairness, honesty and credibility, and abide by laws and recognized business ethics. Unfair competition means a business operator, in violation of the Anti-Unfair Competition Law, disrupts the competition order and infringes the legitimate rights and interests of other business operators or consumers. When the legitimate rights and interests of a business operator are damaged by unfair competition, it may start a lawsuit in the People’s Court. In contrast, if a business operator violates the provisions of the Anti-Unfair Competition Law, engages in unfair competition and causes damage to another business operator, it shall be liable for damages. If the damage suffered by the business operator is difficult to assess, the amount of damages shall be the profit obtained by the infringer through the infringement. The infringer shall also bear all reasonable expenses paid by the infringed business operator to stop the infringement.

REGULATORY OVERVIEW

Price Law and Control on Grain Prices

According to the Price Law of the PRC (《中華人民共和國價格法》) (the “**Price Law**”) which was promulgated by the SCNPC on December 29, 1997 and became effective on May 1, 1998, business operators should observe the principles of fairness, lawfulness and good faith when they determine the prices. The production and operation costs and the market supply and demand situation should be the fundamental basis for the business operators to determine the price. When selling or purchasing goods and providing services, the business operator shall clearly indicate the price and indicate the name, origin of production, specifications, grade, valuation unit, price or service item, charging standards and other related particulars in accordance with the requirements of the competent government price department. Business operators shall not sell the goods at a price beyond the marked price or charge unspecified fees on top of price indicated. In addition, business operators shall not take illegitimate pricing actions, such as colluding with others to manipulate market prices and damaging the legitimate rights and interests of other business operators or consumers. Any business operator engaged in the act of illegitimate pricing acts stipulated by the Price Law shall be ordered to make corrections, have the illegal income be confiscated, and may be imposed a fine of no more than five times of its illegal income. In serious circumstances, the business operator will be ordered to suspend operations while rectification is being carried out or the administration for industry and commerce will revoke its business license. In addition, any business operator who causes consumers or other operators to pay higher prices due to illegal pricing acts should refund the overpaid portion; if any damage is caused, it shall be liable for compensation according to law. Any business operator who violates the provisions on clearly marked price shall be ordered to make corrections, have the illegal income be confiscated, and may be imposed a fine of no more than RMB5,000.

According to the Administrative Regulation of Grain Circulation, grain prices are mainly formed by market supply and demand. The State strengthens grain circulation management and enhances the ability to control the grain market. The relevant departments of the State Council are responsible for monitoring and early warning analysis of the grain market supply and demand situation, improving the monitoring and early warning system, improving the grain supply and demand sampling system, the release of grain production, consumption, prices, quality, and other information. When grain prices rise significantly or are likely to rise significantly, the State Council and the people’s governments of provinces, autonomous regions, and municipalities directly under the Central Government may take price intervention measures in accordance with the Price Law.

Advertisement Law

According to the Advertisement Law of the PRC (中華人民共和國廣告法) (the “**Advertisement Law**”), which was promulgated by the SCNPC on October 27, 1994, latest amended on April 29, 2021, advertisements should not contain false statements or deceive or mislead consumers. An advertisement shall be prohibited from using “national”, “highest”, “best”, or other similar words. The data, statistics, investigation results, excerpts, quotations

REGULATORY OVERVIEW

and other citations used in an advertisement shall be true and accurate, with the sources indicated. If any citation has a scope of application or a term of validity, the scope of application or term of validity shall be clearly indicated.

The Administrative Measures for Online Advertising (《互聯網廣告管理辦法》), which was promulgated by the SAMR and came into effect on May 1, 2023, provides that the online advertisers are responsible for the authenticity of the content of advertisements and all online advertisements must be marked “Advertisement” so that viewers can easily identify them as such.

On November 5, 2020, the SAMR promulgated the Guiding Opinions of the State Administration for Market Regulation on Strengthening the Regulation of Online Livestreaming Marketing Activities (《市場監管總局關於加強網絡直播營銷活動監管的指導意見》, the “Guiding Opinion”), which promulgated that commodity operators selling commodities or providing services through online live-streaming shall abide by the relevant laws and regulations, and establish and implement system for inspection and acceptance of the purchased goods. It is not allowed to use online live-streaming to sell goods or services whose production or sale is prohibited by laws and regulations; it is not allowed to use online live-streaming to release commercial advertisements whose publication in mass media is prohibited by laws and regulations; and it is not allowed to use online live-streaming to sell goods or services whose trading is prohibited on the Internet. On March 25, 2022, the Cyberspace Administration of China (國家互聯網信息辦公室, the “CAC”), the SAT and the SAMR jointly issued the Opinions on Further Regulating the Profit-making Behavior of Online Live Streaming to Promote the Healthy Development of the Industry (《關於進一步規範網絡直播營利行為促進行業健康發展的意見》), which put forward some detailed requirements for market entities related to online live-streaming services to further regulate the relevant behaviors and maintain the market order, which shows a strengthening regulatory trend on online live streaming and e-commerce platforms. In addition, On March 25, 2022, the CAC, the SAMR and the SAT jointly issued the Notice on Carrying out the Special Action of “Qinglang • Rectification of Chaos in the Field of Online Live Streaming and Short Video” (《關於開展“清朗 • 整治網絡直播、短視頻領域亂象”轉型行動的通知》), which launched a special rectification campaign against illegal behaviors in the online live streaming and short video industries, including false propaganda, tax avoidance and other outstanding problems.

If the Environmental Impact Assessment Documents of a construction project have not been reviewed by the approving authority in accordance with the law or have not been granted approval after the review, the construction unit is prohibited from commencing construction works.

REGULATORY OVERVIEW

Pursuant to the Interim Measures on Administration of Environmental Protection for Acceptance Examination Upon Completion of Construction Projects (《建設項目竣工環境保護驗收暫行辦法》) which was promulgated on November 20, 2017 and came into effect on the same day, the construction unit is the responsible party for the acceptance of the environmental protection facilities for the completion of the construction project, and shall, in accordance with the procedures and standards stipulated in relevant regulations, organize the acceptance of the environmental protection facilities, prepare the acceptance report, disclose the relevant information, accept social supervision, ensure that the environmental protection facilities to be constructed for the construction project are put into operation or used at the same time as the main project, and be responsible for the content, conclusion and public information of the acceptance. The construction unit shall be responsible for the truthfulness, accuracy and completeness of the acceptance content, conclusions and information disclosed, and shall not falsify the acceptance process. The major construction works of the construction project cannot be put into operation until the supporting facilities for environmental protection pass the inspection.

Pursuant to the Law of the PRC on Prevention and Control of Environmental Pollution Caused by Solid Wastes (《中華人民共和國固體廢物污染環境防治法》) which was promulgated on October 30, 1995 and latest amended on April 29, 2020 and came into effect on September 1, 2020, the construction of projects which discharge solid waste and the construction of projects for storage, use and treatment of solid waste shall be carried out upon the appraisal regarding their effects on the environment and comply with the relevant state regulations concerning the management of environmental protection in respect of construction projects. The necessary supporting facilities for the prevention and control of environmental pollution caused by solid wastes as specified in the environmental impact assessment documents of the construction project shall be designed, constructed and put into operation simultaneously with the major construction works of the construction project.

Pursuant to the Law of the PRC on Prevention and Treatment of Water Pollution (《中華人民共和國水污染防治法》) which was promulgated on May 11, 1984, latest amended on June 27, 2017, and came into effect on January 1, 2018, the environmental impact assessment shall be conducted on new construction, reconstruction and construction expansion projects or other installations on water which directly or indirectly discharge pollutants into the water according to law. The water pollution prevention and treatment facilities of a construction project must be designed constructed and put into operation simultaneously with the major construction works of the construction project. The water pollution prevention and treatment facilities shall comply with the requirements of approved or filed environmental impact assessment documents.

The Administrative Measures on Licensing of Urban Sewage Discharging into Drainage Network (《城鎮污水排入排水管網許可管理辦法》), which was promulgated by the Ministry of Housing and Urban-rural Development on January 22, 2015, latest amended on December 1, 2022 and came into effect on February 1, 2023, provides that enterprises, institutions and individual industrial and commercial households engaging in industry, construction, catering industry, medical industry and discharging sewage into the urban drainage network must apply for and obtain a License for Urban Drainage (排水許可證).

REGULATORY OVERVIEW

LAWS AND REGULATIONS ON DATA SECURITY AND CYBER SECURITY

Regulations on Data Security

On June 10, 2021, the SCNPC promulgated the Data Security Law of the PRC (《中華人民共和國數據安全法》) (the “**Data Security Law**”), which took effect on September 1, 2021. The Data Security Law introduces a data classification and hierarchical protection system based on the materiality of data in economic and social development, as well as the degree of harm it will cause to national security, public interests, or legitimate rights and interests of persons or entities when such data is tampered with, destroyed, divulged, or illegally acquired or used. It also provides for a security review procedure for the data activities which may affect national security. Violation of Data Security Law may subject the relevant entities or individuals to warnings, fines, suspension of operations, revocation of permits or business licenses, or even criminal liabilities.

According to the Measures on Security Assessment of Cross-border Data Transfer (《數據出境安全評估辦法》), the “**Security Assessment Measures**”), which was promulgated by the Cyberspace Administration of China (國家互聯網信息辦公室, the “**CAC**”) on July 7, 2022 and came into effect on September 1, 2022, data processors shall apply for cross-border security assessment with the CAC through the local provincial-level cyberspace administration department under any of the following circumstances: (i) cross-border transfer of important data by data processors; (ii) cross-border transfer of personal information by critical information infrastructure operators and data processors that process more than 1 million personal information; (iii) cross-border transfer of personal information by data processors that have made cross-border transfer of personal information of 100,000 people or sensitive personal information of 10,000 people cumulatively since January 1 of the previous year; and (iv) other circumstances where an application for security assessment of cross-border data transfer is required as prescribed by the CAC.

Regulations on Cyber Security

The Cyber Security Law of the PRC (《中華人民共和國網絡安全法》) (the “**Cyber Security Law**”), which was promulgated on November 7, 2016 and came into effect on June 1, 2017, requires that when constructing and operating a network, or providing services through a network, technical measures and other necessary measures shall be taken in accordance with laws, administrative regulations and the compulsory requirements set forth in national standards to ensure the secure and stable operation of the network, to effectively cope with cyber security events, to prevent criminal activities committed on the network, and to protect the integrity, confidentiality and availability of network data.

The Cyber Security Law sets high requirements for the operational security of facilities deemed to be part of the PRC’s “critical information infrastructure” (關鍵信息基礎設施). According to the Cyber Security Law, critical information infrastructure refers to critical information infrastructure that will, in the event of destruction, loss of function or data leak,

REGULATORY OVERVIEW

result in serious damage to national security, national economy and people's livelihood, or public interest. Specific reference is made to key industries including, but not limited to, public communications and information services, energy, transportation, irrigation, finance, public services and e-government.

The Cyber Security Law emphasizes that any individuals and organizations that use networks should not endanger network security or use networks to engage in unlawful activities such as those endangering national security, economic order and social order or infringing the reputation, privacy, intellectual property rights and other lawful rights and interests of others. Network operators or providers of network products or services may be subject to rectifications, warnings, fines, confiscation of illegal gains, revocation of licenses, cancellation of qualifications, closedown of websites or even criminal liabilities for violations of the provisions and requirements under the Cyber Security Law.

On December 28, 2021, thirteen government departments including the CAC jointly issued the Cybersecurity Review Measures (2021) (《網絡安全審查辦法(2021)》) which came into effect on February 15, 2022. The Cybersecurity Review Measures provide that, to ensure the security of the supply chain of critical information infrastructure and safeguard national security, a cybersecurity review is required when national security has been or may be affected where critical information infrastructure operators (關鍵信息基礎設施運營者) purchase network product or service and network platform operators (網絡平台運營者) process data. When an operator in possession of personal information of over one million users applies for a listing abroad (國外上市), it must apply to the CAC for a cybersecurity review.

On July 30, 2021, the State Council promulgated the Security Protection Regulations for Critical Information Infrastructure (《關鍵信息基礎設施安全保護條例》) (the “**CII Regulations**”), which became effective on September 1, 2021. Pursuant to the CII Regulations, “critical information infrastructures” refers to important network facilities and information systems of key industries such as, among others, public communications and information services, energy, transportation, irrigation, finance, public services, e-government and science, technology and industry for national defense, as well as other important network facilities and information systems that may seriously endanger national security, national economy and citizen's livelihood and public interests if they are damaged or suffer from malfunctions, or if any leakage of data in relation thereto occurs. Such regulation further supports our view that we should not be recognized as an operator of “critical information infrastructure”. The CII Regulations also stipulates the procedures for determining critical information infrastructure. It provides that competent authorities shall promulgate detailed rules in designating critical information infrastructure, identify critical information infrastructure in the relevant industries, and notify operators of such critical information infrastructure in a timely manner. As of the Latest Practicable Date, we had not received any notification from relevant regulatory authorities of identifying us as a Critical Information Infrastructure Operator.

As of the Latest Practicable Date, (i) we had not been notified by any PRC government authorities of being classified as a Critical Information Infrastructure Operators, so we do not have to apply for the cybersecurity review which is applicable for Critical Information

REGULATORY OVERVIEW

Infrastructure Operators when procuring internet products and services that affect or may affect national security; (ii) our PRC Legal Adviser conducted consultation via the hotline published by the CAC on a named basis on behalf of us on March 6, 2023 with the officer of the China Cybersecurity Review Technology and Certification Center (中國網絡安全審查技術與認證中心) (the “CCRC”). As advised by our PRC Legal Adviser, the CCRC is a competent authority for this consultation, as it is entrusted with acceptance and review of application materials by the Cybersecurity Review Office under the CAC and to set up a hotline for consultation regarding the cybersecurity review, according to the official announcement by the CAC. Based on such consultation, the Cybersecurity Review Measures (2021) do not require enterprises seeking listing in Hong Kong to take the initiative to apply for a cybersecurity review, as Hong Kong is part of PRC and does not belong to the “foreign country” as stipulated in the Cybersecurity Review Measures (2021) even though we possess personal information of more than one million persons; (iii) we have disclosed our listing plan in Hong Kong to CCRC in such consultation and as of the date of this prospectus, we have not received any objection for our listing plan in Hong Kong or any notification relating to cybersecurity by any relevant authority; and (iv) we have not received any inquiry, notice, warning from any PRC government authorities, and have not been subject to any investigation, sanctions or penalties made by any PRC government authorities regarding national security risks caused by our business operations or the Listing.

Furthermore, as to the factors set out in Article 10 of the Cybersecurity Review Measures (2021), (i) we have not been identified as a Critical Information Infrastructure Operator by any relevant authority, and we are in compliance regarding data security, cybersecurity and personal information protection with Chinese laws, administrative regulations and departmental rules in all material aspects, and therefore, as advised by our PRC Legal Adviser, items (i) to (iv) of Article 10 of the Cybersecurity Review Measures (2021) do not apply to us; (ii) as of the Latest Practicable Date, based on the public search of our PRC Legal Adviser and to the best knowledge of us, no data processed by us has been included into the effective catalogue of important data or core data published by the relevant authority. In addition, we have formulated a comprehensive management system for data security and dedicated significant resources to ensure data security. During the Track Record Period, no data leakage from our Company occurred. Therefore, our PRC Legal Adviser is of the view that there is no obvious evidence of any occurrence of any event that may constitute the “risk of theft, leakage or damage of core data, important data or a large amount of personal information, or illegal use of such information or illegal cross-border transfer of such information” under item (v) of Article 10 of the Cybersecurity Review Measures (2021) up to the Latest Practicable Date; and (iii) as advised by our PRC Legal Adviser, based on the consultation with CCRC, item (vi) of Article 10 does not apply to us because listing in Hong Kong should not be deemed as listing on a foreign stock exchange. Based on the foregoing, our Directors and our PRC Legal Adviser are of the view that the likelihood of our business operations or the Listing being deemed as affecting national security based on the factors set out in Article 10 of the Cybersecurity Review Measures (2021) is remote.

REGULATORY OVERVIEW

On November 14, 2021, the CAC promulgated the Network Data Security Management Regulations (《網絡數據安全管理條例(徵求意見稿)》) (the “Draft Regulations”), which provides that data processors listing in Hong Kong which affects or may affect national security shall apply for cybersecurity review. The deadline for comments for the Draft Regulations was December 13, 2021. As of the Latest Practicable Date, the Draft Regulations had not been officially approved and there is no clear timeline for the Draft Regulations to be approved. The Draft Regulations stipulate that data processing activities carried out through networks as well as the supervision and regulation of network data security within the territory of the PRC should be subject to the Draft Regulations. As we process data through networks within the territory of the PRC, our PRC Legal Adviser is of the view that the Draft Regulations may be applicable to us if they are implemented in their current form.

As of the Latest Practicable Date, we had neither been involved in any investigations on cybersecurity review conducted by the CAC nor received any warning or sanctions in this regard. In addition, we have adopted internal measures regarding data security and personal information protection to ensure compliance with relevant laws and regulations. Based on the foregoing, our Directors and our PRC Legal Adviser is of the view that we would be able to comply with the Draft Regulations and the Cybersecurity Review Measures (2021) in all material aspects and the Draft Regulations and the Cybersecurity Review Measures (2021) will not have any material adverse effect on our business operations or the Listing, assuming the Draft Regulations are fully adopted and implemented in the current form. Based on the independent due diligence conducted by the Joint Sponsors and having considered the views and basis of the Directors and the PRC Legal Adviser as disclosed above, nothing has come to the Joint Sponsors’ attention that would reasonably cause them to cast doubt on the reasonableness of our Directors’ and the PRC Legal Adviser’s views in any material aspect. However, given the Cybersecurity Review Measures (2021) were recently promulgated, and the Draft Regulations have not come into effective as of the Latest Practicable Date, there are uncertainties as to the interpretation, application and enforcement of the Cybersecurity Review Measures (2021) and the Draft Regulations. We will closely monitor the legislative process and seek guidance from relevant regulatory authorities in a timely manner to ensure our compliance with relevant laws and regulations applicable to us.

LAWS AND REGULATIONS RELATING TO FOREIGN INVESTMENT IN THE PRC

Regulations on Foreign Investment

Investment activities in the PRC by foreign investors were principally governed by the Special Administrative Measures (Negative List) for Access of Foreign Investment (2021 version) (《外商投資准入特別管理措施(負面清單)(2021年版)》) (the “**Negative List**”), and the Catalogue of Industries for Encouraging Foreign Investment (2022 version) (《鼓勵外商投資產業目錄(2022年版)》) (the “**Encouraging List**”). The Negative List, which came into effect on January 1, 2022, sets out special administrative measures (restricted or prohibited) in respect of the access of foreign investments in a centralized manner, and the Encouraging List which came into effect on January 1, 2023, sets out the encouraged industries for foreign investment. The Negative List does not set any special administrative measures for the access

REGULATORY OVERVIEW

of foreign investment in the food industry. For the agriculture industry, the Negative List provides that: (1) the Chinese party shall have a stake of not less than 34%, in the case of selection and cultivation of new wheat varieties or production of seeds, or a controlling stake, in the case of selection and cultivation of new corn varieties or production of seeds; (2) investment in the research, development, and raising or cultivation of any valuable or fine variety which is rare and peculiar to China or the production of relevant propagation materials (including fine genes in planting, animal husbandry, or aquaculture) shall be prohibited; and, (3) investment in the selection and cultivation of a genetically modified variety of any crop, breeding stock, or broodstock or the production of genetically modified seeds (offspring) of it shall be prohibited. Our Directors and our PRC Legal Adviser are of the view that the Company's products and business scope are not prohibited or restricted by the Negative List, because the Company's products are pantry staple food, and the production or sale of pantry staple food does not fall within the scope of the Negative List. Based on the independent due diligence conducted by the Joint Sponsors and having taken into account the Directors' assessment and the views and basis of the PRC Legal Adviser as disclosed above, nothing has come to the Joint Sponsors' attention that would reasonably cause them to cast doubt on the reasonableness of our Directors' and the PRC Legal Adviser's above views in any material aspect.

Regulations on Foreign-Invested Enterprises

On December 29, 1993, the SCNPC issued the PRC Company Law (《中華人民共和國公司法》) (the “**Company Law**”), which was last amended on October 26, 2018. The Company Law regulates the establishment, operation and management of corporate entities in China and classifies companies into limited liability companies and limited companies by shares. According to the Foreign Investment Law of the PRC (《中華人民共和國外商投資法》) promulgated by the NPC on March 15, 2019, and came into effect on January 1, 2020, the state shall implement the management systems of pre-establishment national treatment and negative list for foreign investment, and shall give national treatment to foreign investment beyond the negative list. Simultaneously, Sino-foreign Equity Joint Ventures of the PRC (《中華人民共和國中外合資經營企業法》), the Wholly Foreign-owned Enterprises Law of the PRC (《中華人民共和國外資企業法》) and the Sino-foreign Cooperative Joint Ventures of the PRC (《中華人民共和國中外合作經營企業法》) have been repealed since January 1, 2020.

On December 26, 2019, the State Council promulgated the Regulations on Implementing the Foreign Investment Law of the PRC (《中華人民共和國外商投資法實施條例》), which came into effect on January 1, 2020. Simultaneously, the Regulations on Implementing the Sino-Foreign Equity Joint Venture of the PRC (《中華人民共和國中外合資經營企業法實施條例》), the Provisional Regulations on the Duration of Sino-Foreign Equity Joint Venture (《中外合資經營企業合營期限暫行規定》), the Regulations on Implementing the Wholly Foreign-owned Enterprise Law of the PRC (《中華人民共和國外資企業法實施細則》) and the Regulations on Implementing the Sino-foreign Cooperative Joint Venture of the PRC (《中華人民共和國中外合作經營企業法實施細則》) have been repealed since January 1, 2020.

REGULATORY OVERVIEW

According to the Measures for the Reporting of Foreign Investment Information (《外商投資信息報告辦法》), which was promulgated by the Ministry of Commerce of the PRC (the “MOFCOM”) and the SAMR on December 30, 2019 and came into effect on January 1, 2020 and simultaneously replaced the Interim Measures for the Recordation Administration of the Incorporation and Change of Foreign-Invested Enterprises (《外商投資企業設立及變更備案管理暫行辦法》), for carrying out investment activities directly or indirectly in PRC, the foreign investors or foreign-invested enterprises shall submit investment information to the commerce authorities pursuant to these measures.

LAWS AND REGULATIONS RELATING TO EMPLOYMENT AND SOCIAL SECURITY

Regulations on Employment

The major PRC laws and regulations that govern employment relationship are the Labor Law of the PRC (《中華人民共和國勞動法》), or the Labor Law (promulgated by the SCNPC on July 5, 1994, came into effect on January 1, 1995 and latest revised on December 29, 2018), the Labor Contract Law of the PRC (《中華人民共和國勞動合同法》) or the Labor Contract Law (promulgated by the SCNPC on June 29, 2007 and became effective on January 1, 2008, and amended on December 28, 2012 and became effective on July 1, 2013) and the Implementation Rules of the Labor Contract Law of the PRC (《中華人民共和國勞動合同法實施條例》) (issued by the State Council on September 18, 2008 and came into effect on the same day). According to the aforementioned laws and regulations, labor relationships between employers and employees must be executed in written form. The laws and regulations above impose stringent requirements on the employers in relation to entering into fixed-term employment contracts, hiring of temporary employees and dismissal of employees. As prescribed under the laws and regulations, employers shall ensure their employees have the right to rest and the right to receive wages no lower than the local minimum wages. Employers must establish a system for labor safety and sanitation that strictly abides by state standards and provide relevant education to its employees. Violations of the Labor Contract Law and the Labor Law may result in the imposition of fines and other administrative liabilities and/or incur criminal liabilities in the case of serious violations.

Regulations on Social Insurance

According to the Social Insurance Law of the PRC (《中華人民共和國社會保險法》), which was issued by the SCNPC on October 28, 2010 and revised on December 29, 2018, enterprises and institutions in the PRC shall provide their employees with welfare schemes covering pension insurance, unemployment insurance, maternity insurance, occupational injury insurance, medical insurance and other welfare plans. According to the Social Insurance Law of PRC, employers must carry out social insurance registration at the local social insurance agency, provide social insurance and pay or withhold the relevant social insurance premiums for or on behalf of employees. For employers failing to conduct social insurance registration, the administrative department of social insurance shall order them to make corrections within a prescribed time limit; if they fail to do so within the time limit, employers shall have to pay a penalty over one time but no more than three times of the amount of the

REGULATORY OVERVIEW

social insurance premium payable by them. Where an employer fails to pay social insurance premiums in full or on time, the social insurance premium collection agency shall order it to pay or make up the balance within a prescribed time limit, and shall impose a daily late fee at the rate of 0.05% of the outstanding amount from the due date; if still failing to pay within the time limit prescribed, a fine of one time to three times the amount in default will be imposed on them by the relevant administrative department. Meanwhile, the Interim Regulation on the Collection and Payment of Social Insurance Premiums (《社會保險費徵繳暫行條例》) issued by the State Council on January 22, 1999 and amended on March 24, 2019 prescribes the details concerning the social insurance.

Apart from the general provisions about social insurance, specific provisions on various types of insurance are set out in the Regulation on Work-Related Injury Insurance (《工傷保險條例》) which was issued by the State Council on April 27, 2003, came into effect on January 1, 2004 and revised on December 20, 2010, the Regulations on Unemployment Insurance (《失業保險條例》) which was issued by the State Council on January 22, 1999 and came into effect on the same day, the Trial Measures on Employee Maternity Insurance of Enterprises (《企業職工生育保險試行辦法》), which was issued by the Ministry of Labor on December 14, 1994 and came into effect on January 1, 1995. Enterprises subject to these regulations shall provide their employees with the corresponding insurance.

Regulations on Housing Provident Fund

According to the Regulation on the Administration of Housing Provident Fund (《住房公積金管理條例》), which was implemented on April 3, 1999 and latest amended on March 24, 2019, any newly established entity shall make deposit registration at the housing accumulation fund management center within 30 days as of its establishment. After that, the entity shall open a housing accumulation fund account for its employees in an entrusted bank. Within 30 days as of the date an employee is recruited, the entity shall make deposit registration at the housing accumulation fund management center and seal up the employee's housing accumulation fund account in the bank mentioned above within 30 days from termination of the employment relationship. Any entity that fails to make deposit registration of the housing accumulation fund or fails to open a housing accumulation fund account for its employees shall be ordered to complete the relevant procedures within a prescribed time limit. Any entity failing to complete the relevant procedure within the time limit will be fined RMB10,000 to RMB50,000. Any entity that fails to make payment of housing provident fund within the time limit or has a shortfall in payment of housing provident fund will be ordered to make the payment or make up the shortfall within the prescribed time limit, otherwise, the housing provident management center is entitled to apply for compulsory enforcement with the People's Court.

REGULATORY OVERVIEW

LAWS AND REGULATIONS RELATING TO INTELLECTUAL PROPERTY

Regulations on Trademarks

According to the Trademark Law of the PRC (《中華人民共和國商標法》) which was promulgated on August 23, 1982 and latest amended on April 23, 2019 and came into effect on November 1, 2019, the Implementation Regulations of the Trademark Law of PRC (《中華人民共和國商標法實施條例》) which was issued on August 3, 2002 and amended on April 29, 2014, the Trademark Office under the SAMR (the “**Trademark Office**”) shall handle trademark registrations and grant a term of ten years to registered trademarks, which may be renewed for additional ten year period upon request from the trademark owner. The Trademark Law of the PRC has adopted a “first-to-file” principle with respect to trademark registration. Where an application for trademark for which application for registration has been made is identical or similar to another trademark which has already been registered or is under preliminary examination and approval for use on the same kind of or similar commodities or services, the application for registration of such trademark may be rejected. Any person applying for the registration of a trademark may not prejudice the existing right of others, nor may any person register in advance a trademark that has already been used by another party and has already gained a “sufficient degree of reputation” through such party’s use. A trademark registrant may, by entering into a trademark licensing contract, license another party to use its registered trademark. Where another party is licensed to use a registered trademark, the licensor shall report the license to the Trademark Office for recordation, and the Trademark Office shall publish it. An unrecorded license may not be used as a defense against a third party in good faith.

Regulations on Copyrights

According to the Copyright Law of the PRC (《中華人民共和國著作權法》), the “**Copyright Law**”) which was promulgated by the NPCSC on September 7, 1990 and latest amended on November 11, 2020 and became effective on June 1, 2021, copyright includes personal rights such as right of publication and right of authorship, as well as property rights such as reproduction rights and distribution rights. Except as otherwise provided by the Copyright Law, copying, distributing, performing, projecting, broadcasting, compiling or editing a work or disseminating the work to the public through information network without the permission of the copyright owner constitutes a copyright infringement. The infringer shall, bear civil liabilities such as ceasing the infringement, eliminating the impacts, making an apology, and compensating for the loss.

Regulations on Patents

According to the Patent Law of the PRC (《中華人民共和國專利法》), promulgated by the SCNPC on March 12, 1984, latest amended on October 17, 2020 and became effective on June 1, 2021 and the Implementing Rules of the Patent Law of the PRC (《中華人民共和國專利法實施細則》), promulgated by the State Council on June 15, 2001, and latest amended on January 9, 2010 and became effective from February 1, 2010, there are three types of patents

REGULATORY OVERVIEW

in the PRC, which are invention patents, utility model patents and design patents. The protection period of a patent right for invention patents shall be 20 years, the protection period of a patent right for utility model patents shall be 10 years, and the protection period of design patent right is 15 years, both commencing from the filing date.

Regulations on Domain Names

According to the Administrative Measures for Internet Domain Names (《互聯網域名管理辦法》), which was promulgated by the Ministry of Industry and Information Technology of the PRC (the “MIIT”) on August 24, 2017 and became effective on November 1, 2017, the MIIT is responsible for supervision and administration of domain name services in the PRC. Communication administrative bureaus at provincial levels shall conduct supervision and administration of the domain name services within their respective administrative jurisdictions. Domain name registration services shall, in principle, be subject to the principle of “first apply, first register”. A domain name registrar shall, in the process of providing domain name registration services, ask the applicant for which the registration is made to provide authentic, accurate and complete identity information on the holder of the domain name and other domain name registration related information.

LAWS AND REGULATIONS RELATING TO FOREIGN EXCHANGE AND OVERSEAS INVESTMENT

Pursuant to the Regulations on Foreign Exchange Control of the PRC (《中華人民共和國外匯管理條例》) promulgated by the State Council on January 29, 1996 and became effective from April 1, 1996, and latest amended on August 5, 2008 and became effective from the same date, and relevant regulations, there is no restriction on the recurring international payment and transfer, and the foreign exchange income and expenses of recurring items (such as goods trade, income and expenses of service trade and payments of interest and dividends) should be on true and legal transactions basis, and can be directly undertaken at the bank with true and valid transaction documents. Foreign exchange income and expenses of capital items (such as direct equity investment and loans) shall comply with the provisions of relevant laws and regulations, and where required for approval or registration by relevant regulation from foreign exchange administration authorities, such approval or registration shall be filed. Foreign exchange and settlement funds of capital items shall be used for purposes as stipulated in relevant competent departments and foreign exchange administration authorities.

According to the Notice on Relevant Issue Concerning the Administration of Foreign Exchange for Overseas Listing (《關於境外上市外匯管理有關問題的通知》) issued by the State Administration of Foreign Exchange (the “SAFE”) on December 26, 2014 and as amended by the SAFE Circular 16 (defined below), the domestic companies shall register the overseas listing with the foreign exchange control bureau located at its registered address in 15 working days after completion of the overseas listing and issuance. The funds raised by the domestic companies through overseas listing may be repatriated to China or deposited overseas, provided that the intended use of the fund shall be consistent with the contents of the document and other public disclosure documents.

REGULATORY OVERVIEW

According to the Notice of the SAFE on Reforming the Management Mode of Foreign Exchange Capital Settlement of Foreign Investment Enterprises (《國家外匯管理局關於改革外商投資企業外匯資本金結匯管理方式的通知》) (the “SAFE Circular 19”) promulgated on March 30, 2015, came into effective on June 1, 2015 and as amended by the SAFE Circular 16 (defined below) and partially abolished on December 30, 2019, foreign-invested enterprises could settle their foreign exchange capital on a discretionary basis according to the actual needs of their business operations. Whilst, foreign-invested enterprises are prohibited to use the foreign exchange capital settled in RMB (a) for any expenditures beyond the business scope of the foreign-invested enterprises or forbidden by laws and regulations; (b) for direct or indirect securities investment; (c) to provide entrusted loans (unless permitted in the business scope), repay loans between enterprises (including advances by third parties) or repay RMB bank loans that have been on-lent to a third party; and (d) to purchase real estates not for self-use purposes (save for real estate enterprises).

On June 9, 2016, SAFE issued the Notice of the SAFE on Reforming and Standardizing the Foreign Exchange Settlement Management Policy of Capital Account (《國家外匯管理局關於改革和規範資本項目結匯管理政策的通知》) (the “SAFE Circular 16”), which came into effect on the same day. The SAFE Circular 16 provides that discretionary foreign exchange settlement applies to foreign exchange capital, foreign debt offering proceeds and remitted foreign listing proceeds, and the corresponding RMB capital converted from foreign exchange may be used to extend loans to related parties or repay inter-company loans (including advances by third parties). However, there remain substantial uncertainties with respect to SAFE Circular 16’s interpretation and implementation in practice.

According to the Circular of the SAFE on Optimizing Foreign Exchange Management Service in Support of Foreign Business Development (《國家外匯管理局關於優化外匯管理支持涉外業務發展的通知》) promulgated by the SAFE on April 10, 2020 and became effective from June 1, 2020, on the premise of ensuring the authentic and compliant use of funds and complying with the existing regulations on the use of capital income, eligible enterprises are allowed to use capital income such as capital funds, foreign debts and proceeds from overseas listing for domestic payments without providing materials to the bank in advance for authenticity verification on a case-by-case basis. The concerned banks shall follow the principle of prudent development to control the relevant business risks and conduct post inspection on the use of funds under capital accounts handled in accordance with relevant requirements.

LAWS AND REGULATIONS RELATING TO TAXATION

Enterprise Income Tax (“EIT”)

Pursuant to the Enterprise Income Tax Law of the PRC (《中華人民共和國企業所得稅法》) (the “EIT Law”) promulgated by the SCNPC on March 16, 2007 and amended on December 29, 2018 and the Implementation Rules of the EIT Law of the PRC (《中華人民共和國企業所得稅法實施條例》) promulgated by the State Council on December 6, 2007 and amended on April 23, 2019, a domestic enterprise which is established within the PRC in

REGULATORY OVERVIEW

accordance with the laws or established in accordance with any laws of foreign countries (regions) but with an actual management entity within the PRC shall be regarded as a resident enterprise. A resident enterprise shall be subject to an EIT of 25% of any income generated within or outside the PRC. A preferential EIT rate shall be applicable to any key industry or project which is supported or encouraged by the State. High and new technology enterprises which are supported by the State may enjoy a reduced EIT rate of 15%. In addition, an enterprise may enjoy an exemption of EIT for its income from the primary process of agricultural products.

Value-Added Tax

The major PRC laws and regulations governing value-added tax are the Interim Regulations on Value-Added Tax of the PRC (《中華人民共和國增值稅暫行條例》) (issued on December 13, 1993 by the State Council, came into effect on January 1, 1994, and latest amended on November 19, 2017), and the Implementation Rules for the Interim Regulations on Value-Added Tax of the PRC (《中華人民共和國增值稅暫行條例實施細則》) (issued on December 18, 2008 by the Ministry of Finance of the PRC (the “MOF”), came into effect on the same day and latest amended on October 28, 2011). According to the aforementioned regulations, any entities and individuals engaged in the sale of goods, supply of processing, repair and replacement services, and import of goods within the territory of the PRC are taxpayers of Value-added tax (the “VAT”) and shall pay the VAT in accordance with the law and regulation. The rate of VAT for sale of goods is 17% unless otherwise specified, such as the rate of VAT for sale of transportation is 11%. With the VAT reforms in the PRC, the rate of VAT has been changed several times. The MOF and the State Taxation Administration (the “STA”) issued the Notice on Adjusting Value-Added Tax Rates (《關於調整增值稅稅率的通知》) on April 4, 2018 to adjust the tax rates of 17% and 11% applicable to any taxpayer’s VAT taxable sale or import of goods to 16% and 10%, respectively, which became effective on May 1, 2018. Subsequently, the MOF, the STA and the General Administration of Customs of the PRC jointly issued the Announcement on Relevant Policies for Deepening the Value-Added Tax Reform (《關於深化增值稅改革有關政策的公告》) on March 20, 2019 to make a further adjustment, which came into effect on April 1, 2019. The tax rate of 16% applicable to the VAT taxable sale or import of goods shall be adjusted to 13%, and the tax rate of 10% applicable thereto shall be adjusted to 9%.

LAWS AND REGULATIONS RELATING TO OVERSEAS SECURITIES OFFERING AND LISTING

The China Securities Regulatory Commission (the “CSRC”) promulgated the Trial Administrative Measures of Overseas Securities Offering and Listing by Domestic Companies (《境內企業境外發行證券和上市管理試行辦法》) (the “Overseas Listing Trial Measures”) and five related guidelines on February 17, 2023, which came into effect on March 31, 2023. The Overseas Listing Trial Measures introduce a new filing regime which requires PRC domestic companies to register their direct and indirect overseas listings and securities offerings with the CSRC by filing materials on key compliance issues. The Overseas Listing Trial Measures provide that overseas listing and offering are explicitly prohibited, if any of the

REGULATORY OVERVIEW

following applies: (i) such securities offering and listing are explicitly prohibited by specific laws and regulations; (ii) the proposed securities offering and listing may endanger national security as reviewed and determined by competent authorities under the State Council; (iii) the domestic company or its controlling shareholder(s) and the actual controller, have committed crimes including corruption, bribery, embezzlement, misappropriation of property or undermining the order of the socialist market economy in the past three years; (iv) the domestic company is currently under investigations for suspicion of criminal offenses or major violations of laws and regulations which have not definitive conclusion; or (v) there are material ownership disputes over equity held by the domestic company's controlling shareholder(s) or by other shareholder(s) that are controlled by the controlling shareholder(s) and/or actual controller.

The CSRC and other three relevant government authorities promulgated the Provisions on Strengthening the Confidentiality and Archives Administration of Overseas Securities Offering and Listing by Domestic Companies (《關於加強境內企業境外發行證券和上市相關保密和檔案管理工作的規定》) (the “**Provision on Confidentiality**”) on February 24, 2023, and came into effect on March 31, 2023. Pursuant to the Provision on Confidentiality, when a domestic company provides or publicly discloses the documents and materials involving state secrets and working secrets of state organs to the relevant securities companies, securities service institutions, overseas regulatory authorities and other entities and individuals, or provides or publicly discloses such the documents and materials through its overseas listing subjects, it shall report to the competent department with the examination and approval authority for approval, and file with the same level secrecy administration department. Domestic companies providing accounting archives or copies thereof to entities and individuals such as securities companies, securities service institutions and overseas regulatory authorities shall perform the relevant procedures according to relevant regulations. The working papers formed within the territory of the PRC by the securities companies and securities service institutions that provide related services for the overseas offering and listing of domestic enterprises shall be kept within the territory of the PRC. Cross-border transferring of such working papers shall go through the examination and approval formalities in accordance with the relevant regulations.

LAWS AND REGULATIONS RELATING TO FULL CIRCULATION OF H SHARES

According to the Overseas Listing Trial Measures and related guidelines, “Full circulation” represents the shareholders of domestic unlisted shares of domestic companies, which directly offer and list securities in overseas markets, converting its domestic unlisted shares into foreign listed shares circulating in overseas markets. “Full circulation” shall comply with relevant regulations of the CSRC and the shareholders of domestic unlisted shares shall entrust the domestic company to report the “Full circulation” with CSRC by filing materials on key compliance issues, including whether the “Full circulation” has fulfilled adequate internal decision-making procedures, necessary internal approvals and authorizations, and whether the “Full circulation” involves approval or filing procedures set out in the laws, regulations and policies for state-owned asset administration, industry supervision and foreign investment, and if so, whether such approval or filing procedures have been performed.

OVERVIEW

We are one of the leading and rapidly growing pantry staple food companies in China, enjoying a robust multichannel brand presence. Since our inception, we have been dedicated to providing our consumers with pre-packaged premium rice, whole grain, bean, and dried food products. By maintaining multichannel sales coverage and addressing evolving consumer needs, we have achieved a strong sales growth during the Track Record Period and established a range of household brands for Chinese families. According to Frost & Sullivan, we have been the largest company by revenue in China's pre-packaged retail market for Northeast Rice products for four consecutive years from 2019 to 2022. According to the same source, we were the largest company by revenue in China's pre-packaged whole grain, bean and seed market in 2022. Furthermore, among the top five players by revenue in China's pantry staple food market, we were the fastest-growing company by revenue CAGR from 2020 to 2022, according to the same source.

We are committed to provide customers with products of diversified categories that are sourced from renowned grain production regions in China. Northeast China is reputable for its unique natural environment and geographic conditions, and generally regarded by consumers as a prominent grain production region in China. As such, we have established a comprehensive and efficient supply chain system in Northeast China, encompassing all critical stages along the value chain from procurement, storage, production, sales, and logistics.

We have successfully established our flagship brands, namely Shiyue Daotian (十月稻田) and Firewood Courtyard (柴火大院), and introduced a range of products with various specifications to address consumer needs. Our brand recognition and popularity have earned us numerous awards and honors, specifically:

- for each year from 2019 to 2022, we have been the largest company on comprehensive e-commerce platforms, such as JD.com and Tmall, in terms of the revenue generated from sales of rice, whole grain, bean and seed products, with a 14.2% market share in 2022, which is 2.7 times that of the second-largest company, according to Frost & Sullivan;
- for each year from 2019 to 2022, our flagship brands, Shiyue Daotian and Firewood Courtyard, have consistently ranked in the top two positions on comprehensive e-commerce platforms in terms of revenue generated from sales of rice, whole grain and bean and seed products, according to Frost & Sullivan; and
- Shiyue Daotian has been recognized as “Best Partner of 2022 (2022年度最佳合作夥伴)” by JD Supermarket and “A Hundred Million Club – Super Brand of 2022 (超棒品牌億元俱樂部)” by Tmall Supermarket.

BUSINESS

Leveraging our deep insights in consumer needs, vertically integrated operation model, strategic layout of production bases in renowned places of origin for grains, and an multichannel sales network, our brands remain popular among consumers in China. Since our inception, we strive to consistently provide Chinese consumers with quality, healthy and fresh food products, and aim to capture consumer mindshare with high brand visibility and convenient purchase experience.

We pride ourselves on our strong multichannel operation capabilities, underpinned by our ability to rapidly replicate valuable experience and expertise from established channels to new ones. We have adeptly identified the potential opportunities and taken proactive measures to establish ourselves on comprehensive e-commerce platforms, social e-commerce platforms and community group buying platforms at their early development stages. This strategic initiative has facilitated our swift acquisition of invaluable multichannel operating experiences. We retained the largest market share by revenue in China's rice, whole grain, bean and seed market in each of such channels in 2022. Our extensive range of premium products spanning diverse categories, coupled with our efficient supply chain management, positions us as a crucial business partner to grocery retail channels. We have expanded rapidly in recent years in grocery retail channels, achieving a 79.5% CAGR of revenue growth from 2020 to 2022. In 2022, we ranked fourth in the grocery retail channels for China's rice, whole grain, bean and seed industry in terms of revenue according to Frost & Sullivan. Leveraging our nationwide multichannel sales network, we are able to integrate online and offline sales operations to gain insights into consumer needs from an extensive amount of consumer feedback. We believe this has distinguished us from our competitors, by informing our product development and marketing efforts for the future.

According to Frost & Sullivan, the total market size of China's rice, whole grain, bean and seed market amounted to RMB1,073.7 billion in 2022, representing 57.7% of China's pantry staple food market, which had a market size of approximately RMB1.9 trillion, and is expected to reach RMB1,265.0 billion by 2027. According to the same source, with the continuously improving living standards of Chinese consumers, the premium subsegments are expected to grow at a faster rate than China's overall rice, whole grain, bean and seed market. Meanwhile, there is a growing trend towards favoring branded rice, whole grain, bean and dried food products and more convenient purchase methods, benefiting the development of companies with competitive brands and advanced multichannel operations. As a leading pantry staple food company in China, we are well positioned to seize such growth opportunities. We have maintained a strong growth momentum during the Track Record Period. Our revenue increased from RMB2,327.0 million in 2020 to RMB4,532.9 million in 2022, representing a CAGR of 39.6%, and increased from RMB910.2 million for the three months ended March 31, 2022 to RMB1,081.5 million for the three months ended March 31, 2023. We recorded an adjusted net profit (*non-IFRS measure*) of RMB364.0 million and RMB77.9 million in 2022 and the three months ended March 31, 2023, respectively.

OUR STRENGTHS**A leading pantry staple food company in China positioned for strong growth**

We are one of the leading and rapidly growing pantry staple food companies in China, dedicated to providing consumers with pre-packaged premium rice, whole grain, bean, and dried food products. Over the past decade, we have built a competitive brand portfolio, an multichannel sales network, and highly efficient supply management systems. With the surge in demand for branded products in China's rice, whole grain, bean and seed market, we have amassed a substantial consumer base for our multiple household brands, notably exemplified by our success in Shiyue Daotian and Firewood Courtyard, and a proven track record, according to Frost & Sullivan:

- for each year from 2019 to 2022, we have been the largest company in China in terms of revenue in China's pre-packaged retail market for Northeast Rice products, with a market share of 9.7% in 2022, which is approximately 1.5 times that of the second largest one;
- we were the largest company in terms of revenue in China's pre-packaged premium rice market in 2022;
- we ranked third in terms of revenue in China's pre-packaged rice market in 2022; and
- we were the largest company in terms of revenue in China's pre-packaged whole grain, bean and seed market in 2022.

China's rice, whole grain, bean and seed industry has undergone significant changes in recent years. The emergence and expansion of grocery retail channels, together with consumption upgrade among Chinese consumers, have led to a shift towards more convenient consumption experience, diverse product offerings and branded products of premium quality. This has catalyzed the transformation of the industry, with companies increasingly prioritizing brand equity development. In contrast, China's pre-packaged rice, whole grain, bean and seed market is highly fragmented, according to Frost & Sullivan, presenting leading brands with market consolidation opportunities.

As an industry leader, we believe that we are more favorably positioned than our competitors to capture the opportunities arising from such transformation of China's rice, whole grain, bean and seed industry. Following our efforts for over a decade, we have established a compelling brand portfolio, highlighted by our flagship brands, Shiyue Daotian and Firewood Courtyard. We have also constructed a diversified multichannel sales network and have emerged as a prominent market leader across multiple sales channels. According to Frost & Sullivan, among the top five players in China's pantry staple food market, we are the fastest-growing company in terms of revenue CAGR from 2020 to 2022, exceeding the industry average of 3.9% and the average growth rate of the remaining four companies. During the

BUSINESS

Track Record Period, we achieved remarkable growth, with revenue increasing from RMB2,327.0 million in 2020 to RMB3,598.3 million in 2021, and further to RMB4,532.9 million in 2022, growing at a CAGR of 39.6% from 2020 to 2022, and increased from RMB910.2 million for the three months ended March 31, 2022 to RMB1,081.5 million for the three months ended March 31, 2023. Our adjusted net profit (*non-IFRS measure*) reached RMB364.0 million and RMB77.9 million in 2022 and the three months ended March 31, 2023, respectively.

Multiple household brands with compelling product offerings

Similar to the development of edible oil, flour and condiment industries, China's rice, whole grain, bean and seed industry has been transforming in recent years with companies becoming increasingly focused on building brand equity. Capitalizing on the historical opportunity presented by the evolving industry landscape, we have committed unwavering dedication to cultivating a portfolio of household names, underpinned by our flagship brands, Shiyue Daotian and Firewood Courtyard. Our brands feature differentiated brand positioning and category focus, thoughtfully designed to cater to the diverse demands of different consumer groups. By consistently providing Chinese consumers with quality, healthy and fresh food products, we are committed to establishing ourselves as the go-to pantry staple food brand for Chinese consumers.

Today, our flagship brands, Shiyue Daotian and Firewood Courtyard have become household names by Chinese families. According to Frost & Sullivan, in terms of the sales on JD.com in 2022, the repurchase rate for our rice, whole grain, bean and seed products under Shiyue Daotian and Firewood Courtyard has outperformed the industry average. Moreover, Shiyue Daotian has been recognized as “Best Partner of 2022 (2022年度最佳合作夥伴)” by JD Supermarket and “Hundred Million Club – Super Brand of 2022 (超棒品牌億元俱樂部)” by Tmall Supermarket.

With our superior brand equity, consumer insights and industry expertise, we have introduced comprehensive and complementary product offerings comprising an extensive range of product categories. We are also capable of developing new products that cater to the evolving needs of consumers and characteristics of sales channels. In response to the market demand for diverse staple foods, we have launched whole grain products such as mixed brown rice and millet, providing more people with access to a nutritious diet. We have also launched products in small packs to meet the needs of smaller families and single people. By adopting creative and distinct packaging designs and marketing strategies, we have successfully introduced a series of products that received positive market reactions. For instance, we have launched series such as “Cold Dew Autumn Aroma (寒露秋香) Series,” “China Chic Series (國潮系列)” and “National Flower Series (國花系列),” catering to the diverse preferences of consumers from different age groups and different consumption scenarios. We have a strong track record of introducing popular products. In 2022, we had eight SKUs with an annual revenue of over RMB100 million, and two out of such eight SKUs were launched after 2021.

Multichannel sales network with a nationwide reach

Our sales network is highly diversified and spans a multitude of online and offline channels, enabling us to achieve broad consumer coverage and penetrate the market effectively. We not only maintain strong partnerships with, and have established leading positions on, prominent comprehensive e-commerce platforms, such as JD.com and Tmall, but also proactively explore new cooperation opportunities in emerging channels such as social e-commerce platforms and community group buying platforms. With online and offline integrated operation capabilities, we also have established ourselves as a leading player in the grocery retail channels, achieving rapid growth and success in this area. Our multichannel sales network keeps us updated on consumers' product experiences and evolving preferences, that informs our future products developments and sales strategies upgrades.

We have managed to maintain our position at the forefront of sales channel evolution. By harnessing our extensive industry knowledge and market acumen, we have effectively identified opportunities that arose from the emergence of new sales channels, and have entered such channels at an opportune moment, ensuring that we stay ahead of the competition. Anticipating the growth prospects in their early stages, we initiated collaboration with JD.com and Tmall as early as 2011 and 2013, respectively, allowing us to establish a commanding online presence and acquire invaluable operational experience. From 2019 to 2022, we have been the largest company by revenue on comprehensive e-commerce platforms for China's rice, whole grain, bean and seed industry, with a 14.2% market share in 2022, which was 2.7 times that of the second largest one, according to Frost & Sullivan. In 2016, along with the expansion of grocery retail channels and popularity of online-offline integrated retail models, we expanded our business to grocery retail channels, and in 2022, we became fourth-largest company by revenue in the grocery retail channels for China's rice, whole grain, bean and seed industry. With the rise of emerging sales channels, we further expanded into social e-commerce platforms and community group buying platforms, forging partnerships with prominent platforms. In 2022, we ranked first by revenue on both social e-commerce platforms and community group buying platforms in China's rice, whole grain, bean and seed market.

We have established ourselves as a critical business partner for sales channels. Our robust supply chain management capabilities facilitate consistent and reliable delivery of premium products, effectively meeting the demands of sales channel partners. As one of the few companies possessing household brands across product categories, superior product offerings and multichannel operating capabilities, we are able to meet the evolving dietary preferences of Chinese consumers seeking healthier and more nutritious options. Furthermore, our triumph in building an influential brand image and offering popular products through online channels also empowers the operation of our sales channel partners by enticing prospective consumers to explore their offerings.

Industry-leading branding and marketing capabilities

An influential brand image and effective marketing are crucial to our success. We have accumulated abundant marketing experience and know-how over the past decades, which have formed the backbone of our branding and marketing capabilities, fortified by our foresight in predicting and capitalizing on future marketing trends. We excel at applying such invaluable experience and know-how to new products, and tailoring suitable marketing strategies in adapting to different sales channels. By implementing more engaging marketing activities such as livestreaming events, online promotional campaigns and content marketing, we aim to have more frequent interaction with our consumers and deepen their connections with us.

Our primary focus has been on enhancing our brand awareness among consumers. To build an energetic and refreshing brand image in the minds of consumers, we have designed a series of captivating marketing content that highlights the distinctiveness of rice, whole grain, bean and seed industry, resonating with modern society's pursuit of a healthy lifestyle. These efforts have enabled us to effectively communicate our values to consumers and win their trust. Collaborating with celebrities and an Olympic medalist who embody our brand positions also reinforces our dedication to excellence. Furthermore, our entertaining product packaging designs have gained significant popularity in the market, driving increased sales and repeat purchases.

Our strong marketing capabilities are supported by our universal marketing matrix and our vast experience in formulating marketing strategies for different sales channels. We have established a strong presence on comprehensive e-commerce platforms and social e-commerce platforms in China. As of March 31, 2023, we have collaborated with over 4,000 KOLs and KOCs, and over 500 of them have over one million followers. We also have a steadfast consumer base, who share our values and have naturally become advocates of our products. As of March 31, 2023, our self-operated online stores and media accounts had an aggregate of approximately 28 million followers.

Leveraging our multichannel operation capabilities, we conduct online-offline integrated marketing campaigns to enhance marketing results. Since 2021, we have progressively cooperated with multiple online and offline sales channels to launch our themed marketing campaign, "Shiyue Daotian Fresh Rice Season (十月稻田新米季)." It aims to fully showcase our product highlights through a combination of content marketing, livestreaming events, offline product display and taste events. We also simultaneously advertise across social media platforms and deploy splash ads and billboards at metro stations to maximize our exposure across different channels. Our online-offline integrated marketing campaigns directly provide us with abundant consumer feedback, enabling our introduction and improvement of products to better address their evolving demands.

A strategic layout in five core grain production areas of China

The foundation of our brands' and products' core competitiveness lies in the superior quality of raw materials. We have consistently focused on sourcing raw materials from renowned places of origin for grains in China, particularly the Northeast China Plain, which enjoys an exceptional natural environment and geographical conditions. As one of the three major global black-soil grain production areas, the Northeast China Plain is situated in an ideal location for agricultural production, featuring abundant water, fertile land and distinct seasons. The snow and frost in the area help to preserve soil fertility and water. Moreover, the significant diurnal temperature variation and longer crop maturity in the Northeast China Plain both contribute to the premium quality of the rice cultivated there.

To ensure efficient procurement of raw materials, we have strategically located our five production bases, namely Shenyang Xinmin, Wuchang, Songyuan, Tonghe and Aohan, in close proximity to the core production areas for rice, whole grain and beans in Northeast China and Inner Mongolia. See “– Our Production – Overview.” Since our inception, establishing and maintaining stable relationships with raw materials suppliers in those places have been one of our top priorities, enabling us to achieve a sustainable supply of premium raw materials. We work closely with local farmers cooperatives, professional agricultural products suppliers and small-scale farmers, and have become their preferred business partners due to our credibility, corporate reputation and stable procurement demand.

With the lower temperature prevalent in Northeast China Plain, we are capable of efficiently procuring and storing fresh paddy and other grain upon maturity, ensuring that their freshness and moisture levels remain intact. According to Frost & Sullivan, we are among a few companies in China's rice, whole grain, bean and seed industry that have implemented a vertically integrated operation model encompassing the entire industry chain, from procurement, storage, production and sale to logistics. This allows us to offer consumers fresh products that retain their natural taste and aroma.

Outstanding supply chain management and quality control systems

By closely collaborating with various sales channels, we are able to oversee all stages of our value chain, enabling us to collect and analyze consumption information in a timely manner, and synchronize our order, inventory, and production information. This allows us to respond quickly to real-time transaction information by efficiently formulating, monitoring and adjusting our production plans, and make informed decisions during the business process. By efficient supply chain management, orders can be typically dispatched to designated warehouses or end-consumers within three days after placement, guaranteeing the freshness and good taste of our products. Furthermore, our flexible and efficient supply chain ensures a rapid response to market needs. During the Double Eleven sales event in 2022, we managed to fulfill over a million orders placed through online sales channels through dynamic order prediction, inventory management, production planning, and logistics arrangements.

BUSINESS

Our production is highly standardized and automated, and we are committed to continuously upgrading our production line with advanced equipment to enhance its automation level. As of March 31, 2023, we had put into operation over ten automated production lines. Additionally, we have built a modern warehouse and distribution system, which expands nationwide through five self-operated regional distribution centers (“RDCs”) in Shanghai, Tianjin, Chengdu, Shenyang and Dongguan, and ten local warehouses to ensure prompt and reliable contract fulfillment.

Our central quality management system covers our entire business process. We are meticulous in our scrutiny of raw materials, implementing a strict supplier management system, conducting regular supplier evaluations and on-site inspections. Our quality control measures extend to monitoring physicochemical and microbiological indicators in raw materials and finished products. We have obtained certification by ISO 9001, HACCP and FSSC 22000 for our production processes. Furthermore, we have partnered with a globally recognized testing, inspection and certification agency to further strengthen our product quality control.

An experienced management team with excellent execution abilities

Our founding team members, particularly Mr. Wang and Ms. Zhao, possess nearly 20 years’ experience and insights in product development, brand building and sales channel operation. In a rapidly changing consumer landscape, our founding team leverages their astute understanding of market trends to continuously explore business opportunities. Their dedication to delivering premium products has been integral to our success.

Our professional management team, equipped with strategic outlook and execution capabilities, keep us at the leading position in the industry. They remain agile in response to market changes, ensuring that we react quickly in strategic adjustment. The core members of our management team have an average of over ten years of industry experience.

We are committed to fostering an entrepreneurial spirit, and encouraging our employees to take on more responsibility. Our comprehensive training programs and competitive incentive mechanisms enable our employees to proactively learn and grow alongside our business expansion, while sharing the value of our corporate culture. We adopt a flat and flexible organizational structure featuring versatile units organized in accordance with the operational needs and business modes of different sales channels. Each unit functions independently, with a high degree of flexibility for organization and execution.

We have established partnerships with rural communities in China, actively participating in rural revitalization and assistance programs. We believe that our brand equity and vertically integrated operation model help to effectively connect the rural areas with consumers. Our comprehensive brand portfolio, underpinned by premium products, benefits our upstream farmers by promoting the development of the local economy and enhancing market needs for local products.

OUR STRATEGIES

Enrich our multi-brand portfolio and enhance our brand awareness to solidify our leading position

Brand awareness and consumer recognition are critical to our long-term success. We are committed to solidifying our leading position in China's pantry staple food market. We always insist on providing premium products from renowned places of origin for grains, thus further enhancing our differentiated competitive advantages, and increasing our brand mindshare.

Our multi-brand strategy has a proven record of success. In the past, we have successfully incubated and launched multiple brands with different market positioning, including Shiyue Daotian, focusing on the mass market, Firewood Courtyard, focusing on the mid-to-high end market, and Sunshine Family, dedicated to offering value-for-money products. We will further enrich our brand portfolio and develop differentiated marketing strategies to meet diversified consumer needs and strengthen the emotional connection of our consumers with our brand.

To maintain and strengthen our brand momentum, we plan to increase the exposure of our brands in various sales channels through content marketing, themed promotions and social media marketing. In particular, we are committed to promoting quality content instilled with our brand spirit.

Broaden and deepen our multichannel network to enlarge our consumer base with high operational efficiency

In the past decade, we have successfully accumulated deep insights in developing our sales network, enhancing brand awareness and cultivating our consumer base. We will continue to broaden and deepen our multichannel network to achieve higher market penetration.

We plan to continuously strengthen our channel management capabilities. For example, we will keep capitalizing the steady growth of our established channels such as JD.com and Tmall, and seizing high growth momentum from emerging channels, such as social e-commerce platforms and community group buying platforms. Thus, we can maintain sustainable growth, expand market coverage and further increase our market share.

We are a leading player that stands at the frontier of sales channel transformation. Grasping the industry opportunity of multichannel integration, we will leverage our established competitive advantages to solidify our sales network with deeper penetration, wider reach and higher quality. In particular, we will keep our strong momentum in the grocery retail channels via time-tested premium products and comprehensive services. On that basis, we will further deepen our penetration of NKAs and LKAs, and continuously build our nationwide distribution network.

Expand multi-category product offerings to achieve sustainable growth

Starting with rice products, we have built product offerings, including Daoxiang rice, long grain rice and Komachi rice. We are committed to providing premium rice products to satisfy our consumers' daily needs, thereby reinforcing our leading position. We will further diversify our product offerings with differentiated price ranges, packaging specifications and sales channels to increase market penetration.

In the past, we have successfully developed and launched whole grain, bean and dried food product offerings, such as mixed brown rice, millet, red beans and corn, wood ear mushrooms, snow fungus mushroom, and lotus seeds. We believe there will be plenty of opportunities for new product offerings. On the one hand, we will continue solidifying core competencies of our existing products. On the other hand, we will strategically develop new categories in the whole grain, bean and dried food market with high potential, thereby enhancing our competitive advantages across multiple product categories.

We plan to continuously enhance brand awareness in new categories, especially those with high market demand and growth potential in China. To achieve this goal, we will keep developing and launching new product categories to address various consumer needs, based on our industry and consumer insights.

Strengthen our “from farm to table” supply chain management capabilities to build integrated operation barriers

Our outstanding supply chain management capability guarantees our business growth. Our robust supply chain has laid down the foundation for the sustainable, stable and efficient supply of our products. We will continue penetrating into selected production areas for rice and whole grain, bean and other products and strive to ensure consistent and quality supplies via approaches such as payment of deposit to our suppliers, responsible sourcing, and establishing long-term relationship with suppliers. We will remain focused on establishing infrastructure for procurement, production, inspection, storage and other core capabilities in renowned places of origin for grains. In addition, we will remain persistent on ensuring the quality of our products via a quality control system, production process improvement and other internal control approaches along our entire supply chain.

In order to meet consumers' growing demands, we aim to strategically expand our production capacities at major production bases. We also strive to enhance manufacturing efficiency at our production bases by accelerating the digitalization of our production and introducing more advanced equipment and solutions. We will also enlarge the coverage of our warehousing and logistics network to continuously enhance our fulfillment capabilities to promptly respond to market demand changes. We believe that such approaches will help us to improve our operational efficiency.

BUSINESS

Keep optimizing digitalized operation systems, investing in talent pool and fostering cohesive corporate culture

We will keep optimizing our digitalized operation systems to further improve our operational efficiency and management capabilities. We plan to use our digital operation systems to help us track, collect and analyze core business information along the entire industry chain, and achieve comprehensive network collaboration and intelligent data management, thus enhancing our core competitive advantages.

Our management team has managed to foster agility, openness and leadership, which have enabled and will continuously enable us to navigate the ever-changing markets. We also believe that experienced, proactive and professional employees capable of big-picture thinking at all levels are critical to our long-term success. Therefore, we will keep investing in recruiting, training and retaining our talents.

We will continue to foster a corporate culture committed to provide Chinese consumers with quality, healthy and fresh food products. To achieve that, we will further enhance our cultural influence, group cohesiveness and sense of belonging. In addition, we aim to build a valuable and influential food brand in China by enhancing our service quality and operational efficiency. We are committed to promoting standardization, quality, and branding throughout the pantry staple food industry. We aim to create sustainable value and promote positive energy by demonstrating our commitment to our employees, consumers, partners and society.

OUR BRANDS AND PRODUCTS

We are one of the leading and rapidly growing pantry staple food companies in China, enjoying a robust multichannel brand presence. Committed to becoming the go-to brand for Chinese families, we have been dedicated to providing our consumers with premium pre-packaged rice, whole grain, bean, and dried food products since our inception. Committed to provide customers with products of diversified categories that are sourced from renowned grain production regions in China, we have played a preeminent role amidst the transformation in recent years with companies becoming increasingly focused on building brand equity, and further cultivated favorable brand perceptions among consumers. Following our persistent efforts for more than a decade, we have successfully established and been operating multiple well-recognized brands, mainly including Shiyue Daotian (十月稻田), Firewood Courtyard (柴火大院) and Sunshine Family (福享人家).

Leveraging our high brand awareness, we have amassed a significant and steadfast consumer base, placing ourselves at the forefront of the industry in terms of consumers' intention to recommend and willingness to repurchase. According to Frost & Sullivan, in terms of the sales on JD.com in 2022, the repurchase rate for our rice products under Shiyue Daotian and Firewood Courtyard was 39% and 36%, respectively, higher than the industry average of 26%; the repurchase rate for our whole grain, bean and other products under Shiyue Daotian and Firewood Courtyard was 34% and 32%, respectively, higher than the industry average of 19%; and the repurchase rate for our dried food products under Shiyue Daotian was 30%,

BUSINESS

higher than the industry average of 16%. As consumers share their product experiences with friends and families, we are able to attract more potential consumers by word-of-mouth referrals. We were the largest company by revenue in each of China's pre-packaged retail market for Northeast Rice products and China's pre-packaged whole grain, bean and seed market in 2022, according to Frost & Sullivan.

With our superior brand equity, consumer insights and industry expertise, we have introduced comprehensive and complementary product offerings comprising an extensive range of product categories, which strategically focuses on different price ranges, sales channels, product categories and packaging styles. Thus, we are able to reach a broad consumer group and enhance consumers' needs for our products. In 2022, we had eight SKUs, with an annual revenue of over RMB100 million, and two out of such eight SKUs were launched after 2021.

We primarily offer three categories of products:

- **Rice products.** Our rice products mainly include pre-packaged rice products of different varieties, such as Daoxiang rice (稻香米), long grain rice (長粒香大米) and Komachi rice (小町米). In particular, we offer Wuchang rice, a type of Daoxiang rice which has been famous for its place of origin. Wuchang, a National Ecological Civilization Demonstration Area, is recognized as one of the most superior production areas for rice products with national A-class air quality and fertile black soil. Wuchang rice is certified as a China National Geographical Indication Product under GB/T19266 standards. Wuchang rice features a fresh and fragrant aroma, and cooked Wuchang rice has a glowing brightness, with a soft, sticky and sweet taste.

Daoxiang rice

Daoxiang rice is long and translucent in its appearance, with a sticky, firm and sweet taste. It also features a fresh and fragrant aroma.

Long grain rice

Long grain rice is long and full in its appearance, with a firm and chewy taste. Cooked long grain rice naturally exudes a gentle aroma.

Komachi rice

Komachi rice is short and round in its appearance, with a moderately sticky taste.

- **Whole grain, bean and other products.** Our whole grain and bean products mainly include pre-packaged mixed brown rice, millet and red bean. Other products under this category refers to seed and corn products.

BUSINESS

- **Dried food and other products.** Our dried food products mainly include pre-packaged wood ear mushrooms, snow fungus mushroom and lotus seeds. Other products under this category mainly include by-products, such as bran, husk and fractioned rice.

Rice Products

Dedicated to bringing consumers premium rice products from renowned places of origin for grains that preserve freshness to the maximized extent, we have constructed production bases adjacent to such places. Thus, we are able to procure fresh raw materials promptly after their maturity period for storage and production, thereby achieving efficient and agile supply chain management. We primarily procure raw materials of superior quality from Northeast China, one of the three major agriculture production areas with black soil in the world. According to Frost & Sullivan, Northeast China's black soil is rich in nutrients and provides favorable conditions for agricultural production, and its cold weather slows down the growth of crops, allowing them to mature slowly over a long growth period to develop good flavors and textures. Additionally, the significant diurnal temperature variation in Northeast China enhances the density of the crop. According to the Frost & Sullivan 2022 Survey, Northeast Rice is the category in which consumers express the most interest. Our rice products feature soft, chewy and sticky taste, with a fresh aroma, leaving a long-lasting sweetness. According to Frost & Sullivan, we ranked among the top three companies in China's pre-packaged rice market in terms of revenue in 2022.

We are committed to offering consumers premium products, with continuous innovation guided by our deep industry insights. For example, we have launched our Shiyue Daotian Fresh Rice (十月稻田鮮米). We aim to preserve the freshness and taste of Shiyue Daotian Fresh Rice via various methods. In particular, we use fresh paddy for production and storage, and conduct

freshness testing and taste analysis in developing our Shiyue Daotian Fresh Rice. We also adopt the use of a nozzle in our packaging design to make the storage of rice products more convenient and hygienic to address the pain point that rice products are difficult to seal after opening. Our Shiyue Daotian Fresh Rice features a six-month shelf life.

Committed to our multi-brand operation approach, we sell our rice products under various brands, and continue to develop and launch products that are well received by consumers. We offer a wide selection of rice products with diversified rice varieties with the raw materials primarily procured from Northeast China that suits the brand positions of our three major brands. According to Frost & Sullivan, due to differences in natural conditions such as soil across different areas of a region and the cultivation techniques implemented by farmers, paddy of the same breed, such as Long Grain rice or grown in the same place of origin, such as Wuchang, varies in grades, quality and taste. Our three major brands are designed to have differentiated brand positioning and price ranges, with Shiyue Daotian focusing on meeting the demands of the mass market, Firewood Courtyard being positioned to capture the mid-to-high-end market and Sunshine Family being dedicated to offering value-for-money rice products. As a result, corresponding to their respective brand positioning, different raw materials are provided under each of such brands to address the needs of their different target consumer groups.

Shiyue Daotian

We launched our Shiyue Daotian brand in 2011, and have established a strong brand awareness for Shiyue Daotian. Shiyue Daotian was a leading brand in China's rice, whole grain, bean and seed industry in terms of revenue in 2022, according to Frost & Sullivan.

We position Shiyue Daotian as a multi-category pantry staple food brand with a focus on meeting needs of consumers in the mass market. Our core values are manifested in our long-term commitment to operating across the whole value chain, which includes procurement from renowned places of origin for grains, standardized production under strict quality control, efficient warehousing and logistics layout and deep penetration in multichannel sales networks. When bringing premium rice products to Chinese consumers' dining table, we believe we are able to build emotional connections with them by integrating our brand image with satisfying consumption experiences, such as families sharing delicious meals together.

Our diverse rice products under the Shiyue Daotian brand cover varieties such as Daoxiang rice (including Wuchang rice), long grain rice and Komachi rice. We launched our Shiyue Daotian classic series of long grain rice in 2013. Our long grain rice has a long and smooth shape, with a bright hue. Raw rice naturally exudes an aroma, and the cooked rice becomes soft and fluffy, with a fresh and sweet taste. We have also designed red packaging for our classic series, to convey the message of auspiciousness, vitality, and prosperity. Our Shiyue Daotian classic series of long grain rice has recorded revenue of over RMB100 million since 2018.

BUSINESS

We have actively developed and launched new products under the Shiyue Daotian brand to address evolving consumer needs, and to increase our brand vitality. For example, we launched the “Cold Dew Autumn Aroma” series of long grain rice and Wuchang rice in 2019. Named after the solar term “cold dew,” which signifies the start of the harvest season, Cold Dew Autumn Aroma embodies the message of “the sweeping seedling aroma in cold dew (寒露時節, 萬里飄香).” We have adopted six-sided and double-layer vacuum packaging for Cold Dew Autumn Aroma to facilitate direct transportation from renowned places of origin for grains to guarantee freshness. The “Cold Dew Autumn Aroma” series of long grain rice has received a warm welcome from consumers from all sales channels, and recorded a revenue of over RMB100 million in 2022.

Benefiting from the high brand awareness and popularity of our Shiyue Daotian brand, we have won numerous awards and recognition, including the *New Force Brand* (新勢力品牌) awarded by Tmall Supermarket. In addition, our Shiyue Daotian rice products have won the golden award of the committee at the Shenyang International Agricultural Exposition (中國瀋陽國際農業博覽會組委會金獎) in 2020. Our Shiyue Daotian Wuchang rice won the golden award by recognition of being a Prominent Heilongjiang Agri-Product (黑龍江好糧油) in 2022.

Firewood Courtyard

We launched our Firewood Courtyard brand in 2011, which is positioned to capture the mid-to-high-end market. Committed to embracing the idea of nature, we are devoted to sourcing grains cultivated within renowned places of origin for grains. We believe such pursuit for superior quality will enhance the market demand for our products. Firewood Courtyard conveys the message to “fire the wood to cook the rice (煮飯燃薪, 薪為柴火),” representing a healthy lifestyle, with a natural and rustic charm. Our Wuchang rice is long and smooth in appearance, with a bright and translucent hue. Raw rice naturally exudes a fresh aroma, and cooked rice renders a glowing brightness, with a soft, sticky and sweet taste.

BUSINESS

We offer Wuchang rice and long grain rice under our Firewood Courtyard brand. We launched our “straw hat series (草帽系列)” Wuchang rice and long grain rice in 2014, in which “Straw hat series” Wuchang rice recorded revenue of over RMB100 million in 2022. Our Firewood Courtyard Wuchang rice was recognized as one of the “Top Ten Delicious Japonica Rice” during the tasting event at the third Heilongjiang International Rice Festival of China. We have also launched “China Chic series” under the Firewood Courtyard, emphasizing the commitment to traditional culture heritage. Firewood Courtyard China Chic series have received warm welcome from consumers and become a leading product under the rice product category at Tmall Supermarket.

Below, we set forth some of our representative rice products under Firewood Courtyard:

BUSINESS

Sunshine Family

We launched our Sunshine Family brand in 2018, dedicated to offering value-for-money rice products to Chinese families. The launch of Sunshine Family has extended our range to address the needs of more diversified consumer groups.

Below, we set forth some of our representative rice products under Sunshine Family:

Product	Launch Time	Net Weight per Individual Package	Suggested Retail Price per Individual Package	Average Suggested Retail Price per Net Weight (kg) ⁽¹⁾	Representative Package Design
Sunshine Family Northeast Rice (東北大米)	2021	5kg – 10kg	RMB35 – RMB59.9	RMB7.0

Whole Grain, Bean and Other Products

To meet consumers' diverse dietary needs, we have been actively developing and launching whole grain, bean and other products under the brand Shiyue Daotian. We launched our first bean product, red beans, in 2016, followed by soybeans, mung beans and black beans. In 2019, we introduced our signature tri-color brown rice to the market, which features a balanced mix of red rice, black rice and brown rice. We have also intentionally kept the seed coat and germ part of the ingredient to maintain the high fiber content. Within six months after its launch, our tri-color brown rice product had climbed to the top on JD.com in terms of revenue, according to Frost & Sullivan. Riding on such growth momentum, we have further

launched five-color brown rice and seven-color brown rice, offering diversified healthy staple food options. According to Frost & Sullivan, we ranked first in China’s mixed brown rice sub-category in terms of revenue generated from comprehensive e-commerce platforms in 2022.

We aim to continuously launch and upgrade our products, leveraging our strong brand equity, supply chain management, and sales channel operation capabilities. For example, in 2016, we launched one of our earliest whole grain products, millet. In 2022, we further launched Aohan millet. Aohan millet refers to millet sourced in Aohan, Inner Mongolia, known as the “Hometown of Millet in the World,” and has been certified as a China National Geographical Indication Product. We believe such approach will help us to solidify and enhance our competitive advantages in each product sub-category.

Below, we set forth our key whole grain and bean products:

Product	Launch Time	Net Weight per Individual Package	Suggested Retail Price per Individual Package	Average Suggested Retail Price per Net Weight (kg) ⁽¹⁾	Representative Package Design
Millet	2016	1kg – 2.5kg	RMB16.8 – RMB58.9	RMB16.8 – RMB23.6

The average suggested retail price per net weight of mixed brown rice products is calculated based on the packaging specification of 2.5kg, which is the representative packaging specification for such products, according to the Frost & Sullivan 2022 Survey.

Dried Food and Other Products

We have created a differentiated and rich portfolio of dried food products, based on our deep insights into markets and consumer, with different product types, tastes, price ranges, sales channels and marketing efforts. We mainly market our dried food products, such as wood ear mushrooms, snow fungus mushroom and lotus seeds, under our Shiyue Daotian brand. In the future, we plan to further expand our portfolio for dried food products. Our strong brand equity, multichannel sales network and operational experience have created synergy among our product offerings by increasing consumer stickiness and cross-selling opportunities. Our dried food and other products offerings also include by-products, such as bran, husk and fractionated rice.

Below, we set forth our key dried food products:

Product	Launch Time	Net Weight per Individual Package	Suggested Retail Price per Individual Package	Average Suggested Retail Price per Net Weight (kg) ⁽¹⁾	Representative Package Design
Wood ear mushrooms	2017	150g	RMB23.9	RMB159.3	
Lotus seeds	2019	250g	RMB28.9	RMB115.6

BRANDING AND MARKETING

We place great emphasis on brand-building, and have developed outstanding marketing capabilities across our multichannel sales network. We strategically curate our brand portfolio and product offerings, with differentiated price ranges, sales channels, product categories and packaging styles to reach a wide consumer base. Our leading position, diverse product offerings and brand equity enable us to cooperate with our business partners across our multichannel sales channels to reach more consumers, and further consolidate our leading position and enhance our brand awareness.

Moreover, we utilize cross-channel marketing efforts to solidify our strong presence across our multichannel sales network. In 2022, we cooperated with JD.com and Tmall to jointly launch the themed marketing campaign, “Shiyue Daotian Fresh Rice Season.” We provided fresh rice products at NKAs for tasting, promoted our products via livestreaming, and conducted consumer education of rice products to showcase the advantages of our products. In the meantime, we placed advertisements across social media, together with splash ads and billboards at metro stations to increase the exposure of this marketing campaign. Through the accumulation of experience, comprehensive training and know-how sharing, we have cultivated a top marketing team. Our marketing team is responsible for tracking market dynamics, discovering new channels and analyzing market characteristics to develop suitable promotion and sales strategies. Thus, we are able to continuously conduct tailored, interactive and entertaining marketing activities to adapt to different sales channels and consumer profiles.

We combine packaging design and marketing activities to emphasize our core brand image. For example, to promote our Cold Dew Autumn Series products, we have adopted multi-dimensional efforts. Using premium products from renowned places of origin for grains as the foundation for our product, we appeal to the aesthetics intrinsic within traditional Chinese solar terms to strengthen the connection between our products and a healthy lifestyle. We also specifically use a transparent window in our packaging design to allow consumers to directly see and examine our products. Leveraging high brand awareness and rich experience, we are able to continuously launch popular products to address differentiated and evolving consumer needs. For example, with the emerging trend of pursuit for domestic brands, we launched Firewood Courtyard “China Chic series” via online channels, emphasizing the commitment to traditional culture heritage. Firewood Courtyard China Chic series has received a warm welcome from consumers and become a leading product under the rice product category at Tmall Supermarket.

To effectively manage reputational risks and maintain our brand and product image, we have established and implemented a comprehensive information dissemination and media relations management system that outlines the procedures for handling potential negative publicity. Additionally, we have established a dedicated media working group to manage external media communications. If we become aware of any negative publicity, our media working group responds immediately and informs our Directors and senior management to devise appropriate measures to address the concerns raised in the negative publicity.

We continuously solidify our brand awareness, and strengthen our close connection with consumers through implementing different forms of marketing activities. Our representative marketing events include:

Shiyue Daotian Brand Day. We have designated October 18, which is around the founding day of our Shiyue Daotian brand, as our Shiyue Daotian Brand Day. We conduct promotions through multichannel sales channels, such as JD.com, Tmall and grocery retail channels.

Quality content marketing. We excel at conveying our brand value to consumers through quality content production. For example, we launched our online campaign event, “Shiyue Daotian brings you a spring (十月稻田帶你打包春天)” on Weibo and Xiaohongshu with a series of creative posters to present consumers with the spring scenery of Northeast China. The campaign is intended to promote the highlights of our popular product, long grain rice, by emphasizing its renowned places of origin and good taste.

Themed products. We continue launching various themed products to enhance brand exposure. For example, we have integrated traditional cultural symbols in launching our “National Flower series” products. This allows consumers to experience the profoundness of Chinese culture while tasting delicious food.

Media collaboration. In 2022, we broadcast the daily production at our Wuchang Production Base through the “Transparent Factory” (透明工廠) program of People.cn (人民網), showcasing the entire production process and quality control of our rice products. In the same year, we presented our Shiyue Daotian Harvest Season activities via the official streaming account of People.cn.

Live streaming. We continue carrying out daily live broadcasting activities to introduce the ecosystem of Northeast China, and other selected rice production areas, and emphasize the quality of our rice products. For instance, we carried out a live broadcast event with the theme of “Take Me Home for the New Year (陪你回家過年)” during the Chinese New Year in 2022 to build emotional connection with consumers.

Immersive offline experience. In 2021, we introduced an offline interactive campaign with our NKA partner, allowing consumers to participate in on-site rice milling by using intelligent rice millers and to experience the process of rice hulling. This event enabled wide consumer groups to understand the production process of rice, and encouraged them to share their experiences to naturally promote our products.

Celebrity endorsement and collaboration with KOLs and KOCs. We have selected a brand ambassador, a Olympic medalist, who echoes our brand spirit. As of March 31, 2023, we had cooperated with over 4,000 KOLs and KOCs from various platforms, of which over 500 KOLs and KOCs have more than one million followers. We also had approximately 28 million followers across e-commerce platforms and online stores as of March 31, 2023. We do not consider ourselves to rely on KOL and KOC marketing to sell our products as KOL and KOC

BUSINESS

marketing contributed a very small portion of our total revenue during the Track Record Period. The costs associated with the use of KOLs and KOCs are expensed as incurred. We generally enter into one-off contracts for each of our cooperation with such KOLs or KOCs. The salient terms of such contracts are set out below:

- **Cooperation contents.** KOLs or KOCs provide us with mutually agreed product promotion services. We typically stipulate the products, discount prices, discount method and other details of our promotion activities in our contracts with them.
- **Remuneration, profit sharing arrangement and payment.** Our payment to the KOLs or KOCs typically consists of a fixed live streaming fee and a commission of no more than 30% of the sales amount generated from the KOLs' or KOCs' promotion activities. Our commission settlement period with the KOLs or KOCs is typically no more than 30 days after the promotion activities.
- **Confidentiality.** The KOLs or KOCs shall not leak our commercial secrets to any third parties.
- **Termination.** The contracts will be terminated upon expiration, or by other means as set forth in the relevant agreements.

Regulatory Developments

On February 24, 2023, the SAMR promulgated the Administrative Measures for Online Advertising (《互聯網廣告管理辦法》), which came into effect on May 1, 2023. On November 5, 2020, it promulgated the Guiding Opinions of the State Administration for Market Regulation on Strengthening the Regulation of Online Livestreaming Marketing Activities (《市場監管總局關於加強網絡直播營銷活動監管的指導意見》, the “Guiding Opinion”). On March 25, 2022, the Cyberspace Administration of China (國家互聯網信息辦公室, the “CAC”), the SAT and the SAMR jointly issued the Opinions on Further Regulating the Profit-making Behavior of Online Live Streaming to Promote the Healthy Development of the Industry (《關於進一步規範網絡直播營利行為促進行業健康發展的意見》). In addition, On March 25, 2022, the CAC, the SAMR and the SAT jointly issued the Notice on Carrying out the Special Action of “Qinglang•Rectification of Chaos in the Field of Online Live Streaming and Short Video” (《關於開展“清朗•整治網絡直播、短視頻領域亂象”轉型行動的通知》). For details of the above regulations, see “Regulatory Overview – Laws and Regulations Relating to Product Quality and Consumer Protection – Advertisement Law.”

The recent regulatory changes in relation to the tightening regulations target the rectification campaign against illegal behaviors in the online live streaming and short video industries, including false propaganda, tax avoidance and other outstanding problems. During the Track Record Period and as of the Latest Practicable Date, (i) we had not been subject to any sanction or penalty with respect to the false propaganda or the tax evasion of KOLs or KOCs; (ii) as advised by our PRC Legal Adviser, according to the Live Network Marketing Management Measures (for trial implementation) (《網絡直播營銷管理辦法(試行)》), the live

marketing platforms and the live marketing personnel service agencies shall perform withholding obligations in accordance with the law, therefore, the KOLs, the KOCs, the live marketing platforms and the live marketing personnel service agencies, rather than us, is directly liable for tax evasion (if any); and (iii) our reliance on KOLs and KOCs to promote products or brands is limited as KOL and KOC marketing contributed a very small portion of our total revenue during the Track Record Period. As such, our Directors are of the view that there is no material impediment for the Group to comply with the relevant laws and regulations concerning online marketing.

Based on the independent due diligence conducted by the Joint Sponsors and having considered the views and basis of our Directors and the PRC Legal Adviser as disclosed above, nothing has come to the Joint Sponsors' attention that would reasonably cause them to cast doubt on the reasonableness of our Directors' view as disclosed above in any material aspect.

OUR SALES NETWORK

We have built an extensive and diverse multichannel sales network to reach a wide range of consumers, enhance our brand reputation and solidify our competitive advantages.

We started building our network from cooperating with online channels. With our acute market insights, differentiated marketing strategies, strong execution capabilities, and efficient supply chain management, we have partnered with multiple e-commerce platforms with leading positions, wide consumer outreach and high brand awareness in China and established leadership under multiple categories in terms of market share. We were the largest company in China's rice, whole grain, bean and seed market in terms of revenue generated from sales through online channels in 2022, representing a market share of 10.7%, according to Frost & Sullivan.

Leveraging our competitive advantages on online channels, we have further deepened our sales channel penetration and established an multichannel sales network. Since 2016, we have diversified into grocery retail channels and cooperated with well-known partners. According to Frost & Sullivan, in terms of revenue in 2022, we ranked fourth in the grocery retail channels in China's rice, whole grain, bean and seed market.

With the continuous expansion of our sales network, we have accumulated extensive experience in the identification, development and operation of sales channels. Thus, we are able to quickly identify and deploy emerging sales channels, effectively replicate our core operational experience, strategically launch suitable products, and achieve sustainable development. We have successfully seized opportunities in emerging channels to further strengthen our competitive edge. In 2020, we began to cooperate with social e-commerce platforms. In the same year, we also started partnering with community group buying platforms.

Note:

- (1) Direct customers primarily consist of catering companies, agricultural products companies, and other corporate and individual customers.

Online Channels

We believe that operating online channels enables us to better understand and respond to consumers' evolving demands, promote our products and enhance our brand awareness. As one of the first pantry staple food companies to develop online channels, we had ranked first in online sales channels in China's rice, whole grain, bean and seed market for four consecutive years, from 2019 to 2022, in terms of revenue, according to Frost & Sullivan. We have accumulated rich operational experiences and established competitive advantages in online channels, including e-commerce platforms and online self-operated stores.

E-commerce Platforms

We primarily sell products to e-commerce platforms, which, in turn, sell our products to consumers. We collaborate with both comprehensive e-commerce platforms such as JD.com and Tmall, and community group buying platforms in China. As of December 31, 2020, 2021 and 2022, we collaborated with 24, 27 and 29 e-commerce platforms, respectively, primarily due to our continuous efforts to expand and enhance our collaboration with e-commerce platforms. As of March 31, 2023, we collaborated with 24 e-commerce platforms and the decrease from that as of December 31, 2022 was primarily due to (i) our optimization of collaboration selection in consideration of e-commerce platforms' performance, and (ii) the closure of certain e-commerce platforms. In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, we generated revenue of RMB1,585.6 million, RMB2,190.6 million,

BUSINESS

RMB2,657.3 million, RMB617.0 million and RMB677.3 million from e-commerce platforms, respectively, representing 68.1%, 60.9%, 58.6%, 67.8% and 62.6% of our revenue during the same periods, respectively. We have been widely recognized by e-commerce platforms. For example, we were listed on the JD Supermarket Food and Beverage Annual Ranking Bestseller Quality Top 10 (年度京東超市食品飲料年度排行榜暢銷品品質榜十強) and won the Tmall Outstanding Partner Award (天貓傑出合作夥伴獎) during our collaboration with Tmall, reflecting the established leadership of our business on e-commerce platforms.

We primarily enter into sales and purchase arrangement with e-commerce platforms. In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, our revenue generated from e-commerce platforms under sales and purchase arrangement amounted to RMB1,540.2 million, RMB2,111.3 million, RMB2,551.2 million, RMB595.0 million and RMB649.2 million, respectively. Under sales and purchase arrangement, we primarily collaborate with (i) comprehensive e-commerce platforms, with which we have a buyer-seller relationship and (ii) community group buying platforms, which help us to expand our reach to consumers leveraging their platforms and warehousing and logistics capabilities. Under buyer-seller relationship, we recognize revenue when the goods are received and the settlement statement is confirmed by both parties. We primarily provide rice products under the sales and purchase arrangement so that the e-commerce platforms will implement marketing activities, reducing our needs for internal workforce for relevant operation and enhancing our efficiency.

We also enter into consignment arrangements with two e-commerce platforms during the Track Record Period, which did not differ from sales and purchase arrangements in terms of product offerings and pricing. We enter into both sales and purchase arrangement and consignment arrangement with leading e-commerce platforms such as Tmall depending on our business needs which are usually determined by product category. We primarily sell whole grain, bean and other products under the consignment arrangement on these leading platforms which allows us to take a more proactive role in formulating and carrying out promoting activities across the large amount of SKUs of our whole grain, bean and other products to ensure the consistency in our product pricing, and e-commerce platforms do not engage in such pricing and promotion management work under the consignment arrangement cooperating with us. According to Frost & Sullivan, consignment arrangement is a market practice for companies in collaboration with certain e-commerce platforms, including established e-commerce platforms with extensive end-consumer outreach and strong brand equity. Under consignment arrangements, at the expiration of each settlement period, the platforms charge (i) a service fee of a certain percentage of transaction amount during such period, which varies depending on the product category; and (ii) fees for value-added services such as marketing and promotion, to the extent that we have used such services during such period. We recognize revenue when end-consumers confirm acceptance on the relevant e-commerce platforms. As of December 31, 2020, 2021, 2022 and March 31, 2023 our inventories kept at the premises of the e-commerce platforms on consignment were RMB9.6 million, RMB14.3 million, RMB17.8 million and RMB10.9 million, accounting for 1.5%, 1.4%, 1.3% and 0.9% of our total inventories, respectively.

BUSINESS

Below set forth key terms of our arrangement with comprehensive e-commerce platforms (including those under consignment arrangement).

- *Duration.* The duration of the agreement is typically one year.
- *Minimum purchase requirement.* We generally do not set any minimum purchase requirements.
- *Payment and credit terms.* E-commerce platforms periodically settle payments with us. Depending on the specific arrangements with the e-commerce platforms, we generally grant a credit period within 60 days.
- *Sales and performance targets.* We generally do not set sales targets for e-commerce platforms.
- *Pricing policy.* We generally sell our products through e-commerce platforms at price levels that have been mutually agreed by us and the e-commerce platforms, or at price levels adopted by e-commerce platforms after considering our suggested retail price.
- *Logistics.* We are generally responsible for delivering our products to locations agreed between e-commerce platforms and us.
- *Transfer of risks.* The risks transfer to e-commerce platforms after they complete the inspection and confirm the receipt of our products. For consignment arrangements, the title to products and legal risks do not transfer to end-consumers until the products are sold and delivered to end-consumers and end-consumers, confirm receipt of products.
- *Return arrangement.* We typically do not allow product return except for limited reasons, including product quality issues, unmarketable goods, or products with low turnover rate. During the Track Record Period, we allowed unconditional product returns for certain reputable e-commerce platforms with a leading industry position, extensive consumer reach and high brand awareness, primarily due to their strong bargaining power. According to Frost & Sullivan, it is an industry norm for reputable e-commerce platforms to have an unconditional product return clause in their contracts with consumer goods companies like us.
- *Termination.* Either party generally has the right to terminate the contract with the other party if the other party breaches the sales and purchase agreement and fails to rectify such breach within a reasonable period of time.

We also cooperate with community group buying platforms in order to leverage their extensive consumer reach and service capabilities in warehousing and logistics. Under such arrangement, we deliver the products to the designated warehouses under terms of our standard

BUSINESS

agreements generally according to the order volumes, and the platforms then deliver the products to the community groups' designated coordinators. Our business conducted on community group buying platforms is not of consignment nature. As of December 31, 2020, 2021 and 2022 and March 31, 2023, we collaborated with six, six, six and four community group buying platforms, respectively. Our revenue generated from community group buying platforms increased from RMB18.7 million in 2020 to RMB392.8 million in 2021, and further to RMB594.9 million in 2022, and increased from RMB108.5 million for the three months ended March 31, 2022 to RMB127.4 million for the three months ended March 31, 2023, primarily due to increasing customer demand for our products and our deepen penetration in emerging online channels. The salient terms of our standard agreements with community group buying platforms during the Track Record Period are set out below:

- *Duration.* The term of our contract is typically one year subject to renewal.
- *Services.* The community group buying platforms generally provide us with e-commerce trading platform services.
- *Service fees.* We generally pay community group buying platforms technical service fees for their value-added services including promotion, transportation and warehousing, the amount of which depends on our service usage amount.
- *After-sales service.* We are generally responsible for after-sales issues of the products sold.
- *Transfer of risks.* The risks generally are transferred after end-consumers confirm the receipt and acceptance of our products.
- *Termination.* The community group buying platforms are generally entitled to terminate the agreements without any payment in the event that (i) we breach our obligations as outlined in the rules of relevant platforms or our obligations, commitments or warranties as stated in the relevant agreements, or (ii) they give us prior written notice of such termination. We are generally able to terminate the agreement upon platforms' approval for our closing relevant account with no early payment indicated.

To the best of our knowledge, during the Track Record Period, all of our e-commerce platform partners were Independent Third Parties. To the best of our knowledge, our e-commerce platform partners or their respective associates have no past or present family, business, employment or financial relationship with us or our subsidiaries, shareholders, directors or senior management or any of their respective associates.

Online Self-operated Stores

We also establish and run our self-operated stores on third-party e-commerce platforms and sell our products directly to consumers. We believe that establishing direct sales relationships with consumers enables us to better gauge their feedback on our products, and to gain more timely and accurate consumer insights, thus facilitating our upgrades of products and sales strategies. We have self-operated stores across multiple e-commerce platforms in China, primarily including JD.com and Tmall. Meanwhile, we have also been actively seeking sales opportunities on emerging e-commerce platforms to adapt to evolving consumer behavior patterns. In particular, we have increased our efforts in social e-commerce and launched self-operated stores on pioneering social e-commerce platforms. As of December 31, 2020, 2021 and 2022 and March 31, 2023, we operated 38, 58, 48 and 53 self-operated stores, respectively. In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, we generated revenue of RMB263.9 million, RMB526.0 million, RMB486.9 million, RMB80.3 million and RMB100.2 million from online self-operated stores, respectively, representing 11.3%, 14.6%, 10.7%, 8.8% and 9.3% of our revenue during the same periods, respectively. We optimized our online store portfolio and reduced the number of our online self-operated stores from 58 as of December 31, 2021 to 48 as of December 31, 2022, taking into consideration their performance and our strategic operation adjustment. Our revenue generated from online self-operated stores decreased from RMB526.0 million in 2021 to RMB486.9 million in 2022, primarily due to (i) the adjustment of our product offerings on the e-commerce platforms; and (ii) the closure of our online self-operated stores. Our self-operated stores have been highly recognized on e-commerce platforms. In 2021, we won the Yearly Good Store (年度好店) and Yearly Store Growth (年度店舖成長) awards on JD.com, and the Excellent Self-broadcasting Store award (優秀店舖自播獎) on Tmall.

We generally enter into standardized framework agreements with e-commerce platforms with regard to our online self-operated stores on the e-commerce platforms. The key terms of the agreements primarily include:

- *Duration:* The term of our contract is generally one year, subject to annual renewal and platforms' requirements.
- *Scope of service:* E-commerce platforms generally provide us with technical support and system maintenance for online store management, including uploading product information, creating orders, managing transactions, completing payment and other services.
- *Service charges:* We generally pay e-commerce platforms variable service charges which is calculated by taking a prescribed percentage of the transaction amount of commodities recorded on the e-commerce platforms. The service charge rate is determined by the platform based on the industry category of the stores or the store types.
- *Payment:* Variable service charges are generally paid on real-time basis as set forth in the relevant agreements.
- *Termination:* The agreements will be terminated upon the expiration or by other means as set forth in the relevant agreements.

Grocery Retail Channels

In line with the developing landscape of the offline retail ecosystem, we have successfully established an extensive presence across our grocery retail channels. Our grocery retail channels mainly include NKAs and LKAs which provide our products to end-consumers. We have leveraged our experience in operating online sales networks to promptly establish our presence in nationwide grocery retail channels with our comprehensive service capabilities, efficient supply chain management and high brand awareness.

Since 2016, we have expanded our business into grocery retail channels, stated with our efforts to cover NKAs. With the experience gained in the cooperation with NKA, we have further extended the scope of cooperation to LKAs. The organic combination of NKA and LKA in our grocery retail channels enables us to reach a comprehensive base of consumers from different geographical regions. Shelf-display of our products at these well-known offline supermarkets can also further enhance our brand influence among consumers. As of December 31, 2020, 2021 and 2022 and March 31, 2023, we have established cooperation with 39, 70, 90 and 89 grocery retail channel partners respectively. In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, we generated revenue of RMB216.1 million, RMB404.0 million, RMB696.0 million, RMB101.9 million and RMB128.4 million from grocery retail channels, respectively, representing 9.3%, 11.2%, 15.4%, 11.2% and 11.9% of our revenue during the same periods, respectively.

The salient terms of our standard agreements with grocery retail channel partners during the Track Record Period are set out below:

- *Duration.* The duration of the agreement is typically one year.
- *Sales and performance targets.* We generally do not set minimum purchase requirements for grocery retail channel partners.
- *Payment and credit term.* We generally deliver products before receiving payments from our grocery retail channel partners. We generally grant a credit period of 0 to 60 days to our grocery retail channel partners. Depending on the specific arrangements with the grocery retail channel partners, our credit terms primarily include payment upon product acceptance, payment in accordance with billing cycles and payment before delivery.
- *Logistics.* We generally are responsible for the delivery of products to any address designated by our grocery retail channel partners.
- *Transfer of risks.* The risks transfer to grocery retail channel partners after they complete the inspection and confirm receipt of our products.

BUSINESS

- *Return arrangement.* We typically do not allow our grocery retail channel partners to return products except for limited reasons such as product quality issues. During the Track Record Period, we allowed unconditional product returns for certain reputable grocery retail channel partners that has leading industry position, wide market penetration and high brand awareness, primarily due to their strong bargaining power. According to Frost & Sullivan, it is an industry norm for reputable grocery retail channel operators to have an unconditional product return clause in their contracts with consumer goods companies like us. The level of product return from our grocery retail channel partners is immaterial.
- *Termination.* The agreements will be terminated upon expiration, or by other means as set forth in the relevant agreements.

To the best of our knowledge, during the Track Record Period, all of our grocery retail channel partners were Independent Third Parties. To the best of our knowledge, our grocery retail channel partners or their respective associates have no past or present family, business, employment or financial relationship with us or our subsidiaries, shareholders, directors or senior management or any of their respective associates.

Direct Customers

During the Track Record Period, our direct customers mainly included catering companies, agricultural products companies, and other corporate and individual customers. In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, we generated RMB157.9 million, RMB307.2 million, RMB452.0 million, RMB77.9 million and RMB110.7 million from direct customers, respectively, representing 6.8%, 8.5%, 10.0%, 8.6% and 10.2% of our revenue during the same period, respectively. Such customers generally purchase our products for their business operations or internal employee benefits. Due to the high market demands for our products, we generally do not enter into long-term sales agreements with our direct customers. Instead, our direct customers generally place purchase orders with us on an order-by-order basis.

BUSINESS

Distribution Network

We also cooperate with distributors to increase the accessibility of our products. As of March 31, 2023, we had 553 distributors. In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, we generated revenue of RMB103.6 million, RMB170.5 million, RMB240.8 million, RMB33.2 million and RMB64.9 million from distributors, respectively, representing 4.5%, 4.7%, 5.3%, 3.6% and 6.0% of our revenue during the same period, respectively. The table below sets out the total number of distributors and their movements for the periods indicated:

	Year ended December 31,			Three months ended March 31,
	2020	2021	2022	2023
Number of distributors at the beginning of the period	108	204	356	602
Number of new distributors for the period ⁽¹⁾	122	177	298	47
Number of terminated distributors for the period ⁽²⁾	26	25	52	96
Net increase/(decrease) in number of distributors for the period	96	152	246	(49)
Number of distributors at the end of the period	<u>204</u>	<u>356</u>	<u>602</u>	<u>553</u>

Notes:

- (1) New distributors refer to distributors that placed their first order with us in our system in a particular year or period.
- (2) Terminated distributors refer to those that did not purchase our products for a given year or period.

During the Track Record Period, we mainly engaged new distributors in line with our business expansion, as we strived to enlarge our sales network coverage to provide our products to more consumers. In 2020, 2021, 2022 and the three months ended March 31, 2023, we terminated cooperation with 26, 25, 52 and 96 distributors, respectively. The termination decisions were made based on a number of factors such as sales performance. The number of distributors terminated due to their poor sales performance was two, one, five and 15 in 2020, 2021, 2022 and the three months ended March 31, 2023, respectively, and the number of distributors terminated for not purchasing our products during the respective periods was 24, 24, 47 and 81 in 2020, 2021, 2022 and the three months ended March 31, 2023, respectively.

BUSINESS

The salient terms of our standard distribution agreements during the Track Record Period are set out below:

- *Duration.* The agreement generally has a term of one year.
- *Payment and credit terms.* We generally require our distributors to make payment before the delivery of products, and we generally do not grant credit terms to our distributors.
- *Minimum purchase requirements.* We generally do not set minimum purchase requirements with our distributors.
- *Pricing.* We are generally entitled to adjust our price level for products sold to distributors. We are also entitled to adjust our recommended retail prices.
- *Logistics.* We generally assign logistics companies to deliver our products to the addresses designated by distributors.
- *Transfer of risk.* The risks transfers to distributors after they complete the inspection and confirm receipt of our products.
- *Return arrangements.* We generally do not allow product return from distributors, except for limited reasons such as defective products.
- *Termination.* We generally have the right to terminate the agreement with distributors who breach the distribution agreement.

We maintain a buyer-seller relationship with our distributors. We value the management of our distributors, and maintain a good cooperative relationship with them. We select our distributors based on a number of factors, including their track record, sales experience, and reputation, among others. We also regularly evaluate our distributors on the basis of their sales performance and channel development ability.

We believe the risk of channel stuffing is low in our distribution network. We generally require full payment from distributors before product delivery. We generally do not allow returns of products sold to distributors, except for defective products. During the Track Record Period, we had not received any product return from our distributors. We generally do not set minimum purchase requirements, nor sales targets, and therefore distributors are not incentivized or obliged to purchase a any number of products exceeding the demands of their consumers. We seek to optimize our sales strategy on an ongoing basis to adapt to a changing market based on market intelligence collected by our sales and marketing teams.

BUSINESS

To our knowledge, during the Track Record Period, all our distributors were Independent Third Parties. We implement the same service guidelines and policies over all of our distributors. To our knowledge, our distributors, or their respective associates, do not have any past or present family, business, employment, or financial relationships with us or our subsidiaries, our shareholders, directors or senior management, or any of their respective associates.

Coordination among Sales Channels

We normally examine and manage our operation across sales channels on a group level, and optimize those of our resources that are invested in different channels and platforms. To minimize cannibalization among different sales channels, we typically adopt the following measures:

- **Group level management.** To mitigate the risk of sales channel cannibalization at the group level, we have established and maintained the marketing center to oversee the sales channel management of our Group. It is responsible for coordinating the development and implementation of our sales channel management policies. It is also responsible for maintaining the effective execution of various measures such as product management, marketing activities, pricing strategies, customer management, and reporting mechanisms across our multichannel network.
- **IT system.** We utilize IT systems such as business mid-platform, ERP system, and CRM system to monitor customer orders, selling prices across our multichannel network, as well as promoter attendance and store visits.
- **Product differentiation.** We create differentiated brands and product categories in terms of price, design, specification and sales channels based on the development patterns of different channels and the needs of different target consumers. For example, we offer products with diversified packaging such as “China Chic Series” and “National Flower Series” in online channels, and we offer “Cold Dew Autumn Fragrance Series” products in grocery retail channels and distribution network.
- **Tailored marketing campaigns.** We formulate and carry out marketing campaigns and strategies by taking into account the performance of our overall online and offline sales networks, to avoid within-platform and cross-platform competition. For example, we usually carry out themed live broadcast events on social e-commerce platforms, immersive offline interactive campaigns at stores of our grocery retail channel partners, and sales events such as Double Eleven on comprehensive e-commerce platforms such as JD.com and Tmall.
- **Pricing control.** We provide suggested retail prices to, or negotiate pricing with, e-commerce platforms, grocery retail channel partners and distributors, to ensure the consistency of pricing among different sales channels.

BUSINESS

- ***Online channels management.*** We engage multiple online channels to display and sell our products to achieve high brand exposure and wide customer reach. Particularly, for comprehensive e-commerce platforms like JD.com and Tmall, on one hand, we sell products to JD Supermarket and Tmall Supermarket respectively, and on the other hand, we operate self-operated stores on these platforms. To maintain price alignment within our online channels, we (i) have implemented a uniform pricing mechanism for the suggested retail price the same products sold on different online stores operated by e-commerce platforms and our self-operated stores; (ii) have a designated team which has been constantly monitoring the prices of our products on different online channels, (iii) have differentiated the brands or products on different online channels, catering to different consumers' needs, and (iv) would align the promoting and marketing activities across the online channels especially with respect to the applicability and extent of discounts offering to target customers through different online channels precisely and deepen collaboration with our online channel partners. We will also communicate with such channels for relevant promoting and marketing activities to adjust pricing or align such promoting and marketing activities cross-channel. We do not completely control the specific implementation or execution of such activities.
- ***Grocery retail channels management.*** We provide our grocery retail channel partners with a national uniform recommended retail price. We have a dedicated team responsible for managing and monitoring selling prices of products on sales in the stores of our grocery retail channel partners. Our promotional rules and promotional activity execution plans for each grocery retail channel shall be reviewed by our relevant grocery retail channel management before implementation.
- ***Distribution network management.*** To prevent the unauthorized sales activities outside the designated regions, we constantly monitor the sales activities of our distributors. We grant specific geographical regions to our distributors so that we can reduce the degree of competition among different distributors. The distribution agreements we signed with distributors generally specify the types of products to be distributed and the designated geographic areas and generally prohibit the distributors from selling the products outside the respective designated geographical regions without our prior written consent.
- ***Reporting mechanism.*** We require our distributors and employees to report cannibalization they have identified. We are entitled to terminate the distribution agreements with those distributors that repeatedly engage in severe cannibalization or cross channel or cross region sales.

BUSINESS

Pricing

Our sales prices are set with reference to various factors, including brand positioning, raw material cost, production cost and market competition. Our sales staff regularly monitor product prices on e-commerce platforms, grocery retail channel partners, and distributors, so as to review and evaluate our pricing.

OUR PRODUCTION

Overview

In order to offer premium products to our consumers, we procure raw materials from renowned places of origin for grains. We have established long-term and stable relationships with a wide range of suppliers across product categories. Specifically, our core grain production areas include Shenyang Xinmin, Wuchang, Songyuan, Tonghe, and Aohan. The rice originating from Wuchang, and millet originating from Aohan, are China National Geographical Indication Products. We also purchase raw materials for whole grain, bean, dried food products from other renowned places of origin, including red beans from Daqing, Heilongjiang Province, mung beans from Inner Mongolia, and peanuts from Fuyu, Jilin Province.

Set forth below are the details of our core grain production areas in proximity to our production bases:

Production

<u>Bases</u>	<u>Major Variety</u>	<u>Features of the area</u>
Shenyang Xinmin production base	Long grain rice series	Xinmin, Shenyang is located in the alluvial plain of Liao River and Hun River, featuring rich natural resources and suitable climate conditions. Xinmin also has the largest reserve of underground hot spring in Northeast China. The grey soil and meadow soil in Xinmin is conducive to rice cultivation. Moreover, the climate condition in Xinmin, including a frost-free period ranging from 147 days to 164 days, is beneficial for paddy growth.

Production

<u>Bases</u>	<u>Major Variety</u>	<u>Features of the area</u>
Wuchang production base	Wuchang rice series	<p>Wuchang, Heilongjiang is located in the alluvial plain of Songhua River and Nenjiang River. Wuchang, one of the most well-known production area for rice products, is recognized as the National Ecological Civilization Demonstration Area (國家生態文明先行示範區). Wuchang's natural environment is conducive to agricultural production. In particular, Wuchang has black soil with an average thickness of approximately one meter, which is rich with nutrients required for rice growth. Wuchang also has abundant water resources including natural artesian water from high mountain snow and mountain spring. Specifically, one of its water resources for irrigation, the Mopan water reservoir, is also the source for drinking water in Harbin, the capital city of Heilongjiang. The frost-free period in Wuchang ranges from 110 days to 140 days. The average diurnal temperature variation during the rice filling period reaches 13°C, which is 5.5 °C higher than in the same latitude, with a maximum variation of 20°C. Widely recognized for its premium quality, taste and nutrition value, rice originating from Wuchang has been certified as China National Geographical Indication Product.</p>
Songyuan production base	Komachi rice	<p>Songyuan is located in the alluvial plain of Songhua River and Nenjiang River and on the banks of the Songhua River with black soil. Songyuan is rich in water resources, with four rivers and one lake in the territory and a total of annual flow of 37.7 billion cubic meters. The annual average temperature in Songyuan is 5.6°C, and the average annual frost-free period is 152 days. In addition, Songyuan is also one of the largest distribution centers for whole grain and bean in China.</p>

Production

<u>Bases</u>	<u>Major Variety</u>	<u>Features of the area</u>
Tonghe production base	Long grain rice series	Tonghe, Heilongjiang is located in the hinterland of Songhua River. With the temperate monsoon climate, Tonghe has good atmospheric quality. Tonghe has premium black soil with an average of 80 cm thickness that is rich in nutrients and high in organic matter content, suitable for rice growth. Tonghe's water resources mainly include natural artesian water and water from Songhua River. Rice originating from Tonghe has been certified as China National Geographical Indication Product.
Aohan production base	Millet	Aohan, Chifeng, Inner Mongolia is a well-known dry and rainfed agricultural area. With soil rich in minerals, temperate monsoon climate four distinct seasons and abundant sunshine, Aohan is suitable for the growth of millet. Aohan millet mainly relies on natural water sources for irrigation with high accumulated temperature. The diurnal temperature variation in Aohan is large, which is conducive to the accumulation of dry matter in millet. Aohan is known as the "Hometown of Millets in the World", and millet originating from Aohan has been certified as China National Geographical Indication Product.

Our Production Process

We constantly optimize our production process, and explore development of production techniques and techniques to maintain the good taste and preserve the nutritional value of our products, thus satisfying the preferences of our consumers. Our production process is highly standardized and automated. In addition, we have made substantial investment in purchasing advanced production machinery and equipment. Our production team members work closely to continuously maintain our production machinery and equipment to meet our high production standards and improve our production efficiency.

Key steps in the production process of our rice products are as follows:

- *Cleaning.* Put the raw grain into a universal cleaning machine to remove impurities, then put it into destoners to remove stones of approximately the same size and shape as the grain kernels, and then put it into magnetic separators to remove magnetic metallic substances.

BUSINESS

- *Hulling.* Put the cleaned raw grain into hullers to remove hulls, then put it into paddy rice separators to separate hulled rice and paddy, and then put it into thickness graders to remove unripe grain.
- *Milling.* Put the hulled rice into multiple rice machines to remove grain bran, then put it into a plansifter to grade it into head rice, broken rice fractions, tips and bran; and then put it into rice cooling bins for cooling with natural ventilation.
- *Polishing.* Put the milled rice into polishing machines to remove the aleurone layer to obtain clean rice with a smooth surface.
- *Sorting.* Put the polished rice into sorting equipment to remove defective kernels and impurities.
- *Grading and finishing.* Put the sorted rice into plansifters and length graders for further grading, and then put it into finished rice bins.
- *Packaging.* Put the finished rice into automatic packing systems for filling, vacuuming and sealing, and then put it into coding machines to print the packaging.
- *Inspection and storage.* Inspect the products according to quality control standards (including the presence of metal impurities, net weight of the finished product, sealing quality), and then box them for storage in warehouses.

BUSINESS

Key steps in the production process of our whole grain, bean and other products, which are similar to those for our dried food products, are as follows:

- *Stone removal.* Put the raw materials into destoners to remove stones.
- *Sorting.* Put the raw materials into sorting equipment to remove impurities.
- *Feeding.* Feed the raw materials to each production line.
- *Magnetic separation.* Put the raw materials into magnetic separators to remove magnetic metallic substances.
- *Packaging.* Put the products into a scale weighing bagging baler for portioning, filling and packing.
- *Inspection and storage.* Inspect the products according to quality control standards (including the presence of metal impurities, net weight of the finished product, sealing quality), and then box them and put them into warehouses after checking.

Our Production Capacity

Our comprehensive value chain operation capabilities start with our competitive advantages in being located in proximity to renowned places of origin for raw materials. Through procurement of raw materials of premium quality, standardized production under strict quality control, we are able to provide consumers with premium products. As of March 31, 2023, we had established the following production bases in proximity to the five core grain production areas in China:

- ***Shenyang Xinmin production base.*** During the Track Record Period and up to the Latest Practicable Date, we primarily produced rice products, whole grain, bean and other products and dried food products at our Shenyang Xinmin production base.

BUSINESS

- ***Wuchang production base.*** During the Track Record Period and up to the Latest Practicable Date, we primarily produced rice products at our Wuchang production base.
- ***Songyuan production base.*** Our Songyuan production base was put into operation in 2022. Since November 2022, and up to March 31, 2023, we primarily produced semi-finished goods for rice products at our Songyuan production base, and the annualized designed capacity for semi-finished goods of our Songyuan production base in 2022 and 2023 was 168.8 thousand tons, calculated upon the assumption that the production facilities operate 18 hours per day and 300 days per year. The utilization rate for our Songyuan production base was 28.0% and 17.0% for 2022 and the three months ended March 31, 2023, respectively, primarily due to that it takes time for us to ramp up utilization rate at the Songyuan production rate as the result of the short period of production and the generally low utilization rates in the first quarter of the year due to the effects of the Chinese New Year holiday.
- ***Tonghe production base.*** As of the Latest Practicable Date, the construction of our Tonghe production base was under progress, and we plan to further build the production lines therein.
- ***Aohan production base.*** Our Aohan production base began operation in 2022. Up to the Latest Practicable Date, we produced whole grain, bean and other products at our Aohan production base.

We measure our production capacity in terms of finished product processing capability. The designed capacity of each of our production bases cannot be utilized interchangeably among different types of products as different products generally require specifically designed sets of equipment for the entire production process. Our production capacity utilization is subject to the seasonality in the production of rice products, as production schedules of the companies in the rice industry are often planned in accordance with the cyclical harvest of raw materials in the fourth quarter of the year. According to Frost & Sullivan, this is in line with the market practice and the annual average maximum utilization rate in this industry generally does not exceed 80%. In addition, to meet consumers' needs for fresh products, we plan our production based on prediction of customer orders to manage our inventory level. Before peak consumption periods such as the Chinese New Year, we need sufficient production capacity to support the relevant high production demand. Therefore, except for in the events of such harvest seasons or peak consumption periods, we normally do not operate at the maximum designed production capacity throughout the year.

Notes:

- (1) The designed capacity for the year/period is calculated based on the following assumptions: (i) all production lines are functioning at full capacity; (ii) we operate 300 days per year; (iii) our production facilities at our Shenyang Xinmin production base and Aohan production base operate 18 hours per day, those at our Wuchang production base operate 16 hours per day; and (iv) the average weight of our products is 5kg.
- (2) The actual production during the year/period is the total volume of the products produced during that year/period.
- (3) The utilization rate during the year/period equals the actual production volume divided by the designed production capacity during the same year/period.
- (4) The designed capacity for our rice products increased from 2020 to 2022, primarily because we have actively expanded our production capacity to meet increased demands for our products by establishing and putting into operation more production lines during the same period. The designed capacity for our rice products decreased from the three months ended March 31, 2022 to the three months ended March 31, 2023, primarily because we have been in the process of maintaining and renovating certain of our production lines since January 2023. The utilization rate for our rice products decreased from 65.7% in 2020 to 57.6% in 2021, and then decreased to 50.5% in 2022, primarily due to the fast expansion in designed capacity and the reduction in production activities resulted from the temporary impact of the previous pandemic. See “Risk Factors – Our supply chain and our business may be materially and adversely affected by contamination, natural disasters, extreme weather, health epidemics, pandemics and other catastrophic events that are beyond our control.” The utilization rate for our rice products increased from 37.7% in the three months ended March 31, 2022 to 43.4% in the three months ended March 31, 2023, primarily due to the decrease in the designed capacity.
- (5) The designed capacity for our whole grain, bean and other products increased from 2020 to 2022, primarily because we have actively expanded our production capacity to meet increased demands for our products by (a) establishing and putting into operation new production lines, and (b) putting our Aohan production base, where we produce whole grain, bean and other products, into operation in 2022. The utilization rate for our whole grain, bean and other products increased from 72.6% in 2020 to 80.4% in 2021, primarily due to the increase in actual production volume, partially offset by the increase in the designed production capacity; and then decreased to 59.7%, primarily due to the fast expansion in designed capacity and the reduction in production activities resulted from the temporary impact of the previous pandemic. See “Risk Factors – Our supply chain and our business may be materially and adversely affected by contamination, natural disasters, extreme weather, health epidemics, pandemics and other catastrophic events that are beyond our control.” The designed capacity and utilization rate for our whole grain, bean and other products remained stable in the three months ended March 31, 2022 and 2023.
- (6) The designed capacity for our dried food products increased from 2020 to 2022 and from the three months ended March 31, 2022 to the three months ended March 31, 2023, primarily because we have actively expanded our production capacity to meet increased demands for our products by establishing and putting into operation new production lines to meet the increased market demands for our products. The utilization rate for our dried food products increased from 46.3% in 2020 to 66.2% in 2021, and then increased to 98.1% in 2022, and increased from 55.8% in the three months ended March 31, 2022 to 97.3% in the three months ended March 31, 2023, primarily due to the increase in actual production volume, partially offset by the increase in the designed capacity.
- (7) The utilization rates for our rice products, whole grain, bean and other products, and dried food products were relatively low in the three months ended March 31, 2022 and 2023, because the first three months per annum are not peak season of production.

Notes:

- (1) The designed capacity of our Shenyang Xinmin production base increased from 2020 to 2022, primarily because we actively expanded our production capacity to meet increased demands for our products by establishing and putting into operation more production lines during the same period. The designed capacity of our Shenyang Xinmin production base decreased from the three months ended March 31, 2022 to the three months ended March 31, 2023, primarily because we have been in the process of maintaining and renovating certain of our production lines since January 2023. The utilization rate of our Shenyang Xinmin production base decreased from 68.9% in 2020 to 57.3% in 2021, and then decreased to 52.6% in 2022, primarily due to the fast expansion in designed capacity and the reduction in production activities resulted from the temporary impact of the previous pandemic. See “Risk Factors – Our supply chain and our business may be materially and adversely affected by contamination, natural disasters, extreme weather, health epidemics, pandemics and other catastrophic events that are beyond our control.” The utilization rate of our Shenyang Xinmin production base increased from 38.6% in the three months ended March 31, 2022 to 53.8% in the three months ended March 31, 2023, primarily due to the decrease in the designed capacity.
- (2) The designed capacity of our Wuchang production base increased from 2020 to 2022 and from the three months ended March 31, 2022 to the three months ended March 31, 2023, primarily because we have actively expanded our production capacity to meet increased demands for our products by establishing and putting into operation more production lines during the same periods. The utilization rate of our Wuchang production base increased from 60.2% in 2020 to 66.2% in 2021, primarily due to the increase in actual production volume, partially offset by the increase in the designed production capacity, and then decreased to 50.9% in 2022, primarily due to the fast expansion in designed capacity and the reduction in production activities resulted from the temporary impact of the previous pandemic. See “Risk Factors – Our supply chain and our business may be materially and adversely affected by contamination, natural disasters, extreme weather, health epidemics, pandemics and other catastrophic events that are beyond our control.” The utilization rate of our Wuchang production base decreased from 40.3% in the three months ended March 31, 2022 to 29.6% in the three months ended March 31, 2023, primarily due to the increase in designed capacity.
- (3) Our production capacity at Songyuan production base is not included, because we mainly produced semi-finished goods at our Songyuan production base since it was put into operation and up to March 31, 2023, which were subsequently transported to our other production bases for further processing.
- (4) Our production capacity at Tonghe production base is not included, because as of the Latest Practicable Date, the construction of our Tonghe production base was under progress.
- (5) Our Aohan production base was put into operation in 2022.
- (6) The utilization rates of our Shenyang Xinmin production base, Wuchang production base and Aohan production base were relatively low in the three months ended March 31, 2022 and 2023, because the first three months per annum are not peak season of production.

Our OEMs

In order to better meet market demands and ensure adequate supply for our diversified product offerings, we cooperate with reliable OEMs to produce a portion of products primarily for dealing with short-term demand surges (e.g. during the rice harvest season) and for catering to certain of our customers’ demands for products manufactured with paddies from designated regions. We have strict criteria for selecting OEMs, including, among others, their credentials, management systems, production equipment, and production hygiene. We have established and implemented an OEM product quality management system. Our quality control department and procurement department collaborate closely to efficiently manage our OEM suppliers, thus ensuring that the products provided by our OEM suppliers meet our stringent quality requirements. Before initiating cooperation with new OEM suppliers, we conduct a thorough review of their business licenses, business permits, production licenses, external product inspection reports, management system certificates, product certifications, and other relevant

BUSINESS

documentation, and conduct background checks. We do not rely on any single OEM supplier, and we maintain good relationships with multiple OEM suppliers throughout the Track Record Period. We engage OEM suppliers on an annual basis and make orders, based on our demands and their delivery capabilities. We also require our OEM suppliers to comply with our internal guidelines and policies as well as relevant national standards throughout their procurement of raw materials and all crucial production processes involved in manufacturing our products. We are entitled to terminate cooperation upon contract breach or their non-compliance with our guidelines and policies.

The table below sets forth the breakdown of the production volume by producer during the Track Record Period:

	Year Ended December 31,						Three months ended March 31,			
	2020		2021		2022		2022		2023	
	<i>production</i> <i>volume</i>	%	<i>production</i> <i>volume</i>	%	<i>production</i> <i>volume</i>	%	<i>production</i> <i>volume</i>	%	<i>production</i> <i>volume</i>	%
	<i>(Tons in thousand, except percentage)</i>									
Attributed to our internal production	285.9	95.4%	490.1	87.1%	574.2	84.9%	99.2	93.0%	97.6	79.8%
Attributed to OEM production	13.7	4.6%	72.3	12.9%	102.5	15.1%	7.5	7.0%	24.8	20.2%
Total	299.6	100.0%	562.4	100.0%	676.7	100.0%	106.7	100.0%	122.3	100.0%

Our strategic layout of production capacities, including both internal production bases and OEMs, helps us to optimize our operation with flexibility. The production volume attributed to our internal production increased during the Track Record Period, primarily reflecting the increased demands for our products. During the Track Record Period, we have also generally expanded our designed production capacity in order to meet such increased market demands. The production volume attributed to OEM production increased from 7.5 thousand tons in the three months ended March 31, 2022 to 24.8 thousand tons in the three months ended March 31, 2023, primarily due to certain customers' demands for products manufactured with paddies from designated regions, and we also leverage such increased engagement of OEM suppliers in or near the same region to increase efficiency of delivery and control logistics costs. There is no direct correlation between the trend of the increase in our OEM production volume and the trend of the decrease in our production utilization rate from 2020 to 2022, which was primarily attributable to our continuous expansion of designed capacity. See “– Our production Capacity.”

As expanding in-house production capabilities is crucial for us in the long run to manage our production and supply chain, better meet growing customer demands and control costs, we plan to continuously expand our internal production capacities as the primary approach to meet

BUSINESS

the market demands for our products. See “– Our Production Expansion Plan.” OEMs will continue to be the supplementary approach for us to address demands such as short term demand surge or demands for products from certain designated areas if feasible.

The salient terms of the standard agreements with our OEM suppliers during the Track Record Period are set forth as below:

Term. One year in general.

Principal rights and obligations of parties involved. We specify the product name, specification, unit price, quantity, delivery timeline and other detailed items in each purchase order we send to our OEM suppliers from time to time. Our OEM suppliers are obliged to produce products that meet our requirements.

Payment and delivery. We are responsible for timely payment of the consigned processing fee to the OEM suppliers, who are responsible for delivery at our designated location.

Further subcontracting. Further subcontracting is generally not allowed.

Product returns. We may return products to OEM suppliers for reasons such as quantity shortage in delivered products, product deterioration or quality issues.

Rescission. We have the right of rescission if the products provided by the OEM suppliers are of substandard quality, such as non-conformity with our specification.

Production Techniques

To enhance our capability to produce premium products, we are committed to high standards of food safety and quality requirements by adopting standardized production and internal control systems and advanced production techniques to effectively implement controls and prevent food safety hazards at all steps in the production of our products. We adopt advanced production machinery and equipment to ensure the efficiency, standardization and automation of our production. For example, we have adopted Swiss intelligent control systems to monitor our entire production line and to ensure that our production at different stages, from materials feeding to product filling, meets the various requirements for different categories of products. We have implemented ultraviolet optical sorters, which have a higher impurity rejection rate than that of infrared radiation optical sorters, to effectively ensure food safety. Our production processes are strictly in compliance with applicable Chinese laws and regulations, and national and industrial standards in relation to food production and sales. See “– Food Safety and Quality Control.”

Our Critical Machinery and Equipment

To maximize our production efficiency, and ensure timely delivery of our products, we have equipped our production facilities with advanced automated production machinery and equipment to achieve intelligent, modularized and flexible production. We purchase various machinery, equipment and parts from third parties that are then assembled in-house, including, but not limited to, advanced machinery and equipment imported from Switzerland and the UK. Critical machinery and equipment used in our production include the below:

- Intelligent control system, which integrates production data into the control system to achieve whole process control of each machine and equipment of multiple production lines, including start, stop and troubleshooting.
- Rice huller, which is used to remove the outer husks of the paddy via gentle rubbing, after which the husk aspirator separates the husk from the rice by air aspiration.
- Automatic optimal sorter, which is used to remove defective kernel and impurities from rice. We use the SG6 ultraviolet color sorter in the last color sorting process in our production, which can automatically adjust the resolution ratio to effectively remove foreign matter from rice, thus ensuring food safety.
- Polishing machine, which is used to remove the aleurone layer from rice to increase the brightness and extend the shelf life of our products.

Our critical production machinery and equipment generally have useful lives of approximately 10 years. Based on our experience, such useful lives may be extended for longer period with appropriate repair and maintenance. In determining the useful life and residual value of our production machinery and equipment, we consider various factors, such as changes in market demand, production process and techniques and expected usage of the production machinery and equipment. The estimation of the useful life of production machinery and equipment is generally based on our experience with similar production machinery and equipment that are used in a similar way. As of March 31, 2023, the average remaining useful life and replacement cycle of our critical machinery and equipment was approximately 9.05 years.

To maintain efficient operation of our critical production machinery and equipment, we conduct regular inspections, maintenance and repairs in accordance with our internal standards. Such internal standards are formulated by taking into account the technical, engineering and other specific requirements and procedures set out in the operation manual of the relevant production machinery and equipment, and the actual workflow in our production. These measures are in place to avoid stoppage due to unexpected failure, and to maximize our production efficiency.

Our Production Expansion Plan

According to Frost & Sullivan, in terms of revenue, the market size of China's pantry staple food market is expected to continue to grow in the future and reach RMB2,195.7 billion by 2027, with a CAGR of 3.3% from 2022 to 2027. The increasing demand in the market has encouraged the growth of a larger variety of brands and products. In order to facilitate our long term business development in this growing market, we plan to further expand our production capacity at our existing production bases.

The table below sets out the details of our further production expansion plan:

Production Base	Product Category	Newly Extended Designed Annual Production Capacity	Estimated Year of Completion	Estimated Investment	Status as of the Latest Practicable Date
		<i>(tons in thousand)</i>		<i>(RMB in millions)</i>	
Shenyang Xinmin production base	rice products, and whole grain, bean and other products	113	2025	520.0	production lines are in the overall layout planning stage and a state-owned construction land use right certificate has been obtained
Wuchang production base	rice products, and whole grain, bean and other products	185	2024	201.0	under planning
Songyuan production base	rice products, and whole grain, bean and other products	149	2026	106.0	under planning
Tonghe production base	rice products, and whole grain, bean and other products	205	2025	123.3	under planning
Aohan production base	whole grain, bean and other products	185	2025	92.5	production lines are in the overall layout planning stage and a land grant contract has been signed

We intend to utilize a combination of net proceeds generated from the Global Offering and our own funds generated from business operations to finance each of our production expansion plans. See “Future Plans and Use of Proceeds.”

RAW MATERIALS, PACKAGING MATERIALS AND MAJOR SUPPLIERS

We aim to bring premium products to consumers by selecting quality raw materials and packaging materials. We plan and manage procurement at a group level, and make procurement decisions based on predicted consumer demands and historical sales performance. Meanwhile, our procurement teams at each production base purchase raw materials by leveraging their deep knowledge of local resources, the process of which is monitored by our Group.

Our procurement schedule is made in adaption to the seasonality of raw materials. For example, we primarily purchase fresh paddy from September to year end, which ensures the sufficient supply and the freshness of our raw materials. During the Track Record Period, we had not experienced any significant shortage of our raw materials.

The prices of our raw materials may fluctuate with market conditions, because of various factors, including supply and demand, and our bargaining power. We do not engage in hedging activities related to the risk exposures in connection with the price of our raw materials, and we may face price fluctuations. We collaborate with multiple suppliers from renowned places of origin for grains to reduce the risks of raw material shortage risks. See “– Suppliers.”

Our Raw Materials

The key raw materials for most of our products are paddy. In addition, our raw materials also include whole grain and bean such as millet, red beans, and mung beans, dried food such as wood ear mushrooms, snow fungus mushroom and lotus seeds, and other raw materials such as corn. We procure most of our raw materials from renowned places of origin for grains in Northeast China. See “– Our Production.” We only accept qualified raw materials. We have established and implemented paddy quality acceptance standards to ensure consistent product quality. We set up sensory, physical and chemical, and sanitary indicators for paddy with reference to national standards, detailing our paddy procurement standards. We require all raw materials to meet the standards set by competent Chinese government authorities and our quality standards.

During the Track Record Period, we primarily procure from three types of industry participants, which are mainly located in or near renowned sources of regions, to ensure consistent quality and quantity of raw materials for our business, namely farmers, grain suppliers and farmers cooperatives. According to Frost & Sullivan, such industry participants are common suppliers for agricultural raw materials in China. We implement same quality control standards across different types of suppliers to ensure the quality of our raw materials. We secure consistent and quality supply of raw materials for us via multiple approaches including payment of deposit to our suppliers, responsible sourcing, and establishing long-term relationship with suppliers. In particular, we usually pay deposits to selected suppliers who

BUSINESS

provide high quality raw materials to secure fixed amount of supply. Such deposit can be utilized to offset our purchase payments and should be replenished once depleted. During the Track Record Period, we have also prepaid deposit to participate in paddy auctions. According to Frost & Sullivan, such approach is in line with industry practice.

- *Farmers.* Most of our suppliers during the Track Record Period were farmers. We purchase from individual farmers based in or in the vicinity of rural villages in renowned sources of regions and also engage farmers for contract farming. During the Track Record Period, we have primarily conducted contract farming in or near areas such as Shenyang and Wuchang. We mainly conducted contract farming via framework agreements with farmers that either stipulated fixed procurement amount of paddy or fixed size of farming land area.
- *Grain suppliers.* We purchase from grain suppliers, which are mostly companies specialized in sourcing, purchasing, storing and distributing paddy or other raw materials.
- *Farmers cooperatives.* We purchase from farmers cooperatives as well, which are generally voluntary organizations formed by farmers.

We typically enter into framework procurement agreements or one-off procurement agreements with our suppliers of raw materials, the salient terms of which during the Track Record Period are set out below:

- *Duration.* The duration of framework procurement agreements is typically one year. We generally do not specify duration in one-off procurement agreements.
- *Quantity and price.* We generally do not specify quantity and price in framework procurement agreements, which are generally set in subsequent orders. We generally specify variety, quantity and price in one-off procurement agreements.
- *Logistics.* The suppliers are typically responsible for delivering their products to our designated warehouses, and they shall bear the delivery charges.
- *Acceptance requirements.* We usually specify the requirements of raw materials and the criteria for verification and determination.
- *Payment.* We typically make payment on or before delivery.
- *Termination.* We are generally entitled to request return of payments made, make claims for liabilities and/or terminate the procurement agreements if our suppliers breach the procurement agreements.

BUSINESS

Our Packaging Materials

Product packaging is also important to our food safety and product quality. Our packaging materials include, among others, packaging bags and woven bags. We mainly procure packaging materials from third-party suppliers in China. Our packaging material procurement agreement contains price terms and estimation of purchase volume, while the actual purchase volume is determined by the purchase orders that we send to our suppliers. We require all packaging materials to meet the standards set by competent Chinese government authorities and our quality standards. If the price of packaging materials fluctuates significantly, we will conduct new bid invitations to control costs.

Suppliers

To maintain the stability of our supply chain and the quality of raw materials, we maintain good relationships with agriculture raw material producer, farmers cooperatives and small-scale farmers based on our good credit history, stable procurement demand and good business reputation. If raw materials or products provided by suppliers fail to meet national, or our own, standards, or our policies, we are generally entitled to terminate cooperation with them. In the event of a quality issue with our products caused by our supplier's substandard products, our suppliers shall be liable for compensation. Our major suppliers are raw materials suppliers and grain production and processing companies. During the Track Record Period, and up to the Latest Practicable Date, we had not experienced any material quality problems with the raw materials from our suppliers, or any shortage of raw materials. Purchases from our five largest suppliers in each year or period during the Track Record Period accounted for 22.1%, 18.8%, 13.4% and 23.2% of our total purchase amount for the respective year or period. Purchases from our largest suppliers in each year or period during the Track Record Period accounted for 8.4%, 8.2%, 4.8% and 6.1% of our total purchase amount for the respective year or period.

The following tables set forth the details of our five largest suppliers by purchase amount for the respective year or period:

Notes:

- (1) Company A is a listed company, in which one of our Directors held shareholding interest of less than 0.1% as of the Latest Practicable Date and served as a member of the management of Company A prior to Track Record Period.
- (2) Scale of operation refers to the range of consolidated revenue based on the relevant suppliers' annual reports for 2022 and such information is not accessible for unlisted companies.
- (3) Supplier G is a group of farmers cooperatives controlled by Mr. Zhao Wenchen, a connected person of the Company, which had been dissolved in 2022. See "Financial Information – Material Related Party Transactions" and Note 30 of Appendix I to this prospectus. During the Track Record Period, we purchased paddy from Supplier G primarily due to (i) the increasing customer demands for our products during the Track Record Period, especially in 2021 when we recorded a significant increase in our total revenue of 54.6% from 2020, (ii) our strategic expansion to enhance our procurement capability to cover rural villages in Wuchang and Shenyang, (iii) shorter time and higher efficiency in procurement when purchasing through farmers cooperatives such as Supplier G compared with transacting directly with each individual farmer in the respective rural villages, and (iv) Supplier G's better understanding of our procurement requirements such as those on quality of raw materials. During the Track Record Period, the prices of the paddy at which Supplier G sold to us were generally in line with the prevailing local market price, and such prices were similar to those offered by independent suppliers.

BUSINESS

Save as disclosed in the section headed “Business – Raw Materials, Packaging Materials and Major Suppliers – Suppliers”, as of the Latest Practicable Date, none of our Directors, their associates or any of our shareholders (who owned or, to the knowledge of the Directors, had owned more than 5% of our issued share capital) had any interest in any of our five largest suppliers in each year or period during the Track Record Period.

CUSTOMERS

During the Track Record Period, our customers consisted of corporate customers and individual customers. We usually grant a credit term to our corporate customers by assessing factors such as business relationship and credit background, except for our distributors that need to make full payment before collecting the goods. Revenue generated from our top five customers in each year or period during the Track Record Period accounted for 74.5%, 57.4%, 55.0% and 57.6% of our total revenue for the respective year or period. Revenue generated from our largest customer in each year or period during the Track Record Period accounted for 42.3%, 28.1%, 26.9% and 29.5% of our total revenue for the respective year or period.

The following tables set forth the details of our five largest customers by revenue for the respective year or period:

Notes:

- (1) Company A is a listed company, in which one of our Directors held shareholding interest of less than 0.1% as of the Latest Practicable Date and served as a member of the management of Company A prior to Track Record Period.
- (2) Scale of operation refers to the range of consolidated revenue based on the relevant customers' annual reports for 2022 and such information is not accessible for unlisted companies.
- (3) Our revenue from Customer B in 2020 includes full year revenue from Customer B's subsidiary acquired in 2020.

Save as disclosed in the section headed "Business – Customers", as of the Latest Practicable Date, none of our Directors, their associates or any of our shareholders (who owned, or to the knowledge of Directors had owned, more than 5% of our issued share capital) had any interest in any of our five largest customers in each year or period during the Track Record Period.

We generate a big portion of our revenue from our cooperation with certain e-commerce platforms. Such e-commerce platforms enjoy a leading industry position, wide consumer outreach and high brand awareness, with strong marketing, logistics and customer service capabilities, and often serve as a crucial portal for consumers to purchase pantry staple food products, according to Frost & Sullivan. We have established long-term cooperation with such e-commerce platforms. In addition, we directly sell our products via self-operated stores on these platforms. Aside from seizing the growth opportunities from such e-commerce platforms

BUSINESS

for our business expansion, we have actively expanded our multichannel sales network to increase our brand and product visibility, to enlarge our consumer reach, and to capitalize the growth opportunities from emerging sales channels. See “Risk Factors – Risks Relating to Our Business and Industry – We mainly rely on e-commerce platforms to market and sell of our products online. If the e-commerce platforms we rely on to sell our products are interrupted or if our cooperation with such platforms terminates, deteriorates or becomes more costly, our business and results of operations may be materially and adversely affected.”

Company A, one of our top five customers in each year or period during the Track Record Period, was also among our top five suppliers in each year or period during the Track Record Period. Company A is a company operating e-commerce platforms and other businesses in China. During the Track Record Period, we primarily provided rice, whole grain, bean and dried food products to Company A, and our purchases from Company A primarily consisted of transportation services and promotional services. According to Frost & Sullivan, it is market practice for consumer goods companies to purchase transportation services and promotional services when such e-commerce platforms also sell products to end-consumers.

In 2020, 2021, 2022 and the three months ended March 31, 2023, revenue derived from Company A amounted to RMB984.1 million, RMB1,011.4 million, RMB1,217.1 million and RMB319.0 million, respectively, accounting for 42.3%, 28.1%, 26.9% and 29.5%, respectively, of our total revenue for the corresponding periods. In 2020, 2021, 2022 and the three months ended March 31, 2023, purchases from Company A amounted to RMB115.0 million, RMB196.8 million, RMB161.9 million and RMB45.6 million, respectively, accounting for 5.1%, 5.4%, 4.0% and 6.1%, respectively, of our total purchase amount for the corresponding periods.

Our Directors are of the view that our sales to and purchase from Company A are conducted in the ordinary course of business under normal commercial terms in line with market practice on an arm’s length basis after due and careful consideration.

FOOD SAFETY AND QUALITY CONTROL

Food safety and product quality is our top priority. We are committed to offering safe and premium food to maintain consumer confidence in our products and strengthen our brand recognition. We have implemented stringent food safety and quality control standards and measures throughout our operations, covering steps from procurement, production and storage to sales. To achieve systematic quality management, our quality assurance team focuses on implementing a group-level quality control plan through the implementation and maintenance of our quality control system, and is responsible for quality inspection of raw materials, semi-finished products and finished products, as well as product shelf-life management. We have also formulated product recall procedures. As a result of our commitment to stringent food safety and product quality, during the Track Record Period and up to the Latest Practicable Date, (i) we had not been subject to any material administrative or other penalties from the Chinese government authorities in connection with food safety or product quality, (ii) we had not received any order to undertake any mandatory product recalls as required by any

government authorities, (iii) we had not undertaken any material voluntary product recalls, (iv) we had not experienced any incidents related to material product liability exposure, and (v) we had not been involved in any material dispute with consumers in connection with product quality.

Procurement Quality Control

To ensure the quality of our raw materials and packaging materials, we have implemented the supplier admission, assessment and elimination system, and have established a supplier catalogue. We take a holistic approach in selecting and assessing our suppliers, taking into consideration factors including product quality, production capacity, working conditions and supply chain management capabilities. We also conduct site visits to our suppliers from time to time. We have adopted strict standard operating procedures for raw material admission. We inspect raw materials and packaging materials that arrive at our production bases, and only those that meet national standards and our procurement standards can be accepted. If the raw materials or packaging materials fail to meet such standards as set out in the procurement agreements, we are entitled to terminate the procurement agreements and claim for damages.

Production Process Quality Control

We regularly conduct comprehensive equipment inspections and set up control points for food safety and product quality for all key stages throughout the production process. Our production processes are strictly in compliance with applicable Chinese laws and regulations, and national and industrial standards in relation to food production and sales, including, but not limited to, ISO 9001 quality management system certification, HACCP system certification and FSSC 22000 food safety certifications. We regularly conduct product assessments or send our sample products for third-party quality checks.

We require our personnel involved in production activities to follow strict hygiene standards. Our production personnel are required to change into clean work clothes, including hats and shoes, and thoroughly clean themselves before entering the production area. We also make sure that we use and maintain our equipment and machinery in accordance with their respective detailed cleaning and sterilization requirements depending on function and usage, in order to ensure product safety.

Finished Products Quality Control

Our quality control team is also responsible for quality management during the whole process of storage, delivery and sales of our products. The team is responsible for management and supervision of product quality at various stages from storage and transportation to sales, so as to ensure that our products are stored, transported and sold in good condition, and to avoid quality issues arising during the course of delivery such as those arising from overheating and impact damage during transportation or food safety issues arising due to other adverse situations.

BUSINESS

We regularly conduct randomized sampling checks on our products sold in the market so as to fully keep track of the quality status of our products during their life cycles, identify potential risk exposures and ensure consistent quality of our products. In addition, we have product recall procedures to control risks arising from food safety issues. We also strive to maintain timely communication with consumers through our after-sales service mechanism to ensure timely problem identification, internal investigation and risk control once problems or risks related to product quality are detected. See “– After Sales Service.”

AFTER SALES SERVICE

We have a dedicated consumer service team to ensure timely responses to our consumers’ communications, which we believe helps us reinforce our stringent quality control standards and instills consumer confidence in our products. We utilize various feedback mechanisms including consumer service hotlines and online consumer service support. Our consumer service team keeps records of inquiries, feedback and complaints, and the results of any investigations or resolution measures. In addressing consumers’ complaints, we undertake to communicate and liaise with consumers in a timely manner and to commence quality investigation procedures if necessary. During the Track Record Period and up to the Latest Practicable Date, we had not received complaints from consumers that may have material and adverse effects on our operation or business reputation.

We comply with relevant Chinese consumer protection laws with respect to policies on the return of merchandise. For example, for products we sell through online self-operated stores, we generally accept product returns or replacement requests, regardless of whether there is any product defect, within seven days of receipt of the product. Where a consumer wishes to return the purchased product, he or she may submit the return request on the relevant e-commerce platform on which we have self-operated stores within the specified time frame. Once the products are returned to us, we will inspect the returned items and destroy the products if defective. During the Track Record Period, we allowed unconditional product returns for certain customers such as reputable e-commerce platforms and grocery retail channel partners, and the value of products returned by such customers accounted for less than 1% of our total revenue generated from such customers. Specifically, such customers mainly consist of our top five customers during the Track Record Period, including Company A, Customer B, Customer E and Customer F. See “– Customers.”

LOGISTICS

During the Track Record Period, the majority of our product transportation was provided by third-party logistics service suppliers, while we also operated our own logistics team to support the tracking of goods in transit and the management of any unexpected events. We usually maintain long-term cooperation with our suppliers and enter into strategic service agreements with some of them.

BUSINESS

We systematically plan our transportation means and routes to optimize efficiency and reduce logistics costs, and we closely monitor our whole logistics process to ensure optimal logistics performance.

During the Track Record Period and up to the Latest Practicable Date, we had not experienced any logistics issues that may have material and adverse effects on our business operations.

INVENTORY MANAGEMENT

Our inventories primarily comprise raw materials, finished products, packaging materials and semi-finished products, among which raw materials and finished products account for the majority of our inventory. See “Financial Information – Discussion of Selected Items from the Consolidated Statements of Financial Position – Inventories.” Strict and effective inventory management is essential for us to reduce the risks associated with deterioration of our raw materials, semi-finished products and finished products.

We implement policies and guidelines setting out warehousing requirements, which are established according to relevant industry standards such as the ISO 9001 quality management system certification. We store our inventories in areas with suitable storage environments according to different warehousing requirements. Our temperature and humidity controlled warehouses are equipped with lighting and ventilation facilities. We regularly monitor and adjust the temperature and humidity of each storage area to meet warehousing requirements.

We have established and implemented a raw material inventory management system to ensure the inventory quality and food safety. Our raw material warehouse management department, quality control department and finance department collaborate closely to monitor and manage our inventory efficiently by using our ERP system. We conduct a thorough inventory of our raw materials on a monthly basis, so that we can promptly address any shortages or damages identified. Prior to feeding, all raw materials undergo thorough inspections, and any items that have exceeded their shelf life or are found to be non-conforming are promptly disposed of.

Our inventories are stored in our own warehouses near our production bases in Shenyang Xinmin, Wuchang, Songyuan, Tonghe and Aohan. Our finished products are transported to our five RDCs in Shanghai, Tianjin, Chengdu, Shenyang and Dongguan or our ten local warehouses for further delivery, or directly transported to our customers’ warehouses pursuant to our contractual arrangements. We destroy products with quality issues or those that are close to or have their passed expiration dates to ensure our product quality.

INFORMATION TECHNOLOGY

Information technology (“IT”) is fundamental to our competitiveness and efficient operations. The IT systems we utilize cover various aspects of our operations, including raw materials supply, production, operation and logistics. Our IT team is responsible for developing and maintaining IT systems in line with our business expansion and customizing them to meet our business needs. Primary IT systems we utilize are set out below:

- **Our proprietary supply chain management system:** We have developed and implemented a supply chain management system to integrate resources along the supply chain, align value propositions with the aim to decrease our upfront costs, and establish and maintain mutually beneficial business relationships. We have developed most of the functional modules in-house based on our business needs, including inventory monitoring, order management, and transaction volume prediction, to aid our decision-making.
- **ERP system:** We utilize the enterprise resource planning (“ERP”) system to effectively manage our orders from consumers. The ERP system integrates both online and offline orders and enables us to monitor the status of the orders, from the acceptance of the orders to the completion of their delivery, in real time.
- **TMS:** We utilize the transportation management system (“TMS”) to plan and monitor our logistics. Leveraging the TMS, we plan our means and routes of transportation efficiently. It enables us to monitor the transportation of raw materials and products to avoid late delivery and control our logistics at a lower cost.
- **CRM system:** We utilize the customer relationship management (“CRM”) system for marketing management system establishment and multichannel marketing coordination to increase the efficiency of our sales and marketing activities.
- **Cloud office system:** We utilize the cloud office system to improve the efficiency of internal communication among our staff.
- **OA system:** We utilize the office automation (“OA”) system to manage our financial and tax issues. It enables us to control our expenses and declare tax online. It also facilitates finance-related processes for employees such as reimbursement.

During the Track Record Period and up to the Latest Practicable Date, we had not experienced any material IT system failure or downtime that had a material adverse effect on our business operations.

DATA PRIVACY AND SECURITY

We are committed to complying with data protection and privacy laws and protecting data security.

In providing our products, we may come into contact with certain data of our end consumers and our customers. We mainly have access to order information obtained during online sales, such as consumer addresses, contact information, purchase details and payment information. The e-commerce platforms generally de-identify such data before it is transmitted to us. We may also have access to certain data of our customers for payment purposes when entering into contracts with them.

We have devised a number of strict data protection policies and measures to ensure that our personal information protection and the sourcing, processing, storage and usage of data are in compliance with applicable laws and with prevalent industry practice. These policies and measures include:

- **Data sourcing.** We conduct compliance assessments when collecting data, and log record of the collection process.
- **Data processing.** We strictly process data in a manner that protects the legitimate rights of data subjects. We process data for specific and reasonable purpose, and limit our data processing activities to the minimum scope for achieving the purpose.
- **Data storage.** We store data in encrypted form and strictly manage account privileges. We have established data backup and recovery management practices to ensure timely recovery of critical information.
- **Data usage.** Our data classification and classification management system establishes authorization and approval procedures and security assessment mechanisms for different types and levels of data usage.

COMPETITION

According to Frost & Sullivan, China's pre-packaged rice, whole grain, bean and seed market is highly fragmented. The total market share of the top five companies in China's pre-packaged rice, whole grain, bean and seed market was approximately 8.9% in terms of revenue in 2022, according to Frost & Sullivan. We believe our brand equity, product development capabilities, multichannel sales network management capabilities and as well as our production and quality control capabilities, enable us to compete effectively with our competitors. See "Industry Overview."

BUSINESS

We believe we are well prepared to excel in industry competition. However, we operate in a highly competitive industry. Failure to compete effectively could adversely affect our market share, growth and profitability. See “Risk Factors – Risks Relating to Our Business and Industry.”

INTELLECTUAL PROPERTY

Our intellectual property rights are key to our success and competitiveness. Our intellectual property rights primarily consist of trademarks, copyrights and domain names. As of the Latest Practicable Date, we had 400 registered trademarks, 26 copyrights and 16 domain names in China. See “Appendix VI – Statutory and General Information.” We also protect our intellectual property rights through a series of confidentiality agreements or provisions with all of our employees.

We undertake a proactive approach to manage our intellectual property portfolio. We designate dedicated personnel to handle intellectual property-related issues, whose daily work includes monitoring the application status of intellectual property rights and performing routine checks on the public trademark registration platform to ensure our trademarks are not infringed by third parties. We have also engaged intellectual property experts and legal consultants to assist our IP rights protection.

We have implemented various measures to detect potential IP infringements such as product counterfeit, including market visits by our sales team and hotlines to collect consumer complaints and reports. After discovering incidents of infringements, we will require the infringers to stop producing and selling related products by delivering notices with the support of our legal consultants, and fill industrial and commercial complaints and report to regulatory authorities with the support of intellectual property experts or legal consultants if needed.

During the Track Record Period and up to the Latest Practicable Date, we had not experienced any threatened or pending disputes relating to the infringement of intellectual property rights that would have a material adverse effect on our business. See “Risk Factors – We may not be able to adequately protect our intellectual property rights or may be subject to infringement claims of intellectual property rights or rights of third parties, which could harm the value of our brands and adversely affect our business.”

BUSINESS

EMPLOYEES

As of March 31, 2023, we had 2,236 full-time employees, the majority of whom are based in Shenyang, Wuchang and Beijing. The table below sets forth the number of our employees by functions as of March 31, 2023:

	Number of employees
Sales and marketing	474
Production and supply	1,446
Quality control	42
Finance, human resources, administration and others	274
Total	2,236

Attracting and retaining qualified employees is important to our success. We recruited employees primarily through on-campus recruitment, employment websites and referral during the Track Record Period. Committed to providing fair and equal opportunities to our employees, we have formulated detailed career development and promotion path plans covering all levels of our staff and conduct performance evaluations regularly. As part of our retention strategy, we offer our employees competitive salaries, comprehensive welfare packages and merit-based incentive schemes based on the performance of the individual employees and the overall expansion of our business.

We emphasize the importance of training for our employees to enhance their technical skills and comprehensive performance. We provide induction training to our new joiners on our culture, business and industry to help them to fit in. We also provide tailored in-house training sessions to our employees to improve technical skills in their practice areas and management skills training programs such as leadership training to cadres in key positions.

We have maintained a good relationship with our employees. During the Track Record Period, we did not have any strikes, protests or other material labor disputes that may impair our business and image. As of the Latest Practicable Date, we did not have an established labor union.

As required by laws and regulations in China, we participate in various employee social security plans for our employees that are administered by local governments, including housing, pension, medical insurance, maternity insurance, employment injury insurance, unemployment insurance and housing provident funds through a PRC government-mandated benefit contribution plan.

BUSINESS

We are required under PRC law to make contributions to employee social insurance plans at specified percentages of the salaries, bonuses and certain allowances of our staff, up to a maximum amount specified by the local government from time to time. During the Track Record Period, since some of our employees, for example, those who are responsible for offline sales channel expansion and logistics, prefer their social insurance and housing provident funds to be paid at their respective resident places for convenience of utilizing such benefits locally and there may only be limited number of employees in one city, we engaged third-party agencies to pay social insurance and housing provident funds for them. The number of these employees accounted for approximately 0.6%, 2.0%, 6.5% and 7.2% of the total number of our employees as of December 31, 2020, 2021, and 2022 and March 31, 2023, respectively. We made contributions through such third-party agencies of RMB0.02 million, RMB0.5 million, RMB2.0 million and RMB0.9 million in 2020, 2021, 2022 and the three months ended March 31, 2023, respectively. As advised by our PRC Legal Adviser, pursuant to the PRC laws and regulations, we may be ordered to pay social insurance premium and housing provident funds for our employees under our own accounts instead of making payments under third-party accounts, and if the third-party human resources agencies fail to pay the social insurance premium or housing provident funds for and on behalf of our employees as required under applicable PRC laws and regulations, we may be ordered to rectify such failure by paying full contributions to social insurance and housing provident funds for our employees.

During the Track Record Period and as of the Latest Practicable Date, we did not pay social insurance and housing provident fund contributions in full amount for certain employees. The shortfall amount of social insurance and housing provident fund contributions is estimated to be RMB1.3 million, RMB4.8 million, RMB8.1 million and RMB1.7 million in 2020, 2021, 2022 and the three months ended March 31, 2023, respectively. We have made provisions in the amounts of RMB1.3 million, RMB4.8 million, RMB8.1 million and RMB1.7 million respectively for such aforementioned underpaid amount. We did not make full social security insurance and housing provident fund contributions for some of our employees primarily because they were unwilling to cooperate in making such payments, or they had chosen to participate in local rural social security systems offered in their place of residency or their own homes in rural areas. According to Frost & Sullivan, it is common that employees living in rural areas are reluctant to make payment of social insurance and housing provident fund contributions. According to the Social Insurance Law of the PRC and the Regulation on the Administration of Housing Provident Fund, social insurance and housing provident fund are divided into the employer's part and the employee's part. When full payment of social insurance and housing provident fund is made, both the employer and the employees need to make contributions, which will lead to a reduction in the employee's disposable income. Therefore, although we will continue to try our best to persuade our employees to cooperate with full payment in the future, we may also find it difficult to complete the rectification before Listing.

According to the Social Insurance Law, if an employer fails to make social insurance contributions in full, the relevant authorities could order the employer to pay, within a prescribed time limit, the outstanding amount with an additional late payment penalty at the daily rate of 0.05%, and if the employer fails to make the overdue contributions within such time limit, a fine equal to one to three times the outstanding amount may be imposed.

BUSINESS

According to the Regulation on the Administration of Housing Provident Fund, if the employer fails to register and establish an account for housing provident fund contributions, the authority could order the employer to correct it within a prescribed time limit, where failure to do so at the expiration of the time limit shall result in a fine of not less than RMB10,000 nor more than RMB50,000 being imposed. Where an employer is overdue in the payment and deposit of, or underpays, the housing provident fund, the authority could order it to make the payment and deposit within a prescribed time limit, and where the payment and deposit has not been made after the expiration of the time limit, an application may be made to a court in China for compulsory enforcement.

We have reviewed our practice and adopted or plan to adopt remedial measures to rectify such incidents, including:

- We monitor contribution of sale personnel paid by third party agency, and if such personnel reached a certain amount in a specific city, we would consider establish a subsidiary to open accounts for such employees. We are in the process of communicating with our employees with a view to seek their understanding and cooperation in complying with the applicable payment base, which also requires additional contributions from our employees. As a result of our proactive communication efforts with employees, our provision amount of social insurance and housing provident fund contributions had decreased by 26.1% from RMB2.2 million for the three months ended March 31, 2022 to RMB1.7 million for the three months ended March 31, 2023.
- We have established an internal control department to monitor our ongoing compliance with the social insurance and housing provident fund contribution regulations and oversee the implementation of any necessary measures.
- We will continuously review and monitor the reporting and contributions relating to the social insurance and housing provident funds and we will consult our PRC Legal Adviser for advice on relevant laws and regulations in China to keep us abreast of relevant regulatory developments. We undertake to maintain close communication with relevant authorities on a regular basis so as to understand their requirements and the interpretation of relevant rules and regulations, and make contributions to social insurance and housing provident funds in accordance with their specific guidance in a timely manner.

Going forward, we will continue to implement the above measures to ensure we are in compliance with the social insurance and housing provident fund registration and contributions requirements under the relevant laws and regulations and undertake to make timely payments for the deficient amount and overdue charges under our own accounts as soon as requested by relevant authorities. We believe the risks in relation to social insurance and housing provident funds is low based on the following facts: during the Track Record Period and up to the Latest Practicable Date, (i) we had not been subject to any administrative penalties relating to the engagement of third-party human resource agencies; (ii) we had not received any notification

BUSINESS

from the relevant Chinese authorities requiring us to pay for the shortfalls with respect to social insurance and housing provident funds, and (iii) we have obtained certain confirmation letters issued by the relevant competent social insurance and housing provident fund authorities confirming that there is no record of any member of our Group being imposed administrative disposition or penalties by the relevant authorities for violation of the relevant laws and regulations. In addition, according to the Urgent Notice of the General Office of the Ministry of Human Resources and Social Security on Implementing the Spirit of the Executive Meeting of the State Council in Stabilizing the Collection of Social Security Contributions (《人力資源和社會保障部辦公廳關於貫徹落實國務院常務會議精神切實做好穩定社保費徵收工作的緊急通知》) promulgated on September 21, 2018, all local authorities responsible for the collection of social insurance are strictly forbidden to conduct self-collection of historical unpaid social insurance contributions from enterprises.

Based on the above, our PRC Legal Adviser has advised that if we make contributions to social insurance and housing provident funds upon the requests from competent authorities in a timely manner, the likelihood of us being subject to further administrative penalties is remote.

We believe that we generally maintain a good working relationship with our employees, and we did not experience any significant labor disputes or any difficulty in recruiting staff for our operations during the Track Record Period.

INSURANCE

We maintain limited insurance policies covering risks with respect to our properties and inventories. See “Risk Factors – Our insurance coverage may not be sufficient to cover all of our potential losses.” As of the Latest Practicable Date, we had not maintained product liability insurance for all of our products, and we had not carry any business interruption or litigation insurance. We believe such practice is in line with the customary practice of our industry.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE MATTERS

We consider environmental, social and governance (“ESG”) matters essential to our long-term and sustainable development. Focusing on economic, employee, environmental and social responsibilities, we are committed steadily enhancing our ESG governance system, improving our ESG practices and performance, and contributing to the well-being of communities and society through various ESG measures.

ESG Governance

Cognizant of risks associated with ESG matters, such as climate change, that may affect our business, we are deeply aware of our environmental and social responsibilities. We have integrated the concept of sustainability into our strategy and daily operations and established an ESG governance system, which clarifies the roles and responsibilities of the Board, management and employees in ESG matters with reference to Appendix 27 “Environmental, Social and Governance Reporting Guide” to the Listing Rules. In order to continuously enhance our ESG performance, we have engaged a professional third-party ESG consultant to assist us.

ESG Governance Structure

Our Board is responsible for the overall formulation of our sustainability strategy, major policies and target framework. We have also established an ESG leading group, which is headed by our General Manager. Our ESG leading group’s responsibilities include, among others, (i) formulating ESG strategy, (ii) determining ESG assessment framework and indicator system, (iii) validating ESG reports, and (iv) determining our ESG improvement measures and supervising its implementation.

In addition, in order to effectively coordinate the development of ESG matters, we have established an ESG working group, consisting of the heads (or their respective authorized officers) of each functional department, each business department and relevant departments of each production base, whose responsibilities include, among others, (i) research on ESG policies and standards, (ii) ESG benchmarking and assessment, (iii) ESG management diagnosis, (iv) ESG performance assessment and evaluation, and (v) ESG information disclosure.

ESG Policy and System

We strive to build a comprehensive set of ESG policies and systems. We have formulated an ESG management system, which sets out the contents and specifics of our ESG practices. We have also formulated key policies and prepared systematic measures for various aspects such as business ethics, environmental protection, and human resources with the aim to systematically implement ESG practices, including, among others, the food safety management manual, the food safety and quality management system procedure, the compilation of the safety management system, the employee code of conduct management system, the information security management measures, and the hazardous waste management system.

BUSINESS

ESG Strategy and Issues

The key ESG practices we carried out during the Track Record Period are set forth as follows:

Focus areas	Key action items
Continuously offering premium, healthy and fresh products	<ul style="list-style-type: none">• Implementing strict food safety and product quality standards and measures throughout our operations, covering steps from procurement, production, storage to sales, thus ensuring the high quality of our products• Developing nutrition-balanced products to meet consumers' increasing demands for healthy food• Leveraging our vertically integrated operations covering the entire value chain, thus offering consumers fresh products that retain natural taste and aroma
Boosting the agricultural value chain development	<ul style="list-style-type: none">• Empowering local farmers by creating more jobs and providing agricultural technical guidance for them• Continuously optimizing the modern agricultural industrial system to promote the agricultural transformation and upgrading• Actively promoting ecological farming, thus boosting economic and social development
Promoting employment and supporting employee career advancement	<ul style="list-style-type: none">• Actively offering job opportunities for college students and farmers, thus promoting employment• Implementing comprehensive training systems and providing diversified and comprehensive trainings, thus enhancing our employees' technical skills and comprehensive performance• Leveraging our meritocracy-based incentive system to maintain sustainable development

BUSINESS

Meanwhile, we have identified key ESG issues that are closely linked to our daily operations by taking into account macro policy development, industry focus and ESG standards, including: (i) environmental issues such as energy use and carbon emissions, water resources management, packaging material use, pollutant and waste management, addressing climate change, as well as land and biodiversity; (ii) social issues such as integrity and business ethics, food safety and product quality, nutrition and health opportunities, information security, responsible marketing, occupational health and safety, talent cultivation and development, local employment and community contribution, as well as responsible sourcing; and (iii) governance issues such as corporate governance, integrity and business ethics, risk and compliance management, stakeholder communication, information security and privacy protection, as well as marketing and brand management. We will further enhance our future ESG practices based on such understandings.

ESG Risks and Opportunities

Our operations may be affected by ESG risks; however, if we improve our ESG governance and take effective action, we may also manage ESG risks properly and take advantage of the opportunities they bring. See “Risk Factors.” We have identified and analyzed ESG risks and opportunities, we report and discuss them with our ESG leadership team, and actively implement risk management measures to enhance our business resilience and competitiveness, in order to achieve our long-term development.

Stakeholder Communication

Stakeholder communication is a crucial element of our ESG management strategy. We have identified six key stakeholders, namely shareholders and investors, government and regulators, customers, employees, suppliers and partners, and communities. To engage with each stakeholder group effectively, we have established a range of diverse communication channels, including, among others, shareholders’ meetings, research and discussion sessions, consumer satisfaction surveys, customer complaint hotlines, supplier visits, employee interviews, and volunteer activities.

By actively communicating with our stakeholders, we aim to listen carefully to their opinions and feedback on all aspects of our daily operations. Furthermore, we strive to address their advice and suggestions in a timely manner. Our commitment to regular communication and responsiveness enables us to build strong and stable relationships with our stakeholders.

Social Responsibility

We aim to take on corporate responsibilities, create sustainable value and promote positive energy. We are committed to offering premium food to consumers, empowering employees to develop professionally, and promoting positive energy by demonstrating our commitment to our employees, consumers, partners and the society.

Integrity and Business ethics

We have established a robust corporate governance mechanism that ensures transparent authority and responsibility, coordinated operation, as well as effective management and supervision. We have integrated compliance requirements for anti-bribery and anti-fraud into our daily workflow. We conduct regular internal compliance checks and inspections, and have adopted strict internal accountability. Furthermore, we provide anti-corruption and anti-bribery compliance training to senior management and employees and promulgate policies for non-compliance in our employee handbook.

We have taken numerous anti-corruption initiatives in key areas such as procurement bidding and external cooperation. These initiatives include, among others:

- (i) requiring suppliers to sign an integrity notification letter with us. This letter clearly outlines the conduct and integrity standards expected from both parties. It explicitly prohibits unethical practices like bribery, kickbacks, and commercial fraud. By doing so, we ensure that our cooperation progresses in an honest and orderly manner.
- (ii) establishing a whistleblower program, along with a dedicated hotline and email address. These channels are designed to receive corruption charges and reports, whether named or anonymous.
- (iii) setting up a bidding management committee to prevent any undue influence on the bidders or inquiries into the evaluation process by the members of the bidding working group.
- (iv) enforcing a policy that prohibits the bidding working group from engaging in private communication with any bidder or individual with a vested interest in the bidding results. Furthermore, they are strictly prohibited from accepting any financial or other benefits from bidders, intermediaries, or any other parties involved.
- (v) implementing a prequalification process for bidders and maintaining supplier files during the supplier selection process. Additionally, we conduct regular evaluations of our cooperative suppliers to ensure ongoing compliance with our standards.

These measures collectively demonstrate our commitment to combat corruption and promote transparency in our operations.

Food Safety and Product Quality

We have established a professional, standardized and high-standard food safety and product quality control system, covering procurement, production, storage, delivery and sales, and after sales service. We inspect raw materials and packaging materials that arrive at our production bases, and only those that meet national standards and our procurement standards

can be accepted. Our production processes are strictly in compliance with applicable laws and regulations in China, and national and industrial standards in relation to food production and sales, including, but not limited to, ISO 9001 quality management system certification, HACCP system certification and FSSC 22000 food safety certification. We regularly conduct randomized sampling checks on our products sold in the market so as to keep track of the quality status of our products during their life cycles, identify potential risk exposures and ensure consistent quality of our products. We also have a dedicated consumer service team to ensure timely responses to our consumers' communications. See “– Food Safety and Quality Control” and “– After Sales Service.” We set and implement management targets related to first pass rate and consumer satisfaction percentages, and such targets are tied to performance of the management team of production bases.

As our products are mainly processed grain products, our production process primarily involves physical steps and does not involve the direct use of chemicals. Limited amounts of chemicals and pharmaceuticals are used in our production bases and warehouses only for cleaning, disinfecting, and pest and rodent control purposes. We have implemented a chemical management control procedure to regulate the purchase, receipt, storage, and labeling of chemicals to ensure their safe usage.

To prevent potential chemical hazards such as excessive pesticide residues and heavy metals in the raw grains we purchase from upstream, we strictly comply with relevant laws and regulations such as the GB2763-2021 national food safety standard – maximum residue limits for pesticides in food. To ensure the safety and quality of our raw materials, we have established acceptance standards for various raw materials from our suppliers that outline detailed requirements for pesticide residues. For example, we commission tests on different varieties of rice for each procurement season and require major suppliers to provide inspection reports.

Nutrition and Health Opportunities

We are dedicated to remaining responsive to consumers' needs for nutritional and healthy products. Adjacent to our core grain production areas, our production bases are equipped with large modern warehouses, thus ensuring suitable storage environments according to different warehousing requirements. With the lower temperature prevalent in Northeast China Plain, we are capable of efficiently procuring and storing fresh paddy and other grain upon maturity, to ensure their freshness and moisture. We are committed to high standards of food safety and product quality requirements by adopting standardized production and internal control systems and advanced production techniques to effectively implement controls and prevent food safety hazards. We continuously enrich our product categories to offer consumers a wide range of healthy products such as mixed brown rice, millet and corn to help consumers better obtain nutrients such as protein and dietary fiber from their diet. See “– Our Production” and “– Our Brands and Products.”

BUSINESS

We label the information of protein and dietary fiber on the outer packaging of all kinds of products strictly in compliance with our food nutrition labeling management code to help consumers assess the nutritional composition of our products. We engage professional third-party institutions to regularly test various products for nutritional elements, and disclose or update the nutrition label information based on the test results.

Responsible Sourcing

We are committed to responsible sourcing and sustainable procurement management while extending these values to our upstream and downstream supply chains. Throughout our procurement process, we hold our suppliers to sustainability-related certification standards and give preference to those with relevant system certifications. Our commitment to quality and sustainability ensures the products provided by our suppliers meet our high standards.

We support local sourcing and place great importance on developing and maintaining stable relationships with raw material suppliers and farmers in the regions where we operate, which allows us to achieve a sustainable and high-quality supply of raw materials. Our raw material procurement agreements clearly outline quality standards, pricing principles, and the responsibilities in case of contract violations. We are also committed to safeguard the interests of local suppliers and farmers by using market-oriented pricing mechanisms. For instance, our procurement agreements for rice typically include three pricing aspects, namely place of origin, quality, and product testing results. Furthermore, we have established well-defined payment deadlines with our local suppliers. Once the reconciliation process with the supplier is completed, we promptly fulfill the payment. With our commitment to quality, corporate reputation, and stable sourcing requirements, we have become a trustworthy business partner for specialized agricultural suppliers, farmers cooperatives, and individual farmers.

In regards to our logistics suppliers, we classify them into two categories: delivery service suppliers and warehousing service suppliers. We have implemented a strict access review system for our logistics suppliers, requiring them to provide basic information and qualifications, guarantee their own vehicle transport capacity and confirm that they have no history of illegal activities. Additionally, we conduct monthly assessments of our logistics suppliers, and any irregularities or misconduct discovered may result in immediate removal from our supplier catalogue. To enhance the safety of our logistics suppliers, especially their drivers, we have also established and implemented a code of practice for external personnel to promote safety awareness among our delivery service suppliers and encourages them to prioritize safe driving practices.

Information Security

We have established comprehensive information security management measures, to ensure the security of our information. We have also set clear our information security workflow and assigned clear responsibility to each member of our Group. To respond effectively to potential network security emergencies, we have formed a dedicated team and implemented a network security emergency response plan and a data security incident

BUSINESS

emergency response plan. We have also established the response and handling process for information security incidents, and regularly organize drills to test and improve the plan. We stipulate that each department should organize at least one drill each year and report the drill to the emergency response team. We also provide training programs on network security contingency plans to all departments.

Responsible Marketing

Responsible marketing is important to us, and we strictly comply with relevant laws, regulations, standards and other regulations in our marketing activities to ensure honest and fair transactions with all customers and avoid any manipulating and deceptive advertising or marketing activities that could be considered exploitative to consumers.

To ensure that our marketing activities comply with these standards, we have implemented an integrated product quality control audit and sampling mechanism to ensure that our promotional materials and advertising information consistently meet our responsible marketing guidelines. In addition, we conduct periodic training sessions on advertising law and product page compliance promotion to raise the awareness of our staff and ensure compliance of our marketing activities. By doing so, we aim to foster a culture of responsibility and transparency in our marketing activities.

Occupational Health and Safety

We operate in compliance with laws and regulations in China relating to occupational health and safety. In particular, we have formulated safety production and occupational health-related rules and regulations such as the safety production accident management system and occupational health and safety management manual. We have set up safety groups to enhance occupational health and safety in production and daily management. Our safety groups are led by general managers at relevant production bases. In particular, we have established occupational health and safety management systems in our Shenyang Xinmin and Wuchang production bases with reference to ISO45001 and OHSAS18001 standards. For example, we issue labor protection equipment such as masks and ear plugs to our employees and conduct regular occupational health examinations.

In order to raise employees' safety awareness, we have taken a number of safety measures, including; (i) organizing activities such as periodical production safety education, occupational health and safety training, and safety lectures; (ii) cooperating with the local fire brigades to jointly conduct fire drills to improve our capability to respond to fire and other emergencies; (iii) equipping the canteens with televisions and playing videos on workplace safety; and (iv) rewarding employees who have raised valuable suggestions or made outstanding contributions to occupational health and safety. During the Track Record Period and as of the Latest Practicable Date, we did not record any work-related fatalities, nor were we involved in any material litigation or penalties for any major safety incidents.

Talent Cultivation and Development

We are also dedicated to providing equal opportunities in all aspects of employment and maintaining workplace that is free from discrimination, physical or verbal harassment against any employee on the basis of external factors including race, religion, color, gender, physical or mental disability, age, place of origin, marital status and sexual orientation. We have formulated a recruitment management system and a labor contract management system, to ensure that we comply relevant laws and regulations in China. Meanwhile, we have implement code of conducts in order to prohibit sexual harassment or workplace abuse. As of March 31, 2023, approximately 49.9% of our employees were male and approximately 50.1% were female, and approximately 28%, 61% and 11% of our employees were under 30 years of age, 31-50 years of age and 51 years of age or older, respectively.

Committed to attracting our talent pool, every year, we recruit employees via measures including campus recruitment, recruitment websites and referral. In addition, we have built a multi-group and all-round talent training system to enhance our long-term development. We give full training and empowerment to staff with outstanding performance and management capability, conduct talent reviews and staff interviews, and implement a tiered incentive system to continuously select those with management potential. In addition, we also provide incentives, including performance based salary and bonus to outstanding employees. In the future, we will further improve our promotion mechanism emphasizing meritocracy, responsibility and contribution.

To continuously enhance our team's technical expertise and management capabilities, we have also established a comprehensive training system implemented on both group level and department level. Our group-level trainings focus on corporate culture, transferable skills and managerial aptitude, and our departmental-level trainings focus on professional knowledge and operation skills. We continuously carry out training programs including internship training, induction training and on-the-job training, to help them establish professional mindsets, good working habits, and robust knowledge related to our business. We have also set up a mentoring system for employees' professional development.

Employment Promotion and Community Contribution

Underpinned by our full coverage of the entire industry chain, we actively promote ecological agriculture, develop multi-functional agriculture, empower the whole agricultural industry and improve agricultural transparency, thus contributing to rural revitalization and rural economy. We have built a number of warehouses adjacent to our Shenyang Xinmin production base and Wuchang production base to facilitate farmers and improve their efficiency. In addition, we also empower communities such as local farmers via procurement of raw materials. During the Track Record Period, we had total raw materials costs of RMB7,728.8 million.

BUSINESS

The key community contribution items we conducted during the Track Record Period are as follows:

- ***Boosting rural employment.*** We supported employment of local farmers and provided them with skill training, in order to improve their living standard. In Shenyang Xinmin, we employ around 70% of the total workforce from local farmers and provide them with insurance coverage based on their preferences to improve their well-being. In Wuchang Caiqiao, our modern agricultural industrial park was completed in 2022, and we have hired over 200 new employees from Wuchang during 2022 as we expand our processing capacity.
- ***Agricultural technical guidance.*** We promoted sustainable farming methods to, shared quality rice seedlings with, and provided guidance and management for, local farmers, bringing them steadily increased yield and profit. For instance, we have set up a corporate agricultural development department, which employs agricultural technology specialists to provide services to farmers who have joined contract farming, including carrying out analysis of the soil environment and nutrient composition and regularly carrying out guidance and answering questions for farmers on field works, crops and plants protection.
- ***Donations.*** In 2020, we donated over 60 tons of rice products to Wuhan City to help fight the previous pandemic. In 2021, we donated 30 tons of Wuchang rice to Henan Province to support the people suffering from flooding.
- ***Visiting elderly people.*** We organized regular visits to elderly people in retirement homes, talking with them, giving them gifts and donating money and necessities to them.
- ***Rural community building.*** We repaired village offices and donated office supplies, such as computers, for two villages in Xinmin. We also donated flower seeds to local farmers in Xinmin to boost the local economy.
- ***Supporting women's development.*** We provided employment opportunities for women and supported the improvement of family status of rural women and their participation in society.
- ***Facilitating public reading.*** We donated RMB500,000 to build a city bookstore in Xinmin.

Environmental Protection

We recognize the importance of environmental protection and sustainability, and have adopted professional environmental measures to improve our environmental performance and ensure that we comply with relevant environmental laws and regulations in China.

Energy Use and Carbon Emissions

Our statistics of comprehensive energy consumption and GHG emissions during the Track Record Period covered Shenyang Xinmin production base, Wuchang production base, our administrative center in Beijing and four branches in Tianjin, Shanghai, Guangzhou and Chengdu. In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, our comprehensive energy consumption was 22,625 MWh, 51,348 MWh, 71,857 MWh, 13,074 MWh and 14,148 MWh, respectively, and our total GHG emissions (scope 1 and 2) were 9,841 tons of CO₂e, 25,112 tons of CO₂e, 35,743 tons of CO₂e, 6,794 tons of CO₂e and 7,244 tons of CO₂e, respectively. Our comprehensive energy consumption and total GHG emissions increased in the Track Record Period, which was generally in line with our business development, mainly because (i) we actively expanded our production capacity to meet increased demands for our products by establishing and putting into operation more production lines, and (ii) we introduced advanced automated production machinery and equipment to enhance the automation of our production processes. In the three months ended March 31, 2023, our comprehensive energy consumption intensity was 13.08 MWh per million RMB of sales volume and our GHG emissions intensity was 6.70 tons per million RMB of sales volume.

We are committed to continuously improving energy efficiency and reducing emissions. We have established energy management teams in major production bases, where the general managers coordinate energy supply, equipment management, energy consumption statistics and other related tasks. To further minimize our environmental impact, we plan to implement the following measures:

Optimize energy structure and promote electricity substitution. In 2020, 2021 and 2022, our electricity consumption accounted for 55.59%, 72.36% and 75.64% of the total energy consumption, respectively, and we aim to increase it to 80% within the next three years. By replacing fossil fuels like coal and gasoline with electricity, we can reduce pollutant emissions such as sulphur oxides and nitrogen oxides, as well as control greenhouse gas emissions. We will take several actions to achieve this goal, including, among others, (i) replace traditional coal-fired drying equipment with efficient and energy-saving drying equipment, (ii) substitute some diesel vehicles with electric vehicles to reduce diesel consumption and exhaust emissions, (iii) increase the utilization of air-powered heating equipment, and (iv) implement solar photovoltaic projects on the roofs of our workshops.

Strengthen statistical monitoring and control emission intensity. We will further enhance our energy consumption and carbon emission statistical mechanisms across all existing and planned production bases within the next two years. We will establish performance management indicators for energy consumption management to better evaluate the implementation of energy conservation and emission reduction efforts.

In terms of value chain GHG emissions (Scope 3), we refer to the Corporate Value Chain (Scope 3) Accounting and Reporting Standard to identify the main Scope 3 emission categories, including “transportation of purchased raw materials or commodities”,

“transportation of sold products”, “business travel.” We have optimized our logistics and transportation routes through the deployment of warehousing and logistics systems and the application of a transportation management system to improve the efficiency of logistics and transportation and reduce energy consumption and greenhouse gas emissions caused by upstream and downstream logistics and transportation. In the future, we plan to gradually develop statistics and monitoring of Scope 3 emissions in accordance with the *Climate Disclosure Guidelines* and expand the disclosure of Scope 3 emissions over time.

At current stage, our primary approach involves entrusting third-party logistics service providers for the transportation of raw materials and products. These transportation methods encompass road, railway and sea freight. We prioritize the selection of logistics companies with the capacity to offer environmentally friendly logistics services and plan to implement low-carbon transportation standards on our logistics partners. This includes encouraging the adoption of a hybrid transportation model involving both road and railway or sea freight, increasing the utilization of new energy electric vehicles, and leveraging big data to enhance transportation and distribution efficiency to decrease potential emissions. We have already taken steps to reduce transportation distances by establishing self-operated RDCs and local warehouses, thereby reducing carbon emissions during the product transportation process. Additionally, we actively promote the use of remote video conference and similar collaborative methods among our employees to curtail unnecessary business travel and further diminish Scope 3 emissions.

Water Resources Management

Our water consumption mainly comes from production processes such as rice milling as well as our daily operations. The major sources of our water supply are municipal tap water and groundwater. We actively improve our water resources management system and inspect the implementation of our water intaking and water conservation measures. We promote the concept of water conservation to our employees, put up posters on water conservation in various places, and conduct inspections from time to time to avoid water wasting. In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, our total water consumption was 17,863 cubic meters, 23,570 cubic meters, 22,543 cubic meters, 3,478 cubic meters and 1,993 cubic meters, respectively. In terms of intensity metrics, our water intensity (water consumption per revenue) in 2020, 2021 and 2022 is 7.68 cubic meters per million RMB of revenue, 6.55 cubic meters per million RMB of revenue and 4.97 cubic meters per million RMB of revenue, respectively, which has shown a decreasing trend from year to year. To decrease our water resource consumption, we have devised the following plans:

Control the water consumption in the production process. We implement a production water consumption standard of no more than 13 liters of water consumed per ton of rice processed. We are committed to achieving this target by 2023 and for a number of years thereafter, and will review and revise the target as appropriate in the future in the light of the achievement of the target. We will also continue to update advanced equipment and optimize production processes to reduce the water consumption per unit of product production.

BUSINESS

Reduce employee domestic water consumption. We have set a benchmark of 7.2 tons of domestic water consumption per employee per year. We are committed to complying with the benchmark target in 2023 and for a number of years thereafter, and will review and revise the target in the future as appropriate in the light of the achievement of the target. We conduct periodical inspection and promptly replace aging or damaged pipeline networks to prevent leakage. We also conduct public awareness campaigns, advocate for water conservation, and encourage employees to embrace a water-saving mindset.

By implementing the above benchmarks for production and office water use, we are expected to reduce our overall water consumption. While we are aware that water intensity will be affected by fluctuations in our business and revenues, we intend to reduce our water intensity (water use per revenue) to less than 4.5 cubic meters per million RMB of revenue by 2025.

Packaging Material Use

We carefully select different packaging materials according to product characteristics and specification. Our packaging materials include, among others, packaging bags and woven bags. We require our packaging material suppliers to provide relevant qualification certificates and product test reports, and to issue packaging material quality assurance letters to us, and we also conduct random inspections and on-site inspections from time to time, thus ensuring the safety and quality of packaging materials, especially food contact materials.

During the Track Record Period, we mainly utilized plastic bags, plastic woven bags and plastic bottles made of PE and PET for packaging our products, all of which are generally recyclable materials. In 2022, our use of recyclable packaging materials accounted for 48.8% of our total packaging materials, and we plan to increase this percentage to over 50% by the end of 2023.

Meanwhile, we collect crates, waste cartons and waste packages and send them to recyclers for resource recovery.

	Units	Year ended December 31,			Three Months ended March 31,	
		2020	2021	2022	2022	2023
Plastic packaging bags (mainly involving use of PE)	Ton	3,479	5,850	5,357	714	823
Plastic paper packaging bags	Ton	1,760	2,411	5,339	747	924

Pollutants and Waste Management

Our waste gas emissions are mainly dust particles generated from raw grain processing, sulfur dioxide, nitrogen oxides and soot generated from coal-fired and gas-fired boilers, and exhaust gas generated from our own vehicles.

In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, our sulphur dioxide emission was 5,774kg, 5,896kg, 5,810kg, 806kg and 1,082kg, respectively, and our nitrogen oxide emission was 3,596kg, 5,023kg, 4,842kg, 1,084kg and 1,176kg, respectively. Our general solid waste is mainly domestic waste generated from daily operations. We also generate a small amount of hazardous waste, mainly waste engine oil and waste diesel from forklifts and shovel loaders.

According to our environmental assessment report issued by a third-party professional agency, we do not generate any industrial wastewater during our production process. The wastewater that we discharge mainly comprises domestic and canteen wastewater. The canteen wastewater is treated in oil separators and then discharged into anti-seepage septic tanks along with the domestic wastewater. The wastewater is finally discharged into the local sewage treatment plant through the municipal pipe network. In 2020, 2021, 2022 and the three months ended March 31, 2022 and 2023, our wastewater discharge was 5,815 cubic meters, 10,078 cubic meters, 9,231 cubic meters, 2,783 cubic meters and 1,595 cubic meters, respectively.

We strictly comply with emission limits in the Integrated Emission Standard of Air Pollutants (《大氣污染物綜合排放標準》) and the Emission Standard of Air Pollutants for Boiler (《鍋爐大氣污染物排放標準》). We have also formulated waste management policies and systems such as environmental protection management system and the hazardous waste

management system, in order to properly manage various types of waste. Specifically, we have constructed dust removal equipment, exhaust stacks and dust collectors at each production base to ensure that dust particles are properly collected and disposed of, and we are equipped with integrated waste management facilities, we have engaged third-party institutions to regularly test the concentration of air pollutants in exhaust emissions to ensure that it is within the permissible range.

In terms of waste emissions, we have set the target of achieving 100% hazardous waste disposal rate and 100% organic waste disposal rate every year. During the Track Record Period, we have strictly complied with the regulations on the centralized disposal of hazardous waste, and signed hazardous waste disposal agreements with professional waste disposal enterprises for the small amount of waste engine oil and testing reagents generated. At the same time, we have utilized organic waste such as hulled rice husk and sifted broken rice generated during the production process for various purposes such as thermal insulation materials, fillers and fuels. In addition, our product packaging might turn into packaging waste after consumer use. While ensuring our packaging meets fundamental requirements, we are committed to achieving an environmentally-conscious shift in packaging materials through single-material packaging solutions and waste reduction. In particular, for packaging solutions, we have widely adopted the use of plastic packaging bags and woven bags made of PE for our rice products and increased the use of plastic bottles made of PET for whole grain, bean and other products. We further plan to decrease the usage of composite packaging materials, including aluminum-plastic packaging bags. In terms of waste reduction, our objective is to achieve a 10% decrease in the amount of packaging materials used per ton of finished products by 2025 as compared to 2022. To realize this goal, we intend to integrate pertinent environmental requirements into our product packaging design process and evaluation process for packaging material suppliers. Through these measures, we aim to construct a more sustainable product packaging portfolio that mitigates the adverse environmental effects associated with packaging waste.

Addressing Climate Change

We consider that the risks and opportunities of climate change have a significant impact on our business, strategy and financial performance.

Climate change has a significant impact on global agriculture. A third-party report predicts an 8.7 million ton gap between global rice supply and demand in 2022 or 2023. Rice production in major rice-producing countries such as China, has declined due to climate-related factors, contributing to the tight supply. According to Frost & Sullivan, China's rice production decreased by approximately 1.9% in 2022, primarily due to extreme weather events happened in Guangxi and Guangdong provinces, such as heavy rainfall and drought caused by typhoons. Climate change is increasing the frequency and unpredictability of extreme meteorological disasters in China, posing challenges to agriculture. Our production bases and upstream origins are primarily located in Northeast China, which is at the middle-high-latitude region and the eastern end of Eurasia, a region significantly affected by climate change. Changes in climate such as rise in temperature may lead to more frequent occurrence of extreme weather events in Northeast China such as rainstorms, drought, extreme cold and frost may result in instability

BUSINESS

in agricultural production, resulting in our losses or increased operating costs. For example, a number of international organizations have predicted that global surface temperatures will continue to rise until at least the middle of this century. According to a meteorological study, if temperatures rise by 1.5°C in the future, the number of days of heavy rainfall in Northeast China could increase by 17.9 days per year, leading to an increase in the likelihood of extreme rainfall, droughts, and floods. However, in the medium to long term, climate change may also lead to increased heat resources in Northeast China, which is beneficial for crop growth. This includes increasing trends in cumulative temperature and growing season length, as well as decreasing the likelihood of frosts and cold snaps. We proactively identify and assess climate risks and opportunities, and integrate climate change risk identification, adaptation and mitigation into our decision-making process. We conduct extreme weather monitoring and early warning, and formulate and update disaster contingency plans in order to improve our capabilities of climate disaster prevention and management. We pay close attention to the trend of climate change, and design our production bases in a way that is appropriate to agro-climatic conditions. We use energy-efficient equipment, such as air source heat pump systems and electric forklifts, to reduce GHG emissions.

Land and Biodiversity

In response to the National Black Land Protection Project Implementation Plan (2021-2025) (《國家黑土地保護工程實施方案(2021-2025年)》), we prepare environmental impact assessment reports in accordance with relevant laws and regulations in China and strictly comply with the national ecological red line and environmental bottom line in the process of selecting sites for our production bases in Northeast China. We also cooperate with local farmers to promote ecological agricultural development to protect the soil and water bodies, thus jointly maintaining a healthy and sustainable farmland ecosystem, and avoiding the expansion of agricultural land into natural habitats that would damage biodiversity.

PROPERTIES

We own and lease properties in China. As of the Latest Practicable Date, all of our production bases were located in China. Our corporate headquarters are located in Beijing, China.

As of the Latest Practicable Date, none of the properties held or leased by us had a carrying amount of 15% or more of our consolidated total assets. According to section 6(2) of the Companies (Exemption of Companies and prospectuses from Compliance with Provisions) Notice, this prospectus is exempt from the requirements of section 342(1)(b) of the Companies (Winding up and Miscellaneous Provisions) Ordinance to include all interests in land or buildings in a valuation report as described under paragraph 34(2) of the Third Schedule to the Companies (Winding up and Miscellaneous Provisions) Ordinance.

Owned Properties

As of the Latest Practicable Date, we use 15 parcels of land with an aggregate site area of approximately 769,884 sq.m. and a total aggregate gross floor area of approximately 164,053 sq.m. of buildings in China, which were primarily used for production and warehousing purposes. As of the Latest Practicable Date, 4 sites of buildings we owned, with an aggregate site area of approximately 65,342.4 sq.m., were under construction.

As of the Latest Practicable Date, we had not obtained the land use right certificates with an aggregate site area of approximately 33,250 sq.m. in our Shenyang Xinmin production base (the “**Xinchang Jinwutaizi Land**”), accounting for 4.32% of the land owned by us. We had not obtained the land use right certificate for Xinchang Jinwutaizi Land primarily because we had made the application for land grant process and such process is not completed. As we had not obtained the land use right for such land, we could not obtain the building ownership certificates and the planning and construction certificates for the buildings built thereon, with an aggregate gross floor area of approximately 13,508 sq.m (the “**Xinchang Jinwutaizi Site**”). During the Track Record Period, we primarily used the buildings on the Xinchang Jinwutaizi Land for production, warehousing and office use. The Xinchang Jinwutaizi Land is collectively owned land, among which, there are 17,260 sq.m. of agricultural land. As of the Latest Practicable Date, we had not completed the land grant process for the Xinchang Jinwutaizi Land, which is required under Land Administrative Laws of the PRC to complete the process of converting use from agricultural land to construction land. As advised by our PRC Legal Adviser, we may face the risks of (i) not being able to prove our title to the Xinchang Jinwutaizi Land for lack of land use right certificates if there arises a dispute over land ownership, (ii) being requested to rectify such incidents, demolish the buildings on the Xinchang Jinwutaizi Land and paying penalties for not obtaining planning and construction certificates, and (iii) being requested to restore the land for agricultural use and paying penalties for using agricultural land for construction use.

We have obtained a written confirmation jointly issued by the Xinmin Municipal Government and other regulatory authorities in 2022 (the “**2022 Confirmation**”), confirming that: (1) our use of the Xinchang Jinwutaizi Land is consistent with the general land planning in material respects and does not involve willful infringement of basic agricultural land; (2) we are allowed to use buildings on the Xinchang Jinwutaizi Land for production and business operations, and (3) the relevant regulatory authorities will not impose any administrative measures or penalties for our use of the Xinchang Jinwutaizi Land and the buildings thereon due to the aforementioned matters. We have further received a written confirmation issued by the Shenyang Natural Resources Bureau in 2023 (the “**2023 Confirmation**”), confirming that: (1) the Xinmin Municipal Government has independent authority for land administration matters; (2) it has not made any administrative punishment decisions with respect to our use of the Xinchang Jinwutaizi Land, and has not received any reports or complaints related thereto; and (3) there have been no administrative reconsideration or administrative litigation disputes between the Bureau and us currently pending administrative litigation or review. As advised by our PRC Legal Adviser, the above regulatory authorities are the competent authorities to supervise and examine our use of the Xinchang Jinwutaizi Land, as well as

BUSINESS

impose administrative penalties. Based on the 2022 Confirmation and 2023 Confirmation and the fact that the production contribution of the Xinchang Jinwutaizi Site amounted to 6.1% of our total sales volume in 2022, our PRC Legal Adviser is of the view that the risk that our business operations will be materially and adversely affected with respect to our use of the Xinchang Jinwutaizi Land is remote.

We may not fully rectify such defects before Listing because the completion of the land grant process is beyond our control. Our Directors believe that the defects of such owned buildings would not materially and adversely affect our business, results of operations and financial condition, primarily because: (i) as the result of our strategic production capacity expansion in recent years, the production contribution of the Xinchang Jinwutaizi Site has showed a significant decreasing trend during the Track Record Period and amounted to 6.1% of our total sales volume in 2022, and the utilization rate of our Xinchang Jinwutaizi Site has also showed a decreasing trend during the Track Record Period as we have updated production techniques at other production sites during the same time. The contribution of the Xinchang Jinwutaizi Site to our total sales volume continued to decrease and amounted to 3.2% of our total sales volume in the first quarter in 2023; (ii) if we are ordered to suspend our production at the Xinchang Jinwutaizi Site, through adjusting the production schedules of our other production sites as well as cooperating with OEM partners, our general production activities will not be materially disrupted; and (iii) if, in the unlikely event, we are ordered to demolish the Xinchang Jinwutaizi Site and restore the Xinchang Jinwutaizi Land for agricultural use, we will comply with the relevant order and such demolition work will not materially and adversely affect our business, results of operations or financial condition based on aforementioned reasons. We expect that we will be able to finish such demolition at a cost of RMB300,000.

To prevent any recurrence of similar incidents in future, we have established and implemented both preventive and remedial measures to ensure our compliance with regulations in relation to obtaining requisite certificates or completion of relevant procedures for our use of real properties in the future:

- we plan to provide regular training on applicable legal and regulatory requirements in relation to the use of real properties to our senior management. We will also remain in close communication with external legal counsel to understand the latest development of the relevant laws and regulations;
- during the site selection process, our legal department will check the land nature to ensure that collectively owned land, particularly agricultural land, will not be used for construction and production use before the completion of necessary approval processes; and
- prior to the commencement of the operation of a new production site, a designated person shall ensure all requisite approvals and permits have been obtained.

BUSINESS

Fire Safety

During the Track Record Period and up to the Latest Practicable Date, we had not been subject to any administrative penalties with respect to fire safety.

During the Track Record Period, we had suspended production for certain production facility that had not completed fire safety filings procedures for renovation, which had no material adverse effect to our business. As of the Latest Practicable Date, we have completed the renovation and obtained the fire safety filings. As advised by our PRC Legal Adviser, the maximum exposure for not completing fire safety filing procedures is a penalty in an amount of up to RMB5,000, and if the production facility fails to pass the random fire safety inspection of the competent authority, it may be ordered to suspend the operations.

We believe that such non-compliance had not and would not have a material adverse effect on our business based on the following: (i) the production facility had not been subject to any administrative penalties for not completing fire safety filings during the Track Record Period; (ii) the maximum aggregate potential penalty of RMB5,000, if occurred, would exert an insignificant impact on our financial conditions; (iii) we have not experienced material adverse effects on our operations or financial condition since the suspension of production facility and the actual production volume of Wuchang production base slightly increased from 21.5 thousand tons for the three months ended March 31, 2022 to 24.1 thousand tons for the three months ended March 31, 2023; and (iv) we have obtained the fire safety filings for that production facility.

Leased Properties

As of the Latest Practicable Date, we leased lands located in nine villages with an aggregate gross area of approximately 10,186,918 sq.m. and 42 buildings with an aggregate gross floor area of approximately 87,175 sq.m, respectively, which were primarily used for warehousing, dormitory and other business operations.

As of the Latest Practicable Date, among our 42 leased buildings, five lessors have failed to provide us their property ownership certificates or proof of authorizations from the property owners, and these buildings had accounted to an aggregate gross floor area of approximately 33,022 sq.m.. We believe that the reasons that the lessors failed to provide us with the relevant property ownership certificates or proof of authorizations are beyond our control. As advised by our PRC Legal Adviser, without valid property ownership certificates or proof of authorizations from the property owners, our use of these leased buildings may not be valid or may be affected by third parties' claims or challenges against the lease. In addition, if the lessors do not have the requisite rights to lease these buildings, we may be required to vacate these leased buildings and relocate our operational sites. However, in the event that we are unable to continue using these leased buildings, based on the advice of our PRC Legal Adviser, we, as the tenant, will not need to continue to pay the rents unless otherwise agreed between the tenant and the lessor. Additionally, it is the lessors' responsibility to obtain the property ownership certificates to enter into the leases, and, as a tenant, we will not be subject to any

BUSINESS

administrative punishment or penalties by the real estate authorities in this regard. These statutory protections significantly mitigate our risks arising from these leased properties due to claims for vacation from the legal owners of the properties. In the unlikely event that we are required to relocate due to such title defects, we believe we will be able to easily find alternative properties. We estimate that the relocation cost for each warehouse will be approximately RMB300,000 and the relocation will normally take less than one month.

Pursuant to the applicable laws and regulations in China, property lease agreements for leased buildings must be registered with the relevant real estate administration bureaus in China. As of the Latest Practicable Date, we had not registered the lease agreements for 37 of our leased buildings with the relevant competent authorities in accordance with applicable laws and regulations in China, which mainly due to owners' reluctance in registering relevant lease agreements despite our efforts in communicating such requests. Our PRC Legal Adviser advised us that the lack of registration does not affect the validity and enforceability of the lease agreements, but we may be subject to fines from RMB1,000 to RMB10,000 for each such lease agreement for failure to register.

Having considered the foregoing, we believe that the non-registrations of leases described above will not, individually or in the aggregate, materially affect our business and results of operations, on the grounds that we were advised by our PRC Legal Adviser that, if the lease registration can be completed in accordance with relevant laws and regulations within a reasonable time from the date of application or the prescribed time limit ordered by the competent governmental authorities, the risk of governmental authorities imposing a material penalty on us with respect to these leased properties is remote.

LICENSES, APPROVALS AND PERMITS

We are required to maintain various licenses, approvals and permits to operate our business. Our material licenses and permits include food production permits and food trading permits (or record filings). Our legal department is responsible for monitoring the validity status of our licenses and permits and making timely applications for renewal to relevant government authorities. We monitor our compliance with the relevant laws and regulations to ensure that we have the requisite licenses, approvals and permits for our operations. See "Regulatory Overview."

As of the Latest Practicable Date, we had obtained the requisite licenses, approvals and permits from relevant authorities that are material to our operations in China and such licenses, approvals and permits were valid and remained in effect. The following table sets out a list of material licenses, permits and approvals currently held by us:

LEGAL PROCEEDINGS AND COMPLIANCE

Legal Proceedings

We may from time to time become a party to various litigation, arbitration or administrative proceedings arising in the ordinary course of our business. During the Track Record Period and up to the Latest Practicable Date, there were no litigation, arbitration or administrative proceedings pending or threatened against us or any of our Directors which could have a material and adverse effect on our business, financial condition or results of operations.

From 2019 to 2021, Wuchang Caiqiao, a subsidiary of our Group, was involved in several lawsuits (the “**Historical Lawsuits**”) brought by a third-party company, which alleged that Wuchang Caiqiao has infringed certain trademarks (the “**Disputed Trademarks**”) owned by such company. The Historical Lawsuits were collectively settled on October 9, 2021 (the “**Settlement**”), under which Wuchang Caiqiao agreed to (i) pay the plaintiff of the Historical Lawsuits and its associate company a compensation of RMB550,000 to settle the disputes; and (ii) cease and undertake not to carry out any production and sales activities that would infringe the Disputed Trademarks. We adopted rectification measures in relation to such lawsuits, which did not have any material adverse effect on our business operations and results of operations.

In 2023, an associate company of the plaintiff in the Historical Lawsuits, as the current owner of the Disputed Trademarks, brought a lawsuit with claim amount of RMB30 million against our Company, Wuchang Caiqiao and Shenyang Xinchang, alleging that (i) certain sales activities of us prior to the Settlement, but not raised in the Historical Lawsuits, and (ii) some sales and marketing activities after the Settlement have infringed the Disputed Trademarks. As of the Latest Practicable Date, we were in the process of responding to such ongoing trademark related lawsuit, under which the plaintiff requires cease of alleged infringement actions and economic damage from us. The first hearing of this case was held on July 4, 2023 pending judgement rendered by the court.

Our Directors are of the view that, as advised by our PRC Legal Adviser, this ongoing lawsuit will not have material adverse impacts on our Group’s business operations and results of operations because (i) the alleged infringement actions do not involve trademarks that are critical to our business operations, such as our major brand names including Shiyue Daotian, Firewood Courtyard and Sunshine Family; (ii) we do not expect that the plaintiff’s claim is likely to be fully supported, or that the economic compensation, if any, will have a material impact on our results of operations and financial performance based on the following views of our PRC Legal Adviser (a) according to the Trademark Law of the PRC and relevant judicial interpretation, the finding of trademark infringement turns on the question of whether the use of a trademark that is similar to its registered trademark on the same goods, or the use of a trademark that is identical or similar to its registered trademark on similar goods, without the permission of the trademark registrant, may be easily lead to confusion, and in determining whether it constitutes confusion, the general attention of the relevant public shall be the criterion. Based on the above criteria, the PRC Legal Adviser does not believe that every

BUSINESS

evidence presented by the plaintiff proves that our business activities cause confusion among consumers; and (b) according to the Trademark Law of the PRC and relevant judicial interpretation, punitive compensation damages may only be applied to seriously malicious infringement of the trademark right, and the determination of seriousness of the circumstances should be based on a combination of factors including the means of infringement, the number of infringements, among others. Based on the above rules, and considering that the evidence presented by the plaintiff mainly dated before the Settlement, the PRC Legal Adviser is of the view that the above evidence may not be considered as a basis for a decision on punitive damages; and (iii) we have promptly undertaken rectification activities in relation to alleged infringement claims. Having considered the views of the Directors and the PRC Legal Adviser, and their basis thereof, nothing has come to the Joint Sponsors' attention that would reasonably cause the Joint Sponsors to doubt the Directors' view in relation to the ongoing lawsuit's impacts on the Group's business operations and results of operations in any material respect. Moreover, we have enhanced our internal control mechanism comprehensively to control intellectual property related risks. See "Business – Risk Management and Internal Control." We also cannot assure you that we will not experience any IP-related disputes in the future which may adversely affect our business and prospects. See "Risk Factor – We may be unable to adequately protect our intellectual property rights or may be subject to infringement claims of intellectual property rights or rights of third parties, which could harm the value of our brands and adversely affect our business."

Compliance

During the Track Record Period and up to the Latest Practicable Date, we had not been and were not involved in any material incidents of non-compliance. Our Directors are of the view that we had complied, in all material respects, with all relevant laws and regulations in China during the Track Record Period and up to the Latest Practicable Date.

RISK MANAGEMENT AND INTERNAL CONTROL

We have established our risk management systems to identify, assess, monitor and mitigate the risks that may hinder our success including strategic risks, operational risks, financial risks and legal risks.

To monitor the ongoing implementation of our risk management policies and corporate governance measures after the Listing, we have adopted or will adopt, among other things, the following risk management measures:

- establish an Audit Committee to review and supervise our financial reporting process and internal control system. For the qualifications and experience of the committee members, see "Directors, Supervisors and Senior Management."
- adopt various policies to ensure compliance with the Listing Rules, including but not limited to, aspects related to risk management, connected transactions and information disclosure;

BUSINESS

- provide anti-corruption and anti-bribery compliance training periodically to our senior management and employees to enhance their knowledge and compliance with applicable laws and regulations, and include relevant policies against non-compliance in employee handbooks;
- organize training sessions for our Directors and senior management in respect of the relevant requirements of the Listing Rules and duties of directors of companies listed in Hong Kong;
- enhance our reporting and records system for production facilities, including centralizing their quality control and safety management systems and conducting regular inspections of the facilities;
- establish a set of emergency procedures in the event of major quality-related issues;
- provide enhanced training programs on quality assurance and product safety procedures;

In particular, we may be involved in trademark disputes from time to time. To further minimize the risks of alleged intellectual property infringements, whether or not inadvertently, we have enhanced our intellectual property related internal control mechanisms including:

Preventive Measures

- implement *Shiyue Daotian Product Management Process Guidelines and Product Launch Process Management System*, which stipulate review and approval requirements to ensure compliance of our new product packaging design, product specification, promotional material, and printing technique with designated responsible personnel;
- establish the intellectual property management system, which requires the legal department to conduct clearance search for third-party intellectual property rights or related applications before launching our products, and inform the business department if prior rights are found. Our business department is required to provide alternatives to the legal department for if modification is needed. We will only launch products upon the completion of such clearance search;
- set up information system audit jointly conducted by our brand management department, quality control department and legal department during the processes of new product launch (including product re-launch), product packaging label review and advertising compliance review;
- for products launched collaboratively with other parties, enhance compliance measures for intellectual property rights, especially obtaining all required authorizations to minimize relevant risks;

BUSINESS

- screen all products and proactively remove any product that may be subject to potential intellectual property infringement allegation;
- comprehensively review product packaging, promotional materials, and product descriptions including those published or distributed on or through our official website, social network platforms, online platforms, and offline sales channels; and
- conduct compliance training sessions to educate employees on intellectual property right requirements for packaging, advertising, and product description and clarify relevant accountabilities with consequences including fines or termination of employment.

Detective measures

- conduct internal inspections of packaging, advertising, and product details of sales department; and
- conduct cross-department investigation by our brand department, quality control department and legal department in the event of infringement claims or non-compliant matters and ensure corrective action is implemented if necessary. Our quality control department is also responsible for regular review to ensure timely rectification.

Assessment mechanism

We have implemented *Accountability Assessment for Consumer Complaints* and established Complaints Management Committee comprising senior executives and professionals from finance department, legal department, and internal control department, among others, which is responsible for decision-making and management of complaint-related issues.

See – “Risk Factors – We may be unable to adequately protect our intellectual property rights or may be subject to infringement claims of intellectual property rights or rights of third parties, which could harm the value of our brands and adversely affect our business.”

To ensure the above compliance culture is embedded into everyday workflow and set the expectations for individual behavior across the organization, we will regularly conduct internal compliance checks and inspections, adopt strict accountability internally and conduct compliance training.

RELATIONSHIP WITH CONTROLLING SHAREHOLDERS GROUP

OVERVIEW

As of the Latest Practicable Date, Mr. Wang, Ms. Zhao, Shiyue Daotian Enterprise Management, Shiyue Jinfeng, Shiyue Zhongxin and Shenyang Hongsheng (the “**Controlling Shareholders Group**”) are together entitled to control the exercise of 70% of the voting rights of our Company. Immediately following the completion of the Global Offering, the Controlling Shareholders Group will be together entitled to control the exercise of approximately 66.50% of the voting rights and thus remain as a group of Controlling Shareholders of our Company. For details of the relationship among the Controlling Shareholders Group as well as their shareholding in the Company, please refer to “History, Development and Corporate Structure”.

CONFIRMATION OF NO COMPETING INTERESTS

Each of member of our Controlling Shareholders Group confirms that, as of the Latest Practicable Date, he, she or it did not have any interest in a business, apart from the business of our Group, which competes or is likely to compete, directly or indirectly, with our business that would require disclosure under Rule 8.10 of the Listing Rules.

INDEPENDENCE FROM THE CONTROLLING SHAREHOLDERS GROUP

Having considered the following factors, our Directors are satisfied that our business will function independently from the Controlling Shareholders Group and their respective close associates after the completion of the Global Offering.

Management Independence

Our business is managed and conducted by our Board and senior management. Our Board consists of five executive Directors, one non-executive Director and three independent non-executive Directors. Our Directors believe that our Company is capable of maintaining management independence due to the following reasons:

- (i) Mr. Wang and Ms. Zhao currently serve as an executive director and a supervisor of a member of our Controlling Shareholders Group, Shiyue Jinfeng, respectively. Shiyue Jinfeng, Shiyue Zhongxin and Shiyue Daotian Enterprise Management are shareholding platforms of the Controlling Shareholders Group. Shiyue Jinfeng acts as the general partner of Shiyue Zhongxin and Shiyue Daotian Enterprise Management and is mainly responsible for the management of these two partnerships. Save as listed above, Shiyue Jinfeng does not have any other business. In addition, neither Shiyue Zhongxin and Shiyue Daotian Enterprise Management has any business other than its shareholding in the Company. As such, in terms of management by Shiyue Jinfeng, there will be no conflict of interest between the business of the Company and the Controlling Shareholders Group. Other than above, our executive Directors and all our senior management members do not hold any management position and/or directorship in the Controlling Shareholders Group or its close associates as of the Latest Practicable Date;

RELATIONSHIP WITH CONTROLLING SHAREHOLDERS GROUP

- (ii) each of our Directors is aware of his/her fiduciary duties as a director of our Company which require, among other things, that he/she acts for the benefit and in the best interests of our Company and does not allow any conflict between his/her duties as a Director and his/her personal interests;
- (iii) in the event that there is a potential conflict of interest arising out of any transaction to be entered into between our Group and the Controlling Shareholders Group, the interested Directors shall abstain from voting at the relevant Board meetings of our Company in respect of such transactions and shall not be counted in the quorum;
- (iv) our Board has a balanced composition of executive Directors, non-executive Director and independent non-executive Directors which ensures the independence of our Board in making decisions affecting our Company. Specifically, all of our three independent non-executive Directors are independent of the Controlling Shareholders Group and have extensive experience in their respective areas of expertise. See “Directors, Supervisors and Senior Management”. All of our independent non-executive Directors are appointed in accordance with the requirements under the Listing Rules to ensure that the decisions of our Board are made only after due consideration of independent and impartial opinions; and
- (v) upon completion of the Global Offering, our Company will adopt a series of corporate governance measures to manage conflicts of interest, if any, between our Group and the Controlling Shareholders Group, which would support our independent management. See “– Corporate Governance Measures” in this section below for further information.

Therefore, our Directors believe that our Company has sufficient and effective control mechanisms to ensure that the Directors perform their respective duties properly and safeguard the interests of our Company and our Shareholders as a whole.

Based on the above, the Directors believe that our Board as a whole and together with our senior management team are able to perform the managerial responsibility in our Group independently.

Operational Independence

We have full rights to make business decisions and to carry out our business independently from our Controlling Shareholders Group and their respective close associates. On the basis of the following reasons, our Directors consider that our Company will continue to be operationally independent from our Controlling Shareholders Group and their respective close associates after Listing:

- (i) we are not reliant on trademarks owned by our Controlling Shareholders Group, or by other companies controlled by our Controlling Shareholders Group;

RELATIONSHIP WITH CONTROLLING SHAREHOLDERS GROUP

- (ii) we are the holder of all relevant licenses material to the operation of our business;
- (iii) we have independent access to our customers and suppliers;
- (iv) we have sufficient capital, facilities, equipment and employees to operate our business independently from our Controlling Shareholders Group;
- (v) we have our own administrative and corporate governance infrastructure, including our own accounting, legal and human resources departments; and
- (vi) none of our Controlling Shareholders Group or their respective close associates have any interests in any business which competes or is likely to compete with the business of our Group.

Based on the above, our Directors believe that we are able to operate independently from our Controlling Shareholders Group.

Financial Independence

We have independent internal control and accounting systems. We also have an independent finance department responsible for discharging the treasury function. We are capable of obtaining financing from third parties, if necessary, without reliance on our Controlling Shareholders Group.

As of the Latest Practicable Date, we did not have any outstanding loans or non-trade balances granted, guaranteed or pledged by any of our Controlling Shareholders Group to us.

Based on the above, our Directors are of the view that we are capable of carrying on our business independently from, and do not place undue reliance on, our Controlling Shareholders Group and their respective close associates after the Listing.

CORPORATE GOVERNANCE MEASURES

Our Directors recognize the importance of good corporate governance to protect the interests of our Shareholders. Our Company would adopt the following corporate governance measures to manage potential conflict of interests between our Group and the Controlling Shareholders Group and their respective close associates upon Listing:

- (i) where a Board meeting is held for the matters in which any Director has a material interest, such Director(s) shall abstain from voting on the relevant resolutions and shall not be counted in the quorum for the voting;

RELATIONSHIP WITH CONTROLLING SHAREHOLDERS GROUP

- (ii) where a Shareholders' meeting involves proposed transactions in which the Controlling Shareholders Group or their respective close associates has a material interest, the Controlling Shareholders Group or their respective close associates will not vote on the resolutions and shall not be counted in the quorum in the voting;
- (iii) our Company has established internal control mechanisms to identify connected transactions. Upon Listing, if our Company enters into connected transactions with the Controlling Shareholders Group or any of their respective close associates, our Company will comply with the relevant requirements of Chapter 14A of the Listing Rules, including the announcement, reporting and independent shareholders' approval requirements (if applicable) under the Listing Rules;
- (iv) our Board will consist of a balanced composition of executive and non-executive Directors, including one-third of whom are independent non-executive Directors, to ensure that our Board is able to effectively exercise independent judgment in its decision-making process and provide independent advice to our Shareholders. Our independent non-executive Directors, individually and collectively, possess the requisite knowledge and experience. They are committed to providing impartial and professional advice to protect the interests of our minority Shareholders;
- (v) our Directors (including the independent non-executive Directors) will seek independent and professional opinions from external advisers at our Company's cost as and when appropriate in accordance with the Code on Corporate Governance Practices and Corporate Governance Report as set out in Appendix 14 to the Listing Rules; and
- (vi) we have appointed Gram Capital Limited as our compliance adviser, which will provide advice and guidance to us in respect of compliance with the Listing Rules and applicable laws, rules, codes and guidelines, including but not limited to various requirements relating to corporate governance.

Based on the above, our Directors are satisfied that sufficient corporate governance measures have been put in place to manage conflicts of interest between our Group and the Controlling Shareholders Group and/or Directors to protect minority Shareholders' rights after Listing.

CONTINUING CONNECTED TRANSACTIONS

OVERVIEW

Upon Listing, certain transactions between us and our connected persons, which are entered into in our ordinary course of business, will constitute continuing connected transactions of our Company under Chapter 14A of the Listing Rules.

OUR CONNECTED PERSONS

Pursuant to Chapter 14A of the Listing Rules, our Directors, Supervisors, substantial shareholders and chief executive, any persons who were Directors within 12 months preceding the Listing Date, directors, supervisors and chief executives of our subsidiaries (other than the insignificant subsidiaries) and any of their respective associates are connected persons of our Company.

FULLY EXEMPT CONTINUING CONNECTED TRANSACTIONS

During the Track Record Period, our Group entered into a number of continuing connected transactions including

- (i) the warehouse rental agreement between Shenyang Xinchang and Shenyang Jinyinong Grain Trade Co., Ltd. (瀋陽金一農糧食貿易有限公司) (“**Shenyang Jinyinong**”), pursuant to which Shenyang Jinyinong agrees to provide warehouse rental services to Shenyang Xinchang. Shenyang Jinyinong is wholly owned by Mr. Guo Yang (郭陽), a nephew of Ms. Zhao (our executive Director), and therefore constitutes a connected person of the Company;
- (ii) the paddy drying services agreement between Shenyang Xinchang and Shenyang Jinyinong, pursuant to which Shenyang Jinyinong agrees to provide paddy drying services to Shenyang Xinchang; and
- (iii) certain of our Directors and/or their associates, from time to time, procure rice products from our major subsidiaries Shenyang Xinchang and Wuchang Caiqiao.

The aforementioned transactions are made in the ordinary and usual course of our business and are expected to continue after the Listing, therefore constituting continuing connected transactions of our Company under Chapter 14A of the Listing Rules. As the highest applicable percentage ratios for the aforementioned transactions for the purpose of Chapter 14A of the Listing Rules will be less than 0.1% on an annual basis, each of such transactions will constitute a de minimis continuing connected transaction of our Company that will be fully exempt from reporting, annual review, announcement and independent Shareholders’ approval requirements under Chapter 14A of the Listing Rules.

Our Directors (including our independent non-executive Directors) are of the view that the continuing connected transactions as set out above have been and will be entered into in our ordinary course of business and on normal commercial terms, and are fair and reasonable and in the interest of the Company and the Shareholders as a whole.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

COMPETING INTERESTS

As of the Latest Practicable Date, none of our Directors (other than our independent non-executive Directors) had interests in any business, which competes or is likely to compete, either directly or indirectly, with our business that would require disclosure under Rule 8.10 of the Listing Rules.

BOARD COMMITTEES

Our Company has established three Board Committees in accordance with the relevant PRC laws and regulations, the Articles and the corporate governance practice under the Listing Rules, namely the Audit Committee, the Remuneration Committee and the Nomination Committee.

Audit Committee

We have established Audit Committee in compliance with the Corporate Governance Code set out in Appendix 14 to the Listing Rules. The Audit Committee consists of three non-executive Directors, namely Mr. Yeung Chi Tat, Mr. Chang Bin and Mr. Shi Ketong. Mr. Yeung currently serves as the chairman of the Audit Committee. The primary duties of the Audit Committee are as follows:

- (i) to make recommendations to the Board on the appointment, replacement and removal of an external auditor, consider and approve the remuneration and terms of engagement of an external auditor and any questions of its resignation or dismissal;
- (ii) to review and monitor the external auditor's independence and objectivity and the effectiveness of the audit process in accordance with applicable standards. The Audit Committee shall discuss with the external auditor the nature and scope of the audit and reporting obligations before the audit commences;
- (iii) to develop and implement policies on engaging an external auditor to provide non-audit services;
- (iv) to review and supervise the truthfulness, completeness and correctness of financial statement, annual report and accounts and half-year report;
- (v) to review the financial policy, risk management and internal control evaluation system of the Company;
- (vi) to facilitate communications between the internal audit department and the external auditor; and
- (vii) other matters required by laws, regulations, regulatory documents, the rules of the securities regulatory authority of the place where the Shares of the Company are listed and the requirements of the Memorandum and the Articles of Association, and as authorized by the Board.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

Remuneration Committee

We have established Remuneration Committee in compliance with the Corporate Governance Code set out in Appendix 14 to the Listing Rules. The Remuneration Committee consists of three Directors, namely Mr. Shi Ketong, Mr. Wang and Mr. Yeung Chi Tat. Mr. Shi currently serves as the chairman of the Remuneration Committee. The primary duties of the Remuneration Committee are as follows:

- (i) to organize and formulate the remuneration policy and plan of Directors and senior management with reference to their main duties, scope, importance, time commitment and salary level of relevant positions. The remuneration plan and policy mainly include but are not limited to performance evaluation standards, procedures and main evaluation systems, and main plans for rewards and punishments, and shall include benefits in kind, pension rights and compensation payments (including compensation for loss or termination of their office or appointment);
- (ii) to make recommendations to the Board on the remuneration packages of the executive Directors and senior management;
- (iii) to make recommendations to the Board on the remuneration of non-executive directors;
- (iv) to consider salaries paid by comparable companies, time commitment and responsibilities and employment conditions elsewhere in our Group;
- (v) to study and make recommendations to the Board on the appraisal criteria for Directors and senior management, review the performance of Directors (excluding independent non-executive Directors) and senior management and conduct annual performance appraisals;
- (vi) to review and approve the compensation payable to the executive Directors and senior management for their loss or termination of office or appointment to ensure that such compensation is consistent with the contractual terms and is otherwise fair and not excessive;
- (vii) to review and approve the compensation arrangements relating to dismissal or removal of the Directors for misconduct to ensure that such compensation is consistent with the contractual terms and is otherwise fair and not excessive;
- (viii) to ensure that no Director or any of his associates is involved in deciding his own remuneration;
- (ix) to supervise the implementation of the remuneration procedures and review the relevant remuneration policies on a regular basis; and
- (x) to review and/or approve relevant share schemes as set out in Chapter 17 of the Listing Rules.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

Nomination Committee

We have established Nomination Committee in compliance with the Corporate Governance Code set out in Appendix 14 to the Listing Rules. The Nomination Committee consists of three Directors, namely Mr. Wang, Mr. Shi Ketong and Mr. Lin Chen. Mr. Wang currently serves as the chairman of the Nomination Committee. The primary duties of the Nomination Committee are as follows:

- (i) to review the size and composition of the Board (including the skills, knowledge and experience) at least annually and make recommendations on any proposed changes to the Board to complement our Company's corporate strategy;
- (ii) to formulate the corporate governance policies and standards, monitor the implementation, and make recommendations to the Board;
- (iii) to examine the select standards and procedures of directors and senior management and make recommendation to the Board, and supervise the training and development plan of directors and senior management;
- (iv) to identify individuals suitably qualified to become board members and select and make recommendations to the Board on the selection of individuals nominated for directorships;
- (v) to assess the independence of the independent non-executive Directors;
- (vi) to make recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors (in particular the chairman of the Board and the general manager); and
- (vii) other matters required by laws, regulations, regulatory documents, the rules of the securities regulatory authority of the place where the Shares of the Company are listed and the requirements of the Memorandum and the Articles of Association, and as authorized by the Board.

BOARD DIVERSITY POLICY

Pursuant to our board diversity policy, selection of Board candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, industry experience, technical capabilities, professional qualifications and skills, knowledge, length of service and other related factors. We will also consider our own business model and special needs. The ultimate selection of Director candidates will be based on merits of the candidates and contribution that the candidates will bring to our Board.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

Our Board currently consists of two female Directors and seven male Directors with a balanced mix of knowledge and skills, including but not limited to overall management and strategic development, finance, accounting and risk management. The Company is of the view that the Board satisfies our board diversity policy.

Our Nomination Committee is responsible for the implementation of our board diversity policy. Upon completion of the Listing, our Nomination Committee will review our board diversity policy from time to time to ensure its continued effectiveness and we will disclose the implementation of our board diversity policy in our corporate governance report on an annual basis.

REMUNERATION OF DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

The Directors, Supervisors and senior management members receive remuneration in the forms of salaries, allowances, contribution to pension schemes, discretionary bonuses and other benefits in kind.

The aggregate amount of remuneration (including salaries, allowances, contribution to pension schemes and discretionary bonuses) and other benefits in kind paid to our Directors and Supervisors for the three years ended December 31, 2022 and the three months ended March 31, 2023 were RMB2,215,000, RMB171,613,000, RMB755,910,000 and RMB1,786,000, respectively, which included nil, RMB168,614,000, RMB734,509,000 and nil, respectively in the form of share-based payment.

Under the arrangements currently in force, the aggregate amount of remuneration (including any discretionary bonus which may be paid) payable by our Group to our Directors and Supervisors for the financial year ending December 31, 2023 is expected to be approximately RMB9.25 million.

The aggregate amount of fees, salaries, allowances, discretionary bonus, pension schemes contribution and other benefits in kind (if applicable) paid to the five highest-paid individuals of our Group for the three years ended December 31, 2022 and the three months ended March 31, 2023 were RMB2,273,000, RMB189,616,000, RMB751,784,000 and RMB1,572,000, respectively.

During the Track Record Period, there was no remuneration paid or payable by our Company to our Directors, Supervisors or the five highest-paid individuals as an inducement to join or upon joining our Company. During the Track Record Period, there was no compensation paid or payable by our Company to our Directors, former Directors, Supervisors, former Supervisors or the five highest-paid individuals for the loss of any office in connection with the management of the affairs of any subsidiary of our Company.

During the Track Record Period, none of our Directors or Supervisors has waived or agreed to waive any remuneration or benefits in kind for the past three years. Save as disclosed above, there was no other payments paid or payable by our Company or any of our subsidiaries to our Directors, Supervisors or the five highest-paid individuals during the Track Record Period.

DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

We are committed to achieving high standards of corporate governance which are crucial to our development and safeguard the interests of our Shareholders. To accomplish this, we expect to comply with the corporate governance requirements under the Corporate Governance Code and Corporate Governance Report as set out in Appendix 14 to the Listing Rules after the Listing.

Pursuant to code provision C.2.1 of Part II of the Corporate Governance Code, the roles of chairman and general manager should be separate and should not be performed by the same individual. However, our Company does not have a separate chairman and general manager and the responsibility of both Chairman and General Manager vest in Mr. Wang. Our Board believes that vesting the responsibilities of both Chairman and General Manager in the same person has the benefit of ensuring the consistent leadership within our Group and enables more effective and efficient overall strategic planning of our Group. Besides, with three independent non-executive Directors out of a total of nine Directors in our Board, there will be sufficient independent voice within our Board to protect the interests of our Company and our Shareholders as a whole. Therefore, our Board considers that the balance of power and authority for the present arrangement will not be impaired and this structure will enable our Company to make and implement decisions promptly and effectively. Our Board will continue to review and consider splitting the roles of chairman of our Board and general manager of our Company at a time when it is appropriate and suitable by taking into account the circumstances of our Group as a whole.

COMPLIANCE ADVISER

We have appointed Gram Capital Limited as our compliance adviser (the “**Compliance Adviser**”) upon the Listing pursuant to Rules 3A.19 and 19A.05 of the Listing Rules. The Compliance Adviser will, among other things:

- (i) act as our compliance adviser for the purpose of Rules 3A.19 and 19A.05 of the Hong Kong Listing Rules for a period commencing on the Listing Date and ending on the date on which we comply with Rule 13.46 of the Hong Kong Listing Rules in respect of our financial results for the first full financial year commencing after the Listing Date, or until the agreement is terminated, whichever is earlier;
- (ii) provide us with certain services, including proper guidance and advice as to compliance with the requirements under the Hong Kong Listing Rules and applicable laws, regulations and rules;
- (iii) as soon as reasonably practicable, inform us of any amendment or supplement to the Hong Kong Listing Rules announced by the Hong Kong Stock Exchange from time to time, and of any amendment or supplement to the applicable laws, regulations and rules in Hong Kong applicable to the Company; and
- (iv) act as an additional channel of communication of the Company with the Hong Kong Stock Exchange.

SHARE CAPITAL

OUR SHARE CAPITAL

Immediately before the Global Offering

As of the Latest Practicable Date, the registered share capital of our Company was RMB101,474,565, comprising 101,474,565 Shares with a nominal value of RMB1.00 each.

Upon the Completion of the Global Offering

Upon Listing, the ordinary shares of the Company will be split on a one for ten basis, and the registered share capital of the Company became RMB101,474,565 divided into 1,014,745,650 Shares of par value RMB0.10 each, all of which are fully paid up.

Immediately after the Global Offering and Conversion of Domestic Unlisted Shares into H Shares (assuming the Share Split is completed), the share capital of the Company will be as follows:

<u>Description of Shares</u>	<u>Number of Shares</u>	<u>Approximate % of the enlarged issued share capital after the Global Offering</u>
Domestic Unlisted Shares	811,852,700	76.01%
H Shares converted from Domestic Unlisted Shares	202,892,950	18.99%
H Shares to be issued pursuant to the Global Offering	<u>53,407,500</u>	<u>5.00%</u>
Total	<u><u>1,068,153,150</u></u>	<u><u>100.00%</u></u>

DOMESTIC UNLISTED SHARES AND H SHARES

Upon the completion of the Global Offering and the Conversion of Domestic Unlisted Shares into H Shares, the Shares will consist of Domestic Unlisted Shares and H Shares. Domestic Unlisted Shares and H Shares are all ordinary Shares in the share capital of our Company.

Apart from certain qualified domestic institutional investors in the PRC, the qualified PRC investors under the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect and other persons who are entitled to hold our H Shares pursuant to relevant PRC laws and regulations or upon approvals of any competent authorities (such as our certain existing shareholders the Domestic Unlisted Shares held by whom will be converted into H Shares according to the approval of the CSRC), H Shares generally cannot be subscribed for by or traded between legal or natural PRC persons.

SHARE CAPITAL

Domestic Unlisted Shares and H Shares shall rank *pari passu* with each other in all respects and, in particular, will rank equally for dividends or distributions declared, paid or made. All dividends for H Shares will be denominated and declared in Renminbi, and paid in Hong Kong dollars or Renminbi, whereas all dividends for Domestic Unlisted Shares will be paid in Renminbi. Other than cash, dividends could also be paid in the form of shares.

CONVERSION OF DOMESTIC UNLISTED SHARES INTO H SHARES

If any of the Domestic Unlisted Shares are to be converted, listed and traded as H Shares on the Hong Kong Stock Exchange, such conversion, listing and trading will need the approval of the relevant PRC regulatory authorities, including the CSRC, and the approval of the Hong Kong Stock Exchange.

Register with the CSRC and Full Circulation Application

In accordance with the Overseas Listing Trial Measures and related guidelines, H-share listed companies which apply for the conversion of domestic unlisted shares into H shares for listing and circulation on the Hong Kong Stock Exchange shall register with the CSRC by filing materials on key compliance issues. An unlisted domestic joint stock company may apply for “full circulation” when applying for an overseas initial public offering.

We applied for a “full circulation” filing when filing with the CSRC for an overseas listing on April 4, 2023, and submitted the filing reports, authorization documents of the shareholders of Domestic Unlisted Shares which applied for the H-share “full circulation”, undertaking on the compliance of share acquisition and other documents in accordance with the requirements of the CSRC.

We have received the filing notice from the CSRC dated May 30, 2023 in relation to the registration of the overseas listing and “full circulation”, pursuant to which (1) we are approved to issue no more than 388,985,700 H Shares with a nominal value of RMB0.1 each, which are all ordinary shares, and we may be listed on the Main Board of the Hong Kong Stock Exchange; (2) certain Shareholders (the “**Full Circulation Participating Shareholders**”) could convert 202,892,950 Domestic Unlisted Shares into H Shares on a one-for-one basis (“**Conversion of Domestic Unlisted Shares into H Shares**”) upon the completion of the Global Offering (assuming the Share Split is completed) (“**Full Circulation Application of the Company**”).

Listing Approval by the Hong Kong Stock Exchange

We have applied to the Listing Committee of the Hong Kong Stock Exchange for the granting of listing of, and permission to deal in, our H Shares to be issued pursuant to the Global Offering, and the H Shares to be converted from 202,892,950 Domestic Unlisted Shares on the Hong Kong Stock Exchange, which is subject to the approval by the Hong Kong Stock Exchange.

SHARE CAPITAL

We will perform the following procedures for the conversion of Domestic Unlisted Shares into H Shares after receiving the approval of the Hong Kong Stock Exchange: (1) giving instructions to our H Share Registrar regarding relevant share certificates of the converted H Shares; and (2) enabling the converted H Shares to be accepted as eligible securities by HKSCC for deposit, clearance and settlement in the CCASS.

Domestic Procedures

The Full Circulation Participating Shareholders may only deal the Shares upon completion of the below arrangement procedures for the registration, deposit and transaction settlement in relation to the conversion and listing:

- (i) We will appoint China Securities Depository and Clearing Corporation Limited (“**CSDC**”) as the nominal holder to deposit the relevant securities at CSDC (Hong Kong), which will then deposit the securities at HKSCC in its own name. CSDC, as the nominal holder of the Full Circulation Participating Shareholders, shall handle all custody, maintenance of detailed records, cross-border settlement and corporate actions, etc. relating to the converted H Shares for the Full Circulation Participating Shareholders;
- (ii) We will engage a domestic securities company (the “**Domestic Securities Company**”) to provide services such as sending orders for trading of the converted H Shares and receipt of transaction returns. The Domestic Securities Company will engage a Hong Kong securities company (the “**Hong Kong Securities Company**”) for settlement of share transactions. We will make an application to CSDC, Shenzhen Branch for the maintenance of a detailed record of the initial holding of the converted H Shares held by our Shareholders. Meanwhile, we will submit applications for a domestic transaction commission code and abbreviation, which shall be confirmed by CSDC, Shenzhen Branch as authorized by SZSE;
- (iii) The SZSE shall authorize Shenzhen Securities Communication Co., Ltd. to provide services relating to transmission of trading orders and transaction returns in respect of the converted H Shares between the Domestic Securities Company and the Hong Kong Securities Company, and the real-time market forwarding services of the H Shares;
- (iv) According to the Notice of SAFE on Issues Concerning the Foreign Exchange Administration of Overseas Listing (《國家外匯管理局關於境外上市外匯管理有關問題的通知》), the Full Circulation Participating Shareholders shall complete the overseas shareholding registration with the local foreign exchange administration bureau before the Shares are sold, and after the overseas shareholding registration, open a specified bank account for the holding of overseas shares by domestic investors at a domestic bank with relevant qualifications and open a fund account for

SHARE CAPITAL

the H Share “Full circulation” at the Domestic Securities Company. The Domestic Securities Company shall open a securities trading account for the H Share “Full circulation” at the Hong Kong Securities Company; and

- (v) The Full Circulation Participating Shareholders shall submit trading orders of the converted H Shares through the Domestic Securities Company. Trading orders of the Full Circulation Participating Shareholders for the relevant Shares will be submitted to the Stock Exchange through the securities trading account opened by the Domestic Securities Company at the Hong Kong Securities Company. Upon completion of the transaction, settlements between each of the Hong Kong Securities Company and CSDC (Hong Kong), CSDC (Hong Kong) and CSDC, CSDC and the Domestic Securities Company, and the Domestic Securities Company and the Full Circulation Participating Shareholders, will all be conducted separately.

As a result of the conversion, the shareholding of the relevant Full Circulation Participating Shareholders in our Domestic Unlisted Shares shall be reduced by the number of the Domestic Unlisted Shares converted and the number of H Shares shall be increased by the number of converted H Shares.

RESTRICTION ON TRANSFER OF SHARES ISSUED PRIOR TO THE GLOBAL OFFERING

In accordance with Article 141 of the PRC Company Law, the shares issued prior to any public offering of shares by a company cannot be transferred within one year from the date on which such publicly offered shares are listed and traded on the relevant stock exchange. As such, the Shares issued by the Company prior to the Global Offering will be subject to such statutory restriction on transfer within a period of one year from the Listing Date. See “History, Development and Corporate Structure – Principal terms of the Pre-IPO Investments and Pre-IPO Investors’ Rights”.

REGISTRATION OF SHARES NOT LISTED ON AN OVERSEAS STOCK EXCHANGE

According to the Notice of Centralized Registration and Deposit of Non-overseas Listed Shares of Companies Listed on an Overseas Stock Exchange (《關於境外上市公司非境外上市股份集中登記存管有關事宜的通知》) issued by the CSRC, an overseas listed company is required to register its shares that are not listed on the overseas stock exchange with CSDC within 15 business days upon listing and provide a written report to the CSRC regarding the centralized registration and deposit of its unlisted shares as well as the current offering and listing of shares.

SHARE CAPITAL

CIRCUMSTANCES UNDER WHICH GENERAL MEETINGS ARE REQUIRED

Pursuant to the PRC Company Law and the terms of the Articles of Association, our Company may from time to time by special resolution of shareholders, among others, increase its capital or decrease its capital or repurchase of shares. See “Appendix V – Summary of the Articles of Association” in this prospectus.

SHAREHOLDERS’ APPROVAL FOR THE GLOBAL OFFERING

Approval from holders of the Shares is required for the Company to issue H Shares and seek the listing of H Shares on the Hong Kong Stock Exchange. The Company has obtained such approval at the Shareholders’ general meeting held on March 30, 2023.

CORNERSTONE INVESTOR

THE CORNERSTONE PLACING

We, the Joint Sponsors and the Overall Coordinators have entered into a cornerstone investment agreement (the “**Cornerstone Investment Agreement**”) with the cornerstone investor set out below (the “**Cornerstone Investor**”), pursuant to which the Cornerstone Investor has agreed to, subject to certain conditions, subscribe at the Offer Price for such number of Offer Shares (rounded down to the nearest whole board lot of 300 Shares) that may be purchased for an amount of RMB96,410,000 (equivalent of HK\$104,953,190 calculated based on the conversion rate of HK\$1.00 to RMB0.9186) (the “**Cornerstone Placing**”). The amount of the investment contributed by the Cornerstone Investor include brokerage, SFC transaction levy, AFRC transaction levy and Hong Kong Stock Exchange trading fee which the Cornerstone Investor will pay in respect of the International Offer Shares to be subscribed by them.

Assuming an Offer Price of HK\$13.0 per Offer Share, being the low-end of the indicative Offer Price range set out in this prospectus, the total number of H Shares to be subscribed by the Cornerstone Investor would be 7,992,600 H Shares, representing approximately 14.97% of the Offer Shares pursuant to the Global Offering and approximately 0.75% of our total issued share capital immediately upon completion of the Global Offering (assuming the Share Split is completed).

Assuming an Offer Price of HK\$14.4 per Offer Share, being the mid-point of the indicative Offer Price range set out in this prospectus, the total number of Offer Shares to be subscribed by the Cornerstone Investor would be 7,215,600 H Shares, representing approximately 13.51% of the Offer Shares pursuant to the Global Offering and approximately 0.68% of our total issued share capital immediately upon completion of the Global Offering (assuming the Share Split is completed).

Assuming an Offer Price of HK\$15.8 per Offer Share, being the high-end of the indicative Offer Price range set out in this prospectus, the number of Offer Shares to be subscribed by the Cornerstone Investor would be 6,576,000 H Shares, representing approximately 12.31% of the Offer Shares pursuant to the Global Offering and approximately 0.62% of our total issued share capital immediately upon completion of the Global Offering (assuming the Share Split is completed).

Our Company is of the view that the Cornerstone Placing will help raise the profile of our Company and to signify that such investor has confidence in our business and prospect. Our Company became acquainted with the Cornerstone Investor in its ordinary course of operation through the Group’s business network.

The Cornerstone Placing will form part of the International Offering, and the Cornerstone Investor will not acquire any Offer Shares under the Global Offering other than pursuant to the Cornerstone Investment Agreement. The Offer Shares to be subscribed by the Cornerstone Investor will rank *pari passu* in all respects with the fully paid Shares in issue and will be counted towards the public float for the purpose of Rule 8.08 of the Listing Rules. Immediately following the completion of the Global Offering, the Cornerstone Investor will not have any

CORNERSTONE INVESTOR

Board representation in our Company; and the Cornerstone Investor will not become a Substantial Shareholder of our Company. The Cornerstone Investor does not have any preferential rights in the Cornerstone Investment Agreement compared with other public Shareholders, other than a guaranteed allocation of the relevant Offer Shares at the Offer Price.

As confirmed by the Cornerstone Investor, there is no side agreement or arrangement between the Company, any member of the Group, or any of their respective affiliates, directors, supervisors, officers, employees, agents or representatives in the Global Offering and the Cornerstone Investor, any of its affiliates, directors, supervisors, officers, employees, agents or representatives, or any benefit, direct or indirect, conferred on the Cornerstone Investor, any of its affiliates, directors, supervisors, officers, employees, agents or representatives by virtue of or in relation to the Cornerstone Placing other than a guaranteed allocation of the relevant Offer Shares at the Offer Price.

The Cornerstone Investor has agreed to pay for the relevant Offer Shares that it has subscribed before dealings in the Company's Shares commence on the Stock Exchange. There will be no delayed delivery or delayed settlement of the Offer Shares to be subscribed by the Cornerstone Investor. To the best of the knowledge, information and belief of our Company, (i) the Cornerstone Investor and the QDII (as defined below) are independent of the Company, its connected persons and their respective associates; (ii) the Cornerstone Investor is not accustomed to take and has not taken instructions from our Company, our subsidiaries, the Directors, Supervisors, chief executive of our Company, Controlling Shareholders Group, substantial Shareholders or existing Shareholders or any of their respective close associates in relation to the acquisition, disposal, voting or other disposition of the Offer Shares; and (iii) the subscription of the Offer Shares by the Cornerstone Investor is not financed by our Company, our subsidiaries, the Directors, Supervisors, chief executive of our Company, Controlling Shareholders Group, substantial Shareholders or existing Shareholders or any of their respective close associates.

The number of Offer Shares to be subscribed by the Cornerstone Investor pursuant to the Cornerstone Placing may be affected by reallocation of the Offer Shares between the International Offering and the Hong Kong Public Offering in the event of over-subscription under the Hong Kong Public Offering as described in the section headed "Structure of the Global Offering – The Hong Kong Public Offering – Reallocation." Details of the actual number of Offer Shares to be allocated to the Cornerstone Investor will be disclosed in the allotment results announcement of our Company to be published on or around Wednesday, October 11, 2023.

To the best knowledge of our Company, the Cornerstone Investor makes independent investment decisions, and its subscription under the Cornerstone Investment Agreement would be financed by its own internal resources. The Cornerstone Investor has confirmed that all necessary approvals have been obtained with respect to the Cornerstone Placing, and that no specific approval from any stock exchange (if relevant) or its shareholders is required for the relevant cornerstone investment. None of the Cornerstone Investor or its shareholders are listed on any stock exchange.

For the purpose of this section, unless the context otherwise requires, references to 2020, 2021 and 2022 refer to our financial years ended December 31 of such years. Unless the context otherwise requires, financial information described in this section is described on a consolidated basis.

OVERVIEW

We are one of the leading and rapidly growing pantry staple food companies in China, enjoying a robust multichannel brand presence. Since our inception, we have been dedicated to providing our consumers with pre-packaged premium rice, whole grain, bean, and dried food products. We have achieved a strong sales growth during the Track Record Period and established a range of household brands for Chinese families.

We have achieved a healthy growth trajectory during the Track Record Period. Our total revenue increased from RMB2,327.0 million in 2020 to RMB3,598.3 million in 2021, and further to RMB4,532.9 million in 2022. Our total revenue increased from RMB910.2 million in the three months ended March 31, 2022 to RMB1,081.5 million in the three months ended March 31, 2023. Our gross profit increased from RMB404.7 million in 2020 to RMB537.5 million in 2021, and further to RMB779.5 million in 2022. Our gross profit increased from RMB154.5 million in the three months ended March 31, 2022 to RMB175.7 million in the three months ended March 31, 2023. Our adjusted net profit (*non-IFRS measure*) increased from RMB221.3 million in 2020 to RMB259.2 million in 2021, and further to RMB364.0 million in 2022. Our adjusted net profit (*non-IFRS measure*) increased from RMB62.9 million in the three months ended March 31, 2022 to RMB77.9 million in the three months ended March 31, 2023.

FINANCIAL INFORMATION

BASIS OF PREPARATION

The Historical Financial Information (as defined in Appendix I to this prospectus) has been prepared in accordance with all applicable IFRSs issued by the International Accounting Standards Board (“IASB”). We have consistently applied all applicable IFRSs throughout the Track Record Period, except for the new standards or interpretations that are not yet effective for the accounting period beginning on January 1, 2023. The Historical Financial Information also complies with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange. For more details of basis of preparation, see Note 1 of Appendix I to this prospectus.

MAJOR FACTORS AFFECTING OUR RESULTS OF OPERATIONS

Our results of operations have been, and are expected to continue to be, materially affected by a number of factors, including the following:

General Factors

Our business and operating results are impacted by general factors affecting China’s pantry staple food industry, which include:

- China’s overall economic growth and per capita disposable income;
- evolving consumption patterns and growth of consumer spending in China;
- growth and competition environment of the China’s pantry staple food industry; and
- relevant laws and regulations, governmental policies and initiatives affecting the pantry staple food industry.

Specific Factors

Our results of operations are also affected by a number of key factors specific to us, which include:

Brand Recognition and Consumer Base

Brand awareness and consumer recognition are critical to our long-term success. Capitalizing on the historical opportunity presented by the evolving industry landscape, we have committed unwavering dedication to cultivating a portfolio of household names, underpinned by our flagship brands Shiyue Daotian and Firewood Courtyard. Our brands feature differentiated brand positioning and category focus, thoughtfully designed to cater to the diverse demands of different consumer groups. With the surge in demand for branded products in China’s rice, whole grain, bean and seed market, we have amassed a substantial consumer base for our multiple brands, notably exemplified by our success in Shiyue Daotian

FINANCIAL INFORMATION

and Firewood Courtyard and a proven track record, according to Frost & Sullivan. See “Business – Our Brands and Products.” We believe that our strong brand names are critical to our consumer acquisition and retention, and our ability to continuously enhance recognition of our brands may impact our consumer base, our selling price, our market share and our results of operations.

Product Offerings

With our superior brand equity, consumer insights and industry expertise, we have introduced comprehensive and complementary product offerings comprising an extensive range of product categories. We are also capable of developing new products that cater to the evolving needs of consumers and characteristics of sales channels. Our present product offerings mainly covers rice products, whole grain, bean and other products and dried food and other products. See “Business – Our Brand and Products.” Varying in retail prices, raw materials, package formats and sales channels, our different products have different positioning, thus different gross profit margins, and our revenue and profitability are largely affected by our product offerings.

The following table sets out a breakdown of our gross profit and gross profit margin by product category for the periods indicated:

	Year ended December 31,						Three months ended March 31,			
	2020		2021		2022		2022		2023

Our focus on pre-packaged and premium products are critical to our revenue growth. According to Frost & Sullivan, the pantry staple industry has grown and is expected to continuously grow alongside the trend of increasing consumer needs for premium, healthy and fresh products, tracking the increasing trend of per capita disposable income in recent years and demonstrating the prevailing trend of premiumization in the industry. We have been dedicated to expanding our compelling product offerings catering to the growing consumer

FINANCIAL INFORMATION

needs for premium, healthy and fresh products. We have adopted a vertically integrated operation model encompassing the entire industry chain, from procurement, storage, production and sale to logistics, and such model enables us to offer consumers fresh products that retain natural taste and aroma. Our strategic focus on pre-packaged and premium products contributed to our historical financial performance. In 2022, we had eight SKUs with annual revenue over RMB100 million, and two out of such eight SKUs were launched after 2021.

Sales Network

Our sales network is highly diversified and spans a multitude of online and offline channels, enabling us to achieve broad consumer coverage and penetrate the market effectively. We sell our products primarily through online channels, including e-commerce platforms and online self-operated stores. We were the largest company in China's rice, whole grain, bean and seed market in terms of revenue generated from sales through online channels in 2022, according to Frost & Sullivan. During the Track Record Period, our revenue generated from online channels was RMB1,849.5 million, RMB2,716.6 million, RMB3,144.2 million and RMB777.5 million in 2020, 2021, 2022 and the three months ended March 31, 2023, respectively, representing 79.4%, 75.5%, 69.3% and 71.9% of our total revenue in the respective periods. We not only maintain strong partnerships with, and have established leading positions on, prominent comprehensive e-commerce platforms, but also proactively explore new cooperation opportunities in emerging channels such as social e-commerce platforms and community group buying platforms. In 2022, we ranked first by revenue on both social e-commerce platforms and community group buying platforms in China's rice, whole grain, bean and seed market, according to Frost & Sullivan. Our focus on online sales allowed us to reach a wider consumer base and increase sales, especially during the COVID-19 pandemic. According to Frost & Sullivan, online channels enjoyed a much higher growth rate compared to offline channels in the rice industry. The market size of rice industry generated from online channel grew at a CAGR of 28.8% from 2018 to 2022, compared to the CAGR of 1.1% of the overall rice industry, in terms of revenue according to Frost & Sullivan. As such, our leading position in online channels is crucial to our financial performance.

With online and offline integrated operation capabilities, we also have established ourselves as a leading player in the grocery retail channels, achieving rapid growth and success in this area. In 2022, we became the fourth-largest company by revenue in the grocery retail channels for China's rice, whole grain, bean and seed industry, according to Frost & Sullivan. From 2018 to 2022, the market size of grocery retail channel for the rice, whole grain, bean and seed industry has grown at a CAGR of approximately 17.5%, while the market size of traditional channel declined slightly, representing a negative CAGR of 0.6%, and the overall market size has grown at the CAGR of 1.6% during the same period, in terms of revenue, according to Frost & Sullivan. Therefore, our competitive strengths in grocery retail channel operation is crucial to our financial performance.

FINANCIAL INFORMATION

Our multichannel sales network keeps us updated on consumers' product experiences and evolving preferences, that would inform our future products development and sales strategies upgrade. See "Business – Our Sales Network." We believe that our ability to grow our business will depend on whether we can continue to expand our sales network to connect with more customers and to provide them easy access to our products.

Marketing efforts

The effectiveness of our sales and marketing activities is critical to our financial performance. We continuously solidify our brand awareness, and strengthen our close connection with consumers through different marketing activities. Our representative marketing events mainly include Shiyue Daotian Brand Day, quality content marketing, media collaboration, live streaming, immersive offline experience and celebrity endorsement and collaboration with KOLs and KOCs. We also utilize cross-channel marketing efforts to solidify our strong presence across multichannel sales network. Thus, we are able to continuously conduct tailored, interactive and entertaining activities to adapt to different sales channels and consumer profiles. See "Business – Branding and Marketing." Our selling and distribution expenses were RMB126.1 million, RMB223.4 million, RMB314.8 million and RMB72.2 million in 2020, 2021, 2022 and the three months ended March 31, 2023, respectively, accounting for 5.4%, 6.2%, 7.0% and 6.7% of our total revenue for the respective periods. As we continue to expand our business, we aim to continuously launch customized, innovative and entertaining marketing activities in adaption to the characteristics of different sales channels and consumer profiles to enhance consumer coverage and interaction. Our capability to cost-effectively carry out marketing activities is crucial for our operation efficiency and financial performance.

Procurement Management

Effective procurement management is key to our financial performance. We had raw materials costs of RMB1,590.1 million, RMB2,453.0 million, RMB2,973.1 million and RMB712.5 million in 2020, 2021, 2022 and the three months ended March 31, 2023, respectively, accounting for 82.7%, 80.1%, 79.2% and 78.7% of our total cost of sales. We plan and manage procurement at a group level, and make procurement decisions based on consumer demand predictions made and past sales performance. Our procurement teams at each production base purchase raw materials leveraging their deep knowledge of local resources, the process of which is monitored by our Group. The prices of our raw materials may fluctuate with the market conditions. We collaborate with multiple suppliers from renowned places of origin for grains to reduce the risks of raw material shortage risks. See "Business – Raw Materials, Packaging Materials and Major Suppliers." Our capability to cost-effectively procure raw materials is crucial for our overall cost management and sustainable growth.

FINANCIAL INFORMATION

Seasonality

Our results of operations are subject to seasonality, primarily due to the harvest season of our raw materials and sales peak resulted from holidays and shopping events. For example, the harvest season of raw grains that we generally procure, especially Northeast Rice, is from September to year end, and we generally purchase raw grains from September to year end. Therefore, we generally have relatively high volume of inventories, especially raw materials by the end of each year. In addition, we typically experience sales peak in holiday season such as Chinese New Year and sales events such as Double Eleven, which are generally by the year end or the beginning of a year. In preparation of such holiday season and shopping events, we generally have relatively high volume of inventories, especially finished products, by the end of each year. Accordingly, our results of operations fluctuate over the year, and our interim results may not be indicative of our annual results.

Impact of COVID-19

Since late December 2019, the outbreak of a novel strain of coronavirus named COVID-19 has materially and adversely affected the global economy. Since early 2020, China, where we operate, has been affected by the COVID-19 outbreak and, in response, restrictive measures have been implemented to contain the spread of the virus. Since the beginning of 2022, the Omicron variant of COVID-19 has resurged in various provinces and cities of China, and prevention measures were implemented to curb the momentum of the outbreak. In the fourth quarter of 2022, while our self-operated production were temporarily affected by reduced number of employees due to closed-loop management as a result of such prevention measures, resulting in lower utilization rate compared to that of 2021, our overall production activities had not been materially and adversely affected by the COVID-19 outbreak. In addition, as we store our products in third-party warehouses across the nation and we generated the majority of our revenue through online channels during the Track Record Period, neither our logistic services nor our sales activities had suffered from material disruptions. Although the implementation of prevention measures did lead to an increase in our transportation expenses, we did not experience significant cost increases and our financial performance had not been materially and adversely affected during the Track Record Period. As a result, the COVID-19 outbreak does not have material adverse impact on our operations and financial conditions during the Track Record Period. Most of the restrictive measures had been lifted since December 2022.

We had benefited from the PRC government's relief policies in response to the COVID-19 pandemic, primarily the reduction in the amount of social insurance contributions in 2020. To help fight the COVID-19 pandemic, we donated over 60 tons of rice products to Wuhan City in 2020.

FINANCIAL INFORMATION

Our operations and financial performance in the future may be affected by other variants of COVID-19 or other pandemics, which are highly uncertain and unpredictable. For more details, see “Risk Factors – Risks Relating to Our Business and Industry – Our supply chain and business may be materially and adversely affected by contamination, natural disasters, extreme weather, health epidemics, pandemics and other catastrophic events that are beyond our control.”

MATERIAL ACCOUNTING POLICY INFORMATION AND ESTIMATES

We have identified certain accounting policies that are material to the preparation of our consolidated financial statements. Some of our accounting policies require us to apply estimates and assumptions as well as complex judgments related to accounting items. The estimates and assumptions we use and the judgments we make in applying our accounting policies have a material impact on our financial position and operational results. Our management continually evaluates such estimates, assumptions and judgments based on past experience and other factors, including industry practices and expectations of future events that are deemed to be reasonable under the circumstances. There has not been any material deviation from our management’s estimates or assumptions and actual results, and we have not made any material changes to these estimates or assumptions during the Track Record Period. We do not expect any material changes in these estimates and assumptions in the foreseeable future.

We set forth below those accounting policies that we believe are of critical importance to us or involve the most significant estimates, assumptions and judgments used in the preparation of our consolidated financial statements. Our material accounting policies, estimates, assumptions and judgments, which are important for understanding our financial condition and results of operations, are set forth in detail in Notes 2 and 3 of Appendix I to this prospectus.

Revenue Recognition

Income is classified as revenue when it arises from the sale of goods or the provision of services in the ordinary course of our business. Revenue is recognized when control over a product or service is transferred to the customer at the amount of promised consideration to which we are expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value-added tax or other sales taxes and is after deduction of any trade discounts.

In relation to sales of goods, revenue is recognized when the customer takes possession of and accepts the products. Specifically, for the non-consignment sales arrangement with e-commerce platforms, we deliver goods to the e-commerce platform customers or consumers and recognize revenue when the goods are received and the settlement statement is confirmed by both parties. For consignment arrangements with the e-commerce platforms, we deliver the goods to the warehouses of e-commerce platforms and the platforms sell the goods to the end consumers. We recognize revenue when the sales information from the platforms are confirmed

FINANCIAL INFORMATION

by both parties. If the products are a partial fulfilment of a contract covering other goods, then the amount of revenue recognized is an appropriate proportion of the total transaction price under the contract, allocated between all the goods promised under the contract on a relative stand-alone selling price basis.

We also provided raw grain purchasing agency services and warehousing services to our customers during the Track Record Period. In 2020 and the three months ended March 31, 2023, we did not generate any service income. In 2021 and 2022, our service income accounted for 0.02% and 0.00% of our revenue during the respective periods. Service income is recognized when the services are rendered. When we act in the capacity of an agent rather than as the principal in a transaction, the revenue is recognized when the related agent services are rendered at the net amount of commission received or to be received by us.

See Note 2(t) of Appendix I to this prospectus.

Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

The cost of self-constructed items of property, plant and equipment includes the cost of materials, direct labor, the initial estimate, where relevant, of the costs of dismantling and removing the items and restoring the site on which they are located, and an appropriate proportion of production overheads and borrowing costs.

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognized in profit or loss on the date of retirement or disposal.

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight-line method over their estimated useful lives as follows:

<u>Category</u>	<u>Estimated Useful Life</u>
Plant and buildings	10 – 20 years
Machinery and equipment	3 – 10 years

Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

FINANCIAL INFORMATION

Construction in progress is stated at cost less impairment losses. Cost comprises direct costs of construction as well as interest expense capitalized during the periods of construction and installation. Capitalization of these costs ceases and the construction in progress is transferred to property, plant and equipment when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided for in respect of construction in progress until it is completed and ready for its intended use.

See Note 2(g) of Appendix I to this prospectus.

Inventories

Inventories are assets which are held for sale in the ordinary course of business, in the process of production for such sale or in the form of materials or supplies to be consumed in the production process.

Inventories are carried at the lower of cost and net realizable value. Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognized as an expense in the period in which the related revenue is recognized. The amount of any write-down of inventories to net realizable value and all losses of inventories are recognized as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognized as a reduction in the amount of inventories recognized as an expense in the period in which the reversal occurs.

A right to recover returned goods is recognized for the right to recover products from customers sold with a right of return.

See Note 2(j)(i) of Appendix I to this prospectus.

Share-based Payments

Our share-based payment arrangement includes share awards and transfers of paid-in capital among the equity shareholders as set out in Note 26 of Appendix I to this prospectus.

Share awards

The fair value of the share awards granted to the employees is measured at the grant date, which represents the difference between the subscription price paid by the employees and the fair value of the paid-in capital of our shareholder at grant date. Where the share awards are settled by our shareholders, the share-based payment transaction is equity-settled from the perspective of our Group. Where there are no vesting conditions that the employees are required to meet, the fair value of the share awards is recognized as share-based payment expenses at the grant date, with a corresponding increase in a capital reserve within equity.

FINANCIAL INFORMATION

Transfers of paid-in capital among the equity shareholders

Where the employees transfer our paid-in capital without preferential rights to the new investors as paid-in capital with preferential rights as arranged by us in the capital raising transactions, and the considerations received by the employees with reference to fair value of paid-in capital with preferential rights, which exceeds the fair value of the equity instruments transferred, our Group recognized such excess as share-based payment expenses.

Share-based payment expenses for employees of our Group's subsidiaries are recognized as contributions to subsidiaries under interests in subsidiaries in our statement of financial position.

See Note 2(p)(iii) of Appendix I to this prospectus.

Other Investments in Debt and Equity Securities

We had investments in debt and equity securities, other than investments in subsidiaries, associates and joint ventures. Investments in debt and equity securities are recognized or derecognized on the date we commit to purchase or sell the investment. The investments are initially stated at fair value plus directly attributable transaction costs, except for those investments measured at fair value through profit or loss for which transaction costs are recognized directly in profit or loss.

Classification

The investments are subsequently accounted for as follows, depending on their classification:

Investments Other Than Equity Investments

Non-equity investments held by us are classified into one of the following measurement categories:

- Amortized cost, if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest. Interest income from the investment is calculated using the effective interest method.
- Fair value through other comprehensive income (recycling), if the contractual cash flows of the investment comprise solely payments of principal and interest and the investment is held within a business model whose objective is achieved by both the collection of contractual cash flows and sale. Changes in fair value are recognized in other comprehensive income, except for the recognition in profit or loss of expected credit losses, interest income (calculated using the effective interest method) and foreign exchange gains and losses. When the investment is derecognized, the amount accumulated in other comprehensive income is recycled from equity to profit or loss.

FINANCIAL INFORMATION

- Fair value through profit or loss, if the investment does not meet the criteria for being measured at amortized cost or fair value through other comprehensive income (recycling). Changes in the fair value of the investment (including interest) are recognized in profit or loss.

Equity Investments

An investment in equity securities is classified as fair value through profit or loss unless the equity investment is not held for trading purposes and on initial recognition of the investment we make an election to designate the investment at fair value through other comprehensive income (non-recycling) such that subsequent changes in fair value are recognized in other comprehensive income. Such elections are made on an instrument-by-instrument basis, but may only be made if the investment meets the definition of equity from the issuer's perspective. Where such an election is made, the amount accumulated in other comprehensive income remains in the fair value reserve until the investment is disposed of. At the time of disposal, the amount accumulated in the fair value reserve is transferred to retained earnings. It is not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at fair value through profit or loss or fair value through other comprehensive income, are recognized in profit or loss as other income in accordance with the policy set out in Note 2(t)(v) of Appendix I to this prospectus.

Fair Value Measurement

Assets and liabilities measured at fair value

We measure fair value of financial instruments using the following three-level fair value hierarchy as defined in IFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs, for example, unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs, for example, observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

There were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. Our policy is to recognize transfers between levels of fair value hierarchy as of the end of the reporting period in which they occur.

FINANCIAL INFORMATION

In respect of the valuation of level 3 fair value measurement financial liabilities, with reference to the guidance under the “Guidance Note on Director’s Duties in the Context of Valuations in Corporate Transactions” issued by the SFC in May 2017 applicable to directors of companies listed on the Stock Exchange, our Directors adopted the following procedures: (i) selected qualified persons with adequate knowledge and conducted valuation on the financial liabilities without readily determinable fair value; (ii) carefully considered available information in assessing the financial data and assumptions including but not limited to risk-free interest rate, volatility, political and industry conditions; (iii) engaged independent valuer to appraise the fair value of certain financial liabilities that are significant, provided necessary financial to the valuer to assess our performed valuation procedures and discussed with the valuer on relevant assumptions; and (iv) reviewed the valuation reports prepared by the valuer. Based on the above procedures, our Directors are of the view that the valuation analysis is fair and reasonable and our consolidated financial statements are properly prepared.

The reporting accountants have conducted their work in accordance with Hong Kong Standard on Investment Circular Reporting Engagements 200 “Accountants’ Reports on Historical Financial Information in Investment Circulars” issued by the Hong Kong Institute of Certified Public Accountants to express an opinion on Historical Financial Information. This standard requires that the reporting accountants plan and perform their work to obtain reasonable assurance about whether the Historical Financial Information as a whole is free from any material misstatement.

Details of the valuation measurement of the financial liabilities measured within level 3 fair value measurement, particularly the valuation techniques and key inputs, including significant unobservable inputs, and the relationship of unobservable inputs to valuation are disclosed in Note 28(e)(i) of Appendix I to this prospectus. The reporting accountants’ opinion on the Historical Financial Information for the Track Record Period as a whole is set out in the Appendix I to this prospectus.

In relation to the valuation of our level 3 financial liabilities, the Joint Sponsors have conducted, among others, the following due diligence work: (i) reviewed relevant notes in the Accountants’ Reports as contained in Appendix I to this prospectus; (ii) discussed with our management to understand (a) the internal policies and procedures regarding valuation assessment of level 3 financial liabilities; (b) the procedures performed by us for such valuation; and (c) the key basis, methodologies and assumptions adopted by us for such valuation assessments; (iii) reviewed the valuation report regarding level 3 financial liabilities prepared by external independent valuation expert; and (iv) discussed with the reporting accountants about the work they have performed in relation to the Historical Financial Information. Based on the due diligence work conducted by the Joint Sponsors as described above, and having considered (i) the work performed by our management with respect to valuation of level 3 financial liabilities and the above view of our Directors; (ii) the work performed by the reporting accountants with respect to the Historical Financial Information; and (iii) the unqualified opinion provided by the reporting accountants on our Historical Financial Information as a whole as set out in Appendix I to this prospectus, nothing has come to the Joint Sponsors’ attention that would cause them to disagree in any material respects with the valuation of level 3 financial liabilities as set out in Appendix I to this prospectus.

FINANCIAL INFORMATION

Fair value of financial assets and liabilities carried at other than fair value

The carrying amount of our financial instruments carried at cost or amortized cost were not materially different from their fair values as of December 31, 2020, 2021, 2022 and March 31, 2023.

See Note 2(e) and Note 28(e) of Appendix I to this prospectus.

Income Tax

Income tax for the period comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognized in profit or loss except to the extent that they relate to items recognized in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognized in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted or substantially enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous periods.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amount of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits. The amount of deferred tax recognized is measured based on the expected manner of realization or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if we have the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, we intend either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either the same taxable entity, or different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

See Note 2(r) of Appendix I to this prospectus.

Non-IFRS Measure

To supplement our consolidated financial statements, which are presented in accordance with IFRSs, we also use adjusted net profit (*non-IFRS measure*) as additional financial measures, which is not required by, or presented in accordance with IFRSs. We believe that the non-IFRS measure provides useful information to investors and others in understanding and evaluating our consolidated results of operations in the same manner as they help our management. However, our presentation of adjusted net profit (*non-IFRS measure*) may not be comparable to similarly titled measures presented by other companies. The use of such non-IFRS measures has limitations as an analytical tool, and you should not consider it in isolation from, or as a substitute for an analysis of, our results of operations or financial condition as reported under IFRSs.

We define adjusted net profit (*non-IFRS measure*) as net profit for the periods adjusted by adding back share-based payments, changes in the carrying amount of financial instruments issued to investors and listing expenses. The following table reconciles our adjusted net profit (*non-IFRS measure*) for the periods presented to the most directly comparable financial measures calculated and presented in accordance with IFRSs, which is net profit or loss for the periods:

FINANCIAL INFORMATION

Notes:

- (1) Changes in the carrying amount of financial instruments issued to investors were primarily related to financial instruments granted to certain investors of our Series A, Series B and Series C financing. See “– Indebtedness – Financial Instruments Issued to Investors.”
- (2) Share-based payments are non-cash in nature and are not expected to result in future cash payments made by us, representing (i) share-based payments in relation to share awards of RMB691.0 million in 2022, which represented the difference between the fair value and price of the paid-in capital of Shiyue Zhongxin granted to Mr. Wang and Ms. Zhao as a consideration for their services rendered, see Note 26(a) of Appendix I to this prospectus; and (ii) share-based payments of RMB187.3 million in 2021 and RMB48.6 million in 2022 in relation to transfers of paid-in capital from our certain senior management to new investors of Series B financing in 2021 and Series C financing in 2022, representing a consideration higher than the fair value of the transferred paid-in capital at the dates of share transfers, see Note 22(a) and Note 26(b) of Appendix I to this prospectus. See “– Description of Major Components of Our Results of Operations – Administrative Expenses.”
- (3) Listing expenses are expenses related to the Global Offering.

Revenue

Our total revenue increased by 54.6% from RMB2,327.0 million in 2020 to RMB3,598.3 million in 2021, and by 26.0% from RMB3,598.3 million in 2021 to RMB4,532.9 million in 2022. Our total revenue increased by 18.8% from RMB910.2 million in the three months ended March 31, 2022 to RMB1,081.5 million in the three months ended March 31, 2023, respectively. The high growth rate of our revenue at a CAGR of 39.6% from 2020 to 2022 outperformed the overall growth rate of the market size of China’s pantry staple food industry in terms of revenue with a CAGR of 3.1% from 2018 to 2022 according to Frost & Sullivan, see “Industry Overview – Overview of China’s Pantry Staple Food Industry.” Our outstanding revenue performance during the Track Record Period was primarily contributed by (i) our strategic focus on pre-packaged and premium products that generally features higher growth rate and growth potential than other products in the overall pantry staple food industry, according to Frost & Sullivan; (ii) our leading position in both online and grocery retail channels, while the market size of online and grocery retail channels features significantly higher growth rate and growth potential than traditional channel, according to Frost & Sullivan; (iii) our strong capability in expanding our sales channel network; (iv) the increasing customer demand for our products, attributed to our influential brand image and compelling product offerings; and (v) our improving sales and marketing efficiency along with our deepen penetration in different sales channels. See “– Major Factors Affecting our Operations – Specific Factors.”

Revenue by Product Category

During the Track Record Period, we generated revenue from the sales of (i) rice products, primarily including pre-packaged rice products of different varieties, such as Daoxiang rice, long grain rice and Komachi rice, see “Business – Our Brands and Products – Rice Products;” (ii) whole grain, bean and other products, primarily including pre-packaged mixed brown rice, millet and red bean, and other products under this category refer to seed and corn product, see “Business – Our Brands and Products – Whole Grain, Bean and Other Products;” and (iii) dried food and other products, primarily including pre-packaged wood ear mushrooms, snow fungus mushroom and lotus seeds, and other products under this category mainly include by-products,

FINANCIAL INFORMATION

such as bran, husk and fractioned rice, see “Business – Our Brands and Products – Dried Food And Other Products.” During the Track Record Period, a majority of our revenue was from sales of rice products and our revenue growth was primarily due to the increase from revenue generated from rice products. Our revenue from rice products was RMB1,871.4 million, RMB2,891.6 million and RMB3,621.7 million in 2020, 2021 and 2022, respectively. Our revenue from rice products was RMB735.4 million and RMB862.7 million in the three months ended March 31, 2022 and 2023, respectively.

The following table sets out a breakdown of our revenue by product category in absolute amounts and as percentages of our total revenue for the periods indicated:

	<i>average selling price⁽¹⁾(RMB/kg)</i>	1.4	1.6	1.9	1.7	2.3

Note:

- (1) The average selling price of a product by category for a period equals the revenue generated from sales of such product divided by the sales volume of the product for the same period.

The sales volume of our rice products, whole grain, bean and other products and dried food and other products all increased during the Track Record Period, primarily due to (i) increasing customer demand for our products, attributed to our enhanced brand recognition and our increasingly diverse product mix; and (ii) increasing number of sales channel partners that we cooperated with and our deepen penetration in different sales channels; and (iii) improved sales and marketing efficiency along with our deepen penetration in different sales channels. Particularly, the significant increase in the sales volume of dried food and other products was primarily due to the increase in the sales volume of by-products, mainly as a result of the increasing volume of by-products generated along with the increasing production of our rice products. Our average selling price of rice products and whole grain, bean and other products decreased from 2020 to 2021, and then remained relatively stable in 2022, primarily because we adopted relatively competitive pricing strategies for our products in 2021 to enhance market penetration, leveraging our upgraded product mix and improved production capacity. Our pricing strategies enabled us to solidify our market position and enhance our penetration in different sales channels with increasingly diversified retail models. Our average selling price of rice products and whole grain, bean and other products increased from the three months ended March 31, 2022 to the three months ended March 31, 2023, primarily due to the increasing price of raw materials. The average selling price of dried food and other products is relatively low, as it covers the by-products such as bran, husk and fractioned rice that are typically with low prices.

Revenue by Sales Channel

During the Track Record Period, we generated revenue from (i) sales through online channels, primarily including e-commerce platforms and online self-operated stores, see “Business – Our Sales Network – Online Channels;” (ii) sales through grocery retail channels, primarily including NKAs and LKAs, see “Business – Our Sales Network – Grocery Retail Channels;” (iii) sales to direct customers, primarily including catering companies, agricultural products companies, and other corporate and individual customers, see “Business – Our Sales

Our revenue growth during the Track Record Period was primarily due to the increase in the revenue generated from online channels, especially e-commerce platforms. Our revenue from online channels increased by 15.7% from RMB2,716.6 million in 2021 to RMB3,144.2 million in 2022, and increased by 11.5% from RMB697.3 million in the three months ended March 31, 2022 to RMB777.5 million in the three months ended March 31, 2023 primarily due to our increased sales volume on online channels, mainly as a result of increasing customer demand for our products on e-commerce platforms, in line with the then market trend. As of December 31, 2020, 2021 and 2022, we operated 38, 58 and 48 self-operated stores, respectively. We optimized our online store portfolio and reduced the number of our online self-operated stores from 58 as of December 31, 2021 to 48 as of December 31, 2022, taking into consideration their performance and our strategic operation adjustment. Our revenue generated from online self-operated stores decreased from RMB526.0 million in 2021 to RMB486.9 million in 2022, primarily due to (i) the adjustment of our product offerings on the e-commerce platforms; and (ii) the closure of our online self-operated stores.

Cost of Sales

Our cost of sales was RMB1,922.3 million, RMB3,060.7 million and RMB3,753.4 million in 2020, 2021 and 2022, respectively. Our cost of sales was RMB755.7 million and RMB905.8 million in the three months ended March 31, 2022 and 2023, respectively.

FINANCIAL INFORMATION

Cost of Sales by Nature

Our cost of sales primarily consists of (i) raw material costs, which mainly were costs for purchasing paddy, whole grain and bean, dried food and other raw materials; (ii) transportation expenses, primarily in relation to the transportation of finished products from our production bases to our warehouses, as well as from our warehouses to our customers; and (iii) packaging material costs, which mainly were costs for purchasing packaging bags and woven bags. Our gross profit in relation to our online channels was RMB319.9 million, RMB406.6 million and RMB556.7 million in 2020, 2021 and 2022, respectively. Our gross profit in relation to our online channels was RMB123.8 million and RMB134.9 million in the three months ended March 31, 2022 and 2023, respectively. Our gross profit in relation to our offline channels was RMB84.8 million, RMB131.0 million and RMB222.9 million in 2020, 2021 and 2022, respectively. Our gross profit in relation to our offline channels was RMB30.7 million and RMB40.9 million in the three months ended March 31, 2022 and 2023, respectively. Our gross profit margin in relation to online channels was 17.3%, 15.0% and 17.7% in 2020, 2021 and 2022, respectively. Our gross profit margin in relation to online channels was 17.8% and 17.3% in the three months ended March 31, 2022 and 2023, respectively. Our gross profit margin in relation to offline channels was 17.7%, 14.9% and 16.1% in 2020, 2021 and 2022, respectively. Our gross profit margin in relation to offline channels was 14.4% and 13.4% in the three months ended March 31, 2022 and 2023, respectively.

FINANCIAL INFORMATION

Our gross profit margin decreased from 17.4% in 2020 to 14.9% in 2021, primarily because (i) we adopted relatively competitive pricing strategies for our products in 2021 to enhance market penetration, leveraging our upgraded product mix and improved production capacity; and (ii) the increase in our transportation expenses as a percentage of our revenue, from 5.9% in 2020 to 7.5% in 2021, generally in line with our increasing and enhancing transportation needs due to our increasing sales volume and improving needs for delivery efficiency. Our pricing strategies enabled us to solidify our market position and enhance our penetration in different sales channels with increasingly diversified retail models. Our gross profit margin increased from 14.9% in 2021 to 17.2% in 2022, primarily because (i) we have efficiently and flexibly adjusted raw material procurement strategies, specifically, we strategically procured raw materials when the prices were relatively low in 2021, and such raw materials were used for our production in 2022, so that our raw material cost as a percentage of revenue decreased from 68.2% in 2021 to 65.6% in 2022; and (ii) we have strategically upgraded our product mix, specifically, certain products with relatively high profit margin such as Daoxiang Rice and mixed brown rice accounted for an increasing percentage of our sales. Our gross profit margin decreased from 17.0% in the three months ended March 31, 2022 to 16.2% in the three months ended March 31, 2023, primarily due to the increasing price of raw materials despite our increasing selling price, and our raw material cost as a percentage of revenue increased from 64.7% in the three months ended March 31, 2022 to 65.9% in the three months ended March 31, 2023.

Selling and Distribution Expenses

Our selling and distribution expenses were RMB126.1 million, RMB223.4 million and RMB314.8 million in 2020, 2021 and 2022, respectively. Our selling and distribution expenses were RMB64.3 million and RMB72.2 million in the three months ended March 31, 2022 and 2023, respectively. Our selling and distribution expenses primarily included (i) platform service fees, mainly representing fees charged by e-commerce platforms primarily for technical support and for our marketing and promotional activities on the platforms; and (ii) employee costs, which were primarily salaries, bonuses, pension costs, other social insurance costs and housing benefits relating to our sales and marketing staff.

The following table sets out a breakdown of the components of our selling and distribution expenses by nature and as percentages of our total revenue for the periods indicated:

Administrative Expenses

Our administrative expenses were RMB38.8 million, RMB272.5 million and RMB858.3 million in 2020, 2021 and 2022, respectively. Our administrative expenses were RMB20.2 million and RMB28.7 million in the three months ended March 31, 2022 and 2023, respectively. Our administrative expenses primarily included (i) labor costs, which were primarily salaries, bonuses, pension costs, other social insurance costs and housing benefits relating to our administrative staff; and (ii) share-based payments.

Transfers of paid-in capital among the equity shareholders	-	187,348	48,583	-	-
Total share-based payments	-	187,348	739,569	-	-

Our share-based payments included (i) share-based payments in relation to share awards of RMB691.0 million in 2022, which represented the difference of the fair value and price of the paid-in capital of Shiyue Zhongxin granted to Mr. Wang and Ms. Zhao as a consideration for their services rendered, see Note 26(a) of Appendix I to this prospectus; and (ii) share-based payments of RMB187.3 million in 2021 and RMB48.6 million in 2022 in relation to transfers of paid-in capital from our certain senior management to new investors of Series B financing in 2021 and Series C financing in 2022, representing a consideration higher than the fair value of the transferred paid-in capital at the dates of share transfers, see Note 22(a) and Note 26(b) of Appendix I to this prospectus.

FINANCIAL INFORMATION

The transfers of paid-in capital are viewed as being, in substance, two transactions: (i) the Company repurchased its paid-in capital (the “**Equity Instrument**”) from certain senior management using proceeds received from Series B and Series C financing, which is higher than the then fair value of the Equity Instrument held by the senior management; and (ii) the Company issued paid-in capital and preferential rights to the Series B and Series C investors. In the first transaction, in accordance with IFRS 2, when the Company repurchased vested equity instruments, the payment made to the senior management was accounted for as a deduction from equity, except to the extent that the payment exceeds the fair value of the Equity Instruments repurchased, measured at the repurchase date. Any such excess was recognized as an expense (see Note 26(b) of Appendix I to this prospectus). In the second transaction, the Company issued paid-in capital and granted Series B and Series C investors a right to put back the paid-in capital to the Company upon the occurrence of agreed redemption events (see Note 22(a) of Appendix I to this prospectus). Under such arrangements, the Company has an obligation to purchase its own equity instruments for cash, which gives rise to a financial liability and the financial liability is initially measured at the present value of the redemption amount according to IAS 32.

Other Net Income

Our other net income was RMB7.0 million, RMB49.3 million and RMB27.4 million in 2020, 2021 and 2022, respectively. Our other net income was RMB2.5 million and RMB3.7 million in the three months ended March 31, 2022 and 2023, respectively. Our other income was primarily (i) government grants, mainly representing the grants from local government authorities as a recognition of our brands, products and produce capacity that contribute to the development of the local pantry staple food industry, as well as grants from local governments motivating us to promote production efficiency and revenue growth; and (ii) investment income, primarily consisting of investment income on financial assets at fair value through profit or loss, representing the income generated from our wealth management products, see “– Discussion of Selected Items from the Consolidated Statements of Financial Position – Financial Assets at Fair Value through Profit or Loss.” A significant portion of government grants we received during the Track Record Period came from *China Good Grain and Oil* project, which was initiated by local governments to promote local agricultural industry value chain and to encourage industry players to enhance production efficiency. Since 2020, several projects of our subsidiaries Shenyang Xinchang and Wuchang Caiqiao have achieved production capacity improvement that met the standards of *China Good Grain and Oil* project, in recognition of which local governments provided grants to us.

Impairment Losses charged or reversed on Trade and Other Receivables

We had impairment losses charged on trade and other receivables of RMB0.4 million, RMB1.4 million and RMB9.7 million in 2020, 2021 and 2022, respectively. We had impairment losses charged on trade and other receivables of RMB7.8 million in the three months ended March 31, 2022 and impairment losses reversed on trade and other receivables of RMB0.7 million in the three months ended March 31, 2023. See “– Financial Risk Disclosure – Credit Risk.”

Finance Costs

Our finance costs were RMB20.3 million, RMB10.1 million and RMB3.9 million in 2020, 2021 and 2022, respectively. Our finance costs were RMB0.7 million and RMB3.9 million in the three months ended March 31, 2022 and 2023, respectively. Our finance costs mainly were interest expenses on bank and other loans, see “– Indebtedness – Bank and Other Loans.”

Changes in the Carrying Amount of Financial Instruments Issued to Investors

We had changes in the carrying amount of financial instruments issued to investors of RMB207.3 million, RMB244.7 million and RMB178.6 million in 2020, 2021 and 2022, respectively. We had changes in the carrying amount of financial instruments issued to investors of RMB43.2 million and RMB55.1 million in the three months ended March 31, 2022 and 2023, respectively. The changes in the carrying amount of financial instruments issued to investors were primarily related to financial instruments granted to certain investors of our Series A, Series B and Series C financing. The financial instruments are initially measured at the present value of the redemption amount and subsequently measured at amortized cost with interest expense being included in changes in the carrying amount of financial instruments issued to investors. See “– Indebtedness – Financial Instruments Issued to Investors” and Note 22 of Appendix I to this prospectus.

Income Tax

Our income tax was RMB4.9 million, RMB7.6 million and RMB5.9 million in 2020, 2021 and 2022, respectively. Our income tax was RMB1.0 million and RMB1.7 million in the three months ended March 31, 2022 and 2023, respectively. Our subsidiaries established in China were subject to Chinese corporate income tax rate of 25% during the Track Record Period. In accordance with the relevant tax regulations in China, assessable profit of our Group arising from preliminary processing of agricultural products is eligible for income tax exemption. Our income tax expense represented 2.2%, 2.8%, 1.6%, 1.6% and 2.2% of the loss before income tax (excluding the effect of non-deductible expenses, mainly refer to changes in the carrying amount of financial instruments issued to investors and share-based payments expenses exceeding the deductible amount) in 2020, 2021, 2022, the three months ended March 31, 2022 and 2023 respectively. Such rate increased from 2.2% in 2020 to 2.8% in 2021 mainly due to the increase in government grants and the investment income, and decreased to 1.6% in 2022

FINANCIAL INFORMATION

mainly due to (i) the increase in the portion of income attributable to our preliminary-processed agricultural products as these products are subject to income tax exemption; and (ii) the decrease in government grants received. Such rate increased from 1.6% in the three months ended March 31, 2022 to 2.2% in the three months ended March 31, 2023, primarily due to the decrease in the percentage of income attributable to our preliminary-processed agricultural products as these products are subject to income tax exemption.

During the Track Record Period and up to the Latest Practicable Date, we had made all the required tax filings with the relevant tax authorities in China and we were not aware of any outstanding or potential disputes with such tax authorities.

Profit/(loss) for the Period

We had net profit of RMB14.0 million in 2020. We had net loss of RMB172.9 million and RMB564.2 million in 2021 and 2022, respectively. We had net profit of RMB19.8 million and RMB18.6 million in the three months ended March 31, 2022 and 2023, respectively. Our adjusted net profit (*non-IFRS measure*) was RMB221.3 million, RMB259.2 million and RMB364.0 million in 2020, 2021 and 2022, respectively. Our adjusted net profit (*non-IFRS measure*) was RMB62.9 million and RMB77.9 million in the three months ended March 31, 2022 and 2023, respectively.

PERIOD-TO-PERIOD COMPARISON OF RESULTS OF OPERATIONS

Three Months Ended March 31, 2023 Compared with Three Months Ended March 31, 2022

Revenue

Revenue by Product Category

Our total revenue increased by 18.8% from RMB910.2 million in the three months ended March 31, 2022 to RMB1,081.5 million in the three months ended March 31, 2023, primarily due to the increase in the revenue generated from rice products.

Our revenue from rice products increased by 17.3% from RMB735.4 million in the three months ended March 31, 2022 to RMB862.7 million in the three months ended March 31, 2023. Our revenue from whole grain, bean and other products increased by 18.1% from RMB110.4 million in the three months ended March 31, 2022 to RMB130.5 million in the three months ended March 31, 2023. Our revenue from dried food and other products increased by 37.3% from RMB64.3 million in the three months ended March 31, 2022 to RMB88.4 million in the three months ended March 31, 2023. Such increases were all primarily due to the increasing sales volume of our products, mainly as a result of (i) the increasing customer demand for our products, attributed to our enhanced brand recognition, as well as new series of rice products and increasingly diversified whole grain and bean product mix; (ii) improved sales and marketing efficiency along with our deepen penetration in different sales channels; and (iii)

FINANCIAL INFORMATION

increasing number of sales channel partners that we cooperated with. In addition, we had increasing sales volume of by-products such as bran, husk and fractioned rice, mainly as a result of the increasing volume of by-products generated along with the increasing production of our rice products.

Revenue by Sales Channel

Our total revenue increased by 18.8% from RMB910.2 million in the three months ended March 31, 2022 to RMB1,081.5 million in the three months ended March 31, 2023, primarily due to the increase in the revenue generated from online channels.

Our revenue from online channels increased by 11.5% from RMB697.3 million in the three months ended March 31, 2022 to RMB777.5 million in the three months ended March 31, 2023, primarily due to our increased sales volume on online channels, mainly as a result of increasing customer demand for our products on e-commerce platforms. Our revenue from e-commerce platforms increased by 9.8% from RMB617.0 million in the three months ended March 31, 2022 to RMB677.3 million in the three months ended March 31, 2023.

Our revenue from grocery retail channels increased by 26.1% from RMB101.9 million in the three months ended March 31, 2022 to RMB128.4 million in the three months ended March 31, 2023, primarily due to (i) the increasing number of NKAs and LKAs that we cooperated with; and (ii) the improving sales performance in existing NKA and LKA channels along with our deepen cooperation with them. Such improving performance was primarily due to our enhanced focus on the grocery retail channels, taking into consideration our existing good performance and experience on other sales channels.

Our revenue from direct customers increased by 42.2% from RMB77.9 million in the three months ended March 31, 2022 to RMB110.7 million in the three months ended March 31, 2023, primarily due to (i) the improving sales performance in relation to direct customers along with our deepen cooperation with them; and (ii) increasing sales of by-products to agricultural products companies, mainly due to the increasing volume of by-products generated along with the increasing production of our rice products.

Our revenue from distribution network increased by 95.5% from RMB33.2 million in the three months ended March 31, 2022 to RMB64.9 million in the three months ended March 31, 2023, primarily due to the improving sales performance in distribution network along with our deepen cooperation with our distributors.

Cost of Sales

Cost of Sales by Nature

Our cost of sales increased by 19.9% from RMB755.7 million in the three months ended March 31, 2022 to RMB905.8 million in the three months ended March 31, 2023, primarily due to the increase in the raw material costs. Our raw material costs increased by 20.9% from

FINANCIAL INFORMATION

RMB589.3 million in the three months ended March 31, 2022 to RMB712.5 million in the three months ended March 31, 2023, mainly driven by (i) the increasing price of raw materials, especially paddy; and (ii) the increased raw materials we consumed to satisfy our business growth needs, and such increase was in line with our revenue growth.

Cost of Sales by Product Category

Our cost of sales increased by 19.9% from RMB755.7 million in the three months ended March 31, 2022 to RMB905.8 million in the three months ended March 31, 2023, primarily due to the increase in the cost of sales in relation to rice products. Our cost of sales in relation to rice products increased by 19.5% from RMB612.6 million in the three months ended March 31, 2022 to RMB732.0 million in the three months ended March 31, 2023. Our cost of sales in relation to whole grain, bean and other products increased by 12.9% from RMB85.0 million in the three months ended March 31, 2022 to RMB96.0 million in the three months ended March 31, 2023. Our cost of sales in relation to dried food and other products increased by 33.9% from RMB58.1 million in the three months ended March 31, 2022 to RMB77.8 million in the three months ended March 31, 2023. Such increases were primarily due to (i) the increasing sales volume of our products, which was in line with our revenue growth; and (ii) the increasing price of raw materials, especially paddy.

Gross Profit and Gross Profit Margin

As a result of the foregoing, our gross profit increased by 13.7% from RMB154.5 million in the three months ended March 31, 2022 to RMB175.7 million in the three months ended March 31, 2023, primarily due to the increase in the gross profit from our whole grain, bean and other products. Our gross profit margin decreased from 17.0% in the three months ended March 31, 2022 to 16.2% in the three months ended March 31, 2023, primarily due to the increasing price of raw materials despite our increasing selling price, and our raw material cost as a percentage of revenue increased from 64.7% in the three months ended March 31, 2022 to 65.9% in the three months ended March 31, 2023.

Rice products. Our gross profit from rice products increased by 6.4% from RMB122.8 million in the three months ended March 31, 2022 to RMB130.7 million in the three months ended March 31, 2023, primarily due to the increasing sales volume of our rice products. Our gross profit margin in relation to rice products decreased from 16.7% in the three months ended March 31, 2022 to 15.1% in the three months ended March 31, 2023, primarily due to the increasing price of raw materials, especially paddy, despite our increasing selling price. For selling prices analysis, see “– Description of Major Components of Our Results of Operations – Revenue – Revenue by Product Category.”

Whole grain, bean and other products. Our gross profit from whole grain, bean and other products increased by 35.6% from RMB25.4 million in the three months ended March 31, 2022 to RMB34.5 million in the three months ended March 31, 2023. Our gross profit margin in relation to whole grain, bean and other products increased from 23.0% in the three months ended March 31, 2022 to 26.4% in the three months ended March 31, 2023. The increase in the

FINANCIAL INFORMATION

gross profit and gross profit margin of our whole grain, bean and other products was primarily due to the increase in selling price that contributed to the improving gross profit margin of certain products such as beans and millet.

Dried food and other products. Our gross profit from dried food and other products increased by 68.7% from RMB6.3 million in the three months ended March 31, 2022 to RMB10.6 million in the three months ended March 31, 2023. Our gross profit margin in relation to dried food and other products increased from 9.7% in the three months ended March 31, 2022 to 12.0% in the three months ended March 31, 2023. The increase in the gross profit and gross profit margin of our dried food and other products was primarily due to the increasing percentage of sales from dried food that generally features higher gross profit margin than by-products.

Our gross profit in relation to our online channels increased by 8.9% from RMB123.8 million in the three months ended March 31, 2022 to RMB134.9 million in the three months ended March 31, 2023, primarily due to our increased sales volume on online channels, mainly as a result of increasing customer demand for our products on e-commerce platforms. Our gross profit in relation to our offline channels increased by 33.1% from RMB30.7 million in the three months ended March 31, 2022 to RMB40.9 million in the three months ended March 31, 2023, primarily due to our increased sales volume on offline channels, mainly contributed by (i) the increasing number of offline channel partners that we cooperated with; and (ii) the improving sales performance in existing offline channels along with our deepen cooperation with them. Our gross profit margin in relation to online channels decreased from 17.8% in the three months ended March 31, 2022 to 17.3% in the three months ended March 31, 2023, and our gross profit margin in relation to offline channels decreased from 14.4% in the three months ended March 31, 2022 to 13.4% in the three months ended March 31, 2023, primarily due to the increasing price of raw materials, and our raw material cost as a percentage of revenue increased from 64.7% in the three months ended March 31, 2022 to 65.8% in the three months ended March 31, 2023.

Selling and Distribution Expenses

Our selling and distribution expenses increased by 12.4% from RMB64.3 million in the three months ended March 31, 2022 to RMB72.2 million in the three months ended March 31, 2023, primarily due to (i) the increase in our platform services fees, mainly representing fees charged by e-commerce platforms primarily for our marketing and promotional activities on the platforms, which was in line with our online presence expansion; and (ii) the advertising and exhibition fees which was in line with our increasing online and offline marketing and promotional activities.

Administrative Expenses

Our administrative expenses increased by 41.7% from RMB20.2 million in the three months ended March 31, 2022 to RMB28.7 million in the three months ended March 31, 2023, primarily due to the increase in listing fees.

FINANCIAL INFORMATION

Other Net Income

Our other net income increased significantly from RMB2.5 million in the three months ended March 31, 2022 to RMB3.7 million in the three months ended March 31, 2023, primarily due to the increase in government grants from RMB0.9 million in the three months ended March 31, 2022 to RMB2.8 million in the three months ended March 31, 2023, as we received grants from local governments motivating us to promote production efficiency and revenue growth. Such increase was partially offset by the decrease in our investment income from RMB1.5 million in the three months ended March 31, 2022 to nil in the three months ended March 31, 2023, as we redeemed our wealth management products in 2022 and we had no investment in wealth management products during the three months ended March 31, 2023. See “– Discussion of Selected Items from the Consolidated Statements of Financial Position – Financial Assets at Fair Value through Profit or Loss.”

Impairment Losses charged or reversed on Trade and Other Receivables

We had impairment losses reversed on trade and other receivables of RMB0.7 million in the three months ended March 31, 2023, compared to impairment losses charged on trade and other receivables of RMB7.8 million in the three months ended March 31, 2022, primarily because we collected a large amount of outstanding trade receivables in the three months ended March 31, 2023, mitigating the credit risk in relation to our trade receivables.

Finance Costs

Our finance costs increased significantly from RMB0.7 million in the three months ended March 31, 2022 to RMB3.9 million in the three months ended March 31, 2023, primarily due to the increase in the interest expenses on bank and other loans, because we mainly borrowed bank and other loans in late 2022 and had more interest expenses for the three months ended March 31, 2023.

Changes in the Carrying Amount of Financial Instruments Issued to Investors

Our changes in the carrying amount of financial instruments issued to investors increased by 27.6% from RMB43.2 million in the three months ended March 31, 2022 to RMB55.1 million in the three months ended March 31, 2023, primarily due to the changes in the carrying amount of the financial instruments granted to certain investors of our Series C financing.

Income Tax

Our income tax increased by 61.5% from RMB1.0 million in the three months ended March 31, 2022 to RMB1.7 million in the three months ended March 31, 2023, primarily due to the increase in the taxable income, especially the increase in the portion of income from the non-preliminary processing of agricultural products as these products are not subject to income tax exemption and government grants we received in the three months ended March 31, 2022.

FINANCIAL INFORMATION

Profit for the Period

As a result of the foregoing, our net profit decreased by 5.8% from RMB19.8 million in the three months ended March 31, 2022 to RMB18.6 million in the three months ended March 31, 2023.

Year Ended December 31, 2022 Compared with Year Ended December 31, 2021

Revenue

Revenue by Product Category

Our total revenue increased by 26.0% from RMB3,598.3 million in 2021 to RMB4,532.9 million in 2022, primarily due to the increase in the revenue generated from rice products.

Our revenue from rice products increased by 25.3% from RMB2,891.6 million in 2021 to RMB3,621.7 million in 2022. Our revenue from whole grain, bean and other products increased by 10.9% from RMB471.9 million in 2021 to RMB523.2 million in 2022. Our revenue from dried food and other products increased by 65.3% from RMB234.7 million in 2021 to RMB387.9 million in 2022. Such increases were all primarily due to the increasing sales volume of our products, mainly as a result of (i) the increasing customer demand for our products, attributed to our enhanced brand recognition, as well as new series of rice products and increasingly diversified whole grain and bean product mix; (ii) improved sales and marketing efficiency along with our deepen penetration in different sales channels; and (iii) increasing number of sales channel partners that we cooperated with. In addition, we had increasing sales volume of by-products such as bran, husk and fractioned rice, mainly as a result of the increasing volume of by-products generated along with the increasing production of our rice products.

Revenue by Sales Channel

Our total revenue increased by 26.0% from RMB3,598.3 million in 2021 to RMB4,532.9 million in 2022, primarily due to the increase in the revenue generated from online channels.

Our revenue from online channels increased by 15.7% from RMB2,716.6 million in 2021 to RMB3,144.2 million in 2022, primarily due to our increased sales volume on online channels, mainly as a result of increasing customer demand for our products on e-commerce platforms, in line with the then market trend. As of December 31, 2020, 2021 and 2022, we operated 38, 58 and 48 self-operated stores, respectively. The number of our online self-operated stores decreased from 58 as of December 31, 2021 to 48 as of December 31, 2022, primarily because we closed the stores taking into consideration their performance and our strategic operation adjustment. Our revenue generated from online self-operated stores decreased from RMB526.0 million in 2021 to RMB486.9 million in 2022, primarily due to (i) the adjustment of our product offerings on the e-commerce platforms; and (ii) the closure of our online self-operated stores.

FINANCIAL INFORMATION

Our revenue from grocery retail channels increased by 72.3% from RMB404.0 million in 2021 to RMB696.0 million in 2022, primarily due to (i) the increasing number of NKAs and LKAs that we cooperated with, from 70 as of December 31, 2021 to 90 as of December 31, 2022; and (ii) the improving sales performance in existing NKA and LKA channels along with our deepen cooperation with them. Such increase was primarily due to our enhanced focus on the grocery retail channels, taking into consideration our existing good performance and experience on other sales channels.

Our revenue from direct customers increased by 47.1% from RMB307.2 million in 2021 to RMB452.0 million in 2022, primarily due to (i) the increasing number of direct customers, especially catering companies and other corporate and individual customers; and (ii) increasing sales of by-products to agricultural products companies, mainly due to the increasing volume of by-products generated along with the increasing production of our rice products.

Our revenue from distribution network increased by 41.2% from RMB170.5 million in 2021 to RMB240.8 million in 2022, primarily due to the increasing number of distributors that we cooperated with. We had 602 distributors by the end of 2022, compared to 356 by the end of 2021.

Cost of Sales

Cost of Sales by Nature

Our cost of sales increased by 22.6% from RMB3,060.7 million in 2021 to RMB3,753.4 million in 2022, primarily due to the increase in the raw material costs. Our raw material costs increased by 21.2% from RMB2,453.0 million in 2021 to RMB2,973.1 million in 2022, mainly driven by the increased volume of raw materials we purchased to satisfy our business growth needs, and such increase was in line with our revenue growth.

Cost of Sales by Product Category

Our cost of sales increased by 22.6% from RMB3,060.7 million in 2021 to RMB3,753.4 million in 2022, primarily due to the increase in the cost of sales in relation to rice products. Our cost of sales in relation to rice products increased by 21.6% from RMB2,484.7 million in 2021 to RMB3,020.9 million in 2022. Our cost of sales in relation to whole grain, bean and other products increased by 7.5% from RMB369.1 million in 2021 to RMB396.8 million in 2022. Our cost of sales in relation to dried food and other products increased by 62.2% from RMB206.9 million in 2021 to RMB335.6 million in 2022. Such increases were all primarily due to the increasing sales volume of our products, which was in line with our revenue growth.

Gross Profit and Gross Profit Margin

As a result of the foregoing, our gross profit increased by 45.0% from RMB537.5 million in 2021 to RMB779.5 million in 2022, primarily due to the increase in the gross profit from our rice products. Our gross profit from rice products increased by 47.6% from RMB406.9

FINANCIAL INFORMATION

million in 2021 to RMB600.8 million in 2022. Our gross profit from whole grain, bean and other products increased by 22.9% from RMB102.8 million in 2021 to RMB126.4 million in 2022. Our gross profit from dried food and other products increased by 88.4% from RMB27.8 million in 2021 to RMB52.3 million in 2022.

Our gross profit margin increased from 14.9% in 2021 to 17.2% in 2022. Our gross profit margin in relation to rice products increased from 14.1% in 2021 to 16.6% in 2022. Our gross profit margin in relation to whole grain, bean and other products increased from 21.8% in 2021 to 24.2% in 2022. Our gross profit margin in relation to dried food and other products increased from 11.8% in 2021 to 13.5% in 2022.

The improvement in our gross profit and gross profit margin was primarily because (i) we have efficiently and flexibly adjusted raw material procurement strategies, specifically, we strategically procured raw materials when the prices were relatively low in 2021, and such raw materials were used for our production in 2022, so that our raw material cost as a percentage of revenue decreased from 68.2% in 2021 to 65.6% in 2022; and (ii) we have strategically upgraded our product mix, specifically, certain products with relatively high profit margin such as Daoxiang Rice and mixed brown rice accounted for an increasing percentage of our sales.

Our gross profit in relation to our online channels increased by 36.9% from RMB406.6 million in 2021 to RMB556.7 million in 2022, primarily due to our increased sales volume on online channels, mainly as a result of increasing customer demand for our products on e-commerce platforms, in line with the then market trend. Our gross profit in relation to our offline channels increased by 70.2% from RMB131.0 million in 2021 to RMB222.9 million in 2022, primarily due to our increased sales volume on offline channels, mainly contributed by (i) the increasing number of offline channel partners that we cooperated with; and (ii) the improving sales performance in existing offline channels along with our deepen cooperation with them. Our gross profit margin in relation to online channels increased from 15.0% in 2021 to 17.7% in 2022, and our gross profit margin in relation to offline channels increased from 14.9% in 2021 to 16.1% in 2022, primarily because (i) we have efficiently and flexibly adjusted raw material procurement strategies, specifically, we strategically procured raw materials when the prices were relatively low in 2021, and such raw materials were used for our production in 2022, so that our raw material cost as a percentage of revenue decreased from 68.2% in 2021 to 65.6% in 2022; and (ii) our increasing selling price on certain channels in 2022, especially online channels, leveraging our enhanced insights for operation on such channels, while we adopted relatively competitive pricing strategies in 2021 when we were at a relatively early stage operating on such channels.

Selling and Distribution Expenses

Our selling and distribution expenses increased by 40.9% from RMB223.4 million in 2021 to RMB314.8 million in 2022, primarily due to (i) the increase in employee costs, primarily due to the increasing number of sales and marketing staff to satisfy the needs of our enhancing sales and marketing efforts, especially for the expansion of our grocery retail channels; (ii) the increase in our advertising and exhibition fees, which was in line with our

FINANCIAL INFORMATION

increasing online and offline marketing and promotional activities; and (iii) the increase in our platform service fees, mainly representing fees charged by e-commerce platforms primarily for our marketing and promotional activities on the platforms, which was in line with our online presence expansion.

Administrative Expenses

Our administrative expenses increased significantly from RMB272.5 million in 2021 to RMB858.3 million in 2022, primarily due to the significant increase in share-based payments as we had share awards of RMB691.0 million in 2022, compared to nil in 2021. Such share awards represented the difference between the fair value and price of the paid-in capital of Shiyue Zhongxin granted to Mr. Wang and Ms. Zhao, see Note 26(a) of Appendix I to this prospectus.

Other Net Income

Our other net income decreased by 44.4% from RMB49.3 million in 2021 to RMB27.4 million in 2022, primarily due to the decrease in the government grants, as we received more government grants in relation to the *China Good Grain and Oil* project in 2021.

Impairment Losses charged on Trade and Other Receivables

Our impairment losses charged on trade and other receivables increased significantly from RMB1.4 million in 2021 to RMB9.7 million in 2022, mainly as a result of the one-off write-off in relation to trade receivables of a certain customer due to its business deterioration, see “– Financial Risk Disclosure – Credit Risk.” As of the Latest Practicable Date, we had terminated our cooperation with such customer. We had no outstanding trade receivables from such customer as of December 31, 2022 and the Latest Practicable Date.

Finance Costs

Our finance costs decreased by 61.3% from RMB10.1 million in 2021 to RMB3.9 million in 2022, primarily due to the decrease in the interest expenses on bank and other loans, because we mainly borrowed bank and other loans in late 2022, thus the period with interest accrued in 2022 was not that long compared to 2021.

Changes in the Carrying Amount of Financial Instruments Issued to Investors

Our changes in the carrying amount of financial instruments issued to investors decreased by 27.0% from RMB244.7 million in 2021 to RMB178.6 million in 2022, primarily due to the changes in the carrying amount of the financial instruments granted to certain investors of our Series A, Series B and Series C financing. See “– Indebtedness – Financial Instruments Issued to Investors” and Note 22 of Appendix I to this prospectus.

FINANCIAL INFORMATION

Income Tax

Our income tax decreased by 22.4% from at RMB7.6 million in 2021 to RMB5.9 million in 2022, primarily due to the decrease in the taxable income, especially the decrease in the taxable income from the non-preliminary processing of agricultural products as these products are not subject to income tax exemption and the government grants we received in 2022.

Loss for the Year

As a result of the foregoing, our net loss increased significantly from RMB172.9 million in 2021 to RMB564.2 million in 2022.

Year ended December 31, 2021 Compared with the Year Ended December 31, 2020

Revenue

Revenue by Product Category

Our total revenue increased by 54.6% from RMB2,327.0 million in 2020 to RMB3,598.3 million in 2021, primarily due to the increase in the revenue generated from rice products.

Our revenue from rice products increased by 54.5% from RMB1,871.4 million in 2020 to RMB2,891.6 million in 2021. Our revenue from whole grain, bean and other products increased by 28.5% from RMB367.3 million in 2020 to RMB471.9 million in 2021. Our revenue from dried food and other products increased significantly from RMB88.2 million in 2020 to RMB234.7 million in 2021. Such increases were all primarily due to the increasing sales volume of our products, mainly as a result of (i) the increasing customer demand for our products, attributed to our enhanced brand recognition, as well as new series of rice products and increasingly diversified whole grain and bean product mix; and (ii) our deepen penetration in emerging channels; and (iii) improved sales and marketing efficiency along with our deepen penetration in different sales channels. In addition, we had increasing sales volume of by-products such as bran, husk and fractioned rice, mainly as a result of the increasing volume of by-products generated along with the increasing production of our rice products.

Revenue by Sales Channel

Our total revenue increased by 54.6% from RMB2,327.0 million in 2020 to RMB3,598.3 million in 2021, primarily due to the increase in the revenue generated from online channels.

Our revenue from online channels increased by 46.9% from RMB1,849.5 million in 2020 to RMB2,717.0 million in 2021, primarily due to our increased sales volume on online channels, mainly as a result of (i) our deepen penetration in emerging online channels and (ii) increasing customer demand for our products, attributed to our enhanced brand recognition and our increasingly diverse product mix.

FINANCIAL INFORMATION

Our revenue from grocery retail channels increased by 87.0% from RMB216.1 million in 2020 to RMB404.0 million in 2021, primarily due to the increasing number of NKAs and LKAs that we cooperated with, from 39 as of December 31, 2020 to 70 as of December 31, 2021. Such increase was primarily due to our enhanced focus on the grocery retail channels, taking into consideration our existing good performance and experience on other sales channels.

Our revenue from direct customers increased by 94.6% from RMB157.9 million in 2020 to RMB307.2 million in 2021, primarily due to (i) the increasing number of direct customers, especially catering companies and other corporate and individual customers; and (ii) increasing sales of by-products to agricultural products companies by-product mainly due to the increasing volume of by-products generated along with the increasing production of our rice products.

Our revenue from distribution network increased by 64.6% from RMB103.6 million in 2020 to RMB170.5 million in 2021, primarily due to the increasing number of distributors that we cooperated with. We had 356 distributors by the end of 2021, compared to 204 by the end of 2020.

Cost of Sales

Cost of Sales by Nature

Our cost of sales increased by 59.2% from RMB1,922.3 million in 2020 to RMB3,060.7 million in 2021, primarily due to the increase in the raw material costs. Our raw material costs increased by 54.3% from RMB1,590.1 million in 2020 to RMB2,453.0 million in 2021, mainly driven by the increasing volume of raw materials we purchased to satisfy our business growth needs, which was in line with our revenue growth.

Cost of Sales by Product Category

Our cost of sales increased by 59.2% from RMB1,922.3 million in 2020 to RMB3,060.7 million in 2021, primarily due to the increase in the cost of sales in relation to rice products. Our cost of sales in relation to rice products increased by 56.7% from RMB1,586.0 million in 2020 to RMB2,484.7 million in 2021. Our cost of sales in relation to whole grain, bean and other products increased by 42.1% from RMB259.8 million in 2020 to RMB369.1 million in 2021. Our cost of sales in relation to dried food and other products increased significantly from RMB76.6 million in 2020 to RMB206.9 million in 2021. Such increases were all primarily due to the increasing sales volume of our products, which was in line with our revenue growth.

Gross Profit and Gross Profit Margin

As a result of the foregoing, our gross profit increased by 32.8% from RMB404.7 million in 2020 to RMB537.5 million in 2021, primarily due to the increase in the gross profit from our rice products. Our gross profit from rice products increased by 42.5% from RMB285.5 million in 2020 to RMB406.9 million in 2021. Our gross profit from whole grain, bean and

FINANCIAL INFORMATION

other products remained relatively stable at RMB107.6 million in 2020 and RMB102.8 million in 2021. Our gross profit from dried food and other products increased significantly from RMB11.6 million in 2020 to RMB27.8 million in 2021.

Our gross profit margin decreased from 17.4% in 2020 to 14.9% in 2021. Our gross profit margin in relation to rice products decreased from 15.3% in 2020 to 14.1% in 2021. Our gross profit margin in relation to whole grain, bean and other products decreased from 29.3% in 2020 to 21.8% in 2021. Our gross profit margin in relation to dried food and other products decreased from 13.2% in 2020 to 11.8% in 2021. The decreases in the gross profit margin were primarily because (i) we adopted relatively competitive pricing strategies for our products in 2021 to enhance market penetration, leveraging our upgraded product offerings and improved production capacity; and (ii) the increase in our transportation expenses as a percentage of our revenue, from 5.9% in 2020 to 7.5% in 2021, generally in line with our increasing and enhancing transportation needs due to our increasing sales volume and improving needs for delivery efficiency. Our pricing strategies enabled us to solidify our market position and enhance our penetration in different sales channels with increasingly diversified retail models.

Our gross profit in relation to our online channels increased by 27.1% from RMB319.9 million in 2020 to RMB406.6 million in 2021, primarily due to our increased sales volume on online channels, mainly as a result of (i) our deepen penetration in emerging online channels; and (ii) increasing customer demand for our products, attributed to our enhanced brand recognition and our increasingly diverse product mix. Our gross profit in relation to our offline channels increased by 54.5% from RMB84.8 million in 2020 to RMB131.0 million in 2021, primarily due to our increased sales volume on offline channels, mainly contributed by the increasing number of offline channel partners that we cooperated with. Our gross profit margin in relation to online channels decreased from 17.3% in 2020 to 15.0% in 2021, and our gross profit margin in relation to offline channels decreased from 17.8% in 2020 to 14.9% in 2021, primarily because we adopted relatively competitive pricing strategies for our products in 2021 to enhance market penetration.

Selling and Distribution Expenses

Our selling and distribution expenses increased by 77.2% from RMB126.1 million in 2020 to RMB223.4 million in 2021, primarily due to (i) the significant increase in our platform service fees, mainly representing fees charged by e-commerce platforms primarily for our marketing and promotional activities on the platforms, which was in line with our online presence expansion; and (ii) the increase in employee costs, primarily due to the increasing number of sales and marketing staff to satisfy the needs of our enhancing sales and marketing efforts.

Administrative Expenses

Our administrative expenses increased significantly from RMB38.8 million in 2020 to RMB272.5 million in 2021, primarily due to (i) the increase in our share-based payments from nil to RMB187.3 million, as we had transfers of paid-in capital among the equity shareholders

FINANCIAL INFORMATION

related investors of Series B financing in 2021, see Note 26(b) of Appendix I to this prospectus; and (ii) the increase in our labor costs in relation to administrative employees as a result of the increased number of administrative staff to support our daily operation and the increased level of average salaries and bonus to administrative employees.

Other Net Income

Our other net income increased significantly from RMB7.0 million in 2020 to RMB49.3 million in 2021, primarily due to the significant increase in government grants, which increased from RMB7.2 million in 2020 to RMB44.0 million in 2021. Such increase in the government grants was primarily because we have met the standards of the *China Good Grain and Oil* project of local governments in 2021 and received relevant government grants.

Impairment Losses charged on Trade and Other Receivables

Our impairment losses charged on trade and other receivables increased from RMB0.4 million in 2020 to RMB1.4 million in 2021, see “– Financial Risk Disclosure – Credit Risk.”

Finance Costs

Our finance costs decreased by 50.2% from RMB20.3 million in 2020 to RMB10.1 million in 2021, primarily due to the decrease in the interest expenses on bank and other loans, as a result of a significant decrease in our other loans, see “– Indebtedness – Bank and Other Loans.”

Changes in the Carrying Amount of Financial Instruments Issued to Investors

Our changes in the carrying amount of financial instruments issued to investors increased by 18.0% from RMB207.3 million in 2020 to RMB244.7 million in 2021, primarily due to the changes in the carrying amount of the financial instruments granted to certain investors of our Series A and Series B financing. See “– Indebtedness – Financial Instruments Issued to Investors” and Note 22 of Appendix I to this prospectus.

Income Tax

Our income tax increased by 55.4% from RMB4.9 million in 2020 to RMB7.6 million in 2021, primarily due to the increase in the taxable income, especially the increase in the taxable income from the non-preliminary processing of agricultural products as these products are not subject to income tax exemption, government grants received and the investment income in 2021.

Profit/(loss) for the Year

As a result of the foregoing, we had net profit of RMB14.0 million in 2020 and net loss of RMB172.9 million in 2021.

Inventories

Our inventories were (i) raw materials, primarily including paddy, whole grain and bean, dried food and other raw materials; (ii) finished products, primarily including rice products, whole grain, bean and other products and dried food and other products; (iii) packaging materials, primarily including packaging bags and woven bags; and (iv) work in progress, primarily represented polished rice with aleurone layer removed. Raw materials represented a significant portion of our inventories, accounting for 58.6%, 61.7%, 61.1% and 71.6% of our total inventories, respectively, as of December 31, 2020, 2021, 2022 and March 31, 2023.

The following table sets out a breakdown of our inventories as of the dates indicated:

	As of December 31,			As of March 31,
	2020	2021	2022	2023
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>

Less: write down of inventories	(188)	(1,621)	(2,494)	(3,018)
Total Inventories	647,243	1,049,783	1,372,671	1,215,120

Our inventories are subject to seasonality, primarily due to the harvest season of our raw materials and sales peak resulted from holidays and shopping events. For example, the harvest season of raw grains that we generally procure, especially Northeast Rice, is from September to year end, and we generally purchase raw grains from September to year end. Therefore, we generally have relatively high volume of inventories, especially raw materials by the end of each year. In addition, we typically experience sales peak in holiday season such as Chinese New Year and sales events such as Double Eleven, which are generally by the year end or the beginning of a year. In preparation of such holiday season and shopping events, we generally have relatively high volume of inventories, especially finished products, by the end of each year. Accordingly, our results of operations fluctuate over the year, and our interim results may not be indicative of our annual results.

Our inventories increased by 62.2% from RMB647.2 million as of December 31, 2020 to RMB1,049.8 million as of December 31, 2021, and further increased by 30.8% from RMB1,049.8 million as of December 31, 2021 to RMB1,372.7 million as of December 31, 2022, primarily due to (i) the increase in raw materials to satisfy our increasing sales and production needs, taking into account our sales volume growth and our enhanced production

capacity; and (ii) the increase in finished products for sale in anticipation of the sales peak before the Chinese New Year, which was also in line with our sales volume growth. Our inventories decreased by 11.5% from RMB1,372.7 million as of December 31, 2022 to RMB1,215.1 million as of March 31, 2023, primarily because we sold a portion of our finished products during the three months ended March 31, 2023.

The table below sets out our inventory turnover days during the periods indicated:

	Year ended December 31,			Three months ended March 31,
	2020	2021	2022	2023
	Inventory turnover days ⁽¹⁾	100	100	116

Note:

- (1) Inventory turnover days for each period equals the average of the beginning and ending balances of inventory for that period divided by cost of sales for that period and multiplied by (i) 360 for 2020, 2021 and 2022; and (ii) 90 for the three months ended March 31, 2023.

Our inventory turnover days remained stable at 100 days in both 2020 and 2021. Our inventory turnover days increased from 100 days in 2021 to 116 days in 2022, primarily because we actively purchased more raw materials as we have enhanced storage capacity with our warehouses in Aohan and Songyuan completed, so as to satisfy our increasing sales and production needs. Our inventory turnover days increased from 116 days in 2022 to 129 days in the three months ended March 31, 2023, primarily because (i) we continued to purchase raw materials in the three months ended March 31, 2023; and (ii) the Chinese New Year in 2023 came early in January, boosting sales more in December 2022 than in the three months ended March 31, 2023, especially taking into account that our grocery retail channel partners and distributors generally increase their stock of our products in advance in anticipation of the Chinese New Year.

The table below sets out the ageing analysis of our inventories as of the dates indicated:

Our inventories with ageing of one to two years mainly include raw materials and packaging materials. The raw materials were mainly black rice that we procured in early 2022 with relatively low price. Such procurement was in anticipation of the construction progress of our production facilities, which was then delayed, and these black rice were sold in May 2023. The packaging materials were mainly for products with sales volumes less than expected.

In line with the seasonality of our inventories, our closing inventory balance as of December 31, 2022 primarily represented our purchase in the fourth quarter of 2022, accounting for 94.5% of the closing balance of inventories. As of July 31, 2023, 79.6% of our total inventories as of March 31, 2023, or RMB969.1 million, had been utilized or sold.

At the end of each reporting period, inventories are measured at the lower of cost or net realizable value. Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. The net realizable value of inventories used directly for sale is determined as the estimated selling price of the inventory in the ordinary course of business less estimated selling expenses and related taxes. The net realizable value of inventories subject to processing is determined as the estimated selling price of the finished goods produced in the ordinary course of business less estimated costs to be incurred to completion, estimated selling expenses and related taxes. At the end of each reporting period, we performed impairment testing on the inventories and, as a result of the impairment testing, the amount of our inventory provision of is as follow:

	As of December 31,			As of March 31,
	2020	2021	2022	2023
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>
Inventory provision	188	1,621	2,494	3,018

We are of the view that there is no material recoverability issue for our inventories, taking into account the subsequent utilization, and sufficient inventory provision has been made.

Trade and Other Receivables

We had trade and other receivables of RMB132.6 million, RMB549.3 million, RMB565.1 million and RMB394.3 million as of December 31, 2020, 2021, 2022 and March 31, 2023, respectively.

Trade and Bills Receivables

We had trade and bills receivables of RMB90.0 million, RMB323.8 million, RMB415.7 million and RMB240.8 million as of December 31, 2020, 2021, 2022 and March 31, 2023, respectively. We had trade receivables of RMB90.0 million, RMB308.1 million, RMB399.1 million and RMB192.8 million as of December 31, 2020, 2021, 2022 and March 31, 2023, respectively. We had bill receivables of nil, RMB15.7 million, RMB16.6 million and RMB48.1 million as of December 31, 2020, 2021, 2022 and March 31, 2023, respectively. Our trade receivables and bills receivables as of December 31, 2020, 2021, 2022 and March 31, 2023 were all from third parties, which were receivables from our customers for purchasing our products. The following table sets out a breakdown of our trade and bills receivables as of the dates indicated:

Our trade receivables increased significantly from RMB90.0 million as of December 31, 2020 to RMB308.1 million as of December 31, 2021, primarily due to (i) our increased sales volume, especially sales through grocery retail channels that typically have long payment terms, which was in line with our revenue growth in 2021, especially revenue from grocery retail channels, see “– Description of Major Components of Our Results of Operations – Revenue – Revenue by Sales Channel;” and (ii) certain customer’s changing of settlement mechanism for all companies operated on its platform, allowing us to flexibly request settlement from such platform instead of fixed monthly settlement on an agreed date, and we made settlement request in late December 2021 with relevant receivables from the platform paid in January 2022, so that the trade receivables by the end of December 2021 was relatively high. Our trade receivables increased by 29.5% from RMB308.1 million as of December 31,

FINANCIAL INFORMATION

During the Track Record Period, the turnover days of trade receivables were within the range of credit period granted to our customers. Our turnover days of our trade receivables increased from 2020 to 2022, primarily due to our increased sales volume, especially sales through grocery retail channels that typically have long payment terms. Our turnover days decreased from 28 days in 2022 to 25 days in the three months ended March 31, 2023, primarily because we collected a large amount of outstanding trade receivables in the three months ended March 31, 2023.

RMB181.9 million, or 94.4% of our trade receivables as of March 31, 2023 had been settled as of July 31, 2023.

Other Receivables

Our other receivables primarily consist of (i) prepayments to suppliers, which were primarily prepayments to raw material suppliers; (ii) value-added tax recoverable, representing the input value-added tax in excess of the output value-added tax, which can be deductible or recoverable in the future; (iii) deposits for bidding and purchase of land use rights, mainly representing advance deposit payments for land acquisition; (iv) deposits and amounts due from the e-commerce platforms; (v) prepayments for costs incurred in connection with the proposed initial public offering of the Company's shares; and (vi) other deposits, which mainly were security funds for migrant workers for the construction of our production bases or warehouses.

Our other receivables increased significantly from RMB42.5 million as of December 31, 2020 to RMB225.5 million as of December 31, 2021, primarily due to (i) the significant increase in prepayments to suppliers from RMB17.4 million as of December 31, 2020 to RMB119.3 million as of December 31, 2021, mainly because we had raw material procurement that requires prepayments to certain suppliers by the end of 2021; and (ii) the increase in value-added tax refundable primarily relating to our purchase of raw material. Our other receivables decreased by 33.8% from RMB225.5 million as of December 31, 2021 to RMB149.4 million as of December 31, 2022, primarily due to the decrease in our prepayments to suppliers because our raw material procurement that requires prepayments to such suppliers was settled before the end of 2022. Specifically, our other deposits increased significantly from RMB4.0 million as of December 31, 2020, to RMB13.2 million as of December 31, 2021, primarily due to (i) the increase in security funds for migrant workers for the construction of our production bases or warehouses; and (ii) the increase in other deposit to our certain raw material suppliers by the end of 2021. Our other deposits decreased significantly from RMB13.2 million as of December 31, 2021, to RMB8.2 million as of December 31, 2022, primarily due to (i) the return of deposit related to our certain raw material suppliers by the end of 2022; and (ii) the decrease in the security funds for migrant workers as a result of the completion of some construction projects. Our other receivables remained relatively stable at RMB149.4 million as of December 31, 2022 and RMB153.4 million as of March 31, 2023.

RMB74.1 million, or 48.3% of our other receivables as of March 31, 2023 had been settled as of July 31, 2023.

Financial Assets at Fair Value through Profit or Loss

Our financial assets at fair value through profit or loss represented our wealth management products with variable returns. Our financial assets at fair value through profit or loss increased by 50.0% from RMB20.0 million as of December 31, 2020 to RMB30.0 million as of December 31, 2021, primarily due to our increased investment in wealth management products. Our financial assets at fair value through profit or loss decreased from RMB30.0 million as of December 31, 2021 to nil as of December 31, 2022, primarily because we redeemed our wealth management products. Our financial assets at fair value through profit or loss remained nil as of March 31, 2023.

FINANCIAL INFORMATION

We may continue to invest in wealth management products after Listing, and we will strictly comply with our internal policies and guidelines and the requirements under Chapter 14 of the Listing Rules, if applicable, to manage such investment.

Property, Plant and Equipment

Our property, plant and equipment primarily consisted of construction in progress, machinery and other equipment and plant and buildings. The following table sets out a breakdown of our property, plant and equipment as of the dates indicated:

	As of December 31,			As of March 31,
	2020	2021	2022	2023
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>

Total	<u>257,592</u>	<u>536,667</u>	<u>862,560</u>	<u>863,239</u>

Our property, plant and equipment increased significantly from RMB257.6 million as of December 31, 2020 to RMB536.7 million as of December 31, 2021, due to (i) the increase in production machines to satisfy our production expansion needs due to our increasing sales volume; (ii) the increase in the plant and buildings, which mainly were production bases or warehouses that started operation in 2021; and (iii) the increase in construction in progress, primarily related to production bases. Our property, plant and equipment increased by 60.7% from RMB536.7 million as of December 31, 2021, to RMB862.6 million as of December 31, 2022, primarily due to (i) the increase in the plant and buildings, which mainly were production bases that started operation in 2022; and (ii) the increase in machinery and other equipment, which were mainly production machines to satisfy our production expansion needs, which were partially offset by (iii) the decrease in construction in progress, primarily due to the completion of construction of production bases. Our property, plant and equipment remained relatively stable at RMB862.6 million as of December 31, 2022 and RMB863.2 million as of March 31, 2023.

FINANCIAL INFORMATION

Right-of-use Assets

Our right-of-use assets consisted of land use rights and properties. The following table sets out a breakdown of our right-of-use assets as of the dates indicated:

	As of December 31,			As of March 31,
	2020	2021	2022	2023
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>

Properties	14,554	16,889	21,289	19,396
Total	41,662	76,641	129,552	127,037

Our right-of-use assets increased by 84.0% from RMB41.7 million as of December 31, 2020 to RMB76.6 million as of December 31, 2021, and further increased by 69.0% to RMB129.6 million as of December 31, 2022, primarily due to (i) the increase in the land use rights serving our production and warehousing needs and (ii) the increase in properties serving as offices, both of which were in line with our business expansion needs. Our right-of-use assets remained relatively stable at RMB129.6 million as of December 31, 2022 and RMB127.0 million as of March 31, 2023.

Other Non-current Assets

We had other non-current assets of RMB12.4 million, RMB33.5 million, RMB12.3 million and RMB51.3 million as of December 31, 2020, 2021, 2022 and the three months ended March 31, 2023, respectively, which were all prepayments for construction in progress and land use rights. Our other non-current assets increased significantly from RMB12.4 million as of December 31, 2020 to RMB33.5 million as of December 31, 2021, which was in line with the increase in our construction in progress and land use rights. Our other non-current assets decreased by 63.3% from RMB33.5 million as of December 31, 2021 to RMB12.3 million as of December 31, 2022, which was in line with the decrease in our construction in progress. See “– Discussion of Selected Items from the Consolidated Statements of Financial Position – Property, Plant and Equipment” and “– Discussion of Selected Items from the Consolidated Statements of Financial Position – Right-of-use Assets.” Our other non-current assets increased significantly from RMB12.3 million as of December 31, 2022 to RMB51.3 million as of March 31, 2023, primarily due to the increase in our prepayment for the land use rights in relation to construction of our production base and the prepayment for warehouse facilities.

FINANCIAL INFORMATION

Trade and Other Payables

We had trade and other payables of RMB175.1 million, RMB168.7 million, RMB303.5 million and RMB211.5 million as of December 31, 2020, 2021, 2022 and March 31, 2023, respectively.

Trade Payables

Our trade payables were primarily to third parties, mainly raw material suppliers.

The following table sets out a breakdown of our trade payables as of the dates indicated:

	As of December 31,			As of March 31,
	2020	2021	2022	2023
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>
Trade payables:				
– Third parties	147,067	119,979	171,626	94,257
– Related parties	1,143	–	–	–
Total trade payables	148,210	119,979	171,626	94,257

Our trade payables decreased by 19.0% from RMB148.2 million as of December 31, 2020, to RMB120.0 million as of December 31, 2021, primarily due to the decrease in our trade payables to third parties, because we procured raw materials more with prepayments in 2021, and we had relatively high prepayments to suppliers at the end of 2021, thus less trade payables in relation to raw materials procurement, see “– Discussion of Selected Items from the Consolidated Statements of Financial Position – Trade and Other Receivables – Other Receivables.” Our trade payables increased by 43.0% from RMB120.0 million as of December 31, 2021 to RMB171.6 million as of December 31, 2022, primarily due to our increased raw material procurement to satisfy our increasing sales volume, which was in line with our revenue growth. Our trade payables decreased by 45.1% from RMB171.6 million as of December 31, 2022 to RMB94.3 million as of March 31, 2023, primarily due to the decrease in trade payables in relation to our packaging materials procurement, which were substantially settled in the three months ended March 31, 2023.

As of December 31, 2020, 2021 and 2022 and March 31, 2023, all of the trade payables were expected to be settled within one year or were repayable on demand.

FINANCIAL INFORMATION

The following table sets out our trade payables turnover days for the periods indicated:

	Year ended December 31,			Three months ended
	March 31,			
	2020	2021	2022	2023
Trade payables turnover days ⁽¹⁾	22	16	14	13

Note:

- (1) Trade payables turnover days for a period equals the average of the opening and closing trade payables balance divided by cost of sales for the same period and multiplied by (i) 360 for 2020, 2021 and 2022; and (ii) 90 for the three months ended March 31, 2023.

Our trade payables turnover days decreased from 22 days in 2020 to 16 days in 2021, primarily because we procured raw materials more with prepayments in 2021 and thus less trade payables. Our trade payables turnover days remained relatively stable, being 16 days in 2021, 14 days in 2022 and 13 days in the three months ended March 31, 2023.

RMB92.7 million, or 98.3% of our trade payables as of March 31, 2023 had been settled as of July 31, 2023.

Other Payables

Our other payables primarily consisted of (i) payables for staff-related costs; and (ii) payables for construction and purchase of property, plant and equipment.

The following table sets out a breakdown of our other payables as of the dates indicated:

	As of December 31,			As of
	March 31,			
	2020	2021	2022	2023
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>

Others	1,485	3,818	5,910	2,784
Total other payables	26,910	48,713	131,922	117,283

Our other payables increased by 81.0% from RMB26.9 million as of December 31, 2020 to RMB48.7 million as of December 31, 2021, primarily due to (i) the increase in the payables for staff-related costs as a result of an increasing number of staff to suit our business expansion needs; and (ii) the increase in payables for construction and purchase of property, plant and equipment, primarily due to the increase in our production machines and plant and buildings to satisfy our production expansion needs. Our other payables increased significantly from RMB48.7 million as of December 31, 2021 to RMB131.9 million as of December 31, 2022, primarily due to (i) the increase in the payables for staff-related costs, mainly representing bonus payables to staff; (ii) the increase in payables for construction and purchase of property, plant and equipment, primarily due to our increase in production machines and plant and buildings to satisfy our production expansion needs; and (iii) the increase in the payables for costs incurred in connection with the proposed initial public offering of the Company's shares. Our other payables decreased by 11.1% from RMB131.9 million as of December 31, 2022 to RMB117.3 million as of March 31, 2023, primarily due to (i) the decrease in payables for construction and purchase of property, plant and equipment as a result of settlement of relevant payables in accordance with relevant agreements, offset by (ii) the increase in payables for costs incurred in connection with the Listing.

Contract Liabilities

Our contract liabilities were short-term advance payments from customers. All of the contract liabilities are expected to be recognized as revenue within one year. Our contract liabilities increased significantly from RMB4.2 million as of December 31, 2020 to RMB18.6 million as of December 31, 2021, and further increased significantly to RMB31.6 million as of

FINANCIAL INFORMATION

December 31, 2022, primarily due to an increasing customer demand for our products. Our contract liabilities decreased by 67.5% from RMB31.6 million as of December 31, 2022 to RMB10.3 million as of March 31, 2023, primarily because we fulfilled the obligations under certain contracts in the three months ended March 31, 2023.

RMB8.8 million, or 85.7% of our contract liabilities as of March 31, 2023 had been subsequently recognized as revenue as of July 31, 2023.

Deferred Income

Our deferred income were primarily related to government grants. Government grants are recognized in the statement of financial position initially when there is reasonable assurance that they will be received and that we will comply with the conditions attaching to them. Grants that compensate us for expenses incurred are recognized as other net income in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate us for the cost of an asset are recognized as deferred income in the statement of financial position and are subsequently recognized in profit or loss over the useful life of the asset. See Note 2(t)(iv) of Appendix I to this prospectus.

Our deferred income increased by 89.4% from RMB17.2 million as of December 31, 2020 to RMB32.6 million as of December 31, 2021, primarily due to the increase of government grants, mainly because we have met the standards of the *China Good Grain and Oil* project of local governments. See “– Period-to-period Comparison of Results of Operations – Year Ended December 31, 2021 Compared with the Year Ended December 31, 2020 – Other Net Income.” Our deferred income remained stable at RMB32.6 million as of December 31, 2021 and RMB32.9 million as of December 31, 2022. Our deferred income increased by 15.9% from RMB32.9 million as of December 31, 2022 to RMB38.1 million as of March 31, 2023, primarily due to the increase in government grants received in relation to our production facilities.

KEY FINANCIAL RATIOS

Notes:

- (1) Gross profit margin equals gross profit divided by revenue and multiplied by 100%.
- (2) Net profit/(loss) margin equals net profit/(loss) for the periods divided by revenue and multiplied by 100%.
- (3) Adjusted net profit margin (*non-IFRS measure*) equals adjusted net profit for the periods as a non-IFRS measure divided by total revenue and multiplied by 100%.

See “– Description of Major Components of Our Results of Operations.”

LIQUIDITY AND CAPITAL RESOURCES

We have historically funded our cash requirements principally from equity and debt financing and cash generated from operations.

As of December 31, 2020, 2021, 2022 and March 31, 2023, we had cash and cash equivalents of RMB24.1 million, RMB108.2 million, RMB120.4 million and RMB613.1 million, respectively. Going forward, we believe that our liquidity requirements will be satisfied by using a combination of operating cash flow, equity and debt financing and net proceeds received from the Global Offering.

Net Cash Generated from or Used in Operating Activities

Net cash generated from or used in operating activities primarily comprised our profit before taxation for the period adjusted by: (i) non-cash and non-operating items; and (ii) changes in working capital.

In the three months ended March 31, 2023, our net cash generated from operating activities was RMB307.0 million, which was primarily attributable to our profit before taxation of RMB20.3 million, as adjusted by (i) the non-cash and non-operating items, primarily comprising changes in the carrying amount of financial instruments issued to investors of RMB55.1 million; and (ii) changes in working capital, which primarily comprised decrease in inventories of RMB157.6 million and decrease in trade and other receivables of RMB178.5 million, partially offset by decrease in trade and other payables of RMB78.2 million and increase in restricted deposits of RMB30.0 million.

In 2022, our net cash generated from operating activities was RMB177.2 million, which was primarily attributable to our loss before taxation of RMB558.3 million, as adjusted by (i) the non-cash and non-operating items, primarily comprising share-based payments of RMB739.6 million and changes in the carrying amount of financial instruments issued to investors of RMB178.6 million; and (ii) changes in working capital, which primarily comprised increase in inventories of RMB322.9 million, partially offset by the increase in trade and other payables of RMB107.6 million.

In 2021, our net cash used in operating activities was RMB495.2 million, which was primarily attributable to our loss before taxation of RMB165.3 million, as adjusted by (i) the non-cash and non-operating items, primarily comprising changes in the carrying amount of financial instruments issued to investors of RMB244.7 million and share-based payments of RMB187.3 million; and (ii) changes in working capital, which primarily comprised increase in trade and other receivables of RMB406.4 million and increase in inventories of RMB402.5 million.

FINANCIAL INFORMATION

In 2020, our net cash generated from operating activities was RMB90.2 million, which was primarily attributable to our profit before taxation of RMB18.9 million, as adjusted by (i) the non-cash and non-operating items, primarily comprising changes in the carrying amount of financial instruments issued to investors of RMB207.3 million; and (ii) changes in working capital, primarily comprising increase in inventories of RMB227.5 million.

Net Cash Used in Investing Activities

In the three months ended March 31, 2023, our net cash used in investing activities was RMB71.2 million, which was primarily attributable to payments for purchase of property, plant and equipment and land use rights of RMB71.7 million.

In 2022, our net cash used in investing activities was RMB316.3 million, which was primarily attributable to (i) purchase of financial assets at fair value through profit or loss of RMB1,560.0 million; (ii) payments for purchase of property, plant and equipment and land-use-rights of RMB354.3 million, partially offset by (iii) redemption of financial assets at fair value through profit or loss of RMB1,590.0 million.

In 2021, our net cash used in investing activities was RMB361.2 million, which was primarily attributable to (i) purchase of financial assets at fair value through profit or loss of RMB1,178.0 million; (ii) payments for purchase of property, plant and equipment and land-use-rights of RMB357.4 million, partially offset by (iii) redemption of financial assets at fair value through profit or loss of RMB1,168.0 million.

In 2020, our net cash used in investing activities was RMB197.2 million, which was primarily attributable to payments for purchase of property, plant and equipment and land-use-rights of RMB177.7 million.

Net Cash Generated from Financing Activities

In the three months ended March 31, 2023, our net cash generated from financing activities was RMB256.9 million, which was primarily attributable to proceeds from the capital contributions, net of transaction costs of RMB285.3 million, proceeds from bank and other loans of RMB93.4 million, partially offset by repayment of bank and other loans of RMB104.9 million.

In 2022, our net cash generated from financing activities was RMB151.3 million, which was primarily attributable to proceeds from bank and other loans of RMB417.4 million, partially offset by dividends paid to shareholders of RMB200.0 million.

In 2021, our net cash generated from financing activities was RMB940.4 million, which was primarily attributable to (i) proceeds from the capital contributions, net of transaction costs of RMB1,187.6 million, and (ii) proceeds from bank and other loans of RMB535.6 million, partially offset by (iii) repayment of bank and other loans of RMB764.7 million.

FINANCIAL INFORMATION

In 2020, our net cash generated from financing activities was RMB118.4 million, which was primarily attributable to (i) proceeds from bank and other loans of RMB1,690.3 million and (ii) proceeds from the capital contributions, net of transaction costs of RMB180.5 million, partially offset by (iii) repayment of bank and other loans of RMB1,608.3 million.

Net Current Assets

Note:

- (1) The restricted deposits represent the bank deposits frozen by court due to a litigation against subsidiaries of our Group. See “Business – Legal Proceedings and Compliance – Legal Proceedings.” As of the Latest Practicable Date, the lawsuit was under review before the court, and our Group’s bank deposits of RMB30.0 million had been frozen by the court for this lawsuit. As advised by the PRC Legal Adviser, the freeze is a procedural matter and will not adversely affect the outcome of the lawsuit.

Net current assets	358,281	1,485,645	1,313,291	1,634,984	1,590,311

Our net current assets was relatively stable, being RMB1,635.0 million as of March 31, 2023 and RMB1,590.3 million as of July 31, 2023, primarily due to (i) the decrease in inventories, mainly due to the decrease in raw materials, which was in line with the seasonality of our inventories as we generally purchase raw materials from September to year end due to the harvest season of our raw materials and the raw materials were then gradually consumed; (ii) the increase in trade and other receivables, primarily due to the increasing sales volume especially contributed by shopping events in June; and (iii) the decrease in cash and cash equivalents and the decrease in bank and other loans, as we repaid certain short-term bank and other loans, see “– Indebtedness – Bank and Other Loans.”

Our net current assets increased by 24.5% from RMB1,313.3 million as of December 31, 2022 to RMB1,635.0 million as of March 31, 2023, primarily due to (i) the increase in cash and cash equivalents, see “– Liquidity and Capital Resources – Cash Flow;” and (ii) the decrease in trade and other payables, see “– Discussion of Selected Items from the Consolidated Statements of Financial Position – Trade and Other Payables;” and such increase was partially offset by (iii) the decrease in trade and other receivables, see “– Discussion of Selected Items from the Consolidated Statements of Financial Position – Trade and Other Receivables.”

Our net current assets decreased by 11.6% from RMB1,485.6 million as of December 31, 2021 to RMB1,313.3 million as of December 31, 2022, primarily due to (i) the increase in the bank and other loans; and (ii) the increase in trade and other payables, partially offset by (iii) the increase in our inventories. See “– Discussion of Selected Items from the Consolidated Statements of Financial Position” and “– Indebtedness.”

FINANCIAL INFORMATION

Our net current assets increased significantly from RMB358.3 million as of December 31, 2020 to RMB1,485.6 million as of December 31, 2021, primarily due to (i) the increase in our inventories; (ii) the increase in trade and other receivables; and (iii) the decrease in bank and other loans. See “– Discussion of Selected Items from the Consolidated Statements of Financial Position” and “– Indebtedness.”

INDEBTEDNESS

As of December 31, 2020, 2021, 2022 and March 31, 2023, our indebtedness included financial instruments issued to investors, bank and other loans and lease liabilities. As of July 31, 2023, being the indebtedness date for the purpose of the indebtedness statement, we had a total indebtedness of RMB2,829.1 million. As of July 31, 2023, we had unutilized banking facilities of RMB296.6 million.

The table below sets out the details of our indebtedness as of the dates indicated:

	As of December 31,			As of March 31,	As of July 31,
	2020	2021	2022	2023	2023

Total	653,968	1,938,859	2,795,072	3,121,478	2,829,140

Except our indebtedness as of July 31, 2023 as disclosed above under “– Indebtedness”, as of December 31, 2020, 2021, 2022 and March 31, 2023 and as of July 31, 2023, we did not have any material mortgages, charges, debentures, loan capital, debt securities, loans, bank overdrafts or other similar indebtedness, finance lease or hire purchase commitments, liabilities under acceptances (other than normal trade bills), or acceptance credits, which were either guaranteed or unguaranteed, secured or unsecured.

FINANCIAL INFORMATION

Financial Instruments Issued to Investors

Our financial instruments issued to investors were primarily related to redemption rights granted to certain investors of our Series A, Series B and Series C financing. The redemption rights of the investors constitute our redemption liability to repurchase our own equity instruments. The redemption liability is initially measured at the present value of the redemption amount and subsequently measured at amortized cost with interest expense being included in change in the carrying amount of financial instruments issued to investors. See Note 2(q) and Note 22 of Appendix I to this prospectus.

The following table sets out the breakdown of financial instruments issued to investors as of the dates indicated:

	As of December 31,			As of March 31,	As of July 31,
	2020	2021	2022	2023	2023
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i> <i>(unaudited)</i>
Redemption liabilities	317,461	1,872,844	2,380,161	2,720,926	2,800,220

Our financial instruments issued to investors increased significantly from RMB362.1 million as of December 31, 2020 to RMB1,872.8 million as of December 31, 2021, primarily due to the increase in the redemption liabilities relating to the redemption rights granted to certain investors of our Series A and Series B financing. Our financial instruments issued to investors increased by 27.1% from RMB1,872.8 million as of December 31, 2021 to RMB2,380.2 million as of December 31, 2022, primarily due to the redemption rights granted to certain investor of our Series C financing in 2022. Our financial instruments issued to investors increased by 14.3% from RMB2,380.2 million as of December 31, 2022 to RMB2,720.9 million as of March 31, 2023, primarily due to redemption rights granted to certain investor of our Series C financing. Our financial instruments issued to investors remained relatively stable, being RMB2,720.9 million as of March 31, 2023 and RMB2,800.2 million as of July 31, 2023.

Note:

- (1) As of December 31, 2022 and March 31, 2023, certain bank loans were guaranteed by the subsidiaries within our Group.

FINANCIAL INFORMATION

Our bank and other loans decreased significantly from RMB279.1 million as of December 31, 2020 to RMB50.0 million as of December 31, 2021, primarily due to the decrease in other loans secured by our trade receivables, as a result of our enhanced cash liquidity due to the completion of our Series B financing. Our bank and other loans increased significantly from RMB50.0 million as of December 31, 2021 to RMB394.9 million as of December 31, 2022, primarily due to the increase in bank loans guaranteed by related parties and bank loans guaranteed by related parties and secured by our property, plant and equipment and land use rights, which were primarily short-term loans, mainly to satisfy our needs of raw materials procurement. Our bank and other loans remained relatively stable at RMB394.9 million as of December 31, 2022 and RMB383.4 million as of March 31, 2023. Our bank and other loans decreased significantly from RMB383.4 million as of March 31, 2023 to RMB3.4 million as of July 31, 2023, primarily due to the decrease in bank loans secured by our property, plant and equipment and land use rights as well as unsecured bank loans, as we repaid such short-term loans.

The effective interest rates of our bank and other loans generally ranged from approximately 3.4% to 7.3% per annum during the Track Record Period. Our bank loans guaranteed by related parties were guaranteed by Mr. Wang, Mr. Shu Minghe and his wife, Ms. Zhao Shulan, Mr. Zhao Wenchen and his wife, Ms. Zhao Shujuan and Ms. Zhao, and the guarantee period was generally within one year. All guarantees provided by the related parties for our Group's bank loans had been released as of March 31, 2023. See Note 21 of Appendix I to this prospectus. All non-trade nature loans due from or to related parties have been fully settled before December 31, 2022.

Our borrowings contain standard terms, conditions and covenants that are customary for commercial bank loans. Our Directors confirm that we had neither material defaults in payment of trade and non-trade payables and loans and borrowings, nor any breach of financial covenants during the Track Record Period and up to the Latest Practicable Date which would impact our ability to undertake additional debt financing.

Lease Liabilities

The following table sets out our lease liabilities as of the dates indicated:

	As of December 31,			As of	As of
	2020	2021	2022	March 31,	July 31,
	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>	<i>RMB'000</i>

Total	12,802	16,015	20,006	17,143	25,511

FINANCIAL INFORMATION

Our lease liabilities increased by 25.1% from RMB12.8 million as of December 31, 2020 to RMB16.0 million as of December 31, 2021, primarily due to the increased number of leased properties to satisfy our business expansion needs. Our lease liabilities increased by 24.9% from RMB16.0 million as of December 31, 2021 to RMB20.0 million as of December 31, 2022, primarily due to the increased number of leased properties to satisfy our business expansion needs. Our lease liabilities decreased by 14.3% from RMB20.0 million as of December 31, 2022 to RMB17.1 million as of March 31, 2023, primarily because we paid our rent in the three months ended March 31, 2023. Our lease liabilities increased by 48.8% from RMB17.1 million as of March 31, 2023 to RMB25.5 million as of July 31, 2023, primarily due to the increased number of leased properties to satisfy our production needs.

CONTINGENT LIABILITIES

As of December 31, 2020, 2021, 2022 and March 31, 2023, we did not have any material contingent liabilities. See Note 31 of Appendix I to this prospectus.

CAPITAL COMMITMENTS

The following table sets out the details of our capital commitments as of the dates indicated:

Contracted for	<u>147,607</u>	<u>182,114</u>	<u>115,186</u>	<u>95,042</u>

CAPITAL EXPENDITURES

Our payments for capital expenditures in 2020, 2021, 2022 and the three months ended March 31, 2023 were RMB177.7 million, RMB357.4 million, RMB354.3 million and RMB71.7 million, respectively, which were all payments for purchase of property, plant and equipment and land-use-rights. We funded our capital expenditure requirements during the Track Record Period mainly from cash generated from operations. We intend to fund our future capital expenditures and long-term investments with a combination of operating cashflow, equity and debt financing and net proceeds received from the Global Offering. See “Future Plans and Use of Proceeds.” We may reallocate the fund to be utilized on capital expenditure based on our ongoing business needs.

FINANCIAL INFORMATION

OFF-BALANCE SHEET COMMITMENTS AND ARRANGEMENTS

As of the Latest Practicable Date, we had not entered into any off-balance sheet arrangements.

MATERIAL RELATED PARTY TRANSACTIONS

We purchased paddy from entities controlled by our equity shareholders of RMB30.0 million, RMB102.5 million and RMB6.5 million in 2020, 2021 and 2022, respectively. The purchase amount increased from RMB30.0 million in 2020 to RMB102.5 million in 2021, primarily due to the increase in our purchase of paddy from the farmers cooperatives which specifically offered Wuchang rice to meet the needs of our business expansion. We purchased paddy from these farmers cooperatives instead of purchasing from individual farmers directly mainly to improve procurement efficiency. These farmers cooperatives worked as facilitators for the procurement of paddy from the individual farmers. These farmers cooperatives had all been dissolved in 2022. The purchase amount decreased from RMB102.5 million in 2021 to RMB6.5 million in 2022, primarily due to the close of business of certain farmers cooperatives controlled by our related parties. Our purchases from related parties during the Track Record Period were negotiated on normal commercial terms, including pricing and credit terms, which were comparable to our purchases from independent suppliers.

For details about our related party transactions during the Track Record Period, see Note 30 of Appendix I to this prospectus.

Our Directors believe that our transactions with related parties during the Track Record Period were conducted on an arm's length basis, and did not distort our results of operations or make our historical results not reflective of our future performance.

FINANCIAL RISK DISCLOSURE

We have adopted risk management program focused on minimizing potential adverse effects of the unpredictability of financial markets as we are exposed to a variety of financial risks, including credit risk, liquidity risk, interest rate risk, currency risk and fair value measurement risk. See Note 28 of Appendix I to this prospectus.

Credit Risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to our Group. Our Group's credit risk is primarily attributable to trade receivables. Our Group's exposure to credit risk arising from cash and cash equivalents and bills receivables is limited because the counterparties are banks and financial institutions with high credit standing, for which our Group is considered to have low credit risk.

Our Group does not provide any guarantees which would expose our Group to credit risk.

FINANCIAL INFORMATION

Our Group has established a credit risk management policy under which individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Normally, our Group does not obtain collateral from customers.

Our Group has no significant concentration of credit risk in industries in which the customers operate. Significant concentrations of credit risk primarily arise when our Group has significant exposure to individual customers. As of December 31, 2020, 2021, and 2022 and March 31, 2023, 46%, 36% and 27% and 18% of the total trade receivables, respectively, were due from our Group's largest debtor, and 72%, 84%, 74% and 60% of the total trade receivables, respectively, were due from our Group's five largest debtors. Our Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As our Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between our Group's different customer bases.

The following table sets out information about our Group's exposure to credit risk and ECLs for trade receivables as of December 31, 2020, 2021, and 2022 and March 31, 2023:

FINANCIAL INFORMATION

Expected loss rates are based on actual loss experience over the past recent years. These rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and our Group's view of economic conditions over the expected lives of the receivables.

Movements in the loss allowance account in respect of trade receivables during the Track Record Period are as follows:

Balance as of December 31/March 31	<u>443</u>	<u>1,559</u>	<u>3,232</u>	<u>2,528</u>

Liquidity Risk

The treasury function is centrally managed by our Group, which includes the short-term investment of cash surpluses and the raising of funds to cover expected cash demands. Our Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions and investors to meet its liquidity requirements in the short and longer term. For the remaining contractual maturities of our financial liabilities as of December 31, 2020, 2021, 2022 and March 31, 2023, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at the end of each period) and the earliest date our Group can be required to pay, see Note 28(b) of Appendix I to this prospectus.

In addition to the above, our Group was also exposed to liquidity risk arising from financial instruments issued to investors as of December 31, 2020, 2021, 2022 and March 31, 2023.

FINANCIAL INFORMATION

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our Group's interest rate risk arises primarily from interest-bearing borrowings issued at variable rates and at fixed rates, which expose our Group to cash flow interest rate risk and fair value interest rate risk, respectively.

As of December 31, 2020, 2021, 2022 and March 31, 2023, it is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would have decreased/increased our Group's profit after tax and retained profits by approximately RMB50.0 thousand, nil, RMB1,201.0 thousand and RMB2,000.0 thousand, respectively.

Currency Risk

Our Group is not exposed to significant foreign currency risk since financial assets and liabilities denominated in currencies other than the functional currencies of our Company and its subsidiaries are not significant.

Fair Value Measurement

We measure fair value of financial instruments using the three-level fair value hierarchy as defined in IFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as discussed in “– Material Accounting Policy Information and Estimates – Investments in Debt and Equity Securities – Fair Value Measurement.”

DIVIDENDS

We declared and paid RMB50.0 million, nil, RMB200.0 million and nil dividends to the shareholders in 2020, 2021, 2022 and the three months ended March 31, 2023, respectively.

We currently intend to adopt, after our Listing, a general annual dividend policy of declaring and paying dividends on an annual basis of no less than 20% of our distributable net profit in the future. Any future declarations and payments of dividends will depend on our actual and expected results of operations, cash flow and financial position, general business conditions and business strategies, expected working capital requirements and future expansion plans, legal, regulatory and other contractual restrictions, and other factors which we consider relevant. A decision to declare and pay any dividends would required the approval of the Board and will be subject to Shareholder's final approval. No dividend shall be declared or payable except out of our profits and reserves lawfully available for distribution. Any future net profit that we make will have to be first applied to make up for our historically accumulated losses, after which we will be obliged to allocate 10% of our net profit to our statutory common reserve fund until such fund has reached more than 50% of our registered capital.

FINANCIAL INFORMATION

During the Track Record Period, our Company generally made resolutions to distribute dividends based on the most recent audited annual or interim financial statements. According to our Company's audited interim financial statements for the six months ended June 30, 2022, our Company had retained profits after drawing reserves and cash and cash equivalents to declare and pay dividends. The dividends were declared and paid by our Company pursuant to the board resolution and shareholders resolution made in September 2022. The PRC Legal Adviser is of the view that our Company could declare and pay dividends while it has retained profits after drawing reserves according to the PRC Company Law.

WORKING CAPITAL CONFIRMATION

Taking into account the financial resources available to us including our cash and cash equivalents on hand, the available banking facilities and the estimated net proceeds from the Global Offering, our Directors are of the view that we have available sufficient working capital to meet our present requirements and for at least the next 12 months from the date of this prospectus. Our net cash used in operating activities was RMB495.2 million in 2021. Our net cash generated from operating activities was RMB90.2 million, RMB177.2 million and RMB307.0 million in 2020, 2022 and the three months ended March 31, 2023. Our Directors confirm that we had neither material defaults in payment of trade and non-trade payables and loans and borrowings, nor any breach of financial covenants during the Track Record Period and up to the Latest Practicable Date which would impact our ability to undertake additional debt financing.

DISTRIBUTABLE RESERVES

As of March 31, 2023, we had no distributable reserves on the Group level.

LISTING EXPENSES

Listing expenses consist of professional fees, underwriting commissions and other fees incurred in connection with the Global Offering. We expect to incur listing expenses of approximately HK\$101.2 million (based on the mid-point of the indicative Offer Price range), which accounts for approximately 13.2% of the gross proceeds from the Global Offering. We estimate the listing expenses to consist of approximately HK\$29.0 million in underwriting fees and HK\$72.1 million in non-underwriting fees. Among of the total listing expenses, approximately HK\$40.8 million will be directly attributable to the issue of our Shares, which will be deducted from equity upon the completion of the Global Offering, and the remaining HK\$60.3 million will be expensed in our consolidated statements of profit or loss and other comprehensive income. Our Directors do not expect such expenses to materially impact our results of operations in 2023.

FINANCIAL INFORMATION

The following table sets forth the breakdown of listing expenses by nature:

Listing fee breakdown	Total Amount
	<i>(HKD in millions)</i>
Underwriting-related expenses	29.0
Non-underwriting-related expenses	72.1
Fees and expenses of legal advisors and the reporting accountants	35.8
Other fees and expenses	36.3

UNAUDITED PRO FORMA STATEMENT OF ADJUSTED NET TANGIBLE ASSETS

The following is an illustrative and pro forma statement of our adjusted consolidated net tangible assets, which has been prepared in accordance with Rule 4.29 of the Listing Rules and on the basis of the notes set out below for the purpose of illustrating the effect of the Global Offering on our consolidated net tangible liabilities attributable to equity shareholders of our Company as of March 31, 2023 as if Global Offering had taken place on March 31, 2023. The unaudited pro forma statement of adjusted consolidated net tangible assets has been prepared for illustrative purposes only and, because of its hypothetical nature, it may not give a true picture of our financial position had the Global Offering been completed as of March 31, 2023 or at any future date.

Notes:

- (1) The consolidated net tangible liabilities attributable to our equity shareholders as of March 31, 2023 is calculated based on the consolidated total deficits attributable to our equity shareholders of RMB91,483,000 as of March 31, 2023, which is extracted from Appendix I to this prospectus.

FINANCIAL INFORMATION

- (2) The estimated net proceeds from the Global Offering are based on the indicative Offer Prices of HK\$13.0 per H Share (being the minimum Offer Price) and HK\$15.8 per H Share (being the maximum Offer Price) and 53,407,500 H Shares expected to be issued under the Global Offering, after deduction of the underwriting fees and other related expenses paid or payable by us (excluding the listing expenses that have been charged to profit or loss up to March 31, 2023). The estimated net proceeds of the Global Offering have been converted to RMB at the PBOC rate of HK\$1.0000 to RMB0.9186 prevailing on September 13, 2023. No representation is made that Hong Kong dollar amounts have been, could have been or may be converted to Renminbi, or vice versa, at that rate or at any other rate.
- (3) As of March 31, 2023, the carrying amount of the financial instruments issued to investors was RMB2,720,926,000 which was related to redemption rights issued to investors (as set out in Note 22 of Appendix I to this prospectus). Upon qualified initial public offering, the redemption rights will automatically expire, and the financial instruments issued to investors will be reclassified from liabilities to equity accordingly.
- (4) The unaudited pro forma adjusted net tangible assets per Share is arrived at after the above adjustments and on the basis that 1,068,153,150 Shares were in issue immediately following the completion of the Global Offering and the Share Split upon Listing on a one-for-ten basis.
- (5) The unaudited pro forma adjusted net tangible assets per Share amounts in Renminbi are converted to Hong Kong dollar with the PBOC rate of RMB0.9186 to HK\$1.0000 prevailing on September 13, 2023. No representation is made that Renminbi amounts have been, could have been or may be converted to Hong Kong dollar, or vice versa, at that rate or at any other rate.
- (6) No adjustment has been made to reflect any trading result or other transactions of our Group entered into subsequent to March 31, 2023.

NO MATERIAL ADVERSE CHANGE

Our Directors have confirmed that, up to the date of this prospectus, there has been no material adverse change in our financial or trading position or prospects since March 31, 2023, and there has been no event since March 31, 2023 that would materially affect the information as set out in Appendix I to this prospectus.

DISCLOSURE UNDER RULES 13.13 TO 13.19 OF THE LISTING RULES

Our Directors confirm that, as of the Latest Practicable Date, there was no circumstance that would give rise to a disclosure requirement under Rules 13.13 to 13.19 of the Listing Rules.

FUTURE PLANS AND USE OF PROCEEDS

FUTURE PLANS

See “Business – Our Strategies” for a detailed discussion of our future plans.

USE OF PROCEEDS

We estimate that we will receive net proceeds of approximately HK\$667.9 million from the Global Offering, after deducting the underwriting fees and commissions and estimated expenses payable by us in connection with the Global Offering, assuming the Offer Price of HK\$14.40 per Offer Share (being the mid-point of the Offer Price range stated in this prospectus).

Assuming that the Offer Price is fixed at HK\$14.40 per Offer Share (being the mid-point of the indicative Offer Price range), we intend to use the net proceeds from the Global Offering for the following purposes:

- Approximately 35.0%, or HK\$233.8 million, will be used to enhance our cooperation with suppliers and strengthen our procurement capability. In particular:
 - (i) approximately 20%, or HK\$133.6 million, will be used to (a) strengthen seamless cooperation with our existing and new suppliers, mainly located in our five core production areas, namely Shenyang Xinmin, Wuchang, Songyuan, Tonghe and Aohan, primarily through payment of deposit to secure consistent and quality supply of raw materials for us, as well as (b) investment and support in facilities, systems and technologies that would further improve the efficiency of our integrated supply chain, such as the harvest and transportation of raw materials. In the next three years, we plan to collaborate with approximately 7 additional raw material producers and farmers cooperatives of paddy and rice for our rice products and approximately 20 additional raw material producers and farmers cooperatives of whole grain, bean and other raw materials for our whole grain, bean, and dried food products and other potential new product categories. We plan to establish a framework cooperation agreement with our suppliers. As part of such agreement, we plan to pay deposit of generally no more than RMB5 million per supplier to selected suppliers who provide high quality raw materials to secure fixed amount of supply annually. We may also negotiate with larger suppliers and pay higher deposit if required for securing supplies of high-quality raw materials on a case-by-case basis. Such deposit can be utilized to offset our purchase payments and should be replenished once depleted. We have adopted such approach to secure stable supply during the Track Record Period, which is in line with industry practice according to Frost & Sullivan. We plan to keep such practice to continuously secure a stable supply of high quality raw materials as our business continues to grow; See “Business – Raw Materials, Packaging Materials and Major Suppliers – Our Raw Materials;”

FUTURE PLANS AND USE OF PROCEEDS

- (ii) approximately 10%, or HK\$66.8 million, will be used for contract farming for (i) procurement amount of approximately 28,300 tons of paddy in terms of production volume and (ii) farming area of approximately 720 farming hectare with expected yield of approximately 4,790 tons of paddy in terms of agricultural land area. See “Business – Raw Materials, Packaging Materials and Major Suppliers – Our Raw Materials.” Specifically, we plan to lease agricultural lands across five regions, namely, Shenyang, Wuchang, Tonghe, Aohan and Songyuan, with suitable features and conditions for grains and further sub-lease such lands to, provide required equipment, workforce or other materials for, offer relevant know-hows and guidances, such as quality control and quality inspection measures, to, local farmers to carry out agricultural production. We will also implement supplier management system with local farmers to provide technical support and facilitate communication. In return, we will undertake to procure the grains at specified quality and price in pursuant to relevant contracts. Our planned contract farming focuses primarily in Wuchang given it is one of the most superior production areas for rice products with national A-class air quality and fertile black soil. We believe such approach will help us to establish strong presence in renowned places of origin for grains with favorable geographical features and climatic conditions. Meanwhile, we believe we will be able to secure high quality grains under this approach as we intend to provide required production materials and guidance for such local farmers we work with; and
 - (iii) approximately 5%, or HK\$33.4 million, will be used to further enhance our internal procurement capabilities. In particular, (a) approximately 4.5%, or HK\$30.1 million will be used to expand our procurement workforce to secure consistent and quality supply of grains from renowned places of origin for grains. To this end, we plan to hire both experienced employees with profound knowledge and experience for establishing standards for procurement, quality control and quality inspection as well as local staff to leverage their know-hows of the local market. In the next three years, we plan to hire approximately 18, 8 and 7 employees for procurement, quality inspection and quality control, respectively; and (b) approximately 0.5%, or HK\$3.3 million will be used to further build and digitalize our supplier relationship management system and quality control system.
- Approximately 30.0%, or HK\$200.4 million, will be used for expanding our production capacity, upgrading existing production lines, broadening the geographic coverage of our warehousing and logistics, and providing funds for production activities related to our business expansion. See “Business – Our Production – Our Production Expansion Plan.” In particular:
 - (i) approximately 14.1%, or HK\$94.3 million, will be used for expanding our production capacity, including construction of new factories, establishment of new production and processing lines, and purchase of equipment, to better meet growing market demand for our products;

FUTURE PLANS AND USE OF PROCEEDS

- (ii) approximately 1.5%, or HK\$10.2 million, will be used for upgrading existing production lines through adoption of more advanced equipment and improved techniques to enhance production efficiency;
- (iii) approximately 13.9%, or HK\$92.7 million, will be used for broadening the geographic coverage of our warehousing and logistics, including expansion of warehouse facilities, purchase of warehouse equipment, establishment of logistics bases and introduction of advanced logistics equipment and systems, to optimize our inventory management, improve warehousing capabilities and enhance logistical efficiency; and
- (iv) approximately 0.5%, or HK\$3.2 million, will be used to fund for production activities related to our business expansion such as factory renovation and procurement of related facilities associated with capacity expansion to further support capacity expansion and improve overall operational efficiency.

The overall size of the pantry staple food market in the PRC has been steadily expanding, and is expected to reach RMB2,195.7 billion by 2027, with a CAGR of 3.3% from 2022 to 2027, according to Frost & Sullivan. In particular, according to the same source, in terms of revenue, the market size of China's pre-packaged retail market for Northeast Rice products is expected to reach RMB58.0 billion in 2027, representing a CAGR of 9.9% from 2022 to 2027. As a leading pantry staple food company, we plan to seize the market potentials by expanding our production capacity with expected completion time ranging from 2024 to 2026 in parallel to such market demand growth, taking into consideration the future business development strategy and market demand estimation.

Despite a production capacity utilization rate of 66.3%, 59.3%, 51.4%, 38.3% and 43.6% during the Track Record Period with a decreasing trend in 2020 to 2022 primarily as the result of our expansion of designed production capacity and the temporary impact of the COVID-19 Outbreak, we still face inadequate production capacity during peak seasons, primarily due to production fluctuations caused by the seasonal harvest of raw materials and sales peak seasons such as Chinese New Year. We plan to continuously expand our internal production capacities to meet the market demand growth. Expanding production capacity would enable us to effectively manage seasonal fluctuations in production demand. Furthermore, with the phase-out of the COVID-19 Outbreak, our production capacity utilization rate is expected to steadily increase over the next few years.

While we can cooperate with OEMs and have cooperated with OEMs in the Track Record Period to address short-term demand surges and certain of our customers' demands for products manufactured with paddies from designated regions, we believe expanding in-house production capabilities is crucial in the long run to maintain quality control over production processes and supply chain, as well as to better meet growing customer demand.

FUTURE PLANS AND USE OF PROCEEDS

In addition, the decreasing trend of our production utilization rate from 2020 to 2022 was primarily attributable to the decrease in our production utilization rate for rice products during the same period. Our production expansion plan as well as allocation of the expected net proceeds from the Global Offering also include expansion of production capacities for whole grain, bean and other products.

In consideration of the above, we believe expansion of production capacity is necessary for our development. The expected investment for production capacity expansion amounted to RMB1,042.8 million with the shortfall amount being funded through our own working capital on a pro rata basis. See “Business – Our Production – Our Production Expansion Plan.”

We plan to invest in new production facilities, purchase production equipment, increase warehousing facilities and fund associated expenses at our existing and planned production bases. Specifically, we plan to further increase processing lines for rice, whole grain, bean and other products, and continue to introduce advanced production equipment and techniques to enhance the automation level of production lines so that we can further improve our production capacity and production efficiency, thereby ensuring the supply of our premium products and reducing production costs. We believe such expansion can effectively support us to continuously enhance our industrial integration and further amplify our supply chain advantages, enabling us to continuously provide premium pantry staple food products. The following table sets forth the specific uses we plan to invest in at our five production bases:

<u>Location</u>	<u>Specific use</u>
Shenyang Xinmin production base	rice production and processing equipment, storage facilities including warehouses and temperature-controlled systems, whole grain production plants, whole grain processing equipment, cool store, one-stop distribution center, other building support facilities, etc.
Wuchang production base	production and processing equipment for rice and glutinous rice, drying facilities, warehouses and related storage facilities, whole grain production plants, whole grain processing equipment, cool store, other building support facilities, etc.
Songyuan production base	rice production and processing equipment, whole grain production plants, whole grain processing equipment, warehouses and related storage facilities, other building support facilities, etc.
Tonghe production base	rice production and processing equipment, whole grain production plants, whole grain processing equipment, warehouses and related storage facilities, other building support facilities, etc.

We plan to deepen our cooperation with large offline retailers such as national and regional supermarkets, amplify our presence over the e-commerce platforms with leading positions, explore opportunities in emerging e-commerce platforms and broaden our distribution network on China, thereby improving the visibility and accessibility of our products to existing and potential customers across the country. In particular:<ul style="list-style-type: none">(i) approximately 3.0%, or HK\$20.0 million, will be used to continuously enhance our cooperation with grocery retail channel partners such as national and regional supermarkets and increase consumer interaction through offline activities, such as product display, product tasting, and sales promotion, to enhance consumer education and improve brand loyalty; and(ii) approximately 7.0%, or HK\$46.8 million, will be used to invest in channels other than grocery retail channel partners, including leveraging the advantages of the consumer reach, and brand awareness of e-commerce platforms to enhance our service capabilities in such channels, and to explore new e-commerce platforms to expand our market coverage, operate efficiently, harness more profitability potentials and explore new cooperation opportunities in emerging channels such as social e-commerce platforms and community group buying platforms. In addition, we also plan to expand our distribution network to enhance market presence and deepen market penetration.• Approximately 10.0%, or HK\$66.8 million, will be used to enhance our brand equity. A quality and diversified product offerings are the key to our high brand recognition. As we increase our efforts on the development of products, consumers need time to get used to new products, in particular products under new categories. Thus, we plan to increase our brand marketing efforts on our existing products and potential products to be launched in the future. In particular:<ul style="list-style-type: none">(i) approximately 7.0%, or HK\$46.8 million, will be used for advertising, including content productions, live streaming and promotion on social media platforms, celebrity endorsements, engagement with KOLs and other online and offline integrated promotion activities, to enhance our brand awareness and improve brand impact; and	

FUTURE PLANS AND USE OF PROCEEDS

- (ii) approximately 3.0%, or HK\$20.0 million, will be used to enhance our sales and marketing capabilities and further optimize the efficiency of our sales and marketing promotion.

- Approximately 5.0%, or HK\$33.4 million, will be used to construct our digital middle platform system, which integrates the full digital chain including IT infrastructure, backend, middleware, frontend and touchpoints, to optimize the support for our business management. In particular, the digital middle platform will (i) enhance our consumer insights across different channels and markets, enabling us to respond quickly to market changes, (ii) improve the efficiency of real-time monitoring of our distribution network and retail points of sales to enhance marketing effectiveness, and (iii) improve our warehousing and logistics management to increase delivery efficiency and reduce related expenses. We believe such digital middle platform will be able to improve the accuracy of our forecasts on production volume, sales volume and operation costs, and achieve comprehensive network synergies to strengthen our core competitive edge.

- Approximately 10.0%, or HK\$66.8 million, will be used for working capital and general corporate purposes.

The above allocation of the proceeds will be adjusted on a pro rata basis in the event that the Offer Price is fixed at a higher or lower level compared to the mid-point of the estimated Offer Price range.

If the Offer Price is determined at HK\$15.80 per Offer Share, being the high end of the Offer Price range stated in this prospectus, after deducting the underwriting fees and commissions and estimated expenses payable by us in connection with the Global Offering, we will receive net proceeds of approximately HK\$738.7 million.

If the Offer Price is determined at HK\$13.00 per Offer Share, being the low end of the Offer Price range stated in this prospectus, after deducting the underwriting fees and commissions and estimated expenses payable by us in connection with the Global Offering, we will receive net proceeds of approximately HK\$597.1 million.

We will issue an appropriate announcement if there is any material change to the above proposed use of proceeds.

To the extent that the net proceeds of the Global Offering are not immediately used for the above purposes or if we are unable to effect any part of our future development plans as intended, we will only deposit those net proceeds into interest-bearing short-term accounts at licensed commercial banks and/or other authorized financial institutions (as defined under the Securities and Futures Ordinance, the Law of the People's Republic of China on Commercial Banks (《中華人民共和國商業銀行法》) and other applicable laws in China). In such event, we will comply with the appropriate disclosure requirements under the Listing Rules.

Undertakings by our Company

Our Company, has undertaken to each of the Overall Coordinators, the Joint Global Coordinators, the Joint Sponsors, the Joint Bookrunners, the Joint Lead Managers and the Hong Kong Underwriters that, except pursuant to the Global Offering, at any time after the date of the Hong Kong Underwriting Agreement up to and including the date falling six months from the Listing Date (the “**First Six-Month Period**”), our Company will not, without the prior written consent of the Joint Sponsors and the Overall Coordinators (for themselves and on behalf of the Hong Kong Underwriters) and unless in compliance with the requirements set out in the Listing Rules:

- (i) allot, issue, sell, accept subscription for, offer to allot, issue or sell, contract or agree to allot, issue or sell, mortgage, charge, pledge, hypothecate, hedge, lend, grant or sell any option, warrant, contract or right to subscribe for or purchase, grant or purchase any option, warrant, contract or right to allot, issue or sell, or otherwise transfer or dispose of or create an Encumbrance (as defined in the Hong Kong Underwriting Agreement) over, or contract or agree to transfer or dispose of or create an Encumbrance over, either directly or indirectly, conditionally or unconditionally, any H Shares or other equity securities of our Company, as applicable, or any interest in any of the foregoing (including, without limitation, any securities convertible into or exchangeable or exercisable for or that represent the right to receive, or any warrants or other rights to subscribe or purchase or any H Shares or other equity securities of our Company, as applicable, or any interest in any of the foregoing), or deposit any H Shares or other securities of our Company, as applicable, with a depositary in connection with the issue of depositary receipts; or
- (ii) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of any H Shares or other securities of our Company, as applicable, or any interest in any of the foregoing (including, without limitation, any securities convertible into or exchangeable or exercisable for or that represent the right to receive, or any warrants or other rights to purchase, any H Shares or other securities of our Company, as applicable, or any interest in any of the foregoing); or

UNDERWRITING

- (iii) enter into any transaction with the same economic effect as any transaction specified in sub-paragraph (i) or (ii) above; or
- (iv) offer to or agree to or announce any intention to effect any transaction specified in sub-paragraph (i), (ii) or (iii) above,

in each case, whether any of the transactions specified in sub-paragraph (i), (ii) or (iii) above is to be settled by delivery of H Shares or other equity securities of our Company, as applicable, or in cash or otherwise (whether or not the issue of such H Shares or other equity securities will be completed within the First Six-month Period). In the event that, at any time during the period of six months immediately following the expiry of the First Six-month Period (the “**Second Six-month Period**”), our Company enters into any of the transactions specified in sub-paragraph (i), (ii) or (iii) above or offers to or agrees to or announces any intention to effect any such transaction, our Company shall take all reasonable steps to ensure that it will not create a disorderly or false market in the securities of our Company.

Undertakings from Controlling Shareholders

Each of our Controlling Shareholders agrees and undertakes to each of the Joint Sponsors, the Overall Coordinators and the Hong Kong Underwriters and the Company that subject to the terms of the Hong Kong Underwriting Agreement, without the prior written consent of the Joint Sponsors and the Overall Coordinators (for themselves and on behalf of the Hong Kong Underwriters) and unless in compliance with the requirements of the Listing Rules, he/she/it will not:

- (i) at any time during the First Six-Month Period, sell, offer to sell, contract or agree to sell, mortgage, charge, pledge, hypothecate, lend, grant or sell any option, warrant, contract or right to purchase, grant or purchase any option, warrant, contract or right to sell, or otherwise transfer or dispose of or create an Encumbrance (as defined in the Hong Kong Underwriting Agreement) over, or agree to transfer or dispose of or create an Encumbrance over, either directly or indirectly, conditionally or unconditionally, any H Shares or other securities of our Company or any interest therein (including, without limitation, any securities convertible into or exchangeable or exercisable for or that represent the right to receive, or any warrants or other rights to purchase, any H Shares or any such other securities, as applicable or any interest in any of the foregoing) beneficially owned by him/her/it as at the Listing Date (the “**Locked-up Securities**”), or deposit any H Shares or other securities of our Company with a depository in connection with the issue of depository receipts, or enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of any Locked-up Securities, or enter into any transaction with the same economic effect as any transaction specified above, or offer to or agree to or announce any intention to effect any transaction specified above, in each case, whether any of the transactions specified above is to be settled by delivery of H Shares or other securities of our Company or in cash or otherwise (whether or not the issue of such H Shares or other securities will be completed within the First Six-month Period); and

UNDERWRITING

- (ii) at any time during the Second Six-Month Period, enter into any of the transactions specified in (i) above or offer to or agree to or announce any intention to effect any such transaction if, immediately following any sale, transfer or disposal or upon the exercise or enforcement of any option, right, interest or encumbrance pursuant to such transaction, he/she/it will cease to be a Controlling Shareholder of our Company;

Each of our Controlling Shareholders hereby undertakes to each of our Company, the Joint Sponsors, the Overall Coordinators, the Joint Global Coordinators, the Capital Market Intermediaries, the Joint Bookrunners, the Joint Lead Managers and the Hong Kong Underwriters that, subject to the terms of the Hong Kong Underwriting Agreement and until the expiry of the Second Six-Month Period, in the event that he/she/it enters into any of the transactions specified above or offers to or agrees to or announces any intention to effect any such transaction, he/she/it will take all reasonable steps to ensure that it will not create a disorderly or false market in the securities of our Company.

Indemnity

We and our Controlling Shareholders have agreed to indemnify, among the others, the Joint Sponsors, the Overall Coordinators, the Joint Global Coordinators, the Joint Bookrunners, the Joint Lead Managers and the Hong Kong Underwriters for certain losses which they may suffer, including, amongst others, losses arising from their performance of their obligations under the Hong Kong Underwriting Agreement and any breach by our Company of the Hong Kong Underwriting Agreement.

Hong Kong Underwriters' Interests in our Company

Except for its obligations under the Hong Kong Underwriting Agreement, the Hong Kong Underwriters do not have any shareholding interest in our Company or any right or option (whether legally enforceable or not) to subscribe for or nominate persons to subscribe for securities in our Company or any member of our Group.

Following the completion of the Global Offering, the Hong Kong Underwriters and their affiliated companies may hold a certain portion of the H Shares as a result of fulfilling their obligations under the Hong Kong Underwriting Agreement.

International Offering

International Underwriting Agreement

In connection with the International Offering, it is expected that we will enter into the International Underwriting Agreement with, among others, the International Underwriters. Under the International Underwriting Agreement, subject to the conditions set forth therein, the International Underwriters would agree to purchase, or procure subscribers to purchase, the Offer Shares being offered pursuant to the International Offering (subject to, amongst others,

UNDERWRITING

any reallocation between the International Offering and the Hong Kong Public Offering). It is expected that the International Underwriting Agreement may be terminated on similar grounds as the Hong Kong Underwriting Agreement. Potential investors are reminded that in the event that the International Underwriting Agreement is not entered into, the Global Offering will not proceed.

Commissions and Expenses

Our Company will pay the Underwriters an underwriting commission of 2.8% of the aggregate Offer Price of all the Offer Shares (the “**Fixed Fees**”). Our Company may, at our sole and absolute discretion, pay to any one or more of the Underwriters an incentive fee of up to 2.5% of the Offer Price in respect of all the Offer Shares (the “**Discretionary Fees**”). The ratio of Fixed Fees and Discretionary Fees payable is therefore 53:47 (assuming the basis that the Discretionary Fees will be fully paid). For unsubscribed Hong Kong Offer Shares reallocated to the International Offering, we will pay an underwriting commission at the rate applicable to the International Offering and such commission will be paid to the relevant International Underwriters and not the Hong Kong Underwriters.

The aggregate commissions and fees, together with the listing fees, SFC transaction levy, the Stock Exchange trading fee, AFRC transaction levy, legal and other professional fees and printing and other expenses relating to the Global Offering, which are currently estimated to amount in aggregate to approximately HK\$101.2 million (assuming an Offer Price of HK\$14.4 per Offer Share, being the mid-point of the indicative Offer Price range stated in this prospectus), are payable and borne by our Company.

INDEPENDENCE OF THE JOINT SPONSORS

The Joint Sponsors satisfy the independence criteria applicable to sponsors set out in Rule 3A.07 of the Listing Rules.

ACTIVITIES BY SYNDICATE MEMBERS

The underwriters of the Hong Kong Public Offering and the International Offering (together, the “**Syndicate Members**”) and their affiliates may each individually undertake a variety of activities (as further described below) which do not form part of the underwriting or stabilizing process.

The Syndicate Members and their affiliates are diversified financial institutions with relationships in countries around the world. These entities engage in a wide range of commercial and investment banking, brokerage, funds management, trading, hedging, investing and other activities for their own account and for the account of others. In relation to the H Shares, those activities could include acting as agent for buyers and sellers of the H Shares, entering into transactions with those buyers and sellers in a principal capacity, proprietary trading in the H Shares, and entering into over the counter or listed derivative transactions or listed and unlisted securities transactions (including issuing securities such as

UNDERWRITING

derivative warrants listed on a stock exchange) which have as their underlying assets, assets including the H Shares. Those activities may require hedging activity by those entities involving, directly or indirectly, the buying and selling of the H Shares. All such activity could occur in Hong Kong and elsewhere in the world and may result in the Syndicate Members and their affiliates holding long and/or short positions in the H Shares, in baskets of securities or indices including the H Shares, in units of funds that may purchase the H Shares, or in derivatives related to any of the foregoing.

In relation to issues by Syndicate Members or their affiliates of any listed securities having the H Shares as their underlying securities, whether on the Stock Exchange or on any other stock exchange, the rules of the exchange may require the issuer of those securities (or one of its affiliates or agents) to act as a market maker or liquidity provider in the security, and this will also result in hedging activity in the H Shares in most cases.

Such activities may affect the market price or value of the H Shares, the liquidity or trading volume in the H Shares and the volatility of the price of the H Shares, and the extent to which this occurs from day to day cannot be estimated.

It should be noted that when engaging in any of these activities, the Syndicate Members will be subject to certain restrictions, including the following:

- (a) the Syndicate Members must not, in connection with the distribution of the Offer Shares, effect any transactions (including issuing or entering into any option or other derivative transactions relating to the Offer Shares), whether in the open market or otherwise, with a view to stabilizing or maintaining the market price of any of the Offer Shares at levels other than those which might otherwise prevail in the open market; and
- (b) the Syndicate Members must comply with all applicable laws and regulations, including the market misconduct provisions of the SFO, including the provisions prohibiting insider dealing, false trading, price rigging and stock market manipulation.

No stabilizing manager will be appointed, and it is anticipated that no stabilization activities will be carried out in relation to the Global Offering.

Certain of the Syndicate Members or their respective affiliates have provided from time to time, and expect to provide in the future, investment banking and other services to our Company and its affiliates for which such Syndicate Members or their respective affiliates have received or will receive customary fees and commissions.

STRUCTURE OF THE GLOBAL OFFERING

THE GLOBAL OFFERING

This prospectus is published in connection with the Hong Kong Public Offering as part of the Global Offering. The Global Offering comprises (subject to adjustment):

- (a) the Hong Kong Public Offering of 5,341,200 H Shares (subject to adjustment as mentioned below) for subscription by the public in Hong Kong as described in “– The Hong Kong Public Offering” below; and
- (b) the International Offering of 48,066,300 H Shares outside the United States (including to professional and institutional investors within Hong Kong) in offshore transactions in reliance on Regulation S and in the United States only to QIBs in reliance on Rule 144A or any other available exemption from registration under the U.S. Securities Act as described in “– The International Offering” below.

Investors may apply for the Hong Kong Offer Shares under the Hong Kong Public Offering or indicate an interest, if qualified to do so, for the International Offer Shares under the International Offering, but may not do both.

The Offer Shares will represent approximately 5.0% of the enlarged issued share capital of our Company immediately after completion of the Global Offering.

The Hong Kong Public Offering is open to members of the public in Hong Kong as well as to institutional and professional investors in Hong Kong. The International Offering will involve selective marketing of the International Offer Shares to institutional and professional investors and other investors expected to have a sizeable demand for the International Offer Shares in Hong Kong and other jurisdictions outside the United States in reliance on Regulation S. The International Underwriters are soliciting from prospective investors’ indications of interest in acquiring the International Offer Shares under the International Offering. Prospective investors will be required to specify the number of International Offer Shares under the International Offering they would be prepared to acquire either at different prices or at a particular price.

References in this prospectus to applications, **GREEN** Application Form, application monies or the procedure for application relate solely to the Hong Kong Public Offering.

The number of Offer Shares to be offered under the Hong Kong Public Offering and the International Offering, respectively, may be subject to reallocation as described in “– The Hong Kong Public Offering – Reallocation” below.

STRUCTURE OF THE GLOBAL OFFERING

THE HONG KONG PUBLIC OFFERING

Number of Hong Kong Offer Shares Initially Offered

We are initially offering 5,341,200 H Shares for subscription by the public in Hong Kong at the Offer Price, representing approximately 10.0% of the total number of the Offer Shares initially available under the Global Offering. Subject to the reallocation of the Offer Shares between the International Offering and the Hong Kong Public Offering, the Hong Kong Offer Shares will represent approximately 0.5% of the enlarged issued share capital of our Company immediately following the completion of the Global Offering.

The Hong Kong Public Offering is open to members of the public in Hong Kong as well as to institutional and professional investors. Professional investors generally include brokers, dealers, and companies (including fund managers) whose ordinary business involves dealing in shares and other securities, and corporate entities which regularly invest in shares and other securities.

Completion of the Hong Kong Public Offering is subject to the conditions as set forth in “– Conditions of the Global Offering” below.

Allocation

Allocation of the Offer Shares to investors under the Hong Kong Public Offering will be based solely on the level of valid applications received under the Hong Kong Public Offering. The basis of allocation may vary, depending on the number of Hong Kong Offer Shares validly applied for by applicants. Such allocation could, where appropriate, consist of balloting, which would mean that some applicants may receive a higher allocation than the others who have applied for the same number of the Hong Kong Offer Shares, and those applicants who are not successful in the ballot may not receive any Hong Kong Offer Shares.

For allocation purpose only, the total number of the Offer Shares initially available under the Hong Kong Public Offering (after taking into account any adjustment in the number of the Offer Shares allocated between the Hong Kong Public Offering and the International Offering) is to be divided into two pools: Pool A and Pool B. Accordingly, the maximum number of Hong Kong Offer Shares initially in Pool A and Pool B will be 2,670,600 and 2,670,600, respectively. The Hong Kong Offer Shares in Pool A will be allocated on an equitable basis to applicants who have applied for Hong Kong Offer Shares with an aggregate price of HK\$5 million (excluding the brokerage, SFC transaction levy, AFRC transaction levy and the Stock Exchange trading fee payable) or less. The Hong Kong Offer Shares in Pool B will be allocated on an equitable basis to applicants who have applied for Hong Kong Offer Shares with an aggregate price of more than HK\$5 million (excluding the brokerage, SFC transaction levy, AFRC transaction levy and the Stock Exchange trading fee payable).

STRUCTURE OF THE GLOBAL OFFERING

Investors should be aware that applications in Pool A and applications in Pool B may receive different allocation ratios. If the Hong Kong Offer Shares in one (but not both) of the pools are under-subscribed, the surplus Hong Kong Offer Shares will be transferred to the other pool to satisfy demand in that other pool and be allocated accordingly. For the purpose of this paragraph only, the “price” for the Offer Shares means the price payable on application therein (without regard to the Offer Price as finally determined). Applicants can only receive an allocation of the Hong Kong Offer Shares from either Pool A or Pool B but not from both pools.

Multiple or suspected multiple applications and any application for more than 2,670,600 Hong Kong Offer Shares (being 50% of the 5,341,200 Hong Kong Offer Shares initially available under the Hong Kong Public Offering) are liable to be rejected.

No over-allotment option will be granted to the Overall Coordinators or other Underwriters.

Reallocation

The allocation of the Offer Shares between the Hong Kong Public Offering and the International Offering is subject to adjustment. Paragraph 4.2 of Practice Note 18 of the Listing Rules requires a clawback mechanism to be put in place which would have the effect of increasing the number of the Offer Shares under the Hong Kong Public Offering to a certain percentage of the total number of the Offer Shares offered under the Global Offering if the International Offer Shares are fully subscribed or oversubscribed and certain prescribed total demand levels are reached as further described below:

- if the number of Offer Shares validly applied for under the Hong Kong Public Offering represents 15 times or more but less than 50 times the number of Offer Shares initially available for subscription under the Hong Kong Public Offering, then Offer Shares will be reallocated to the Hong Kong Public Offering from the International Offering so that the total number of Offer Shares available under the Hong Kong Public Offering will be 16,022,400 H Shares, representing approximately 30% of the Offer Shares initially available under the Global Offering;
- if the number of Offer Shares validly applied for under the Hong Kong Public Offering represents 50 times or more but less than 100 times the number of Offer Shares initially available for subscription under the Hong Kong Public Offering, then the number of Offer Shares to be reallocated to the Hong Kong Public Offering from the International Offering will be increased so that the total number of Offer Shares available under the Hong Kong Public Offering will be 21,363,000 H Shares, representing 40% of the Offer Shares initially available under the Global Offering; and
- if the number of Offer Shares validly applied for under the Hong Kong Public Offering represents 100 times or more the number of Offer Shares initially available for subscription under the Hong Kong Public Offering, then the number of Offer

STRUCTURE OF THE GLOBAL OFFERING

Shares to be reallocated to the Hong Kong Public Offering from the International Offering will be increased so that the total number of Offer Shares available under the Hong Kong Public Offering will be 26,704,200 H Shares, representing approximately 50% of the Offer Shares initially available under the Global Offering.

In addition, the Offer Shares to be offered in the Hong Kong Public Offering and the International Offering may, in certain circumstances, be reallocated as between these offerings at the discretion of the Overall Coordinators. In accordance with Guidance Letter HKEX-GL91-18 issued by the Stock Exchange, if such reallocation is done other than pursuant to Practice Note 18 of the Listing Rules for:

- if the International Offer Shares are fully subscribed or oversubscribed, and the number of Offer Shares validly applied for under the Hong Kong Public Offering represents less than 15 times the number of the Offer Shares initially available for subscription under the Hong Kong Public Offering
- if the International Offer Shares are undersubscribed, and the Hong Kong Offer Shares are fully subscribed or oversubscribed (irrespective of the extent of over-subscription)

the maximum total number of H Shares that may be reallocated to the Hong Kong Public Offering shall be not more than 10,682,400 H Shares, representing two times the number of Hong Kong Offer Shares initially available under the Hong Kong Public Offering and approximately 20% of the number of Offer Shares initially available under the Global Offering; and the final Offer Price shall be fixed at HK\$13.0 per Offer Share, the low-end of the Offer Price range stated in this prospectus.

In each case, the additional Offer Shares reallocated to the Hong Kong Public Offering will be allocated between Pool A and Pool B and the number of Offer Shares allocated to the International Offering will be correspondingly reduced in such manner as the Overall Coordinators in their sole discretion consider appropriate.

If the Hong Kong Public Offering is not fully subscribed, the Overall Coordinators may reallocate all or any unsubscribed Hong Kong Offer Shares to the International Offering, in such proportions as the Overall Coordinators deem appropriate. However, if neither the Hong Kong Public Offering nor the International Offering is fully subscribed, the Global Offering will not proceed unless the Underwriters would subscribe or procure subscribers for respective applicable proportions of the Offer Shares being offered which are not taken up under the Global Offering on the terms and conditions of this prospectus and the Underwriting Agreements.

STRUCTURE OF THE GLOBAL OFFERING

Applications

Each applicant under the Hong Kong Public Offering will also be required to give an undertaking and confirmation in the **GREEN** Application Form submitted by him/her that he/she and any person(s) for whose benefit he/she is making the application have not applied for or taken up, or indicated an interest for, and will not apply for or take up, or indicate an interest for, any Offer Shares under the International Offering, and such applicant's application is liable to be rejected if the said undertaking and/or confirmation is breached and/or untrue (as the case may be) or it has been or will be placed or allocated Offer Shares under the International Offering.

Applicants under the Hong Kong Public Offering are required to pay, on application, the maximum Offer Price of HK\$15.8 per Offer Share in addition to the brokerage, SFC transaction levy, AFRC transaction levy and the Stock Exchange trading fee payable on each Offer Share. If the Offer Price, as finally determined in the manner described in “– Pricing and Allocation” below, is less than the maximum price of HK\$15.8 per Offer Share, appropriate refund payments (including the brokerage, SFC transaction levy, AFRC transaction levy and the Stock Exchange trading fee attributable to the surplus application monies) will be made to successful applicants, without interest. Further details are set out below in “How to Apply for Hong Kong Offer Shares.”

THE INTERNATIONAL OFFERING

Number of International Offer Shares Initially Offered

Subject to reallocation as described in this section, the International Offering will consist of an initial offering of 48,066,300 Offer Shares, representing approximately 90% of the total number of Offer Shares initially available under the Global Offering subject to the reallocation of Offer Shares between the International Offering and the Hong Kong Public Offering.

Allocation

The International Offering will include selective marketing of the Offer Shares to institutional and professional investors and other investors anticipated to have a sizeable demand for such Offer Shares. Professional investors generally include brokers, dealers, companies (including fund managers) whose ordinary business involves dealing in shares and other securities and corporate entities which regularly invest in shares and other securities. Allocation of the Offer Shares pursuant to the International Offering will be effected in accordance with the “book-building” process described in “– Pricing and Allocation” and based on a number of factors, including the level and timing of demand, the total size of the relevant investor's invested assets or equity assets in the relevant sector and whether or not it is expected that the relevant investor is likely to buy further Offer Shares, and/or hold or sell its Offer Shares, after the listing of the Offer Shares on the Stock Exchange. Such allocation is intended to result in a distribution of the International Offer Shares on a basis which would lead to the establishment of a solid professional and institutional shareholder base to the benefit of our Company and its Shareholders as a whole.

STRUCTURE OF THE GLOBAL OFFERING

The Overall Coordinators (for themselves and on behalf of the International Underwriters) may require any investor who has been offered the International Offer Shares under the International Offering, and who has made an application under the Hong Kong Public Offering, to provide sufficient information to the Overall Coordinators so as to allow them to identify the relevant applications under the Hong Kong Public Offering and to ensure that they are excluded from any application of the Offer Shares under the Hong Kong Public Offering.

Reallocation

The total number of the Offer Shares to be issued or sold pursuant to the International Offering may change as a result of the reallocation arrangement described in “– The Hong Kong Public Offering – Reallocation” any reallocation of unsubscribed Offer Shares originally included in the Hong Kong Public Offering to the International Offering.

PRICING AND ALLOCATION

The International Underwriters will be soliciting from prospective investors indications of interest in acquiring the Offer Shares in the International Offering. Prospective professional and institutional investors will be required to specify the number of Offer Shares under the International Offering they would be prepared to acquire either at the Offer Price. This process, known as “book-building,” is expected to continue up to, and to cease on or about, the last day for lodging applications under the Hong Kong Public Offering.

The Offer Price is expected to be fixed by agreement between our Company and the Overall Coordinators (for themselves and on behalf of the Underwriters) on the Price Determination Date, which is expected to be on or about Thursday, October 5, 2023 and in any event no later than Friday, October 6, 2023 by agreement among the Overall Coordinators (on behalf of the Underwriters) and our Company. The number of Offer Shares to be allocated under the various offerings will be determined shortly thereafter.

The Offer Price will not be more than HK\$15.8 per Offer Share and is expected to be not less than HK\$13.0 per Offer Share unless otherwise announced, as further explained below, not later than the morning of the last day for lodging applications under the Hong Kong Public Offering. **Prospective investors should be aware that the Offer Price to be determined on the Price Determination Date may be, but is not expected to be, lower than the indicative Offer Price range stated in this prospectus.**

If, for any reason, the Offer Price is not agreed between the Overall Coordinators (for themselves and on behalf of the Underwriters) and us by Friday, October 6, 2023 the Global Offering will not proceed and will lapse.

STRUCTURE OF THE GLOBAL OFFERING

Reduction in Offer Price range and/or number of Offer Shares

If, based on the level of interest expressed by prospective institutional, professional and other investors during the book-building process, the Overall Coordinators (on behalf of the Underwriters) considers it appropriate and together with our Company's consent, the number of Offer Shares and/or the indicative Offer Price range may be reduced below that stated in this prospectus at any time prior to the morning of the last day for lodging applications under the Hong Kong Public Offering.

In such a case, our Company will as soon as practicable following the decision to make any such reduction, and in any event not later than the morning of the last day for lodging applications under the Hong Kong Public Offering:

- (a) issue a supplemental prospectus, as the relevant laws or government authority or regulatory authorities may require as soon as practicable following the decision to make the change, updating investors of the change in the indicative Offer Price together with an update of all financial and other information in connection with such change;
- (b) extend the period under which the Global Offering was open for acceptance to allow potential investors the sufficient time to consider their subscriptions or reconsider their existing subscriptions; and
- (c) give potential investors who had applied for the Offer Shares the right to withdraw their applications given the change in circumstances.

In the absence of the publication of any such notice, the Offer Price shall under no circumstances be set outside the Offer Price range indicated in this prospectus. If the number of Offer Shares and/or the indicative Offer Price range is reduced, applicants who have submitted an application under the Hong Kong Public Offering will be entitled to withdraw their applications unless positive confirmations from the applicants to proceed are received.

Before submitting applications for Hong Kong Offer Shares, applicants should have regard to the possibility that any announcement of a reduction in the indicative Offer Price range and/or number of Offer Shares may not be made until the day which is the last day for lodging applications under the Hong Kong Public Offering.

In the event of a reduction in the number of Offer Shares, the Overall Coordinators may, at their discretion, reallocate the number of Offer Shares to be offered in the Hong Kong Public Offering and the International Offering, provided that the number of Offer Shares comprised in the Hong Kong Public Offering shall not be less than 10.0% of the total number of Offer Shares available under the Global Offering. The Offer Shares to be offered in the Hong Kong Public Offering and the Offer Shares to be offered in the International Offering may, in certain

STRUCTURE OF THE GLOBAL OFFERING

circumstances, be reallocated between these offerings solely in the discretion of the Overall Coordinators but the number of Offer Shares to be offered in the Hong Kong Public Offering shall not in any event be less than 10.0% of the total number of Offer Shares available under the Global Offering.

If applications for the Offer Shares have been submitted prior to the day which is the last day for lodging applications under the Hong Kong Public Offering, such applications can be subsequently withdrawn if the number of Offer Shares and/or the indicative Offer Price range is so reduced.

The net proceeds from the Global Offering accruing to us (after deduction of underwriting fees and estimated expenses payable by us in relation to the Global Offering) are estimated to be approximately HK\$683.8 million, assuming an Offer Price of HK\$14.4 per Offer Share, being the approximate mid-point of the proposed Offer Price range of HK\$13.0 to HK\$15.8.

The final Offer Price, the level of indications of interest in the International Offering, the level of applications in the Hong Kong Public Offering and the basis of allocations of Offer Shares under the Hong Kong Public Offering are expected to be announced on Wednesday, October 11, 2023 on the website of our Company (www.shiyuedaotian.com) and the website of the Stock Exchange (www.hkexnews.hk).

HONG KONG UNDERWRITING AGREEMENT

The Hong Kong Public Offering is fully underwritten by the Hong Kong Underwriters under the terms of the Hong Kong Underwriting Agreement and is subject to agreement on the Offer Price between our Company and the Overall Coordinators (for themselves and on behalf of the Underwriters) on the Price Determination Date.

We expect that our Company will enter into the International Underwriting Agreement relating to the International Offering on the Price Determination Date.

The underwriting arrangements under the Hong Kong Underwriting Agreement and the International Underwriting Agreement are summarized in the section headed “Underwriting”.

CONDITIONS OF THE GLOBAL OFFERING

Acceptances of all applications for Offer Shares will be conditional on:

- (a) the Stock Exchange granting listing of, and permission to deal in, the H Shares to be issued pursuant to the Global Offering and any H Shares to be converted from Domestic Unlisted Shares as mentioned herein and such approval not having been withdrawn;
- (b) the Offer Price having been agreed between our Company and the Overall Coordinators (on behalf of the Underwriters) on the Price Determination Date;

STRUCTURE OF THE GLOBAL OFFERING

- (c) the execution and delivery of the International Underwriting Agreement on or about the Price Determination Date; and
- (d) the obligations of the Underwriters under each of the respective Underwriting Agreements becoming and remaining unconditional and not having been terminated in accordance with the terms of the respective Underwriting Agreements,

In each case on or before the dates and times specified in the respective Underwriting Agreements (unless and to the extent such conditions are validly waived on or before such dates and times).

If, for any reason, the Offer Price is not agreed between our Company, the Overall Coordinators (on behalf of the Underwriters) on or before Friday, October 6, 2023, the Global Offering will not proceed and will lapse.

The consummation of each of the Hong Kong Public Offering and the International Offering is conditional upon, amongst other things, the other becoming unconditional and not having been terminated in accordance with its terms.

If the above conditions are not fulfilled or waived prior to the times and dates specified, the Global Offering will lapse and the Stock Exchange will be notified immediately. We will as soon as possible publish or cause to be published a notice of the lapse of the Hong Kong Public Offering on the website of our Company (www.shiyuedaotian.com) and the website of the Stock Exchange (www.hkexnews.hk). In such eventuality, all application monies will be returned, without interest, on the terms set forth “How to Apply for Hong Kong Offer Shares – 14. Dispatch/Collection of H Share Certificates and Refund Monies.” In the meantime, all application monies will be held in a separate bank account(s) with the receiving bank or other bank(s) in Hong Kong licensed under the Banking Ordinance (Chapter 155 of the Laws of Hong Kong), as amended.

H Share certificates issued in respect of the Hong Kong Offer Shares will only become valid at 8:00 a.m. on the Listing Date provided that the Global Offering has become unconditional in all respects (including the Underwriting Agreements not having been terminated in accordance with their terms) at any time prior to 8:00 a.m. on the Listing Date.

APPLICATION FOR LISTING ON THE STOCK EXCHANGE

We have applied to the Stock Exchange for the listing of, and permission to deal in, the H Shares in issue and to be issued pursuant to the Global Offering and as mentioned in this prospectus.

No part of our Company’s share or loan capital is listed on or dealt in on any other stock exchange and no such listing or permission to deal is being or proposed to be sought in the near future.

STRUCTURE OF THE GLOBAL OFFERING

H SHARES WILL BE ELIGIBLE FOR ADMISSION INTO CCASS

All necessary arrangements have been made to enable the H Shares to be admitted into CCASS. If the Stock Exchange grants the listing of, and permission to deal in, the H Shares and we comply with the stock admission requirements of HKSCC, the H Shares will be accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the date of commencement of dealings in the H Shares on the Stock Exchange or any other date HKSCC chooses. Settlement of transactions between Exchange Participants (as defined in the Listing Rules) is required to take place in CCASS on the second settlement day after any trading day. All activities under CCASS are subject to the General Rules of CCASS and CCASS Operational Procedures in effect from time to time. Investors should seek the advice of their stockbroker or other professional advisers for details of the settlement arrangements as such arrangements may affect their rights and interests.

DEALING ARRANGEMENTS

Assuming that the Hong Kong Public Offering becomes unconditional at or before 8:00 a.m. in Hong Kong on Thursday, October 12, 2023, it is expected that dealings in the H Shares on the Stock Exchange will commence at 9:00 a.m. on Thursday, October 12, 2023. The H Shares will be traded on the Main Board of the Stock Exchange in board lots of 300 H Shares each. The stock code of the H Shares will be 9676.

IMPORTANT NOTICE TO INVESTORS: FULLY ELECTRONIC APPLICATION PROCESS

We have adopted a fully electronic application process for the Hong Kong Public Offering. We will not provide any printed copies of this prospectus or any printed copies of any application forms for use by the public.

This prospectus is available at the website of the Stock Exchange at www.hkexnews.hk under the “*HKEXnews > New Listings > New Listing Information*” section, and our website at www.shiyuedaotian.com. If you require a printed copy of this prospectus, you may download and print from the website addresses above.

The contents of the electronic version of the prospectus are identical to the printed prospectus as registered with the Registrar of Companies in Hong Kong pursuant to Section 342C of the Companies (Winding Up and Miscellaneous Provisions) Ordinance.

Set out below are procedures through which you can apply for the Hong Kong Offer Shares electronically. We will not provide any physical channels to accept any application for the Hong Kong Offer Shares by the public.

If you are an **intermediary, broker or agent**, please remind your customers, clients or principals, as applicable, that this prospectus is available online at the website addresses above.

A. APPLICATIONS FOR HONG KONG OFFER SHARES

1. How to Apply

We will not provide any printed application forms for use by the public.

To apply for Hong Kong Offer Shares, you may:

- (1) apply online via the **HK eIPO White Form** service in the **IPO App** (which can be downloaded by searching “**IPO App**” in App Store or Google Play or downloaded at www.hkeipo.hk/IPOApp or www.tricorglobal.com/IPOApp) or at www.hkeipo.hk; or
- (2) apply through **CCASS EIPO** service to electronically cause HKSCC Nominees to apply on your behalf, including by:
 - (i) instructing your **broker or custodian** who is a CCASS Clearing Participant or a CCASS Custodian Participant to give **electronic application instructions** via CCASS terminals to apply for the Hong Kong Offer Shares on your behalf; or

HOW TO APPLY FOR HONG KONG OFFER SHARES

- (ii) (if you are an existing CCASS Investor Participant) giving **electronic application instructions** through the CCASS Internet System (<https://ip.ccass.com>) or through the CCASS Phone System by calling 2979 7888 (using the procedures in HKSCC’s “An Operating Guide for Investor Participants” in effect from time to time). HKSCC can also input **electronic application instructions** for CCASS Investor Participants through HKSCC’s Customer Service Center at 1/F., One & Two Exchange Square, 8 Connaught Place, Central, Hong Kong by completing an input request.

If you apply through channel (1) above, the Hong Kong Offer Shares successfully applied for will be issued in your own name.

If you apply through channels (2)(i) or (2)(ii) above, the Hong Kong Offer Shares successfully applied for will be issued in the name of HKSCC Nominees and deposited directly into CCASS to be credited to your or a designated CCASS Participant’s stock account.

None of you or your joint applicant(s) may make more than one application, except where you are a nominee and provide the required information in your application.

We, the Overall Coordinators, the **HK eIPO White Form** Service Provider and our and their respective agents may reject or accept any application, in full or in part, for any reason at our or their discretion.

2. Who can Apply

Eligibility for the Application

You can apply for Hong Kong Offer Shares if you or any person(s) for whose benefit you are applying:

No Multiple Applications

If you are suspected of having made multiple applications or if more than one application is made for your benefit, the number of Hong Kong Offer Shares applied for by HKSCC Nominees will be automatically reduced by the number of Hong Kong Offer Shares for which you have given such instructions and/or for which such instructions have been given for your benefit. Any **electronic application instructions** to make an application for the Hong Kong Offer Shares given by you or for your benefit to HKSCC shall be deemed to be an actual application for the purposes of considering whether multiple applications have been made.

Section 40 of the Companies (Winding Up and Miscellaneous Provisions) Ordinance

For the avoidance of doubt, the Company and all other parties involved in the preparation of this prospectus acknowledge that each CCASS Participant who gives or causes to give **electronic application instructions** is a person who may be entitled to compensation under Section 40 of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (as applied by Section 342E of the Companies (Winding Up and Miscellaneous Provisions) Ordinance).

Personal Data

The following Personal Information Collection Statement applies to any personal data held by the Company, the H Share Registrar, the receiving bank, the Overall Coordinators, the Capital Market Intermediaries, the Underwriters and any of their respective advisers and agents about you in the same way as it applies to personal data about applicants other than HKSCC Nominees. By applying through the **CCASS EIPO** service or the **HK eIPO White Form** service, you agree to all of the terms of the Personal Information Collection Statement below.

HOW TO APPLY FOR HONG KONG OFFER SHARES

Personal Information Collection Statement

This Personal Information Collection Statement informs applicant for, and holder of, the Hong Kong Offer Shares, of the policies and practices of the Company and its H Share Registrar in relation to personal data and the Personal Data (Privacy) Ordinance (Chapter 486 of the Laws of Hong Kong).

Reasons for the Collection of Your Personal Data

It is necessary for applicants and registered holders of the Hong Kong Offer Shares to supply correct personal data to the Company or its agents and the H Share Registrar when applying for the Hong Kong Offer Shares or transferring the Hong Kong Offer Shares into or out of their names or in procuring the services of the H Share Registrar.

Failure to supply the requested data may result in your application for the Hong Kong Offer Shares being rejected, or in delay or the inability of the Company or its H Share Registrar to effect transfers or otherwise render their services. It may also prevent or delay registration or transfers of the Hong Kong Offer Shares which you have successfully applied for and/or the dispatch of H Share certificate(s) to which you are entitled.

It is important that the holders of the Hong Kong Offer Shares inform the Company and the H Share Registrar immediately of any inaccuracies in the personal data supplied.

7. Warning for Electronic Applications

The subscription of the Hong Kong Offer Shares through the **CCASS eIPO** service (directly or indirectly through your broker or custodian) is only a facility provided to CCASS Participants. Similarly, the application for Hong Kong Offer Shares through the **HK eIPO White Form** service is also only a facility provided by the **HK eIPO White Form** Service Provider to public investors. Such facilities are subject to capacity limitations and potential service interruptions and you are advised not to wait until the last application day in making your electronic applications. The Company, the Directors, the Joint Sponsors, the Overall Coordinators, the Joint Global Coordinators, the Joint Bookrunners, the Joint Lead Managers, the Capital Market Intermediaries and the Underwriters take no responsibility for such applications and provide no assurance that any CCASS Participant or person applying through the **HK eIPO White Form** service will be allotted any Hong Kong Offer Shares.

To ensure that CCASS Investor Participants can give their **electronic application instructions**, they are advised not to wait until the last minute to input their instructions to the systems. In the event that CCASS Investor Participants have problems in the connection to CCASS Phone System/CCASS Internet System for submission of **electronic application instructions**, they should go to HKSCC's Customer Service Center to complete an input request form for **electronic application instructions** before 12:00 noon on Thursday, October 5, 2023.

HOW TO APPLY FOR HONG KONG OFFER SHARES

8. How Many Applications can you Make

Multiple applications for the Hong Kong Offer Shares are not allowed except by nominees. If you are a nominee and apply through the **HK eIPO White Form** service, in the box marked “For Nominees”, you must include an account number or some other identification code for each beneficial owner or, in the case of joint beneficial owners, for each joint beneficial owner when you fill in the application details. If you do not include this information, the application will be treated as being made for your own benefit.

All of your applications will be rejected if more than one application by giving **electronic application instructions** to HKSCC or through the **HK eIPO White Form** service, is made for your benefit (including the part of the application made by HKSCC Nominees acting on **electronic application instructions**).

The H Share Registrar would record all applications into its system and identify suspected multiple applications with identical names, identification document numbers and reference numbers according to the Best Practice Note on Treatment of Multiple/Suspected Multiple Applications (“Best Practice Note”) issued by the Federation of Share Registrars Limited.

With regard to the announcement of results of allocations under the section headed (“Results of Applications Made by Giving Electronic Application Instructions to HKSCC via CCASS”), the list of identification document number(s) may not be a complete list of successful applicants, only successful applicants whose identification document numbers are provided to HKSCC by CCASS participants are disclosed. Applicants who applied for the Offer Shares through their brokers can consult their brokers to enquire about their application results.

Since applications are subject to personal information collection statements, beneficial owner identification codes displayed are redacted. Applicants with beneficial names only but not identification document numbers are not disclosed due to personal privacy issue.

If an application is made by an unlisted company and:

- the principal business of that company is dealing in securities; and
- you exercise statutory control over that company,

then the application will be treated as being made for your benefit.

“Unlisted company” means a company with no equity securities listed on the Stock Exchange.

“Statutory control” means you:

- control the composition of the board of directors of the company;
- control more than half of the voting power of the company; or

HOW TO APPLY FOR HONG KONG OFFER SHARES

- hold more than half of the issued share capital of the company (not counting any part of it which carries no right to participate beyond a specified amount in a distribution of either profits or capital).

9. How Much are the Hong Kong Offer Shares

You must pay the maximum Offer Price, brokerage, SFC transaction levy, AFRC transaction levy and the Stock Exchange trading fee in full upon application for the Hong Kong Offer Shares.

You may submit an application through the **HK eIPO White Form** service in respect of a minimum of 300 Hong Kong Offer Shares. Each application or **electronic application instruction** in respect of more than 300 Hong Kong Offer Shares must be in one of the numbers set out in the table in this prospectus, or as otherwise specified in the **IPO App** or on the designated website at www.hkeipo.hk.

If your application is successful, brokerage will be paid to the Exchange Participants, and the SFC transaction levy, AFRC transaction levy and the Stock Exchange trading fee are paid to the Stock Exchange (in the case of the SFC transaction levy and the AFRC transaction levy, collected by the Stock Exchange on behalf of the SFC the AFRC respectively).

See “Structure of the Global Offering – Pricing and Allocation” for further details on the Offer Price.

10. Effect of Bad Weather and/or Extreme Conditions on the Opening of the Application Lists

The application lists will not open if there is/are:

- a tropical cyclone warning signal number 8 or above;
- a “black” rainstorm warning; and/or
- Extreme Conditions,

in force in Hong Kong at any time between 9:00 a.m. and 12:00 noon on Thursday, October 5, 2023. Instead they will open between 11:45 a.m. and 12:00 noon on the next business day which does not have either of those warnings and/or Extreme Conditions in Hong Kong in force at any time between 9:00 a.m. and 12:00 noon.

If the application lists do not open and close on Thursday, October 5, 2023 or if there is a tropical cyclone warning signal number 8 or above, a “black” rainstorm warning signal and/or Extreme Conditions in force in Hong Kong that may affect the dates mentioned in “Expected Timetable”, an announcement will be made in such event.

11. Publication of Results

The Company expects to announce the final Offer Price, the level of indication of interest in the International Offering, the level of applications in the Hong Kong Public Offering and the basis of allocation of the Hong Kong Offer Shares on Wednesday, October 11, 2023 on the Company's website at www.shiyuedaotian.com and the website of the Stock Exchange at www.hkexnews.hk.

The results of allocations and the Hong Kong identity card/passport/Hong Kong business registration/certificate of incorporation numbers of successful applicants under the Hong Kong Public Offering will be available at the times and date and in the manner specified below:

- in the announcement to be posted on the Company's website at www.shiyuedaotian.com and the Stock Exchange's website at www.hkexnews.hk by no later than 9:00 a.m. on Wednesday, October 11, 2023;
- from "IPO Results" function in the **IPO App** or the designated results of allocations website at www.tricor.com.hk/ipo/result or www.hkeipo.hk/IPOResult with a "search by ID" function on a 24-hour basis from 8:00 a.m. on Wednesday, October 11, 2023 to 12:00 midnight on Tuesday, October 17, 2023;
- by telephone enquiry line by calling +852 3691 8488 between 9:00 a.m. and 6:00 p.m. from Wednesday, October 11, 2023 to Monday, October 16, 2023 (excluding Saturday, Sunday and public holiday in Hong Kong).

If the Company accepts your offer to purchase (in whole or in part), which it may do by announcing the basis of allocations and/or making available the results of allocations publicly, there will be a binding contract under which you will be required to purchase the Hong Kong Offer Shares if the conditions of the Global Offering are satisfied and the Global Offering is not otherwise terminated. Further details are contained in the "Structure of the Global Offering."

You will not be entitled to exercise any remedy of rescission for innocent misrepresentation at any time after acceptance of your application. This does not affect any other right you may have.

12. Circumstances in which you will not be Allotted Offer Shares

You should note the following situations in which the Hong Kong Offer Shares will not be allotted to you:

(i) If your application is revoked:

By applying through the **CCASS EIPO** service or to the **HK eIPO White Form** Service Provider, you agree that your application or the application made by HKSCC Nominees on your behalf cannot be revoked on or before the fifth day after the time of the opening of the application lists (excluding for this purpose any day which is Saturday, Sunday or public holiday in Hong Kong). This agreement will take effect as a collateral contract with the Company.

HOW TO APPLY FOR HONG KONG OFFER SHARES

Your application or the application made by HKSCC Nominees on your behalf may only be revoked on or before such fifth day if a person responsible for this prospectus under Section 40 of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (as applied by Section 342E of the Companies (Winding Up and Miscellaneous Provisions) Ordinance) gives a public notice under that section which excludes or limits that person's responsibility for this prospectus.

If any supplement to this prospectus is issued, applicants who have already submitted an application will be notified that they are required to confirm their applications. If applicants have been so notified but have not confirmed their applications in accordance with the procedure to be notified, all unconfirmed applications will be deemed revoked.

If your application or the application made by HKSCC Nominees on your behalf has been accepted, it cannot be revoked. For this purpose, acceptance of applications which are not rejected will be constituted by notification in the press of the results of allocation, and where such basis of allocation is subject to certain conditions or provides for allocation by ballot, such acceptance will be subject to the satisfaction of such conditions or results of the ballot respectively.

(ii) If the Company or our agents exercise their discretion to reject your application:

The Company, the Overall Coordinators, the **HK eIPO White Form** Service Provider and their respective agents and nominees have full discretion to reject or accept any application, or to accept only part of any application, without giving any reasons.

(iii) If the allotment of Hong Kong Offer Shares is void:

The allotment of Hong Kong Offer Shares will be void if the Stock Exchange does not grant permission to list the Shares either:

- within three weeks from the closing date of the application lists; or
- within a longer period of up to six weeks if the Stock Exchange notifies the Company of that longer period within three weeks of the closing date of the application lists.

(iv) If:

- you make multiple applications or suspected multiple applications;
- you or the person for whose benefit you are applying have applied for or taken up, or indicated an interest for, or have been or will be placed or allocated (including conditionally and/or provisionally) Hong Kong Offer Shares and International Offer Shares;

HOW TO APPLY FOR HONG KONG OFFER SHARES

- your **electronic application instructions** through the **HK eIPO White Form** service are not completed in accordance with the instructions, terms and conditions in the **IPO App** or on the designated website at www.hkeipo.hk;
- your payment is not made correctly;
- the Underwriting Agreements do not become unconditional or are terminated;
- the Company or the Overall Coordinators believe that by accepting your application, it or they would violate applicable securities or other laws, rules or regulations; or
- your application is for more than 50% of the Hong Kong Offer Shares initially offered under the Hong Kong Public Offering.

13. Refund of Application Monies

If an application is rejected, not accepted or accepted in part only, or if the Offer Price as finally determined is less than the maximum offer price per Offer Share (excluding brokerage, SFC transaction levy, AFRC transaction levy and the Stock Exchange trading fee thereon), or if the conditions of the Hong Kong Public Offering are not fulfilled in accordance with “Structure of the Global Offering – Conditions of the Global Offering” or if any application is revoked, the application monies, or the appropriate portion thereof, together with the related brokerage, SFC transaction levy, AFRC transaction levy and the Stock Exchange trading fee, will be refunded, without interest.

Any refund of your application monies will be made on or before Wednesday, October 11, 2023.

14. Dispatch/Collection of H Share Certificates and Refund Monies

You will receive one H Share certificate for all Hong Kong Offer Shares allotted to you under the Hong Kong Public Offering (except pursuant to applications made by **electronic application instructions** to HKSCC via CCASS where the H Share certificates will be deposited into CCASS as described below).

No temporary document of title will be issued in respect of the H Shares. No receipt will be issued for sums paid on application.

Subject to the arrangement on dispatch/collection of H Share certificates and refund monies as mentioned below, any refund checks and H Share certificates are expected to be posted on or before Wednesday, October 11, 2023. The right is reserved to retain any H Share certificate(s) and any surplus application monies pending clearance of check(s) or banker’s cashier’s order(s).

HOW TO APPLY FOR HONG KONG OFFER SHARES

H Share certificates will only become valid at 8:00 a.m. on Thursday, October 12, 2023 provided that the Global Offering has become unconditional and the right of termination described in the “Underwriting” section has not been exercised. Investors who trade shares prior to the receipt of H Share certificates or the H Share certificates becoming valid do so at their own risk.

Personal Collection

*(i) If you apply through the **HK eIPO White Form** service*

If you apply for 1,000,000 Hong Kong Offer Shares or more and your application is wholly or partially successful, you may collect refund cheque(s) and/or H Share certificate(s) (where applicable) from the H Share Registrar, Tricor Investor Services Limited, at 17/F, Far East Finance Centre, 16 Harcourt Road, Hong Kong, from 9:00 a.m. to 1:00 p.m. on Wednesday, October 11, 2023 or such other date as notified by the Company in the newspapers as the date of dispatch/collection of H Share certificates/e-Auto Refund payment instructions/refund checks.

If you do not collect your H Share certificate(s) personally within the time specified for collection, they will be sent to the address specified in your application instructions by ordinary post at your own risk.

If you apply for less than 1,000,000 Hong Kong Offer Shares, your H Share certificate(s) (where applicable) will be sent to the address specified in your application instructions on or before Wednesday, October 11, 2023 by ordinary post at your own risk.

If you apply and pay the application monies from a single bank account, any refund monies will be dispatched to that bank account in the form of e-Auto Refund payment instructions. If you apply and pay the application monies from multiple bank accounts, any refund monies will be dispatched to the address as specified in your application instructions in the form of refund check(s) in favour of the applicant (or, in the case of joint applicants, the first-named applicant) by ordinary post at your own risk.

*(ii) If you apply through the **CCASS EIPO** service*

Allocation of Hong Kong Offer Shares

For the purposes of allocating Hong Kong Offer Shares, HKSCC Nominees will not be treated as an applicant. Instead, each CCASS Participant who gives **electronic application instructions** or each person for whose benefit instructions are given will be treated as an applicant.

HOW TO APPLY FOR HONG KONG OFFER SHARES

Deposit of H Share Certificates into CCASS and Refund of Application Monies

- If your application is wholly or partially successful, your H Share certificate(s) will be issued in the name of HKSCC Nominees and deposited into CCASS for the credit of your designated CCASS Participant's stock account or your CCASS Investor Participant stock account on Wednesday, October 11, 2023, or, on any other date determined by HKSCC or HKSCC Nominees.
- The Company expects to publish the application results of CCASS Participants (and where the CCASS Participant is a **broker** or **custodian**, the Company will include information relating to the relevant beneficial owner), your Hong Kong identity card number/passport number or other identification code (Hong Kong business registration number for corporations) and the basis of allotment of the Hong Kong Public Offering in the manner specified in “– 11. Publication of Results” above on Wednesday, October 11, 2023. You should check the announcement published by the Company and report any discrepancies to HKSCC before 5:00 p.m. on Wednesday, October 11, 2023 or such other date as determined by HKSCC or HKSCC Nominees.
- If you have instructed your **broker** or **custodian** to give **electronic application instructions** on your behalf, you can also check the number of Hong Kong Offer Shares allotted to you and the amount of refund monies (if any) payable to you with that **broker** or **custodian**.
- If you have applied as a CCASS Investor Participant, you can also check the number of Hong Kong Offer Shares allotted to you and the amount of refund monies (if any) payable to you via the CCASS Phone System and the CCASS Internet System (under the procedures contained in HKSCC's “An Operating Guide for Investor Participants” in effect from time to time) on Wednesday, October 11, 2023. Immediately following the credit of the Hong Kong Offer Shares to your stock account and the credit of refund monies to your bank account, HKSCC will also make available to you an activity statement showing the number of Hong Kong Offer Shares credited to your CCASS Investor Participant stock account and the amount of refund monies (if any) credited to your designated bank account.
- Refund of your application monies (if any) in respect of wholly and partially unsuccessful applications and/or difference between the Offer Price and the maximum Offer Price per Offer Share initially paid on application (including brokerage, SFC transaction levy, AFRC transaction levy and the Stock Exchange trading fee but without interest) will be credited to your designated bank account or the designated bank account of your **broker** or **custodian** on Wednesday, October 11, 2023.

HOW TO APPLY FOR HONG KONG OFFER SHARES

15. Admission of the H Shares into CCASS

If the Stock Exchange grants the listing of, and permission to deal in, the H Shares and we comply with the stock admission requirements of HKSCC, the H Shares will be accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the date of commencement of dealings in the H Shares or any other date HKSCC chooses. Settlement of transactions between Exchange Participants (as defined in the Listing Rules) is required to take place in CCASS on the second settlement day after any trading day.

All activities under CCASS are subject to the General Rules of CCASS and CCASS Operational Procedures in effect from time to time.

Investors should seek the advice of their stockbroker or other professional adviser for details of the settlement arrangement as such arrangements may affect their rights and interests.

All necessary arrangements have been made enabling the H Shares to be admitted into CCASS.

The following is the text of a report set out on pages I-1 to I-106, received from the Company's reporting accountants, KPMG, Certified Public Accountants, Hong Kong, for the purpose of incorporation in this prospectus.

ACCOUNTANTS' REPORT ON HISTORICAL FINANCIAL INFORMATION TO THE DIRECTORS OF SHIYUE DAOTIAN GROUP CO., LTD. AND MORGAN STANLEY ASIA LIMITED, CHINA INTERNATIONAL CAPITAL CORPORATION HONG KONG SECURITIES LIMITED AND CHINA SECURITIES (INTERNATIONAL) CORPORATE FINANCE COMPANY LIMITED

Introduction

We report on the historical financial information of Shiyue Daotian Group Co., Ltd. (十月稻田集團股份有限公司) (the “Company”) and its subsidiaries (together, the “Group”) set out on pages I-4 to I-106, which comprises the consolidated statements of financial position of the Group and the statements of financial position of the Company as at 31 December 2020, 2021 and 2022 and 31 March 2023, and the consolidated statements of profit or loss and other comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows, for each of the years ended 31 December 2020, 2021 and 2022 and the three months ended 31 March 2023 (the “Track Record Period”), and material accounting policy information and other explanatory information (together, the “Historical Financial Information”). The Historical Financial Information set out on pages I-4 to I-106 forms an integral part of this report, which has been prepared for inclusion in the prospectus of the Company dated 28 September 2023 (the “Prospectus”) in connection with the initial listing of shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited.

Directors' responsibility for the Historical Financial Information

The directors of the Company are responsible for the preparation of the Historical Financial Information that gives a true and fair view in accordance with the basis of preparation and presentation set out in Note 1 to the Historical Financial Information, and for such internal control as the directors of the Company determine is necessary to enable the preparation of the Historical Financial Information that is free from material misstatement, whether due to fraud or error.

Reporting accountants' responsibility

Our responsibility is to express an opinion on the Historical Financial Information and to report our opinion to you. We conducted our work in accordance with Hong Kong Standard on Investment Circular Reporting Engagements 200 "Accountants' Reports on Historical Financial Information in Investment Circulars" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"). This standard requires that we comply with ethical standards and plan and perform our work to obtain reasonable assurance about whether the Historical Financial Information is free from material misstatement.

Our work involved performing procedures to obtain evidence about the amounts and disclosures in the Historical Financial Information. The procedures selected depend on the reporting accountants' judgement, including the assessment of risks of material misstatement of the Historical Financial Information, whether due to fraud or error. In making those risk assessments, the reporting accountants consider internal control relevant to the entity's preparation of the Historical Financial Information that gives a true and fair view in accordance with the basis of preparation and presentation set out in Note 1 to the Historical Financial Information in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Our work also included evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the Historical Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the Historical Financial Information gives, for the purpose of the accountants' report, a true and fair view of the Company's and the Group's financial position as at 31 December 2020, 2021 and 2022 and 31 March 2023 and of the Group's financial performance and cash flows for the Track Record Period in accordance with the basis of preparation and presentation set out in Note 1 to the Historical Financial Information.

Review of stub period corresponding financial information

We have reviewed the stub period corresponding financial information of the Group which comprises the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the three months ended 31 March 2022 and other explanatory information (the "Stub Period Corresponding Financial Information"). The directors of the Company are responsible for the preparation and presentation of the Stub Period Corresponding Financial Information in accordance with the basis of preparation and presentation set out in Note 1 to the Historical Financial Information. Our responsibility is to express a conclusion on the Stub Period Corresponding Financial Information based on our review. We conducted our review in

accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the HKICPA. A review consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion. Based on our review, nothing has come to our attention that causes us to believe that the Stub Period Corresponding Financial Information, for the purpose of the accountants’ report, is not prepared, in all material respects, in accordance with the basis of preparation and presentation set out in Note 1 to the Historical Financial Information.

Report on matters under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the Companies (Winding Up and Miscellaneous Provisions) Ordinance

Adjustments

In preparing the Historical Financial Information, no adjustments to the Underlying Financial Statements as defined on page I-4 have been made.

Dividends

We refer to Note 27(c) to the Historical Financial Information which contains information about the dividends paid by the Company in respect of the Track Record Period.

NOTES TO THE HISTORICAL FINANCIAL INFORMATION

(Expressed in RMB unless otherwise indicated)

1 BASIS OF PREPARATION AND PRESENTATION OF THE HISTORICAL FINANCIAL INFORMATION

Shiyue Daotian Group Co., Ltd. (十月稻田集團股份有限公司) (the “Company”), formerly known as Shiyue Daotian Agricultural Technology Co., Ltd. (十月稻田農業科技有限公司), was established in Shenyang, Liaoning Province, the People’s Republic of China (the “PRC”) on 3 May 2018 as a limited liability company. On 20 December 2022, the board of directors of the Company resolved to convert the Company from a limited liability company into a joint stock limited liability company. The conversion was completed on 6 January 2023 and on 28 February 2023 the Company changed its registered name to Shiyue Daotian Group Co., Ltd..

The Company and its subsidiaries (together, the “Group”) are principally engaged in the manufacturing and sales of pantry staple food (the “Listing Business”) in the PRC.

Prior to completion of the corporate reorganisation as described below, the Listing Business of the Group was carried out through Shenyang Xinchang Grain Trade Co., Ltd. (瀋陽信昌糧食貿易有限公司) (“Shenyang Xinchang”) and Wuchang City Caiqiao Rice Industry Co., Ltd. (五常市彩橋米業有限公司) (“Wuchang Caiqiao”).

To rationalise the corporate structure in preparation for the listing of the Company’s shares on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”), the Group underwent a reorganisation (the “Reorganisation”), as detailed in the section headed “History, Development and Corporate Structure” in the Prospectus. As part of the Reorganisation, the Company acquired the Listing Business through the acquisition of the entire equity interests of Shenyang Xinchang and Wuchang Caiqiao at a total consideration of RMB70.0 million, which was taken as a deemed distribution to the original shareholders of these two entities. These acquisitions were completed in September 2020. Upon completion of the Reorganisation in September 2020, the Company became the holding company of the companies now comprising the Group.

The Reorganisation only involved interspersing the Company, which has no substantive business operations, as the holding company of the Listing Business. There were no changes in the economic substance of the ownership and the Listing Business before and after the Reorganisation. Accordingly, the Historical Financial Information has been prepared and presented as a continuation of the Listing Business with the assets and liabilities recognised and measured at their historical carrying amounts prior to the Reorganisation.

The consolidated statements of profit or loss and other comprehensive income, the consolidated statements of changes in equity and the consolidated statements of cash flows of the Group for the Track Record Period as set out in the Historical Financial Information include the financial performance and cash flows of the companies now comprising the Group as if the current group structure had been in existence throughout the Track Record Period, or where the companies were established at a date later than 1 January 2020, for the period from the date of establishment to 31 March 2023. The consolidated statements of financial position of the

Group as at 31 December 2020, 2021 and 2022 and 31 March 2023 as set out in the Historical Financial Information have been prepared to present the financial position of the companies now comprising the Group as at the respective dates as if the current group structure had been in existence as at the respective dates, taking into account the respective dates of establishment, where applicable. Intra-group balances and transactions are eliminated in full in preparing the Historical Financial Information. The statutory financial statements of the Company for the years ended 31 December 2020 and 2022 were prepared in accordance with the Accounting Standards for Business Enterprises issued by the Ministry of Finance of the PRC and were audited by Liao Ning Teng Yue United Certified Public Accountants GP (遼寧騰躍聯合會計師事務所(普通合夥)). No audited statutory financial statements for the year ended 31 December 2021 have been prepared for the Company.

As at the date of this report, the Company has direct interests in the following principal subsidiaries, all of which are private companies:

- (iii) The statutory financial statements of this entity for the years ended 31 December 2020, 2021 and 2022 were prepared in accordance with the Accounting Standards for Business Enterprises issued by the Ministry of Finance of the PRC and audited by Shenyang Xinli Partnership Certified Public Accountants (瀋陽新立合夥會計師事務所), Liaoning Yu Sheng United CPA Firm (遼寧鈺晟聯合會計師事務所) and Liao Ning Teng Yue United Certified Public Accountants GP (遼寧騰躍聯合會計師事務所(普通合夥)), respectively.
- (iv) The statutory financial statements of this entity for the years ended 31 December 2021 and 2022 were prepared in accordance with the Accounting Standards for Business Enterprises issued by the Ministry of Finance of the PRC and audited by Shenyang Xinli Partnership Certified Public Accountants (瀋陽新立合夥會計師事務所). No audited statutory financial statements for the year ended 31 December 2020 have been prepared.
- (v) The statutory financial statements of this entity for the years ended 31 December 2021 and 2022 were prepared in accordance with the Accounting Standards for Business Enterprises issued by the Ministry of Finance of the PRC and audited by Songyuan Yongan Certified Public Accountants (松原市永安會計師事務所).
- (vi) No audited statutory financial statements for the years ended 31 December 2021 and 2022 of these entities have been prepared.

All companies now comprising the Group have adopted 31 December as their financial year end date.

The Historical Financial Information has been prepared in accordance with all applicable International Financial Reporting Standards (“IFRSs”) which collective term includes all applicable individual International Financial Reporting Standards, International Accounting Standards (“IASs”) and Interpretations issued by the International Accounting Standards Board (“IASB”). Further details of the material accounting policies adopted by the Group are set out in Note 2.

The IASB has issued a number of new and revised IFRSs. For the purpose of preparing this Historical Financial Information, the Group has consistently applied all applicable new and revised IFRSs throughout the Track Record Period. The Group has not applied any new and revised accounting standards and interpretations issued but not yet effective for the accounting period beginning on 1 January 2023, the detail of which are set out in Note 34.

The Historical Financial Information also complies with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

As at 31 March 2023, the Group had net liabilities of RMB91.5 million, including liabilities arising from financial instruments issued to investors amounted to RMB2,720.9 million. The directors of the Company are of the opinion that no payment is expected for the settlement of the liabilities arising from financial instruments issued to investors as the related redemption options would be terminated and the financial instruments issued to investors would be converted into equity upon the qualified initial public offering of the Company's shares on the Stock Exchange. Taken the above into consideration, and together with cashflow forecast for the twelve months ending 31 March 2024 prepared by management of the Group, the directors of the Company are of the opinion that the Group has sufficient financial resources to continue as a going concern for the next twelve months. Therefore, the directors of the Company are satisfied that it is appropriate to prepare the Historical Financial Information on a going concern basis.

The accounting policies set out below have been applied consistently to all periods presented in the Historical Financial Information.

The Stub Period Corresponding Financial Information has been prepared in accordance with the same basis of preparation and presentation adopted in respect of the Historical Financial Information.

2 MATERIAL ACCOUNTING POLICY INFORMATION

(a) Basis of measurement

The Company and the Group has its functional currency in RMB and the Historical Financial Information is presented in RMB. The measurement basis used in the preparation of the Historical Financial Information is the historical cost basis, except that the following assets and liabilities are stated at their fair value as explained in the accounting policies set out below:

- Financial assets at FVPL (see Note 2(e)); and
- Series A-1 investor's right to subscribe for additional registered capital (see Note 2(f)).

(b) Use of estimates and judgements

The preparation of Historical Financial Information in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRSs that have significant effect on the Historical Financial Information and major sources of estimation uncertainty are discussed in Note 3.

(c) Business combinations

The Group accounts for business combination not under common control using the acquisition method when control is transferred to the Group (see Note 2(d)). The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

Business combinations of entities under common control are accounted for using the principle of merger accounting, under which, the Historical Financial Information incorporate the financial statement items of the acquired entities or businesses in which the common control combination occurs from the date when the acquired entities or businesses first come under the control of the controlling party.

The net assets of the acquired entities or businesses are combined using the existing book values from the controlling party's perspective. The differences between the cost of acquisition (fair value of consideration paid) and the amounts at which the assets and liabilities are recorded (net of any reserves of the acquired entities) have been recognised directly in equity as other reserve. Acquisition costs are expensed as incurred.

(d) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is included into the Historical Financial Information from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the Historical Financial Information. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see Note 2(i)(ii)).

(e) Other investments in debt and equity securities

The Group's policies for investments in debt and equity securities, other than investments in subsidiaries, associates and joint ventures, are set out below.

Investments in debt and equity securities are recognised/derecognised on the date the Group commits to purchase/sell the investment. The investments are initially stated at fair value plus directly attributable transaction costs, except for those investments measured at fair value through profit or loss (FVPL) for which transaction costs are recognised directly in profit or loss. For an explanation of how the Group determines fair value of financial instruments, see Note 28(e). These investments are subsequently accounted for as follows, depending on their classification.

Investments other than equity investments

Non-equity investments held by the Group are classified into one of the following measurement categories:

- amortised cost, if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest. Interest income from the investment is calculated using the effective interest method (see Note 2(t)(iii)).
- FVOCI (recycling), if the contractual cash flows of the investment comprise solely payments of principal and interest and the investment is held within a business model whose objective is achieved by both the collection of contractual cash flows and sale. Changes in fair value are recognised in other comprehensive income, except for the recognition in profit or loss of expected credit losses, interest income (calculated using the effective interest method) and foreign exchange gains and losses. When the investment is derecognised, the amount accumulated in other comprehensive income is recycled from equity to profit or loss.
- FVPL if the investment does not meet the criteria for being measured at amortised cost or FVOCI (recycling). Changes in the fair value of the investment (including interest) are recognised in profit or loss.

Equity investments

An investment in equity securities is classified as FVPL unless the equity investment is not held for trading purposes and on initial recognition of the investment the Group makes an election to designate the investment at FVOCI (non-recycling) such that subsequent changes in fair value are recognised in other comprehensive income. Such elections are made on an instrument-by-instrument basis, but may only be made if the investment meets the definition of equity from the issuer's perspective. Where such an election is made, the amount accumulated in other comprehensive income remains in the fair value reserve until the investment is disposed of. At the time of disposal, the amount accumulated in the fair value reserve is transferred to retained earnings. It is not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at FVPL or FVOCI, are recognised in profit or loss as other income in accordance with the policy set out in Note 2(t)(v).

(f) Derivative financial instruments

Derivative financial instruments are recognised at fair value. At the end of each reporting period, the fair value is remeasured. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss.

(g) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses (see Note 2(i)(ii)).

The cost of self-constructed items of property, plant and equipment includes the cost of materials, direct labour, the initial estimate, where relevant, of the costs of dismantling and removing the items and restoring the site on which they are located, and an appropriate proportion of production overheads and borrowing costs (see Note 2(v)).

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight line method over their estimated useful lives as follows:

- | | |
|---------------------------------|-------------|
| – Plant and buildings | 10-20 years |
| – Machinery and other equipment | 3-10 years |

Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

Construction in progress is stated at cost less impairment losses (see Note 2(i)(ii)). Cost comprises direct costs of construction as well as interest expense capitalised during the periods of construction and installation. Capitalisation of these costs ceases and the construction in progress is transferred to property, plant and equipment when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided for in respect of construction in progress until it is completed and ready for its intended use.

(h) Leased assets

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

(i) As a lessee

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see Notes 2(g) and 2(i)(ii)).

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification. The only exceptions are rent concessions that occurred as a direct consequence of the COVID-19 pandemic and met the conditions set out in paragraph 46B of IFRS 16 *Leases*. In such cases, the Group has taken advantage of the practical expedient not to assess whether the rent concessions are lease modifications, and recognised the change in consideration as negative variable lease payments in profit or loss in the period in which the event or condition that triggers the rent concessions occurred.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

The Group presents right-of-use assets that do not meet the definition of investment property in 'right-of-use assets' and presents lease liabilities separately in the statement of financial position.

(i) Credit losses and impairment of assets

(i) Credit losses from financial instruments

The Group recognises a loss allowance for expected credit losses ("ECLs") on financial assets measured at amortised cost (including cash and cash equivalents and trade and other receivables).

Financial assets and liabilities measured at fair value are not subject to the ECL assessment.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The expected cash shortfalls of trade and other receivables are discounted using effective interest rate determined at initial recognition or an approximation thereof where the effect of discounting is material.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

ECLs are measured on either of the following bases:

- 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments, the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held). The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);

- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

Basis of calculation of interest income

Interest income recognised in accordance with Note 2(t)(iii) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulties of the debtor;
- a breach of contract, such as a default or past due event;
- it becoming probable that the borrower will enter into bankruptcy or other financial reorganisation; or
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor.

Write-off policy

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(ii) Impairment of other non-current assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired, or an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- right-of-use assets;
- other non-current assets; and
- investments in subsidiaries in the Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is estimated.

– Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit). A portion of the carrying amount of a corporate asset (for example, head office building) is allocated to an individual cash-generating unit if the allocation can be done on a reasonable and consistent basis, or to the smallest group of cash-generating units if otherwise.

– Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable), or value in use (if determinable).

– *Reversals of impairment losses*

An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior periods. Reversals of impairment losses are credited to profit or loss in the period in which the reversals are recognised.

(j) Inventories and other contract costs

(i) Inventories

Inventories are assets which are held for sale in the ordinary course of business, in the process of production for such sale or in the form of materials or supplies to be consumed in the production process.

Inventories are carried at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

A right to recover returned goods is recognised for the right to recover products from customers sold with a right of return. It is measured in accordance with the policy set out in Note 2(t)(i).

(ii) Other contract costs

Other contract costs are either the incremental costs of obtaining a contract with a customer or the costs to fulfil a contract with a customer which are not capitalised as inventories (see Note 2(j)(i)).

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained e.g. an incremental sales commission. Incremental costs of obtaining a contract are capitalised when incurred if the costs relate to revenue which will be recognised in a future reporting period and the costs are expected to be recovered. Other costs of obtaining a contract are expensed when incurred.

Costs to fulfil a contract are capitalised if the costs relate directly to an existing contract or to a specifically identifiable anticipated contract; generate or enhance resources that will be used to provide goods or services in the future; and are expected to be recovered. Costs that relate directly to an existing contract or to a specifically identifiable anticipated contract may include direct labour, direct materials, allocations of costs, costs that are explicitly chargeable to the customer and other costs that are incurred only because the Group entered into the contract (for example, payments to sub-contractors). Other costs of fulfilling a contract, which are not capitalised as inventory, property, plant and equipment or intangible assets, are expensed as incurred.

Capitalised contract costs are stated at cost less accumulated amortisation and impairment losses. Impairment losses are recognised to the extent that the carrying amount of the contract cost asset exceeds the net of (i) remaining amount of consideration that the Group expects to receive in exchange for the goods or services to which the asset relates, less (ii) any costs that relate directly to providing those goods or services that have not yet been recognised as expenses.

Amortisation of capitalised contract costs is charged to profit or loss when the revenue to which the asset relates is recognised. The accounting policy for revenue recognition is set out in Note 2(t).

(k) Contract liabilities

A contract liability is recognised when the customer pays non-refundable consideration before the Group recognises the related revenue (see Note 2(t)). A contract liability would also be recognised if the Group has an unconditional right to receive non-refundable consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised (see Note 2(l)).

(l) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due.

Trade receivables that do not contain a significant financing component are initially measured at their transaction price. Receivables are subsequently stated at amortised cost, using the effective interest method less allowance for credit losses (see Note 2(i)(i)).

(m) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for ECLs in accordance with the policy set out in Note 2(i)(i).

(n) Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently stated at amortised costs unless the effect of discounting would be immaterial, in which case they are stated at invoice amounts.

Refund liabilities arising from rights of returns are recognised in accordance with the policy set out in Note 2(t)(i).

(o) Interest-bearing borrowings

Interest-bearing borrowings are measured initially at fair value less transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with the Group's accounting policy for borrowing costs (see Note 2(v)).

(p) Employee benefits***(i) Short-term employee benefits and contributions to defined contribution retirement plans***

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the period in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(ii) Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

(iii) Share-based payments

The share-based payment arrangement of the Group includes share awards and transfers of paid-in capital among the equity shareholders as set out in Note 26 to the Historical Financial Information.

Share awards

The fair value of the share awards granted to the employees is measured at the grant date, which represents the difference between the subscription price paid by the employees and the fair value of the paid-in capital of the Company shareholder at grant date. Where the share awards are settled by the Company's shareholders, the share-based payment transaction is equity-settled from the perspective of the Group. Where there are no vesting conditions that the employees are required to meet, the fair value of the share awards is recognised as share-based payment expenses at the grant date, with a corresponding increase in a capital reserve within equity.

Transfers of paid-in capital among the equity shareholders

Where the employees transfer the Company's paid-in capital without preferential rights to the new investors as paid-in capital with preferential rights as arranged by the Company in its capital raising transactions, and the considerations received by the employees with reference to the fair value of paid-in capital with preferential rights, which exceeds the fair value of the equity instruments transferred, the Group recognised such excess as share-based payment expenses.

Share-based payment expenses for employees of the Group's subsidiaries are recognised as contributions to subsidiaries under interests in subsidiaries in the Company's statement of financial position.

(q) Redemption liabilities

A contract that contains an obligation for the Company to purchase its own equity instruments for cash or another financial asset gives rise to a financial liability even if the Company's obligation to purchase is conditional on the counterparty exercising its right to redeem. The redemption liability is initially measured at the present value of the redemption amount and subsequently measured at amortised cost with interest expense being included in change in the carrying amounts of financial instruments issued to investors.

The then carrying amount of the redemption liability is reclassified to equity upon a termination of the counterparty's redemption right.

(r) Income tax

Income tax for the period comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted or substantially enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous periods.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

(s) Provisions and contingent liabilities and onerous contracts

(i) Provisions and contingent liabilities

Provisions are recognised when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, a separate asset is recognised for any expected reimbursement that would be virtually certain. The amount recognised for the reimbursement is limited to the carrying amount of the provision.

(ii) Onerous contracts

An onerous contract exists when the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. Provisions for onerous contracts are measured at the present value of the lower of the expected cost of terminating the contract and the net cost of fulfilling the contract. The cost of fulfilling the contract includes both the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling that contract.

(t) Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of goods or the provision of services in the ordinary course of the Group's business.

Revenue is recognised when control over a product or service is transferred to the customer at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Further details of the Group's revenue and other income recognition policies are as follows:

(i) Sale of goods

Revenue is recognised when the customer takes possession of and accepts the products. If the products are a partial fulfilment of a contract covering other goods, then the amount of revenue recognised is an appropriate proportion of the total transaction price under the contract, allocated between all the goods promised under the contract on a relative stand-alone selling price basis.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

The Group offers certain customers for the sale of goods with rights of return and retrospective volume rebates when their purchases reach an agreed threshold. Such rights of return and volume rebates give rise to variable consideration.

The Group uses an expected value approach to estimate variable consideration based on the Group's current and future performance expectations and all information that is reasonably available. This estimated amount is included in the transaction price to the extent it is highly probable that a significant reversal of cumulative revenue recognised will not occur when the

uncertainty associated with the variable consideration is resolved. At the time of sale of goods, the Group recognises revenue after taking into account adjustment to transaction price arising from returns and rebates as mentioned above. A refund liability is recognised for the expected returns and rebates, and is included in other payables. A right to recover returned goods (included in inventories) and corresponding adjustment to cost of sales are also recognised for the right to recover products from customers. This right to recover returned goods is measured at the former carrying amount of the inventory less any expected costs to recover goods (including potential decreases in the value of the returned goods).

(ii) Service income

Service income is recognised when the services are rendered. When the Group acts in the capacity of an agent rather than as the principal in a transaction, the revenue is recognised when the related agent services are rendered at the net amount of commission received or to be received by the Group.

(iii) Interest income

Interest income is recognised as it accrues under the effective interest method using the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. For financial assets measured at amortised cost or FVOCI (recycling) that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit-impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of loss allowance) of the asset (see Note 2(i)(i)).

(iv) Government grants

Government grants are recognised in the statement of financial position initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as other income in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are recognised as deferred income in the statement of financial position and are subsequently recognised in profit or loss over the useful life of the asset.

(v) Dividends

Dividend income from equity investments is recognised when the shareholder's right to receive payment is established.

(u) Translation of foreign currencies

Foreign currency transactions during the period are translated into the functional currency of the entity to which they relate at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency of the entity to which they relate at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into the functional currency of the entity to which they relate using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the entity initially recognises such non-monetary assets or liabilities.

(v) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

(w) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).

- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (iii) Both entities are joint ventures of the same third party.
- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
- (vi) The entity is controlled or jointly controlled by a person identified in (a).
- (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
- (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(x) Segment reporting

Operating segments, and the amounts of each segment item reported in the Historical Financial Information, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

3 ACCOUNTING JUDGEMENT AND ESTIMATES

(a) Sources of estimation uncertainty

Note 28 contains information about the assumptions and their risk factors relating to fair value of financial instruments. Other key sources of estimation uncertainty are as follows:

Share-based payments

The Group measures the cost of share-based payments with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value requires determining the most appropriate valuation model for a grant of equity instruments, which is dependent on the terms and conditions of the grant. The determination of the fair value of the share-based payments is affected by the significant assumptions such as the underlying equity value, the expected volatility of share price and risk free interest rate. Details of share-based payments are contained in Note 26.

4 REVENUE AND SEGMENT REPORTING

(a) Revenue

The principal activities of the Group are manufacturing and sales of pantry staple food. All of the revenue of the Group is recognised at a point in time during the Track Record Period. Further details regarding the Group's principal activities are disclosed in Note 4(b).

Disaggregation of revenue by primary products is disclosed in Note 4(b)(i).

During the Track Record Period, the Group's customers with whom transactions have exceeded 10% of the Group's revenue in the respective years/periods are as follows. Details of concentrations of credit risk of the Group are set out in Note 28(a).

	Year ended 31 December			Three months ended

Company B <i>(Note)</i>	653,246	746,057	822,710	137,892	187,363

Note:

Company B acquired a subsidiary in October 2020. The Group's revenue from the Company B in 2020 includes revenue from the subsidiary of RMB18.0 million before the acquisition date in October 2020.

The Group takes advantage of the practical expedient in paragraph 121 of IFRS 15 and does not disclose the remaining performance obligation as all of the Group's sale contracts have an original expected duration of less than one year.

(b) Segment reporting

The Group manages its businesses by products. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has presented the following three reportable segments. No operating segments have been aggregated to form the following reportable segments.

- Rice products: this segment mainly produces pre-packaged rice products of different varieties.
- Whole grain, bean and other products: this segment mainly produces pre-packaged mixed brown rice, millet, red bean and sesame.
- Dried food and other products: this segment mainly produces pre-packaged wood ear mushrooms, snow fungus mushroom and lotus seeds, as well as by-products, such as bran, husk and fractioned rice.

(i) Segment results

For the purposes of assessing segment performance and allocating resources between segments, the Group's senior executive management monitors the results attributable to each reportable segment on the following bases:

Revenue and expenses are allocated to the reportable segments with reference to revenue generated by those segments and the expenses incurred by those segments. The measure used for reporting segment result is gross profit. No inter-segment sales have occurred during the Track Record Period. Assistance provided by one segment to another is not measured.

The Group's other operating income and expenses, such as other net income, selling and distribution expenses, administrative expenses and impairment losses, and assets and liabilities are not measured under individual segments. Accordingly, neither information on segment assets and liabilities nor information concerning capital expenditure, interest income and interest expenses is presented.

Information regarding the Group's reportable segments as provided to the Group's most senior executive management for the purposes of resource allocation and assessment of segment performance during the Track Record Period is set out below.

10 EARNINGS/(LOSS) PER SHARE

(a) Basic earnings/(loss) per share

The calculation of the basic earnings/(loss) per share during the Track Record Period is based on the profit/(loss) attributable to ordinary equity shareholders of the Company and the weighted average number of ordinary shares in issue or deemed to be in issue during the Track Record Period.

The Company was converted into a joint stock limited liability company and issued 99,445,074 shares with the par value of RMB1 each on 6 January 2023. For the purpose of computing basic earnings/(loss) per share, the weighted average number of ordinary shares deemed to be in issue before the Company's conversion into a joint stock limited liability company was determined assuming the conversion into joint stock limited liability company had occurred on 1 January 2020, at the conversion ratio established in the conversion in January 2023 and does not take into account of the share split plan detailed in Note 33.

The financial instruments issued to investors with preferential rights were treated as treasury stock and debited to other reserve before the termination of preferential rights as described in Note 22. Accordingly, before the termination of preferential rights, the shares converted from related paid-in capital was deducted when calculating the number of ordinary shares deemed in issue.

(b) Diluted earnings/(loss) per share

Diluted earnings/(loss) per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. During the Track Record Period, the Group's potential ordinary shares are from financial instruments issued to investors with preferential rights (Note 22). The potential ordinary shares were not included in the calculation of diluted earnings/(loss) per share as their inclusion would be anti-dilutive. Accordingly, diluted earnings/(loss) per share for the years ended 31 December 2020, 2021 and 2022 and the three months ended 31 March 2022 and 2023 are the same as basic earnings/(loss) per share for the respective years/periods.

- (a) Land-use-right premiums was paid by the Group for land situated in the PRC. Lump sum payments were made upfront to acquire these land-use-rights, there are no ongoing payments to be made under the terms of the land lease.

At 31 December 2020, 2021 and 2022 and 31 March 2023, certificates of certain land-use-rights of the Group with carrying amount of RMBNil, RMBNil, RMB23.6 million and RMB18.8 million respectively, are yet to be obtained.

- (b) The Group has obtained the right to use the properties as its warehouse and offices through tenancy agreements. The leases typically run for an initial period of 1 to 5 years.

Some leases include an option to renew the lease for an additional period after the end of the contract term. Where practicable, the Group seeks to include such extension options exercisable by the Group to provide operational flexibility. The Group assesses at lease commencement date whether it is reasonably certain to exercise the extension options. If the Group is not reasonably certain to exercise the extension options, the future lease payments during the extension periods are not included in the measurement of lease liabilities. For existing leases as at 31 December 2020, 2021 and 2022 and 31 March 2023, the Group is not reasonably certain to exercise any extension options therefore did not include future lease payments during the extension periods in the measurement of lease liabilities.

Grant of redemption right in Series C financing	285,714
Changes in the carrying amount of redemption liabilities	<u>55,051</u>
At 31 March 2023	<u><u>2,720,926</u></u>

From July 2020 to February 2023, the Company conducted several rounds of financing by issuing registered capital to investors and the investors were granted a right to put back to the Company the registered capital acquired upon the occurrence of any of the following events: (i) no qualified initial public offerings has been consummated within five (5) or six (6) years following the closing of series financing; (ii) any material breach of the agreements made with the financing investors under the transaction documents; (iii) any founding shareholders resign or is unable to act as the key management or core staff due to any subjective reasons before a qualified initial public offerings; (iv) the other financing investors required the Company to redeem their registered capital based on the above events (i), (ii) and (iii).

The redemption price is as follows:

- For the Series A-1 and A-2 investors, the redemption price is the higher of (i) the investment amount paid by the investors, plus an annual compound interest rate of 10% on the investment amount for the period commencing from the relevant payment date of the investment amount to the date on which the investors receive payments for redemption, and any declared but undistributed dividends; and (ii) the market fair value of the paid-in capital with redemption rights required to be redeemed. Upon the Series B financing agreements dated on 12 April 2021, the redemption rights of the Series A-1 and A-2 investors were amended, such that (ii) above was removed. The changes in the carrying amount of the redemption liabilities as a result of such modification of RMB334,006,000 was charged to equity, since the modification is a transaction between the Company and its shareholders in their capacity as owners.

- For the Series B and Series C investors, the redemption price is the investment amount paid by the investors, plus an annual simple interest rate of 10% on the investment amount for the period commencing from the relevant payment date of investment amount to the date on which the investors receive payments for redemption, and any declared but undistributed dividends.

The redemption rights will automatically expire upon the qualified initial public offering of the Company's shares on the Stock Exchange.

(b) Series A-1 investor's right to subscribe for additional registered capital

The movements of the Series A-1 investor's right to subscribe for additional registered capital are set out below:

(a) Share awards

During the year ended 31 December 2022, RMB9,236,155 paid-in capital of Shenyang Shiyue Zhongxin Enterprise Management Consulting Partnership (Limited Partnership) (“Shiyue Zhongxin”), one of the Company’s shareholders, were granted to Mr. Wang Bing and Ms. Zhao Wenjun at a price of RMB1 per unit paid-in capital by allocation of the partnership interests of Shiyue Zhongxin. The share awards were vested immediately at the grant date.

The grant date fair value of the share-based payments is measured at the difference between the fair value of RMB75.8 per unit paid-in capital at the grant date and the price of RMB1 per unit paid-in capital.

(b) Transfers of paid-in capital among the equity shareholders

Simultaneous with the Series B financing in April 2021, two investors purchased RMB3,681,000 paid-in capital at RMB108.7 per unit paid-in capital from Shenyang Shiyue Daotian Enterprise Management Consulting Partnership (Limited Partnership) (“Shiyue Daotian Enterprise Management”), controlled by certain senior managements of the Group. The new investors were immediately granted redemption rights after the paid-in capital transferred. The difference of RMB187,348,000 between the consideration of RMB400,000,000 paid to Shiyue Daotian Enterprise Management and the fair value of RMB212,652,000 of the transferred paid-in capital, was recognised as share-based compensation expenses in profit or loss.

Simultaneous with the Series C financing in October 2022, a new investor purchased RMB955,000 paid-in capital at RMB126.7 per unit paid-in capital from Shiyue Daotian Enterprise Management, controlled by certain senior managements of the Group. The new investor was immediately granted redemption right after the paid-in capital transferred. The difference of RMB48,583,000 between consideration of RMB120,961,000 paid to Shiyue Daotian Enterprise Management and the fair value of RMB72,377,000 of the transferred paid-in capital, was recognised as share-based compensation expenses in profit or loss.

Prior to the completion of the Reorganisation, on 20 May 2020 and 4 August 2020, Shenyang Xinchang and Wuchang Caiqiao declared distributed dividends of RMB10,000,000 and RMB40,000,000, respectively, to the then equity shareholders of the Company.

Simultaneous with the Series C financing in October 2022, a new investor purchased RMB1,988,901 paid-in capital at RMB126.7 per unit paid-in capital from a series A investor. The difference of RMB207,760,000 between consideration of RMB252,000,000 and the carrying amount of the redemption liabilities of RMB44,240,000 of the transferred paid-in capital, was recognised in the other reserve as deemed distribution.

(d) Capital reserve

The capital reserve comprises: (i) the differences between the net considerations received and the nominal amount of paid-in capital/share capital issued by the Company; (ii) the grant date fair value of share awards which have been granted to and exercised by certain managements of the Group during the reporting periods; and (iii) the differences between the net assets received and the total amount of the par value of shares issued in relation to the conversion into a joint stock company as disclosed in Note 27(b)(ii).

(e) Other reserve

The other reserve includes reserve arising from the Reorganisation, amounts in relation to the initial recognition and modification of the redemption liabilities, transactions with the Company's shareholders and deemed distribution as set out in Note 27(c).

(f) Statutory reserve

In accordance with relevant PRC laws and regulations and the articles of association of subsidiaries of the Group established in the PRC, these subsidiaries were required to set up certain statutory reserves, which were non-distributable, to transfer 10% of their net profit to their respective statutory reserves until the respective reserves reach 50% of the respective registered capital. The statutory reserves can only be utilised for predetermined means upon approval by the shareholders' meeting.

(g) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

28 FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS

Exposure to credit, liquidity and interest rate risks arises in the normal course of the Group's business. The Group is not exposed to significant currency risk.

The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

(a) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group's credit risk is primarily attributable to trade receivables. The Group's exposure to credit risk arising from cash and cash equivalents and bills receivables is limited because the counterparties are banks and financial institutions with high credit standing, for which the Group considers to have low credit risk. Deposits and amounts due from the e-commerce platforms, deposits for bidding and purchase of land-use-rights, guarantee deposits, other receivables and deposits have been classified as other receivables. For the purposes of internal credit risk management, the Group has applied the general approach in IFRS 9 to measure the loss allowance at 12-month ECLs as there is no significant increase in credit risk since initial recognition. The Group determines the expected

credit losses for these assets by assessment of probability of default, loss given default and exposure at default. As at the end of each reporting period, in view of the nature of these balances and historical settlement record, the Group considers that the provision of ECL allowance for these assets was not significant.

The Group does not provide any guarantees which would expose the Group to credit risk.

Trade receivables

The Group has established a credit risk management policy under which individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Normally, the Group does not obtain collateral from customers.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer rather than the industry or country in which the customers operate and therefore significant concentrations of credit risk primarily arise when the Group has significant exposure to individual customers. At 31 December 2020, 2021 and 2022 and 31 March 2023, 46%, 36%, 27% and 18% of the total trade receivables, respectively, were due from the Group's largest debtor, and 72%, 84% and 74% and 60% of the total trade receivables, respectively, were due from the Group's five largest debtors. The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

The following table provides information about the Group's exposure to credit risk and ECLs for trade receivables as at 31 December 2020, 2021 and 2022 and 31 March 2023:

(b) Liquidity risk

The treasury function is centrally managed by the Group, which includes the short-term investment of cash surpluses and the raising of funds to cover expected cash demands. The Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions and investors to meet its liquidity requirements in the short and longer term.

The following tables show the remaining contractual maturities at the end of each reporting period of the Group's financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at the end of the reporting period) and the earliest date the Group can be required to pay:

In addition to the above, the Group was also exposed to liquidity risk arising from financial instruments issued to investors at 31 December 2020, 2021 and 2022 and 31 March 2023, the payment terms of which are further disclosed in Note 22.

(c) Interest rate risk

(i) Interest rate profile

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest rate risk arises primarily from interest-bearing borrowings issued at variable rates and at fixed rates, which expose the Group to cash flow interest rate risk and fair value interest rate risk, respectively.

The following table details the interest rate profile of the Group's borrowings at the end of each reporting period.

	At 31 December 2020		At 31 December 2021		At 31 December 2022		At 31 March 2023	
	Effective		Effective		Effective		Effective	
	interest rate	RMB'000	interest rate	RMB'000	interest rate	RMB'000	interest rate	RMB'000
	%		%	%		%

Fixed rate borrowings as a percentage of total borrowings		<u><u>98%</u></u>		<u><u>100%</u></u>		<u><u>71%</u></u>		<u><u>50%</u></u>

(ii) Sensitivity analysis

At 31 December 2020, 2021 and 2022 and 31 March 2023, it is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would have decreased/increased the Group's profit/(loss) after tax and retained profits/(accumulated losses) by approximately RMB50,000, RMBNil, RMB1,201,000 and RMB2,000,000, respectively.

The sensitivity analysis above indicates the instantaneous change in the Group's profit after tax and retained profits that would arise assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to re-measure those financial instruments held by the Group which expose the Group to fair value interest rate risk at the end of the reporting period. In respect of the exposure to cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the end of the reporting period, the impact on the Group's profit after tax and retained profits is estimated as an annualised impact on interest expense or income of such a change in interest rates.

(d) Currency risk

The Group is not exposed to significant foreign currency risk since financial assets and liabilities denominated in currencies other than the functional currencies of the Company and its subsidiaries are not significant.

(e) Fair value measurement**(i) Assets and liabilities measured at fair value***Fair value hierarchy*

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in IFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

The following table presents the Group's financial assets and financial liabilities that are measured at fair value at the end of each reporting date:

	Fair value at 31 December 2020	Fair value at 31 December 2021	Fair value measurements as at 31 December 2020 categorised into		Fair value measurements as at 31 December 2021 categorised into
			Level 2	Level 3	Level 2
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Wealth management products	20,000	30,000	20,000	–	30,000
Series A-1 investor's right to subscribe for additional registered capital	44,641	–	–	44,641	–
	<u>44,641</u>	<u>–</u>	<u>–</u>	<u>44,641</u>	<u>–</u>

During the Track Record Period, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of wealth management products is determined with reference to the quotation published by the issuing bank as at the end of the year.

Information about Level 3 fair value measurements

As at 31 December 2020, the Group applied the discount cash flow method to determine the underlying equity value of the Group and adopted the Black-Scholes model to determine the fair value of the Series A-1 investor's right to subscribe for additional registered capital. Key assumptions are set as below:

	At 31 December 2020
Risk-free interest rate	2.45%
Volatility	<u>54%</u>

As at 31 December 2020, if all other variables held constant, an increase/decrease in the risk free rate by 1% would have a decrease/increase impact on the Group's profit after tax by RMB370,000 and RMB373,000, respectively.

As at 31 December 2020, if all other variables held constant, an increase/decrease in the expected volatility by 5% would have a decrease/increase impact on the Group's profit after tax by RMB559,000 and RMB579,000, respectively.

(ii) Fair value of financial assets and liabilities carried at other than fair value

The carrying amounts of the Group's financial instruments carried at cost or amortised cost were not materially different from their fair values as at 31 December 2020, 2021 and 2022 and 31 March 2023.

29 COMMITMENTS**(a) Capital commitments outstanding at 31 December 2020, 2021 and 2022 and 31 March 2023 not provided for in the Historical Financial Information were as follows:**

31 CONTINGENT LIABILITIES

In March 2023, certain companies of the Group are named defendants on a lawsuit in respect of disputes on trademarks infringement. As at the date of this report, this lawsuit is under review before the court, and the Group's bank deposits of RMB30.0 million has been frozen by the court for this lawsuit. Based on legal advices and assessment from the directors of the Company, no provision has been provided in respect of this claim.

32 IMMEDIATE AND ULTIMATE CONTROLLING PARTY

At 31 March 2023, the directors consider the immediate and ultimate controlling party of the Group to be Mr. Wang Bing.

33 SUBSEQUENT EVENTS

(a) Impacts of flood in August 2023

In August 2023, areas in Northeast China such as Wuchang City have been affected by flood as the result of a period of prolonged heavy rainfall, which may impact the Group's operations and financial performance. As far as the Group's businesses are concerned, the potential impacts on the Group's business operations could include but not limited to the shortage in raw material supply, the increase in raw material price and the decrease of the gross profit margin resulting from the failure to pass the incremental procurement costs of to customers. Accordingly, the Group has been closely monitoring whether the development may impact its business operations and financial performance and keep contingency measures in place and under review. These contingency measures include but not limited to, reassessing the adequacy and sustainability of the Group's existing suppliers, expanding the supplier network or engaging additional OEM suppliers to secure inventory of raw materials to ensure the quality of our raw materials and support the production. The Group will keep the contingency measures under review as the situation evolves.

(b) Share split upon listing

As approved by the Company's shareholders' general meeting held on 30 March 2023, immediately upon listing, the ordinary shares of the Company will be split on a one-for-ten basis, and the nominal value of the shares will be changed from RMB1.00 each to RMB0.10 each.

34 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE ACCOUNTING PERIOD BEGINNING ON 1 JANUARY 2023

Up to date of issue of the Historical Financial Information, the IASB has issued a number of amendments which are not yet effective for the accounting period beginning on 1 January 2023 and which have not been adopted in the Historical Financial Information. These include the following.

	Effective for accounting period beginning on or after
Amendments to IAS 7 and IFRS 7, <i>Supplier Finance Arrangements</i>	1 January 2024
Amendments to IAS 1, <i>Classification of Liabilities as Current or Non-current</i>	1 January 2024
Amendments to IAS 1, <i>Non-current liabilities with covenants</i>	1 January 2024
Amendments to IFRS 16, <i>Lease liability in a sale and leaseback</i>	1 January 2024
Amendments to IFRS 10 and IAS 28, <i>Sale or contribution of assets between an investor and its associate or joint venture</i>	To be determined

The Group is in the process of making an assessment of what the impact of these developments is expected to be in the initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

SUBSEQUENT FINANCIAL STATEMENTS

No audited financial statements have been prepared by the Company and its subsidiaries in respect of any period subsequent to 31 March 2023.

The following information does not form part of the Accountants' Report received from the Company's reporting accountants, KPMG, Certified Public Accountants, Hong Kong, as set out in Appendix I to this prospectus, and is included herein for illustrative purposes only. The unaudited pro forma financial information should be read in conjunction with the section headed "Financial information" in this prospectus and the Accountants' Report set out in Appendix I to this prospectus.

A. UNAUDITED PRO FORMA STATEMENT OF ADJUSTED NET TANGIBLE ASSETS

The following unaudited pro forma statement of adjusted net tangible assets of the Group is prepared in accordance with paragraph 4.29 of the Listing Rules, and is set out below to illustrate the effect of the Global Offering on the consolidated net tangible liabilities attributable to equity shareholders of the Company as at 31 March 2023 as if the Global Offering had taken place on 31 March 2023.

The unaudited pro forma statement of adjusted net tangible assets has been prepared for illustrative purposes only and because of its hypothetical nature, it may not give a true picture of the financial position of the Group had the Global Offering been completed as at 31 March 2023 or at any future date.

	Consolidated net tangible liabilities attributable to equity shareholders of the Company as at 31 March 2023 ⁽¹⁾ RMB'000	Estimated net proceeds from the Global Offering ⁽²⁾ RMB'000	Estimated impact to net tangible assets upon reclassification of financial instruments issued to investors ⁽³⁾ RMB'000	Unaudited pro forma adjusted net tangible assets attributable to equity shareholders of the Company RMB'000	Unaudited pro forma adjusted net tangible assets per Share ⁽⁴⁾ RMB ⁽⁴⁾	HK\$ ⁽⁵⁾

Based on an Offer Price of HK\$15.8 per H Share	(91,483)	692,910	2,720,926	3,322,353	3.11	3.39

Notes:

- (1) The consolidated net tangible liabilities attributable to equity shareholders of the Company as at 31 March 2023 is calculated based on the consolidated total deficits attributable to equity shareholders of the Company of RMB91,483,000 as at 31 March 2023, which is extracted from “Appendix I – Accountants’ Report” to this prospectus.
- (2) The estimated net proceeds from the Global Offering are based on the indicative Offer Prices of HK\$13.0 per H Share (being the minimum Offer Price) and HK\$15.8 per H Share (being the maximum Offer Price) and 53,407,500 H Shares expected to be issued under the Global Offering, after deduction of the underwriting fees and other related expenses paid or payable by the Company (excluding the listing expenses that have been charged to profit or loss up to 31 March 2023). The estimated net proceeds of the Global Offering have been converted to RMB at the PBOC rate of HK\$1.0000 to RMB0.9186 prevailing on 13 September 2023. No representation is made that HK\$ amounts have been, could have been or may be converted to RMB, or vice versa, at that rate or at any other rate.
- (3) As at 31 March 2023, the carrying amount of the financial instruments issued to investors was RMB2,720,926,000, which was related to redemption rights issued to investors (as set out in Note 22 of “Appendix I – Accountants’ Report” to this prospectus). Upon qualified initial public offering, the redemption rights will automatically expire, and the financial instruments issued to investors will be reclassified from liabilities to equity accordingly.
- (4) The unaudited pro forma adjusted net tangible assets per Share is arrived at after the above adjustments and on the basis that 1,068,153,150 Shares were in issue immediately following the completion of the Global Offering and the Share Split upon Listing on a one-for-ten basis.
- (5) The unaudited pro forma adjusted net tangible assets per Share amounts in RMB are converted to HK\$ with the PBOC rate of RMB0.9186 to HK\$1.0000 prevailing on 13 September 2023. No representation is made that RMB amounts have been, could have been or may be converted to HK\$, or vice versa, at that rate or at any other rate.
- (6) No adjustment has been made to reflect any trading result or other transactions of the Group entered into subsequent to 31 March 2023.

B. REPORT ON THE UNAUDITED PRO FORMA FINANCIAL INFORMATION

The following is the text of a report received from the reporting accountants, KPMG, Certified Public Accountants, Hong Kong, in respect of the Group's pro forma financial information for the purpose in this prospectus.

**INDEPENDENT REPORTING ACCOUNTANTS' ASSURANCE REPORT ON THE
COMPILATION OF PRO FORMA FINANCIAL INFORMATION****TO THE DIRECTORS OF SHIYUE DAOTIAN GROUP CO., LTD.**

We have completed our assurance engagement to report on the compilation of pro forma financial information of Shiyue Daotian Group Co., Ltd. (十月稻田集團股份有限公司) (the "Company") and its subsidiaries (collectively the "Group") by the directors of the Company (the "Directors") for illustrative purposes only. The unaudited pro forma financial information consists of the unaudited pro forma statement of adjusted net tangible assets as at 31 March 2023 and related notes as set out in Part A of Appendix II to the prospectus dated 28 September 2023 (the "Prospectus") issued by the Company. The applicable criteria on the basis of which the Directors have compiled the pro forma financial information are described in Part A of Appendix II to the Prospectus.

The pro forma financial information has been compiled by the Directors to illustrate the impact of the proposed offering of the H shares of the Company (the "Global Offering") on the Group's financial position as at 31 March 2023 as if the Global Offering had taken place at 31 March 2023. As part of this process, information about the Group's financial position as at 31 March 2023 has been extracted by the Directors from the Group's historical financial information included in the Accountants' Report as set out in Appendix I to the Prospectus.

Directors' Responsibilities for the Pro Forma Financial Information

The Directors are responsible for compiling the pro forma financial information in accordance with paragraph 4.29 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and with reference to Accounting Guideline 7 "Preparation of Pro Forma Financial Information for Inclusion in Investment Circulars" ("AG 7") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Our Independence and Quality Management

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the HKICPA, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies Hong Kong Standard on Quality Management 1 “Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements”, which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Reporting Accountants’ Responsibilities

Our responsibility is to express an opinion, as required by paragraph 4.29(7) of the Listing Rules, on the pro forma financial information and to report our opinion to you. We do not accept any responsibility for any reports previously given by us on any financial information used in the compilation of the pro forma financial information beyond that owed to those to whom those reports were addressed by us at the dates of their issue.

We conducted our engagement in accordance with Hong Kong Standard on Assurance Engagements (“HKSAE”) 3420 “Assurance Engagements to Report on the Compilation of Pro Forma Financial Information Included in a Prospectus” issued by the HKICPA. This standard requires that the reporting accountants plan and perform procedures to obtain reasonable assurance about whether the Directors have compiled the pro forma financial information in accordance with paragraph 4.29 of the Listing Rules, and with reference to AG 7 issued by the HKICPA.

For purpose of this engagement, we are not responsible for updating or reissuing any reports or opinions on any historical financial information used in compiling the pro forma financial information, nor have we, in the course of this engagement, performed an audit or review of the financial information used in compiling the pro forma financial information.

The purpose of pro forma financial information included in an investment circular is solely to illustrate the impact of a significant event or transaction on unadjusted financial information of the Group as if the event had occurred or the transaction had been undertaken at an earlier date selected for purposes of the illustration. Accordingly, we do not provide any assurance that the actual outcome of events or transactions as at 31 March 2023 would have been as presented.

A reasonable assurance engagement to report on whether the pro forma financial information has been properly compiled on the basis of the applicable criteria involves performing procedures to assess whether the applicable criteria used by the Directors in the compilation of the pro forma financial information provide a reasonable basis for presenting the significant effects directly attributable to the event or transaction, and to obtain sufficient appropriate evidence about whether:

- the related pro forma adjustments give appropriate effect to those criteria; and
- the pro forma financial information reflects the proper application of those adjustments to the unadjusted financial information.

The procedures selected depend on the reporting accountants' judgement, having regard to the reporting accountants' understanding of the nature of the Group, the event or transaction in respect of which the pro forma financial information has been compiled, and other relevant engagement circumstances.

The engagement also involves evaluating the overall presentation of the pro forma financial information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our procedures on the pro forma financial information have not been carried out in accordance with attestation standards or other standards and practices generally accepted in the United States of America, auditing standards of the Public Company Accounting Oversight Board (United States) or any overseas standards and accordingly should not be relied upon as if they had been carried out in accordance with those standards and practices.

We make no comments regarding the reasonableness of the amount of net proceeds from the issuance of the Company's shares, the application of those net proceeds, or whether such use will actually take place as described in the section headed "Future Plans and Use of Proceeds" in the Prospectus.

Opinion

In our opinion:

- (a) the pro forma financial information has been properly compiled on the basis stated;
- (b) such basis is consistent with the accounting policies of the Group, and
- (c) the adjustments are appropriate for the purposes of the pro forma financial information as disclosed pursuant to paragraph 4.29(1) of the Listing Rules.

TAXATION OF SECURITY HOLDERS

The taxation of income and capital gains of holders of H Shares is subject to the laws and practices of the PRC and of jurisdictions in which holders of H Shares are residents or otherwise subject to tax. The following summary of certain relevant taxation provisions is based on current effective laws and practices, and no predictions are made about changes or adjustments to relevant laws or policies, and no comments or suggestions will be made accordingly. The discussion has no intention to cover all possible tax consequences resulting from the investment in H Shares, nor does it take the specific circumstances of any particular investor into account, some of which may be subject to special regulations. Accordingly, you should consult your own tax adviser regarding the tax consequences of an investment in H Shares. The discussion is based upon laws and relevant interpretations in effect as of the date of this document, which is subject to change or adjustment and may have retrospective effect. No issues on PRC or Hong Kong taxation other than income tax, capital appreciation and profit tax, business tax/appreciation tax, stamp duty and estate duty were referred in the discussion. Prospective investors are urged to consult their financial advisers regarding the PRC, Hong Kong and other tax consequences of owning and disposing of H Shares.

The PRC Taxation*Taxation on Dividends**Individual Investors*

Pursuant to the Individual Income Tax Law of the PRC (《中華人民共和國個人所得稅法》), which was most recently amended on August 31, 2018, and the Implementation Provisions of the Individual Income Tax Law of the PRC (《中華人民共和國個人所得稅法實施條例》), which was most recently amended on December 18, 2018 (hereinafter collectively referred to as the “**IIT Law**”), dividends distributed by PRC enterprises are subject to individual income tax levied at a flat rate of 20%. For a foreign individual who is not a resident of the PRC, the receipt of dividends from an enterprise in the PRC is normally subject to individual income tax of 20% unless specifically exempted by the tax authority of the State Council or reduced by relevant tax treaty.

Pursuant to the Circular on Issues Concerning Taxation and Administration of Individual Income Tax After the Repeal of the Document Guo Shui Fa [1993] No. 045 (《關於國稅發[1993]045號文件廢止後有關個人所得稅徵管問題的通知》) issued by the STA on June 28, 2011, for a domestic non-foreign invested enterprise who has been issuing shares in Hong Kong, its foreign individual shareholders may enjoy the relevant preferential tax treatment according to the taxation agreement between the PRC and the country where they reside and the taxation arrangement between the PRC and Hong Kong (or Macau). When domestic non-foreign invested enterprises, which issue stocks in Hong Kong, pay dividends and bonus, in general, it will withhold 10% of the dividends and profits as individual income tax and no applications are needed. Where the individuals who receive the dividends are residents of countries where the agreed tax rate is lower than 10%, the withholding agent shall, according

to regulations provisions, handle the applications for relevant preferential treatments and refund the extra tax upon the approval of competent tax authorities. Where the individuals are residents of countries where the agreed tax rate is higher than 10% but lower than 20%, the withholding agent shall withhold the individual income tax according to the agreed actual tax rate when paying the dividends and bonuses and no applications are needed in such cases. Where the dividend receiving individuals are residents of countries which have not established tax treaties with China or other circumstances exist, the withholding agent shall withhold the individual income tax based on the rate of 20% when paying dividends and bonuses.

Enterprise Investors

In accordance with the EIT Law and the Implementation Rules of the EIT Law, the rate of EIT shall be 25%. A non-resident enterprise is generally subject to a 10% EIT on PRC-sourced income (including dividends received from a PRC resident enterprise that issues shares in Hong Kong), if it does not have an establishment or premise in the PRC or has an establishment or premise in the PRC but its PRC-sourced income has no real connection with such establishment or premise. The aforesaid income tax payable for non-resident enterprises are deducted at source, where the payer of the income is required to withhold the income tax from the amount to be paid to the non-resident enterprise.

The Circular on Issues Relating to the Withholding and Remitting of EIT by PRC Resident Enterprises on Dividends Distributed to Overseas Non-Resident Enterprise Shareholders of H Shares (《關於中國居民企業向境外H股非居民企業股東派發股息代扣代繳企業所得稅有關問題的通知》), which was issued and implemented by the STA on November 6, 2008, further clarified that a PRC-resident enterprise must withhold EIT at a rate of 10% on the dividends of 2008 and onwards that it distributes to overseas non-resident enterprise shareholders of H Shares. In addition, the Response to Questions on Levying EIT on Dividends Derived by Non-resident Enterprise from Holding Stock such as B Shares (《關於非居民企業取得B股等股票股息徵收企業所得稅問題的批覆》), which was issued by the STA and came into effect on July 24, 2009, further provides that any PRC-resident enterprise whose shares are listed on overseas stock exchanges must withhold and remit EIT at a rate of 10% on dividends of 2008 and onwards that it distributes to non-resident enterprises. Such tax rates may be further modified pursuant to the tax treaty or agreement that China has entered into with a relevant country or area, where applicable.

The PRC and the government of Hong Kong entered into the Arrangement between the Mainland of the PRC and Hong Kong Special Administrative Region on the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income (《內地和香港特別行政區關於對所得避免雙重徵稅和防止偷漏稅的安排》) (the “**Arrangement**”) on August 21, 2006, which came into effect on August 12, 2006. Pursuant to the Arrangement, the Chinese Government may levy taxes on the dividends paid by a PRC-resident enterprise to Hong Kong residents (including resident individuals and resident entities) in an amount not exceeding 10% of the total dividends payable by the PRC-resident enterprise unless a Hong Kong resident directly holds 25% or more of the equity interest in a PRC-resident enterprise, then such tax shall not exceed 5% of the total dividends payable by the PRC-resident

enterprise. The Fifth Protocol of the Arrangement between the Mainland of the PRC and the Hong Kong Special Administrative Region on the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income (《<內地和香港特別行政區關於對所得避免雙重徵稅和防止偷漏稅的安排>第五議定書》), which came into effect on December 31, 2019, adds a criteria for the qualification of entitlement to enjoy treaty benefits. Although there may be other provisions under the Arrangement, the treaty benefits under the criteria shall not be granted in the circumstance where relevant gains, after taking into account all relevant facts and conditions, are reasonably deemed to be one of the main purposes for the arrangement or transactions which will bring any direct or indirect benefits under this Arrangement, except when the grant of benefits under such circumstance is consistent with relevant objective and goal under the Arrangement. The application of the dividend clause of tax agreements is subject to the requirements of PRC tax law and regulation, such as the Notice of the STA on the Issues Concerning the Application of the Dividend Clauses of Tax Agreements (《關於執行稅收協定股息條款有關問題的通知》).

Tax Treaties

Non-resident investors residing in jurisdictions which have entered into treaties or adjustments for the avoidance of double taxation with the PRC might be entitled to a reduction of the Chinese EIT imposed on the dividends received from PRC companies. The PRC currently has entered into avoidance of double taxation treaties or arrangements with a number of countries and regions including Hong Kong Special Administrative Region, Macau Special Administrative Region, Australia, Canada, France, Germany, Japan, Malaysia, the Netherlands, Singapore, the United Kingdom, the United States and etc. Non-PRC resident enterprises entitled to preferential tax rates in accordance with the relevant taxation treaties or arrangements are required to apply to the Chinese tax authorities for a refund of the EIT in excess of the agreed tax rate, and the refund application is subject to approval by the Chinese tax authorities.

Taxation on Share Transfer

VAT and Local Additional Tax

According to the Interim Regulations on Value-added Tax of the PRC and the Implementation Rules for the Interim Regulations on Value-Added Tax of the PRC, all enterprises and individuals that engage in the sale of goods, the provision of processing, repair and replacement services, sales of service, intangible assets and real estate and the importation of goods within the territory of the PRC shall pay VAT at the rate of 0%, 6%, 11% and 17% for the different goods it sells and different services it provides, except when specified otherwise.

According to the Notice on the Adjustment to VAT Rates, the VAT rates of 17% and 11% applicable to the taxpayers who have VAT taxable sales activities or imported goods are adjusted to 16% and 10%, respectively. Subsequently, the MOF, the STA and the General Administration of Customs of the PRC jointly issued the Announcement on Relevant Policies for Deepening Value-Added Tax Reform to further adjust the VAT rates of 16% and 10% applicable to the taxpayers who have VAT taxable sales activities or imported goods to 13% and 9%, respectively.

In accordance with the Circular on Comprehensively Promoting the Pilot Program of the Collection of Value-added Tax in Lieu of Business Tax (《關於全面推開營業稅改徵增值稅試點的通知》), which was promulgated on March 23, 2016 and came into effect on May 1, 2016, transfer of financial products by individuals are exempt from VAT.

Income tax

Individual Investors

According to the IIT Law, gains on the transfer of equity interests in the PRC resident enterprises are subject to individual income tax at a rate of 20%.

Pursuant to the Circular on Continuing to Temporarily Exempt Individual Income Tax on Income from the Transfer of Shares by Individuals (《關於個人轉讓股票所得繼續暫免徵收個人所得稅的通知》) issued by the MOF and the STA on March 30, 1998, income of individuals from transfer of the shares of listed enterprises continues to be exempted from individual income tax since January 1, 1997.

On December 31, 2009, the MOF, the STA and CSRC jointly issued the Circular on Related Issues on Levying Individual Income Tax over the Income Received by Individuals from the Transfer of Restricted Shares of Listed Companies (《關於個人轉讓上市公司限售股所得徵收個人所得稅有關問題的通知》), which states that, since January 1, 2010, income derived by individuals from transfer of shares of listed companies issued to the public by the listed companies and transfer of shares of listed companies obtained from the market at the Shanghai Stock Exchange and the SZSE shall continue to be exempted from individual income tax, except for the relevant shares which are subject to sales restriction (as defined in the Supplementary Notice on Issues Concerning the Levy of Individual Income Tax on Individuals' Income from the Transfer of Restricted Shares of Listed Companies (《關於個人轉讓上市公司限售股所得徵收個人所得稅有關問題的補充通知》) jointly issued and implemented by the above three departments on November 10, 2010.

As of the Latest Practicable Date, no aforesaid provisions have expressly provided that individual income tax shall be levied from non-PRC resident individuals on the transfer of shares in PRC resident enterprises listed on overseas stock exchanges. To the knowledge of the Company, in practice, the PRC tax authorities have not levied income tax from non-PRC resident individuals on gains from the transfer of PRC resident enterprises listed overseas. However, there is no assurance that the PRC tax authorities will not change these practices which could result in levying income tax on non-PRC resident individuals on gains from the sale of H shares.

Enterprise Investors

In accordance with the EIT Law and the Implementation Rules of the EIT Law, a non-resident enterprise is generally subject to EIT at the rate of a 10% on PRC-sourced income, including gains derived from the disposal of equity interests in a PRC resident enterprise, if it does not have an establishment or premise in the PRC or has an establishment or premise in the PRC but its PRC-sourced income has no real connection with such establishment or premise. Such income tax payable for non-resident enterprises are deducted at source, where the payer of the income is required to withhold the income tax from the amount to be paid to the non-resident enterprise. Such tax may be reduced or exempted pursuant to relevant tax treaties or agreements on avoidance of double taxation.

Stamp Duty

According to the Stamp Duty Law of the PRC (《中華人民共和國印花稅法》), which was promulgated by the SCNPC on June 10, 2021 and came into effect on July 1, 2022, PRC stamp duty is applicable to the entities and individuals that conclude taxable vouchers or conduct securities trading within the territory of the PRC, and the entities and individuals outside the territory of the PRC that conclude taxable vouchers that are used inside China. Therefore, the requirements of the stamp duty imposed on the transfer of shares of PRC listed companies shall not apply to the acquisition and disposal of H Shares by non-PRC investors outside the PRC.

Estate Duty

As of the Latest Practicable Date, no estate duty has been levied in the PRC under the PRC laws.

Shanghai-Hong Kong Stock Connect Taxation Policy and Shenzhen-Hong Kong Stock Connect Taxation Policy

On October 31, 2014 and November 5, 2016, the MOF, STA and CSRC jointly issued the Circular on the Relevant Taxation Policy regarding the Pilot Inter-connected Mechanism for Trading on the Shanghai Stock Market and the Hong Kong Stock Market (《關於滬港股票市場交易互聯互通機制試點有關稅收政策的通知》) and the Circular on the Relevant Taxation Policy regarding the Pilot Inter-connected Mechanism for Trading on the Shenzhen Stock Market and the Hong Kong Stock Market (《關於深港股票市場交易互聯互通機制試點有關稅收政策的通知》), pursuant to which, the income from transfer differences and dividend and bonus income derived by PRC enterprise investors from investing in stocks listed on the Hong Kong Stock Exchange through Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect shall be included in their total income and subject to enterprise income tax in accordance with the law. In particular, the dividend and bonus income derived by PRC resident enterprises which hold H shares for at least 12 consecutive months shall be exempted from enterprise income tax according to law. H-share companies do not withhold tax on dividends and bonus income of PRC enterprise investors, and the tax payable shall be declared and paid by enterprises.

For dividends and bonuses received by PRC individual investors investing in H shares listed on the Hong Kong Stock Exchange through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect, H-share companies shall submit an application to China Securities Depository and Clearing Corporation Limited, which shall provide H-share companies with a register of PRC individual investors. H-share companies shall withhold individual income tax at a rate of 20%. Individual investors who have paid withholding tax outside the PRC may apply for tax credits at the competent tax authorities of the CSDC with valid tax deduction certificates. Individual income tax is levied on dividend and bonus income derived by PRC security investment funds from investing in stocks listed on the Hong Kong Stock Exchange through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect in accordance with the above provisions.

On December 4, 2019, the MOF, the SAT and the CSRC jointly issued the Announcement on the Continued Implementation of the Individual Income Tax Policies on the Interconnection Mechanisms for Transactions in Shanghai and Hong Kong Stock Markets and for Transactions in Shenzhen and Hong Kong Stock Markets (《關於繼續執行滬港、深港股票市場交易互聯互通機制和內地與香港基金互認有關個人所得稅政策的公告》), which stipulates that for PRC individual investors, the transfer difference income derived from investing in stocks listed on the Hong Kong Stock Exchange through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and the trading of Hong Kong fund units through mutual recognition of funds will continue to be exempt from individual income tax on a temporary basis from December 5, 2019 to December 31, 2022.

Hong Kong Taxation

Tax on Dividends

Under the current practice of the Inland Revenue Department of Hong Kong, no tax is payable in Hong Kong in respect of dividends paid by us.

Capital Gains and Profit Tax

No tax is imposed in Hong Kong in respect of capital gains from the sale of H shares. However, trading gains from the sale of the H shares by persons carrying on a trade, profession or business in Hong Kong, where such gains are derived from or arise in Hong Kong from such trade, profession or business will be subject to Hong Kong profits tax, which is currently imposed at the maximum rate of 16.5% on corporations and at the maximum rate of 15% on unincorporated businesses. Certain categories of taxpayers are likely to be regarded as deriving trading gains rather than capital gains (for example, financial institutions, insurance companies and securities dealers) unless these taxpayers can prove that the investment securities are held for long-term investment purposes.

Trading gains from sales of the H shares effected on the Hong Kong Stock Exchange will be considered to be derived from or arise in Hong Kong. Liability for Hong Kong profits tax would thus arise in respect of trading gains from sales of H shares effected on the Hong Kong Stock Exchange realized by persons carrying on a business of trading or dealing in securities in Hong Kong.

Stamp Duty

Hong Kong stamp duty, currently charged at the ad valorem rate of 0.13% on the higher of the consideration for or the market value of the H shares, will be payable by the purchaser on every purchase and by the seller on every sale of any Hong Kong securities, including H shares (in other words, a total of 0.26% is currently payable on a typical sale and purchase transaction involving H Shares). In addition, a fixed duty of HK\$5.00 is currently payable on any instrument of transfer of H Shares. Where one of the parties is a resident outside Hong Kong and does not pay the ad valorem duty due by it, the duty not paid will be assessed on the instrument of transfer (if any) and will be payable by the transferee. If no stamp duty is paid on or before the due date, a penalty of up to 10 times the duty payable may be imposed.

Estate Duty

The Revenue (Abolition of Estate Duty) Ordinance 2005 abolished estate duty in respect of deaths occurring on or after February 11, 2006.

PRINCIPAL TAXATION OF OUR COMPANY IN THE PRC

Please refer to “Regulatory Overview” in this prospectus.

FOREIGN EXCHANGE

The lawful currency of the PRC is Renminbi, which is currently subject to foreign exchange control and cannot be freely converted into foreign currency. The SAFE, with the authorization of the People’s Bank of China (the “PBOC”), is empowered with the functions of administering all matters relating to foreign exchange, including the enforcement of foreign exchange control regulations.

The Regulations on Foreign Exchange Control of the PRC (《中華人民共和國外匯管理條例》) classifies all international payments and transfers into current account items and capital account items. Current account items are subject to the reasonable examination of the veracity of transaction documents and the consistency of the transaction documents and the foreign exchange receipts and payments by financial institutions engaging in conversion and sale of foreign currencies and supervision and inspection by the foreign exchange control authorities. For capital account items, overseas organizations and overseas individuals making direct investments in China shall, upon approval by the relevant authorities in charge, process registration formalities with the foreign exchange control authorities. Foreign exchange income received overseas can be repatriated or deposited overseas, and foreign exchange and foreign exchange settlement funds under the capital account are required to be used only for purposes as approved by the competent authorities and foreign exchange administrative authorities. In the event that international revenues and expenditure occur or may occur a material imbalance, or the national economy encounters or may encounter a severe crisis, the State may adopt necessary safeguard and control measures on international revenues and expenditure.

The Regulations for the Administration of Settlement, Sale and Payment of Foreign Exchange (《結匯、售匯及付匯管理規定》), which was promulgated by the PBOC on June 20, 1996 and came into effect on July 1, 1996, removes other restrictions on convertibility of foreign exchange under current account items, while imposing existing restrictions on foreign exchange transactions under capital account items.

According to the Announcement on Improving the Reform of the Renminbi Exchange Rate Formation Mechanism (《關於完善人民幣匯率形成機制改革的公告》), which was issued by the PBOC and implemented on July 21, 2005, the PRC has started to implement a managed floating exchange rate system in which the exchange rate would be determined based on market supply and demand and adjusted with reference to a basket of currencies since July 21, 2005. Therefore, the Renminbi exchange rate was no longer pegged to the U.S. dollar. PBOC would publish the closing price of the exchange rate of the Renminbi against trading currencies such as the U.S. dollar in the interbank foreign exchange market after the closing of the market on each working day, as the central parity of the currency against Renminbi transactions on the following working day.

According to the relevant laws and regulations in the PRC, PRC enterprises (including foreign investment enterprises) which need foreign exchange for current item transactions may, without the approval of the foreign exchange administrative authorities, effect payment through foreign exchange accounts opened at the designated foreign exchange bank, on the strength of valid transaction receipts and proof. Foreign investment enterprises which need foreign exchange for the distribution of profits to their shareholders and PRC enterprises which, in accordance with regulations, are required to pay dividends to their shareholders in foreign exchange (such as our Company) may, on the strength of resolutions of the board of directors or the shareholders' meeting on the distribution of profits, effect payment from foreign exchange accounts at the designated foreign exchange bank, or effect exchange and payment at the designated foreign exchange bank.

According to the Decisions on Matters including Canceling and Adjusting a Batch of Administrative Approval Items (《關於取消和調整一批行政審批項目等事項的決定》) which was promulgated by the State Council on October 23, 2014, the approval requirement by the SAFE and its branches for the remittance and settlement of the proceeds raised from the overseas listing of the foreign shares into RMB domestic accounts is cancelled.

According to the Notice on Relevant Issue Concerning the Administration of Foreign Exchange for Overseas Listing (《國家外匯管理局關於境外上市外匯管理有關問題的通知》), a domestic company shall, within 15 business days from the date of the completion of its overseas listing issuance, register the overseas listing with the local branch office of state administration of foreign exchange at the place of its establishment; the proceeds from an overseas listing of a domestic company may be remitted to the domestic account or deposited in an overseas account, but the use of the proceeds shall be consistent with the content of the prospectus and other disclosure documents. A domestic company (except for bank financial institutions) shall present its certificate of overseas listing to open a special account at a local bank for its initial public offering (or follow-on offering) and repurchase business to handle the exchange, remittance and transfer of funds for the business concerned.

According to the Circular on Further Simplifying and Improving Foreign Exchange Administration Policies in Respect of Direct Investment (《國家外匯管理局關於進一步簡化和改進直接投資外匯管理政策的通知》), the confirmation of foreign exchange registration under domestic direct investment and the confirmation of foreign exchange registration under overseas direct investment shall be directly examined and handled by banks. SAFE and its branch offices shall indirectly regulate the foreign exchange registration of direct investment through banks.

According to the SAFE Circular 16, discretionary foreign exchange settlement applies to foreign exchange capital, The tentative percentage of foreign exchange settlement for foreign currency earnings in capital account of domestic institutions is 100%, subject to adjustment of the SAFE in due time in accordance with international revenue and expenditure situations.

On January 26, 2017, Notice on Further Promoting the Reform of Foreign Exchange Administration and Improving the Examination of Authenticity and Compliance (《關於進一步推進外匯管理改革完善真實合規性審核的通知》) was issued by SAFE to further expand the scope of settlement for domestic foreign exchange loans, allow settlement for domestic foreign exchange loans with export background under goods trading, allow repatriation of funds under domestic guaranteed foreign loans for domestic utilization, allow settlement for domestic foreign exchange accounts of foreign institutions operating in the Free Trade Pilot Zones, and adopt the model of full-coverage RMB and foreign currency overseas lending management, where a domestic institution engages in overseas lending, the sum of its outstanding overseas lending in RMB and outstanding overseas lending in foreign currencies shall not exceed 30% of its owner's equity in the audited financial statements of the preceding year.

The Notice on Further Facilitating Cross-Board Trade and Investment canceled restrictions on domestic equity investments made with capital funds by non-investing foreign-funded enterprises. In addition, restrictions on the use of funds for foreign exchange settlement of domestic accounts for the realization of assets have been removed and restrictions on the use and foreign exchange settlement of foreign investors' security deposits have been relaxed. Eligible enterprises in the pilot area are also allowed to use revenues under capital accounts, such as capital funds, foreign debts and overseas listing revenues for domestic payments without providing materials to the bank in advance for authenticity verification on an item-by-item basis, while the use of funds should be true, in compliance with applicable rules and conforming to the current capital revenue management regulations.

THE PRC LEGAL SYSTEM

The PRC legal system is based on the PRC Constitution (《中華人民共和國憲法》) (the “**Constitution**”). The PRC legal system is made up of written laws, administrative regulations, local regulations, autonomous regulations, separate regulations, rules and regulations of State Council departments, rules and regulations of local governments and international treaties of which the PRC government is a signatory. Court judgments do not constitute legally binding precedents, although they may be used for the purposes of judicial reference and guidance.

The NPC is empowered to exercise the power to formulate and amend basic laws governing state authorities, civil, criminal and other matters in accordance with the Constitution and the PRC Legislation Law (《中華人民共和國立法法》). The SCNPC formulates and amends laws other than those required to be enacted by the NPC and to supplement and amend part of the laws enacted by the NPC during the adjournment of the NPC, provided that such supplements and amendments are not in conflict with the basic principles of such laws. The SCNPC is empowered to interpret, enact and amend other laws not required to be enacted by the NPC.

The State Council is the highest organ of the PRC administration and has the power to formulate administrative regulations based on the constitution and laws.

The people’s congresses of provinces, autonomous regions and municipalities and their respective standing committees may formulate local regulations based on the specific circumstances and actual requirements of their own respective administrative areas, subject to the constitution, laws and administrative regulations. The people’s congresses of larger cities and their respective standing committees may formulate local regulations based on the specific circumstances and actual requirements of such cities and take the same effect after submitting to the standing committee of the people’s congresses of provinces or autonomous regions for approval. The standing committee of the people’s congresses of provinces or autonomous regions shall examine the legality of local regulations submitted for approval, and such approval should be granted within four months if they are not in conflict with the constitution, laws, administrative regulations and local regulations of the province or autonomous region concerned. Where conflicts with the rules and regulations of the People’s Government of the province or autonomous region concerned are identified in the examination of local regulations of larger cities by the Standing Committee of the people’s congresses of provinces or autonomous regions, a decision should be made to deal with the matter. “Larger cities” refer to cities where the people’s governments of provinces or autonomous regions are located, cities where special economic zones are located and larger cities as approved by the State Council.

The ministries, committees, People’s Bank of China, National Audit Office of the State Council and institutions with administrative functions directly under the State Council may formulate department rules within the jurisdiction of their respective departments based on the laws and the administrative regulations, decisions and rulings of the State Council. Matters governed by the departmental rules and regulations should be those for the enforcement of the laws and administrative regulations, decisions and rulings of the State Council. The people’s governments of provinces, autonomous regions, municipalities and larger cities may formulate rules based on the laws, administrative regulations and local regulations of such provinces and autonomous regions and municipalities.

According to the Constitution, the power to interpret laws is vested in the SCNPC. According to the Decision of the SCNPC Regarding the Strengthening of Interpretation of Laws (《全國人民代表大會常務委員會關於加強法律解釋工作的決議》) passed on June 10, 1981, the Supreme People's Court has the power to give general interpretation on questions involving the specific application of laws and decrees in court trials. The State Council and its ministries and commissions are also vested with the power to give interpretation of the administrative regulations and department rules which they have promulgated. At the regional level, the power to give interpretations of the local laws and regulations as well as administrative rules is vested in the regional legislative and administrative organs which promulgate such laws, regulations and rules.

THE PRC JUDICIAL SYSTEM

According to the Constitution and the Organic Law of the People's Court of the PRC (《中華人民共和國人民法院組織法》) which was recently amended on October 26, 2018 and effective on January 1, 2019, the judicial system of China is composed of the Supreme People's Court, the local People's Court, the military court and other special People's Courts. Local People's Courts are composed of grassroots People's Courts, intermediate People's Courts and higher People's Courts. Grassroots People's Courts may mainly set up civil, criminal, administrative, supervisory and legal enforcement departments. The structure of the intermediate People's Court is similar to that of the grassroots People's Court, and other courts may be set up as required. A higher level People's Court shall supervise the trial work of the People's Court at its lower levels. The Supreme People's Court is the highest judicial organ in China, which has the right to supervise the trial work of People's Courts at all levels and all special People's Courts. The People's Procuratorate also has the right to exercise legal supervision over the trial activities of the People's Court.

For judgment of cases, the People's Court implements the system whereby the second instance is the final instance. The parties may, in accordance with the procedures prescribed by law, appeal to the People's Court at the next higher level the decision and ruling of the first instance of the local People's Court. The People's Procuratorate may protest to the People's Court at the next higher level in accordance with the procedures prescribed by law. If the parties do not appeal or the People's Procuratorate does not protest within the period of appeal, the judgment and ruling of the first instance of the local People's Court at all levels is the final judgment and ruling with legal effect. The judgment and ruling of the intermediate People's Court, the higher People's Court and the Supreme People's Court of second instance and the Supreme People's Court of first instance are all final. Save for the judgment made by the Supreme People's Court, the death penalty shall be reported to the Supreme People's Court for approval.

The Civil Procedure Law of the PRC (《中華人民共和國民事訴訟法》) (the “**Civil Procedure Law**”) was promulgated on April 9, 1991, recently amended on December 24, 2021 and became effective on January 1, 2022, prescribes the provisions for instituting a civil action, the jurisdiction of the People's Courts, the procedures to be followed for conducting a civil action, and the procedures for enforcement of a civil judgment or ruling. All parties to a civil

action conducted within the PRC shall comply with the Civil Procedure Law. In general, a civil case is heard by a court located in the defendant's place of domicile. The competent court may also be selected by express agreement amongst the parties to a contract provided that the court selected is located at the plaintiff's or the defendant's place of domicile, the place of executing or performing the contract or the object of the action. However, the provisions of this Law regarding the level of jurisdiction and exclusive jurisdiction shall not be violated.

A foreign national or foreign enterprise is generally given the same litigation rights and obligations as a citizen or legal person of the PRC. Should a juridical system of a foreign country limit the litigation rights of PRC citizens and enterprises, subject to the principle of reciprocity, the PRC courts may apply the same limitations to the citizens and enterprises (in China) of that foreign country. If any party to a civil action refuses to comply with a judgment or ruling made by a People's Court or an award made by an arbitration tribunal in the PRC, the other party may apply to the People's Court for the enforcement of the same within a stipulated period. Should anyone be unable to execute the judgment of the People's Court within a stipulated period, as a result of any party's application, the People's Court shall enforce such a judgment in accordance with the law.

When a party seeks to enforce a judgment or ruling of a People's Court against a party who is not in China and does not own any property in China, he/she may apply to a foreign court with formal jurisdiction for recognition and enforcement of the judgment or ruling. If the People's Court recognizes the validity of a legally effective judgment or ruling made by a foreign court applying for or requesting recognition and enforcement in accordance with an international treaty concluded or acceded to by China, or after reviewing in accordance with the principle of reciprocity, and considers that it does not violate the basic principles of the law in the PRC or national sovereignty, security or social and public interests, an enforcement order will be issued if enforcement is necessary, and relevant provisions shall be implemented. The People's Court shall not recognize and enforce those who violate the basic principles of the law in the PRC or the sovereignty, security or public interests of the state

THE PRC COMPANY LAW AND THE GUIDELINES FOR THE ARTICLES OF ASSOCIATION OF LISTED COMPANIES

The Company Law of the PRC (the "**PRC Company Law**") was adopted by the 5th meeting of the Standing Committee of the 8th National People's Congress Session on December 29, 1993 and implemented on July 1, 1994. It was latest amended and implemented on October 26, 2018.

According to the Guidelines on the Application of Regulatory Rules – No. 1 for Overseas Offering and Listing (《監管規則適用指引–境外發行上市類第1號》) which was promulgated by the CSRC on February 17, 2023, and came into effect on March 31, 2023, the domestic companies that directly offer and list securities in overseas markets, shall formulate their articles of association in line with the Guidelines for the Articles of Association of Listed Companies (《上市公司章程指引》) (the "**PRC Guidelines on AoA**") promulgated by the CSRC on March 16, 2006 and latest amended on January 5, 2022.

Set out below is a summary of the major provisions of the PRC Company Law and the PRC Guidelines on AoA.

General Provisions

A “joint stock limited company” (in this Appendix IV the “**company**”) refers to a corporate legal person incorporated in China under the PRC Company Law with its registered capital divided into shares of equal par value. The liability of the company for its own debts is limited to all the properties it owns and the liability of its shareholders for the company is limited to the extent of the shares they subscribe for.

Incorporation

A company may be established by promotion or subscription. A company shall have a minimum of two but no more than 200 people as its promoters, and over half of the promoters must be resident within the PRC. Companies established by promotion are companies of which the registered capital is the total share capital subscribed for by all the promoters registered with the company’s registration authorities. Where companies are incorporated by subscription, not less than 35% of their total number of shares must be subscribed for by the promoters, unless otherwise provided by the laws or administrative regulations. The remaining shares may be offered for sale to the public or specific persons, unless otherwise provided by laws.

For companies incorporated by way of promotion, the registered capital is the total amount of share capital subscribed by all promoters registered with the company registration authority. No capital may be raised from others until the capital subscribed by the promoters has been fully paid up. Where a company is established by means of public offering, the registered capital shall be the total amount of paid up capital registered with the company registration authority.

The promoters shall preside over and convene an inauguration meeting within 30 days from the date of the full payment of subscription monies, and shall notify all subscribers or announce the date of convening the founding meeting 15 days before the founding meeting.

The founding meeting can only be convened in the presence of shareholders holding more than 50% of the total issued shares of the company. The founding meeting deals with the adoption of the Articles of Association drafted by the promoters and the election of the members of the board of directors and the supervisory board. All resolutions of the founding meeting shall be approved by more than half of the voting rights of the subscribers present at the meeting.

Within 30 days of the conclusion of the inauguration meeting, the board of directors shall apply to the company registration authority for registration of the establishment of the company. A company is formally established and has the capacity of a legal person after approval of registration has been given by the relevant administration for industry and commerce and a business license has been issued.

After the establishment of the company, if the promoters fail to make full capital contributions in accordance with the Articles of Association, the other promoters shall bear joint and several liability. If it is found that the actual amount of the non-monetary property as the capital contribution for the establishment of the company is significantly lower than the book value specified in the Articles of Association, the promoters who deliver the capital contribution shall make up the difference; other promoters shall bear joint and several liability.

A company's promoter shall be liable for the followings:

- (i) the debts and expenses incurred in the establishment process jointly and severally if the company cannot be incorporated;
- (ii) the refund of subscription monies paid by the subscribers together with interest at bank rates of deposit for the same period jointly and severally if the company cannot be incorporated; and
- (iii) in the process of establishing a company, if the interests of the company are damaged due to the breach of contract of the promoters, the company shall be liable for compensation.

Repurchase of Shares

A company shall not purchase its own shares except under any of the following circumstances:

- (i) Reducing the registered capital of the company;
- (ii) Merging with another company that holds its shares;
- (iii) Using shares for employee stock ownership plan or equity incentives;
- (iv) A shareholder requesting the company to purchase the shares held by him since he objects to a resolution of the shareholders' meeting on the combination or division of the company;
- (v) Using shares for converting convertible corporate bonds issued by the listed company; or
- (vi) It is necessary for a listed company to protect the corporate value and the rights and interests of shareholders.

A company purchasing its own shares under any of the circumstances set forth in items (i) and (ii) of the preceding paragraph shall be subject to a resolution of the shareholders' meeting; and a company purchasing its own shares under any of the circumstances set forth in items (iii), (v) and (vi) of the preceding paragraph may, pursuant to the bylaws or the authorization of the shareholders' meeting, be subject to a resolution of a meeting of the board of directors at which more than two-thirds of directors are present.

After purchasing its own shares pursuant to the provisions of the first paragraph of this article, a company shall, under the circumstance set forth in item (i), cancel them within 10 days after the purchase; while under the circumstance set forth in either item (ii) or (iv), transfer or cancel them within six months; and while under the circumstance set forth in item (iii), (v) or (vi), aggregately hold not more than 10% of the total shares that have been issued by the company, and transfer or cancel them within three years.

A listed company purchasing its own shares shall perform the obligation of information disclosure according to the Securities Law of the PRC (《中華人民共和國證券法》) (the “**Securities Law**”). A listed company purchasing its own shares under any of the circumstances set forth in items (iii), (v) and (vi) of paragraph 1 of this article shall carry out trading in a public and centralized manner.

The company shall not accept the shares of the company as the subject matter of the pledge.

Transfer of Shares

Shares may be transferred in accordance with relevant laws and regulations. Registered shares shall be transferred by means of endorsement or other means prescribed by laws or administrative regulations; after the transfer, the company shall record the name and domicile of the transferee in the register of shareholders of the company. Within 20 days before the general meeting of shareholders or within 5 days before the record date of dividend distribution determined by the company, the above-mentioned register of shareholders shall not be changed. The transfer of bearer shares shall take effect when the shareholder delivers the shares to the transferee. The shares of the company held by the promoters shall not be transferred within one year from the date of establishment of the company. The directors, supervisors and senior management personnel of the company shall report to the company the shares held by them and their changes, and the shares transferred each year during their term of office shall not exceed 25% of the total shares of the company held by them. The above-mentioned personnel shall not transfer their shares of the company within half a year after their resignation. The Articles of Association may make other restrictive provisions on the transfer of shares held by the directors, supervisors and management personnel of the company.

Shareholders

The Company’s Articles of Association prescribe the rights and obligations of shareholders and are binding on all shareholders. According to the PRC Company Law and the PRC Guidelines on AoA, shareholders of the Company’s ordinary shares are entitled to the following rights:

- (i) to receive dividends and other distributions according to the number of shares held;
- (ii) to attend the general meeting in person or by proxy and exercise the right to vote on the number of shares held;

- (iii) to supervise, forward suggestions on or question the Company's operations;
- (iv) transfer, donate or pledge its shares in accordance with applicable laws and regulations and the company's Articles of Association;
- (v) to inspect the company's Articles of Association, register of shareholders, counterfoil of creditor's rights, minutes of shareholders' meeting, resolutions of the board of directors, resolutions of the supervisory board and financial and accounting reports;
- (vi) to acquire the remaining assets of the company in proportion to its shareholding at the time of termination or liquidation;
- (vii) any shareholder who has a different view on a resolution on the merger or division of the Company made by a shareholders' general meeting has the right to require the Company to acquire its shares; and
- (viii) any other shareholder's rights specified in the laws, regulations and company's Articles of Association.

The obligations of the shareholders include to abide by the Articles of Association of the company, to pay the subscription amount for the subscribed shares, to bear the debts and liabilities of the company to the extent of the subscription amount agreed by the shareholders for the subscribed shares, not to abuse the rights of the shareholders to damage the interests of the company or other shareholders of the company, and not to abuse the independent status and limited liability of the company as a legal person to damage the interests of the creditors of the company, and any other shareholder's obligations under the company's Articles of Association.

General Meetings

The general meeting is the organ of authority of the company, which exercises its powers in accordance with the PRC Company Law. The general meeting may exercise its powers:

- (i) to decide on the company's operational objectives and investment plans;
- (ii) to elect and replace and to decide on the matters relating to the remuneration of directors and supervisors who are not staff representatives;
- (iii) to review and approve the reports of the board of directors;
- (iv) to review and approve the reports of the board of supervisors;
- (v) to review and approve the company's annual financial budgets and final accounts;

- (vi) to review and approve the company's profit distribution proposals and loss recovery proposals;
- (vii) to review and approve on any increase or reduction of the company's registered capital;
- (viii) to review and approve the issue of corporate bonds;
- (ix) to decide on merger, division, dissolution and liquidation of the company or change of its corporate form;
- (x) to amend the company's Articles of Association; and
- (xi) to exercise any other authority stipulated in the Articles of Association.

A shareholders' general meeting is required to be held once every year. An extraordinary general meeting is required to be held within two months of the occurrence of any of the following:

- (i) the number of directors is less than the number stipulated by the PRC Company Law or less than two-thirds of the number specified in the Articles of Association;
- (ii) the outstanding losses of the company amounted to one-third of the company's total paid-in share capital;
- (iii) shareholders individually or in aggregate holding 10% or more of the company's shares request the convening of an extraordinary general meeting;
- (iv) the board deems necessary;
- (v) the supervisory board proposes to hold; or
- (vi) any other circumstances as provided for in the Articles of Association.

A shareholders' general meeting shall be convened by the board of directors, and presided over by the chairman of the board of directors. In the event that the chairman is incapable of performing or is not performing his duties, the meeting shall be presided over by the vice-chairman. In the event that the vice-chairman is incapable of performing or is not performing his duties, a director nominated by half or more of the directors shall preside over the meeting. Where the board of directors is incapable of performing or is not performing its duties to convene the general meeting, the supervisory board shall convene and preside over shareholders' general meeting in a timely manner. If the supervisory board fails to convene and preside over shareholders' general meeting, shareholders individually or in aggregate holding 10% or more of the company's shares for 90 days or more consecutively may unilaterally convene and preside over shareholders' general meeting.

In accordance with the PRC Company Law, a notice of the general meeting stating the date and venue of the meeting and the matters to be considered at the meeting shall be given to all shareholders 20 days before the meeting. A notice of extraordinary general meeting shall be given to all shareholders 15 days prior to the meeting. For the issuance of bearer share certificates, the time and venue of and matters to be considered at the meeting shall be announced 30 days before the meeting. A single shareholder who holds, or several shareholders who jointly hold, three percent or more of the shares of the company may submit an interim proposal in writing to the board of directors ten days before the general meeting is held. The board of directors shall notify other shareholders within two days upon receipt of the proposal, and submit the said interim proposal to the general meeting for deliberation. The contents of the interim proposal shall fall within the scope of powers of the general meeting, and the proposal shall have a clear agenda and specific matters on which resolutions are to be made. The general meeting shall not make any resolution in respect of any matter not set out in the above-mentioned two types of notices. Holders of bearer share certificates who wish to attend a general meeting shall deposit their share certificates with the company five days before the meeting and till the conclusion of the meeting.

The PRC Company Law has no specific provisions on the quorum of shareholders to attend the general meeting of shareholders.

Under the PRC Company Law, shareholders present at a shareholders' general meeting have one vote for each share they hold, save that the company's shares held by the company are not entitled to any voting rights.

Under the PRC Company Law, resolutions of the general meeting shall be passed by more than half of the voting rights held by shareholders (including those represented by the appointed representative), with the exception of matters relating to merger, division or dissolution of the company, increase or reduction of registered share capital, change of corporate form or amendments to the Articles of Association, which in each case shall be passed by at least two-thirds of the voting rights held by the shareholders (including those represented by the appointed representative).

The shareholders may entrust the entrusted representative to attend the general meeting of shareholders, and the power of attorney shall specify the scope of exercising the voting right.

The PRC Company Law has no specific provisions on the quorum of shareholders.

Board

A company shall have a board of directors, which shall consist of 5 to 19 members. Members of the board may include staff representatives. The term of a director shall be stipulated in the PRC Company Law, provided that no term of office shall last for more than three years.

The board of directors shall meet at least twice a year. The notice of the meeting shall be sent to all directors and supervisors at least ten days before the meeting. The board of directors may prescribe the method and period of notice for convening the interim meeting of the board of directors.

Under the PRC Company Law, the board of directors may exercise its powers:

- (i) to convene shareholders' general meetings and report on its work to the shareholders' general meetings;
- (ii) to implement the resolutions passed by the shareholders at the shareholders' general meetings;
- (iii) to decide on the company's operational plans and investment proposals;
- (iv) to formulate proposal for the company's annual financial budgets and final accounts;
- (v) to formulate the company's profit distribution proposals and loss recovery proposals;
- (vi) to formulate proposals for the increase or reduction of the company's registered capital and the issue of corporate bonds;
- (vii) to formulate proposals for the merger, division or dissolution of the company or change of corporate form;
- (viii) to decide on the setup of the company's internal management organs;
- (ix) to appoint or dismiss the company's manager and decide on his/her remuneration and, based on the manager's recommendation, to appoint or dismiss any deputy general manager and financial officer of the company and to decide on their remunerations;
- (x) to formulate the company's basic management system; and
- (xi) to exercise any other authority stipulated in the Articles of Association.

In addition, the PRC Guidelines on AoA stipulate that the board of directors shall also be responsible for the formulation of the company's amendment plan to the Articles of Association. The meeting of the board of directors can be held only when half of the directors are present. Half of the directors shall approve the resolution of the board of directors. If a director fails to attend a meeting of the board of directors, he may entrust another director to attend the meeting on behalf of him by a power of attorney which specifies the scope of his authority.

If a resolution of the board of directors violates the laws, administrative regulations or the Articles of Association or resolutions of the general meeting, and as a result of which the company sustains serious losses, the directors participating in the resolution are liable to compensate the company. However, if it can be proved that a director expressly objected to the resolution when the resolution was voted on, and that such objection was recorded in the minutes of the meeting, such director shall be relieved from that liability.

Under the PRC Company Law, the following person may not serve as a director in a company:

- (i) a person who is unable or has limited ability to undertake any civil liabilities;
- (ii) a person who has been convicted for corruption, bribery, misappropriation of property or disruption of the order of socialist market economy and a five-year period has not lapsed since expiry of the execution period or a person who has been stripped of political rights for being convicted of a crime and a five-year period has not lapsed since expiry of the execution period;
- (iii) a person who has been a former director, factory manager or manager of a company or an enterprise that has entered into insolvent liquidation and who was personally liable for the insolvency of such company or enterprise, where less than three years have elapsed since the date of the completion of the bankruptcy and liquidation of the company or enterprise;
- (iv) a person who has been a legal representative of a company or an enterprise that has had its business license revoked due to violations of the law or has been ordered to close down by law and the person was personally responsible, where less than three years have elapsed since the date of such revocation; and
- (v) a person who is liable for a relatively large amount of debts that are overdue; or
- (vi) other circumstances of ineligibility to serve as a director of the company are specified in the PRC Guidelines on AoA (the Articles of Association have been included, and the summary is contained in Appendix V – Summary of the Articles of Association).

The board of directors shall appoint a chairman, who shall be elected with the approval of more than half of all directors. The chairman of the board of directors shall exercise the following functions and powers:

- (i) preside over the General Meeting of shareholders and convene and preside over the meeting of the board of directors; and
- (ii) check the implementation of board resolutions.

According to the PRC Guidelines on AoA, the directors shall bear the responsibility of loyalty and diligence. The loyalty and diligence provisions have been included in the Articles of Association and the summary of which is set out in “Appendix V – Summary of the Articles of Association” for a detailed description of the above responsibilities.

Supervisors and Supervisory Board

A company shall have a supervisory board composed of not less than three members. Each term of office of a supervisor is three years and he/she may serve consecutive terms if reelected. A supervisor shall continue to perform his/her duties as a supervisor in accordance with the laws, administrative regulations and the Articles of Association until a duly re-elected supervisor takes office, if re-election is not conducted in a timely manner upon the expiry of his/her term of office or if the resignation of supervisors results in the number of supervisors being less than the quorum. The supervisory board shall consist of representatives of the shareholders and an appropriate proportion of representatives of the company’s staff, of which the proportion of representatives of the company’s staff shall not be less than one-third. Directors and senior management shall not act concurrently as supervisors.

The supervisory board may exercise its powers under the PRC Company Law:

- (i) to review the company’s financial position;
- (ii) to supervise the directors and senior management in their performance of their duties and to propose the removal of directors and senior management who have violated laws, regulations, the Articles of Association or resolutions of the shareholders’ general meetings;
- (iii) when the acts of a director or senior management personnel are detrimental to the company’s interests, to require the director and senior management to correct these acts;
- (iv) to propose the convening of extraordinary shareholders’ general meetings and to convene and preside over shareholders’ general meetings when the board fails to perform the duty of convening and presiding over shareholders’ general meetings under the PRC Company Law;

- (v) to submit proposals to the shareholders' general meetings;
- (vi) to bring actions against directors and senior management personnel; and
- (vii) to exercise any other authority stipulated in the Articles of Association. The above disqualification as a director of the company shall also apply to the supervisor of the company with necessary modifications.

According to the PRC Guidelines on AoA, the supervisors of the company shall comply with laws, administrative regulations and the Articles of Association and bear the responsibility of loyalty and diligence. They shall not take any bribe or other illegal gains by taking advantage of their authority and shall not take illegal possession of the company property.

Supervisors may be present at board meetings and make inquiries or proposals in respect of the resolutions of the board. The supervisory board may investigate any irregularities identified in the operation of the company and, when necessary, may engage an accounting firm to assist its work at the cost of the company.

The supervisory board shall meet at least once every six months. The supervisor may propose to hold an extraordinary meeting of the supervisory board. According to the PRC Company Law, the resolution of the supervisory board shall be adopted by more than half of the supervisors. The supervisory board shall make minutes of the meeting on the matters discussed, and the supervisors attending the meeting shall sign and endorse the minutes.

The supervisory board shall appoint a chairman and may appoint a vice-chairman. The chairman and the vice-chairman of the supervisory board shall be elected by more than half of the supervisors. The chairman of the supervisory board shall convene and preside over supervisory board meetings. Where the chairman of the supervisory board is incapable of performing or is not performing his/her duties, the vice-chairman of the supervisory board shall convene and preside over supervisory board meetings. Where the vice-chairman of the supervisory board is incapable of performing or is not performing his/her duties, a supervisor recommended by more than half of the supervisors shall convene and preside over supervisory board meetings.

Manager and Other Senior Management Personnel

“Senior management” refers to the company’s manager, deputy manager, person-in-charge of finance, secretary to the board of directors of the listed company and other personnel specified in the Articles of Association.

The company shall have a manager who shall be appointed or removed by the board of directors. The manager shall be responsible to the board of directors and exercise the following functions and powers:

- (i) to manage the production and operation and administration of the company and arrange for the implementation of the resolutions of the board of directors;
- (ii) to arrange for the implementation of the company's annual operation plans and investment proposals;
- (iii) to formulate proposals for the establishment of the company's internal management organs;
- (iv) to formulate the fundamental management system of the company;
- (v) to formulate the company's specific rules and regulations;
- (vi) to recommend the appointment or dismissal of any deputy manager and any financial officer of the company;
- (vii) to appoint or dismiss management personnel (other than those required to be appointed or dismissed by the board of directors);
- (viii) attend meetings of the board of directors as non-voting participants; and
- (ix) other powers granted by the board of directors or the company's Articles of Association.

According to the PRC Guidelines on AoA, other senior management personnel of the company include the deputy managers, the Secretary of the board of directors, the person in charge of finance, and other personnel specified in the Articles of Association of the company. The disqualification of a director of a company shall also apply to the managers and officers of the company. The company's Articles of Association are binding on the company's shareholders, directors, supervisors, managers and other management personnel. Such persons shall have the right to exercise their respective rights, apply for arbitration and conduct legal proceedings in accordance with the Articles of Association of the company. The requirements of the PRC Guidelines on AoA in relation to the senior management of the company have been included in the Articles of Association (its summary is set out in Appendix V – Summary of the Articles of Association).

According to the PRC Guidelines on AoA, the senior management shall have responsibility of loyalty and shall faithfully perform their respective duties and safeguard the best interests of the company and all the shareholders. The senior management fails to perform his/her duties faithfully or breaches his/her obligation of good faith and causes losses to the company or public shareholders, the senior management shall be liable for compensation.

Duties of Directors, Supervisors and Senior Management Personnel

Directors, supervisors and senior management are required under the PRC Company Law to comply with the relevant laws, administrative regulations and the Articles of Association, and carry out their duties of loyalty and diligence. In addition, they are prohibited from abusing their authority in accepting bribes or other unlawful income and from misappropriating the company's property. Directors and senior management are prohibited from:

- (i) misappropriating company funds;
- (ii) depositing company funds into accounts under their own names or the names of other individuals to deposit;
- (iii) loaning company funds to others or providing guarantees in favor of others supported by company's property in violation of the Articles of Association or without approval of the general meeting or the board of directors;
- (iv) entering into contracts or transactions with the company in violation of the Articles of Association or without approval of the general meeting;
- (v) using their position to procure business opportunities for themselves or others that should have otherwise been available to the company or operating businesses similar to that of the company for their own benefits or on behalf of others without approval of the general meeting;
- (vi) accept the commission of the transaction between others and the company as his own;
- (vii) unauthorized divulgence of confidential information of the company; and
- (viii) other acts in violation of their duty of loyalty to the company.

A director, supervisor or senior management who contravenes law, administrative regulation or Articles of Association in the performance of his/her duties resulting in any loss to the company shall be liable to the company for compensation.

Where the general meeting of shareholders requires directors, supervisors or other senior management personnel to attend the meeting as non-voting delegates, the directors, supervisors or other senior management personnel shall attend as non-voting delegates and accept the shareholders' questions. The directors and senior management personnel shall truthfully provide the supervisory board with relevant information and materials, and shall not hinder the supervisory board from exercising its functions and powers.

The company shall not directly or through its subsidiaries provide loans to any director, supervisor or senior management personnel, and shall regularly disclose to the shareholders the remuneration of the director, supervisor or senior management personnel from the company.

Finance and Accounting

The company shall establish financial and accounting systems in accordance with laws, administrative regulations and the provisions of the competent financial department of the State Council, prepare financial reports at the end of each financial year, and review and verify them in accordance with the law.

The financial statements of the company shall be available for inspection by the shareholders of the company at least 20 days before the annual general meeting. A company incorporated by public offering shall publish its financial statements.

The company's accumulation fund includes statutory surplus accumulation fund, discretionary accumulation fund and capital accumulation fund. When the company distributes the annual profit after tax, 10% of the profit after tax shall be allocated to the company's statutory surplus reserve (unless the reserve has reached 50% of the company's registered capital). After the company allocates its profit after tax to the statutory accumulation fund, it may allocate funds to any accumulation fund subject to the resolution of the general meeting of shareholders.

If the company's statutory surplus reserve is insufficient to cover the company's losses of the previous year, the company's profits of the current year shall be used to cover the losses before being distributed to the statutory surplus reserve.

The profit balance of the company after making up the losses and withdrawing the statutory surplus reserve may be distributed to the shareholders in accordance with the shareholding ratio of the shareholders, unless otherwise specified in the Articles of Association of the company limited by shares.

The company's capital reserve consists of a premium over the par value of the company's shares at the time of issuance and other amounts that are required by the relevant government authorities to be treated as capital reserve.

The company's provident fund can be used for the following purposes:

- (i) indemnify the company's losses, excluding the capital reserve;
- (ii) to expand the business of the company; and
- (iii) if the statutory surplus reserve is converted into the registered capital, the balance of the statutory surplus reserve after conversion shall not be less than 25% of the registered capital of the company before conversion.

The company shall have no accounting books other than the statutory books. The company's assets shall not be deposited in any account opened under the name of an individual.

Appointment and Retirement of Auditors

According to the PRC Guidelines on AoA, a company shall engage an accounting firm which is qualified with The Securities Law to provide services including the audit of financial statements, the verification of net assets and other relevant consultancy services. The term of engagement is one year and may be extended.

Pursuant to the PRC Company Law, the engagement or dismissal of an accounting firm responsible for the company's auditing shall be determined by a shareholders' general meeting or the board of directors in accordance with the Articles of Association. The accounting firm should be allowed to make representations when the general meeting or the board of directors conduct a vote on the dismissal of the accounting firm. The company should provide true and complete accounting evidence, accounting books, financial and accounting reports and other accounting information to the engaged accounting firm without any refusal or withholding or falsification of information.

If the company dismisses or does not continue to employ auditors, it shall notify the auditors in advance in accordance with the PRC Guidelines on AoA, and the auditors have the right to present their opinions to the general meeting of shareholders.

Profit Distribution

The PRC Company Law require that a company shall not distribute profits before accumulated losses are covered and the statutory common reserve fund is provided.

Amendments to the Articles of Association

The amendments to Articles of Association of the Company shall be made in accordance with the procedures stipulated in the Articles of Association of the Company. The amendment to articles of association involving matters of company registration must be registered with applicable laws.

Dissolution and Liquidation

Under the PRC Company Law, a company shall be dissolved for any of the following reasons:

- (i) the term of its operation set out in the company's Articles of Association has expired or other events of dissolution specified in the company's Articles of Association have occurred;
- (ii) the shareholders have resolved at a shareholders' general meeting to dissolve the company;
- (iii) the company is dissolved by reason of its merger or division;

- (iv) the business license of the company is revoked or the company is ordered to close down or to be revoked in accordance with the laws; or
- (v) the company is dissolved by a people's court in response to the request of shareholders holding shares that represent more than 10% of the voting rights of all shareholders of the company, on the grounds that the operation and management of the company has suffered serious difficulties that cannot be resolved through other means, rendering ongoing existence of the company a cause for significant losses to the shareholders.

The company is dissolved under the circumstances set forth in paragraph (i), (ii), (iv) or (v) above, it should establish a liquidation committee to administer the liquidation within 15 days of the date on which the dissolution matter occurs. The liquidation committee shall be composed of directors or any other person determined by a shareholders' general meeting.

If a liquidation committee is not established within the prescribed period, the company's creditors may file an application with a people's court to establish a liquidation committee.

The liquidation committee shall notify the company's creditors within 10 days of its establishment, and publish an announcement in newspapers within 60 days. A creditor shall lodge his claim with the liquidation committee within 30 days of receipt of the notification or within 45 days of the date of the announcement if he has not received any notification. The liquidation committee may exercise following powers during the liquidation:

- (i) to sort out the company's property and to prepare a balance sheet and an inventory of property;
- (ii) to notify creditors or publish announcements;
- (iii) to deal with the company's outstanding business related to the liquidation;
- (iv) to pay any unpaid tax;
- (v) to settle the company's claims and liabilities;
- (vi) to handle the company's remaining assets after its debts have been paid off; and
- (vii) to represent the company in any civil procedures.

If the property of the company is sufficient to pay off the debts, it shall be used to pay the liquidation expenses, wages owed to the employees and labor insurance expenses, overdue taxes and debts of the company. The remaining part of the company's property shall be distributed to the shareholders in proportion to shares held by them in the company.

During the liquidation period, the company cannot conduct operating activities that are not related to the liquidation.

If the liquidation committee becomes aware that the Company does not have sufficient assets to meet its liabilities, it must apply to a people's court for a declaration of bankruptcy in accordance with the laws. Following such declaration by the people's court, the liquidation committee shall hand over all the administration related to liquidation to the people's court.

Upon completion of the liquidation, the liquidation committee shall prepare a liquidation report and submit it to the shareholders' general meeting or a people's court for confirmation. The liquidation report shall then be submitted to the company registration authority to cancel the Company's registration, and an announcement of its termination shall be published.

Members of the liquidation committee are required to discharge their duties in good faith and perform their obligation in compliance with laws. Members of the liquidation committee are liable to indemnify the Company and its creditors in respect of any loss arising from their willful or material default.

Loss of Share Certificate

A shareholder may, in accordance with the relevant provisions set out in the Civil Procedure Law, apply to a people's court if his share certificate(s) in registered form is either stolen or lost, for a declaration that such certificate(s) will no longer be valid. After the declaration that such certificate(s) will no longer be valid, the shareholder may apply to the Company for the issue of a replacement certificate(s).

Merger and Division

The company may be merged by absorption or by the establishment of a new merged entity. If the company adopts absorption merger, the absorbed company shall be dissolved. If the companies merge by forming a new company, both companies shall be dissolved.

A merger agreement shall be signed by merging companies respectively and prepare balance sheets and inventory of property. The companies concerned shall within 10 days of the date of passing the resolution approving the merger notify their creditors and publicly announce the merger in newspapers within 30 days. A creditor may, within 30 days of receipt of the notification, or within 45 days of the date of the announcement if he has not received the notification, request the company to settle debts or provide relevant guarantees. When the company merged, the credits and debts of the merging parties shall be assumed by the surviving or the new company.

When the company divided, the company's property shall be divided and a balance sheet and an inventory of property shall be prepared. The company should notify its creditors within 10 days of the date of making such resolution and publicly announce the division in newspapers within 30 days. The liabilities of the company which have accrued prior to the division shall be jointly borne by the divided companies. However, unless otherwise agreement in writing is reached with creditors before the company's division in respect of the settlement of debts.

Securities Laws and Regulations

China has promulgated a number of laws and regulations on share issuance and trading as well as information disclosure. In October 1992, the State Council established the Securities Commission and the China Securities Regulatory Commission. The Securities Commission shall be responsible for coordinating the drafting of relevant laws and regulations on securities, formulating policies on securities matters, planning the development of the securities market, guiding, coordinating and supervising all institutions involved in securities matters in China, and managing the CSRC. The China Securities Regulatory Commission is the regulatory body under the Securities Commission responsible for drafting regulations on the supervision of the securities market, supervising securities companies, supervising the public issuance of securities by Chinese companies in China or abroad, managing securities trading, compiling statistics on securities, and conducting research and analysis. In 1998, the Securities Commission of the State Council was abolished by the State Council and its functions were undertaken by the CSRC. The CSRC is also responsible for the regulation and supervision of the national stock and futures markets in accordance with relevant laws, regulations and authorities.

The Securities Law took effect on July 1, 1999 and was latest amended on December 28, 2019 and took effect on March 1, 2020. It was the first national securities law in the PRC, and it is divided into 14 chapters and 226 articles, which including the issue and trading of securities, takeovers by listed companies, securities exchanges, securities companies and the duties and responsibilities of securities regulatory authorities. The Securities Law comprehensively regulating activities in the PRC securities market. Article 224 of the Securities Law stipulates that domestic enterprises issuing securities directly or indirectly abroad or listing and trading their securities abroad shall comply with the relevant provisions of the State Council. Article 225 of the Securities Law stipulates that the specific terms for subscription and transaction of shares of companies in the PRC in foreign currencies shall be separately stipulated by the State Council. Currently, the issue and trading of foreign issued securities (including H shares) are principally governed by the regulations and rules promulgated by the State Council and CSRC.

Overseas Listing

According to the Trial Administrative Measures of Overseas Securities Offering and Listing by Domestic Companies (《境內企業境外發行證券和上市管理試行辦法》) (the “**Overseas Listing Trial Measures**”) and five relevant guidelines, which promulgated by the CSRC on February 17, 2023, and came into effect on March 31, 2023, PRC domestic companies shall register their direct and indirect overseas listings and securities offerings with the CSRC by filing materials on key compliance issues.

Suspension and Termination of Listing

All provisions for suspension and termination of listings have been removed from the PRC Company Law. The Securities Law removes the provisions regarding the suspension of listings while stating the following provisions for the termination of listings:

- (i) securities to be listed for trading shall be terminated from listing by the stock exchange in accordance with the business rules where the circumstances leading to the termination of listing as prescribed by such stock exchange occurs;
- (ii) where a termination of listing for securities is determined by the stock exchange, an announcement shall be made in a timely manner and the record shall be filed with the security's regulatory authorities of the State Council; and
- (iii) in the event of objection to a decision of disapproval or termination of listing made by the stock exchange, an application may be submitted to a review institution established by the stock exchange for review.

MAJOR DIFFERENCES BETWEEN CERTAIN ASPECTS OF CORPORATION LAW IN THE PRC AND HONG KONG

Hong Kong company law is primarily set out in the Companies Ordinance and the Companies (Winding Up and Miscellaneous Provisions) Ordinance, supplemented by common law and rules of equity that apply to Hong Kong. As a joint stock limited company incorporated in the PRC that is seeking a listing of shares on the Hong Kong Stock Exchange, we are governed by the PRC Company Law and all other rules and regulations promulgated pursuant to the PRC Company Law. Set out below is a summary of certain material differences between Hong Kong company law and the PRC Company Law. This summary is, however, not intended to be an exhaustive comparison.

Corporate Existence

Under Hong Kong company law, a company with share capital is incorporated by the Registrar of Companies in Hong Kong, which issues a certificate of incorporation to the Company upon its incorporation, and the company will acquire an independent corporate existence henceforth. A company may be incorporated as a public company or a private company. Pursuant to the Companies Ordinance, the articles of association of a private company incorporated in Hong Kong shall contain certain pre-emptive provisions. A public company's articles of association do not contain such pre-emptive provisions.

Under the PRC Company Law, a joint stock limited company may be incorporated by promotion or subscription.

Hong Kong law does not prescribe any minimum capital requirement for a Hong Kong company.

Share Capital

Under the Companies Ordinance, the concept of the nominal value (also known as par value) of shares of a Hong Kong company has been abolished, and the companies have increased flexibility to alter its share capital by (i) increasing its share capital; (ii) capitalizing its profits; (iii) allotting and issuing bonus shares with or without increasing its share capital; (iv) converting its shares into larger or smaller number of shares; and (v) canceling its shares. The concept of authorized capital no longer applies to a Hong Kong company formed on or after March 3, 2014 as well. The full proceeds of a share issue will be credited to share capital and becomes a company's share capital. The Hence, the directors of a Hong Kong company may, with the prior approval of the shareholders, if required, cause the company to issue new shares. The PRC Company Law does not provide for authorized share capital. Any increase in the registered capital of a PRC company must be approved by its shareholders' general meeting and the relevant PRC governmental and regulatory authorities (if applicable).

Under the PRC Company Law, the shares may be subscribed for in the form of money or non-monetary assets (other than assets not entitled to be used as capital contributions under relevant laws or administrative regulations). For non-monetary assets to be used as capital contributions, appraisals must be carried out to ensure there is no overvaluation or undervaluation of the assets. There is no such restriction on a company incorporated in Hong Kong.

Restrictions on Shareholding and Transfer of Shares

Generally, the target investors of H shares offering by domestic companies shall be overseas investors. Where domestic investors subscribe H shares issued by domestic companies, domestic investors shall be compliant with relevant provisions of the cross-border investment, such as qualified domestic institutional investors (QDII), or overseas investment filling (ODI), etc.

Under the PRC Company Law, a promoter of a joint stock limited company is not allowed to transfer the shares it holds for a period of one year after the date of establishment of the company. Shares in issue prior to a public offering of the company cannot be transferred within one year from the listing date of the shares on a stock exchange. Shares in a joint stock limited liability company held by its directors, supervisors and senior management and transferred each year during their term of office shall not exceed 25% of the total shares they held in a company, and the shares they held in a company cannot be transferred within one year from the listing date of the shares, and also cannot be transferred within half a year after the said personnel has left office. The articles of association may set other restrictive requirements on the transfer of a company's shares held by its directors, supervisors and senior management.

There are no restrictions on shareholdings and transfers of shares under Hong Kong law apart from the restriction on the Company to issue additional Shares within six months and the 12-month lockup on controlling shareholders' disposal of shares, as illustrated by the undertakings given by the Company and our controlling shareholder to the Hong Kong Stock Exchange.

Financial Assistance for Acquisition of Shares

The PRC Company Law does not prohibit or restrict a joint stock limited company or its subsidiaries from providing financial assistance for the purpose of an acquisition of its own or its holding company's shares. However, the PRC Guidelines on AoA contain certain restrictions on a company and its subsidiaries on providing such financial assistance similar to those under Hong Kong company law.

Notice of Shareholders' Meetings

Under the PRC Company Law, notice of a shareholder's annual general meeting must be given not less than 20 days before the meeting.

For a company incorporated in Hong Kong, the notice period for an annual general meeting is at least 21 days and in any other case, at least 14 days for a limited company and at least 7 days for an unlimited company. Further, where a meeting involves consideration of a resolution requiring special notice, the company must also give its shareholders notice of the resolution at least 14 days before the meeting.

Quorum for Shareholders' Meetings

The PRC Company Law does not specify any quorum requirement for a shareholders' general meeting.

Under Hong Kong law, the quorum for a shareholders' meeting is two members, unless the articles of association of a company specifies otherwise or the company has only one member, in which case the quorum is one.

Voting at Shareholders' Meetings

Under Hong Kong law, an ordinary resolution is passed by a simple majority of affirmative votes cast by shareholders present in person, or by proxy, at a general meeting, and a special resolution is passed by not less than three-fourths of affirmative votes cast by shareholders present in person, or by proxy, at a general meeting.

Under the PRC Company Law, the passing of any resolution requires more than one-half of the affirmative votes held by our shareholders present in person or by proxy at a shareholders' meeting except in cases such as proposed amendments to our Articles of Association, increase or decrease of registered capital, merger, division, dissolution or transformation, which require two-thirds of the affirmative votes cast by shareholders present in person or by proxy at a shareholders' general meeting.

Derivative Action by Minority Shareholders

The Hong Kong law permits minority shareholders to initiate a derivative action on behalf of all shareholders against directors who have committed a breach of their fiduciary duties to the company if the directors control a majority of votes at a general meeting, thereby effectively preventing a company from suing the directors in breach of their duties in its own name.

Pursuant to the PRC Company Law, in the event where the directors and senior management of a joint stock limited company violate laws, administrative regulations or its articles of association, resulting in losses to the company, the shareholders individually or jointly holding over 1% of the shares in the company for more than 180 consecutive days may request in writing the board of supervisors to initiate proceedings in the people's court. In the event that the supervisors violates as such, the above said shareholders may send written request to the board of directors to initiate proceedings in the people's court. Upon receipt of such written request from the shareholders, if the board of supervisors or the board of directors refuses to initiate such proceedings, or has not initiated proceedings within 30 days upon receipt of the request, or if under urgent situations, failure of initiating immediate proceeding may cause irremediable damages to the company, the above said shareholders shall, for the benefit of the company's interests, have the right to initiate proceedings directly to the court in their own name.

In addition, the PRC Guidelines on AoA provide us with certain remedies against the Directors, Supervisors and senior management who breach their duties to the Company. In addition, as a condition to the listing of overseas listed foreign Shares on the Hong Kong Stock Exchange, each director and supervisor of a joint stock limited company is required to give an undertaking in favor of the company acting as agent for the shareholders. This allows minority Shareholders to take action against our Directors and Supervisors in default.

Minority Shareholder Protection

Under the Companies Ordinance, a shareholder who alleges that the affairs of a company incorporated in Hong Kong are conducted in a manner unfairly prejudicial to his interests may petition to the Court to make an appropriate order to give relief to the unfairly prejudicial conduct. In addition, on the application of a specified number of members, the Financial Secretary of Hong Kong may appoint inspectors who are given extensive statutory powers to investigate the affairs of a company incorporated or registered in Hong Kong.

The PRC Company Law provides that any shareholders holding 10% or above of voting rights of all issued shares of company may request a People's Court to dissolve the company to the extent that the operation or management of the company experiences any serious difficulties and its continuous existence would cause serious losses to them, and no other alternatives can resolve such difficulties.

The PRC Guidelines on AoA, however, contain provisions that Shareholders shall not abuse their rights to harm the interests of the company or other shareholders.

Directors

The PRC Company Law, unlike Hong Kong company law, does not contain any requirements relating to the declaration of directors' interests in material contracts, restrictions on directors' authority in making major dispositions, restrictions on companies providing certain benefits to directors and indemnification in respect of directors' liability and prohibitions against compensation for loss of office without shareholders' approval.

Board of Supervisors

Under the PRC Company Law, a joint stock limited company's directors and senior management are subject to the supervision of a board of supervisors. There is no mandatory requirement for the establishment of a board of supervisors for a company incorporated in Hong Kong. The PRC Guidelines on AoA provides that supervisors shall comply with the laws, administrative regulations and the articles of association, bear the duty of loyalty and diligence to the company, and shall not use their authority to accept bribes or other illegal income, nor embezzle company property.

Fiduciary Duties

In Hong Kong, directors owe fiduciary duties to the company, including the duty not to act in conflict with the company's interests. Furthermore, the Companies Ordinance has codified the directors' statutory duty of care. Under the PRC Guidelines on AoA, directors, supervisors, managers and other members of senior management of the company shall honestly and diligently perform their duties for the company.

Financial Disclosure

Under the PRC Company Law, a joint stock limited company is required to make available at the company for inspection by shareholders its financial report 20 days before its annual general meeting. In addition, a joint stock limited company of which the shares are publicly offered must publish its financial report. The Companies Ordinance requires a company incorporated in Hong Kong to send to every shareholder a copy of its financial statements, auditors' report and directors' report, which are to be presented before the company in its annual general meeting, not less than 21 days before such meeting.

According to the PRC laws, a company shall prepare its financial accounting reports in accordance with the PRC GAAP ("**People's Republic of China Generally Accepted Accounting Principles**") as at the end of each accounting year, and submit the same to accounting firms for auditing as required by law.

Information on Directors and Shareholders

The PRC Company Law gives shareholders the right to inspect the company's articles of association, minutes of the general meetings, share register, counterfoil of company debentures, resolutions of board meetings, resolutions of the board of supervisors and financial and accounting reports. Under the articles of association, shareholders have the right to inspect and copy (at reasonable charges) certain information on shareholders and on directors which is similar to the rights of shareholders of Hong Kong companies under the Companies Ordinance.

Receiving Agent

Under the PRC Company Law and Hong Kong laws, dividends once declared will become debts payable to shareholders. The limitation period for debt recovery action under Hong Kong laws is six years, while under the PRC laws this limitation period is three years.

Corporate Reorganization

Corporate reorganization involving a company incorporated in Hong Kong may be effected in a number of ways, such as a transfer of the whole or part of the business or property of the company in the course of voluntary winding up to another company pursuant to Section 237 of the Companies (Winding Up and Miscellaneous Provisions) Ordinance or a compromise or arrangement between the company and its creditors or between the company and its members pursuant to Section 673 and Division 2 of Part 13 of the Companies Ordinance, which requires the sanction of the court. In addition, subject to the shareholders' approval, an intra-group wholly-owned subsidiary company may also be amalgamated horizontally or vertically under the Companies Ordinance.

Pursuant to the PRC Company Law, which was amended by the Standing Committee of the NPC and came into effect on October 26, 2018, merger, division, dissolution or changes to the form of a joint stock limited liability company shall be approved by shareholders representing over two-thirds of voting rights at the general meeting.

Mandatory Deductions

Under the PRC Company Law, a company is required to make transfers equivalent to certain prescribed percentages of its after-tax profit to the statutory common reserve fund. There are no corresponding provisions under Hong Kong law.

Arbitration of Disputes

In Hong Kong, disputes between shareholders and a company or its directors, managers and other senior management may be resolved through the courts.

The Securities Arbitration Rules of the HKIAC contain provisions allowing, upon application by any party, an arbitral tribunal to conduct a hearing in Shenzhen for cases involving the affairs of companies incorporated in the PRC and listed on the Hong Kong Stock Exchange so that PRC parties and witnesses may attend. Where any party applies for a hearing to take place in Shenzhen, the tribunal shall, where satisfied that such application is based on bona fide grounds, order the hearing to take place in Shenzhen conditional upon all parties, including witnesses and arbitrators, being permitted to enter Shenzhen for the purpose of the hearing. Where a party, other than a PRC party or any of its witnesses or any arbitrator, is not permitted to enter Shenzhen, then the tribunal shall order that the hearing be conducted in any practicable manner, including the use of electronic media. For the purpose of the Securities Arbitration Rules of the HKIAC, a PRC party means a party domiciled in the PRC other than the territories of Hong Kong, Macau SAR and Taiwan.

Remedies of A Company

Under the PRC Company Law, if a director, supervisor or senior management person in carrying out his duties infringes any law, administrative regulation or the articles of association of a company, which results in damage to the company, that director, supervisor or manager should be responsible to the company for such damages.

The Hong Kong Listing Rules require listed companies' articles of association to provide for remedies of the company similar to those available under Hong Kong law (including rescission of the relevant contract and recovery of profits from a director, supervisor or senior management).

Dividends

Pursuant to relevant PRC laws and regulations, the company in certain circumstances shall withhold, and pay to the relevant tax authorities, any tax payable under PRC law on any dividends or other distributions payable to a shareholder.

Under Hong Kong law, the limitation period for an action to recover a debt (including the recovery of declared dividends) is six years, whereas under PRC laws, the relevant limitation period is three years. The company must not exercise its powers to forfeit any unclaimed dividend in respect of shares until after the expiry of the applicable limitation period.

Closure of Register of Shareholders

The Companies Ordinance requires that the register of shareholders of a company must not generally be closed for the registration of transfers of shares for more than thirty days (extendable to sixty days in certain circumstances) in a year, whereas, as required by the PRC Company Law, share transfers shall not be registered within 30 days prior to convening a shareholders' general meeting or 5 days before the base date of distribution of dividends.

Supervisors may attend as a nonvoting delegate at the meeting of the Board of Directors.

FINANCIAL AND ACCOUNTING SYSTEMS, PROFIT DISTRIBUTION AND AUDITING

Financial and Accounting Systems

The Company shall establish financial and accounting systems according to laws, administrative regulations and the regulations of the financial department of the State Council.

The Company shall submit and disclose its annual reports within four months from the ending date of each financial year, and its interim reports within two months from the ending date of the first half of each financial year, respectively. The above-mentioned annual and interim reports shall be prepared in accordance with the relevant laws, administrative regulations and the provisions of CSRC and the stock exchange(s).

Profit Distribution

The profit distribution policy of the Company is as follows:

- (1) Decision-making procedures and mechanisms for profit distribution policy
 - (i) Decision-making mechanism and procedures for the implementation of profit distribution policy
 - A. When the Board of Directors of the Company proposes a cash dividend distribution, the Board of Directors shall carefully study and demonstrate, among other things, the timing, conditions and minimum proportion, adjustment conditions and decision-making procedure requirements for the cash dividend distribution of the Company, and the independent directors shall express clear opinions.
 - B. The profit distribution policy of the Company shall be proposed by the Board of Directors to the shareholders' general meeting of the Company. The profit distribution policy proposed by the Board of Directors shall be approved by a majority vote of the Board of Directors, and the independent directors shall express their independent opinions on the profit distribution policy.

In the event of misappropriation of the Company's funds by a shareholder, the Company shall deduct the funds misappropriated from the cash dividends to be distributed to that shareholder as compensation.
 - (ii) Decision-making mechanism and procedures for adjustment of profit distribution policy
 - A. In the event of force majeure such as wars and natural disasters, changes in the external operating environment of the Company that have a significant impact on the Company's production and operation, or material changes in the Company's operating conditions, the Company may adjust the profit distribution policy.
 - B. For the adjustment of the Company's profit distribution policy, the Board of Directors shall make a specific discussion, demonstrate the reasons for the adjustment and prepare a written demonstration report, which shall be submitted to the shareholders' general meeting for consideration when the independent directors have expressed their independent opinions thereon, and the relevant resolutions shall be approved by more than two-thirds of the voting rights held by shareholders present at the general meeting.

C. The Company encourages small and medium-sized investors and institutional investors to actively participate in the decision-making of the Company for profit distribution. Before considering the specific profit distribution plan, the shareholders' general meeting of the Company shall fully listen to the opinions and demands of the minority shareholders and respond to the concerns of the minority shareholders in a timely manner.

(2) Details of the profit distribution policy

(i) Form of profit distribution

The Company may distribute dividends in cash, stocks or a combination of cash and stocks, and give priority to profit distribution in cash.

(ii) Specific conditions and proportion of cash dividends

A. Provided that the Company has reserved statutory reserve fund and surplus reserve fund in full and the conditions for cash dividends are satisfied, the Company may distribute dividends in cash. The specific proportion of dividends for each year shall be resolved by the Board of Directors in view of the annual profits and the future fund use plan of the Company.

The "conditions for cash dividend distribution" referred to in the preceding paragraph are as follows:

- (a) the Company is profitable for the accounting year, and the auditor has issued an audit report with unqualified opinions on the annual financial statements for the corresponding year;
- (b) The capital requirements to ensure the normal operation and long-term development of the Company;
- (c) There are no other circumstances that the Board of Directors deems inappropriate to distribute cash dividends.

B. When distributing profits, the Board of Directors of the Company shall make cash dividend policies in accordance with the procedures stipulated in the Articles of Association after considering its industry-specific characteristics, development stage, business model, profitability, future major capital expenditure arrangement and other factors.

(iii) Conditions required for distributing stock dividend

If the Company is in a good operating status, and the Board of Directors considers that the Company's share price is not proportional to the scale of its share capital, and distributing stock dividend is beneficial to all shareholders' interests, then the Board of Directors may propose to a plan for distributing stock dividend subject to the satisfaction of the abovementioned conditions for cash dividend distribution.

(iv) Interval of profit distribution

Subject to the satisfaction of the abovementioned conditions for cash dividend distribution, the Company, in principle, adopts an annual profit distribution policy. The Board of Directors of the Company may propose an interim profit distribution plan according to profitability, cash flow and capital demand plan, which shall be implemented upon consideration and approval by the extraordinary general meeting.

Internal Auditing

The Company implements an internal audit system and is equipped with full-time auditors to conduct internal audit supervision on the Company's financial revenue and expenditures and economic activities.

MERGER, DIVISION, DISSOLUTION AND LIQUIDATION OF THE COMPANY

Merger and Division of the Company

In a merger of companies, the Company shall execute a merger agreement and prepare the balance sheet and property list. The Company shall notify their creditors within ten days of adopting merger resolutions, and shall publish announcements in newspaper within 30 days. Creditors shall be entitled to claim full repayment of all debts owed by the Company or require that appropriate assurances to be provided within 30 days of receiving the notice, or within 45 days of publication of the announcement if any such creditor does not receive the notice.

If the company is to be divided, its assets shall be divided accordingly.

In a division of the company, a balance sheet and a property list shall be prepared. The Company shall notify its creditors within ten days of the date on which the division resolution is adopted, and shall publish announcements in newspaper within 30 days.

Dissolution and Liquidation of the Company

The Company shall be dissolved in accordance with the law under any of the following circumstances:

- (1) the term of business operation expires as specified by the Articles of Association or other matters leading to dissolution occur as specified by the Articles of Association;
- (2) the general meeting resolves to dissolve the Company;
- (3) dissolution is necessary as a result of the merger or division of the Company;
- (4) the Company's business license is revoked or it is ordered to close down or it is deregistered according to laws; or
- (5) serious difficulties arise in the operation and management of the Company and its continued existence would cause material loss to the interests of the shareholders and such difficulties cannot be resolved through other means, in which case shareholders holding at least 10% of all shareholders' voting rights of the Company may petition a People's Court to dissolve the Company.

Where the Company is dissolved according to the provisions of sub-paragraphs (1), (2), (4) and (5) of the preceding Article, it shall establish a liquidation committee and liquidation shall commence within 15 days from the date on which the cause for dissolution arose. The liquidation committee shall be determined by Directors or the general meeting. If the Company fails to establish the liquidation committee and carry out the liquidation within the time limit, its creditors may petition a People's Court to designate relevant persons to form a liquidation committee and carry out the liquidation.

The liquidation committee shall notify creditors within ten days of its establishment, and make announcements on newspaper within 60 days of its establishment. Creditors shall declare their claims to the liquidation committee within 30 days from the date of receipt of the written notice or, if they did not receive a written notice, within 45 days from the date of the announcement. When declaring their claims, creditors shall explain the particulars relevant to their claims and submit supporting documentation. The liquidation committee shall register the claims. During the period of declaration of claims, the liquidation committee shall not repay the debts to creditors.

After the liquidation committee has liquidated the Company's property and prepared a balance sheet and property list, it shall formulate a liquidation plan and submit such plan to the general meeting or the People's Court for confirmation. The Company's property remaining after payment of the liquidation expenses, the wages, social insurance premiums and statutory compensation of the employees, the taxes owed and all the Company's debts, shall be distributed by the Company to the shareholders in proportion to the shares they hold.

During liquidation, the Company shall continue to exist but may not engage in any business activities unrelated to the liquidation. The Company's property will not be distributed to the shareholders until repayment of its debts in accordance with the preceding paragraph.

If the liquidation committee, having liquidated the Company's property and prepared a balance sheet and property list, discovers that the Company's property is insufficient to pay its debts in full, it shall apply to the People's Court for a declaration of bankruptcy in accordance with the law. After the People's Court has ruled to declare the Company bankrupt, the liquidation committee shall turn over the liquidation matters to the People's Court.

Following the completion of liquidation of the Company, the liquidation committee shall formulate a liquidation report, submit the same to the general meeting or the People's Court for confirmation, and submit the aforementioned documents to the company registration authority to apply for company deregistration, and announce the Company's termination.

AMENDMENT TO THE ARTICLES OF ASSOCIATION

In any of the following circumstances, the Company shall amend the Articles of Association:

- (1) after Company Law or relevant laws and administrative regulations have been amended, the matters stipulated in the Articles of Association are in conflict with the provisions of the revised laws and administrative regulations;
- (2) the circumstances of the Company have changed, which are inconsistent with the matters recorded in the Articles of Association;
- (3) a general meeting decides to amend the Articles of Association.

Amendments to the Articles of Association shall perform relevant procedures and finish necessary formalities in accordance with relevant laws, administrative regulations and the provisions of the Articles of Association. If an amendment to the Articles of Association involves a registered item of the Company, registration of the change shall be carried out in accordance with the law.
